Web Developer and Team Lead with experience in website development, e-commerce solutions, and project coordination. Skilled in building responsive, user-friendly websites using WordPress, WooCommerce, Shopify, and custom PHP/MySQL solutions. Experienced in managing development workflows, translating client requirements into functional websites, and ensuring quality through testing and code reviews. Also knowledgeable in technical troubleshooting, website maintenance, and team collaboration.

WORK EXPERIENCE

TEAM LEAD

Notable Design Co. | 2024 – September 2026 (approximately 2 years)

- Led website design and development projects, coordinated team priorities, built responsive websites and e-commerce solutions, and ensured quality through testing, troubleshooting, maintenance, and client communication.

IT SUPPORT INTERN

Andres Soriano Colleges of Bislig | August 2024 – November 2024 (4 months)

- Provided technical support for hardware, software, connectivity, and user accounts while assisting with computer setup, maintenance, troubleshooting, and IT documentation.

COMPUTING TRACK PARTICIPANT

Huawei ICT Competition | September 2023 – December 2023 (4 months)

- Gained practical experience with OpenEuler Linux, command-line operations, virtual machines, and collaborative technical assessments.

WEB DEVELOPMENT COMPETITOR

WorldSkills Philippines | July 2022 – March 2023 (9 months)

- Developed front-end and back-end application modules, integrated APIs and MySQL databases, and performed functionality testing under competition requirements.
