- JavaScript Development
- Node.js Development
- HTML & CSS
- Tailwind CSS
- Python
- Java
- Database Development & Management
- Git Version Control
- Website Deployment & Hosting
- Email Marketing Integration
- Debugging & Testing
- CI/CD Fundamentals

Versatile Web Developer with 4+ years of experience building responsive websites, eCommerce solutions, landing pages, and web applications using modern frontend technologies and low-code platforms. Proven experience in delivering web solutions for 80+ U.S. and Australian clients, translating Figma designs into production-ready pages, rebuilding eCommerce sites with React.js and API integrations, and developing workflow automations using Zapier and GoHighLevel. Brings strong expertise in React.js, Next.js, JavaScript, TypeScript, Tailwind CSS, WordPress, Shopify, Wix, Node.js, APIs, Git/GitHub, and AI-assisted development, helping organizations create scalable, maintainable, and high-performing digital experiences.

WORK EXPERIENCE

WEBSITE DEVELOPER

Project 100 | May 2026 – Present

- Creates and maintains client websites using WordPress, Elementor, Shopify, and Wix, designs website mockups using Claude and Loveable AI, and utilizes AI tools such as Gemini and Claude to improve task efficiency.

AUTOMATIONS SPECIALIST

Arya Assistants | October 2025 – April 2026 (7 Months)

- Automated workflows using Zapier, including Notion-to-Discord task designation and Stripe-to-GoHighLevel subscription processes, and created GoHighLevel workflows for new client opportunities involving emails, notifications, and contact updates.

PARTNER DEVELOPER

Pagedeck | January 2024 – Present (2 Years, 10 Months)

- Translates Figma designs into corporate-standard product landing pages using Pagedeck, HTML, and CSS, collaborates with more than 80 clients across the U.S. and Australia to optimize their online sales presence, and consistently delivers outputs requiring minimal to no revisions.

TOOLS

- React.js
- Next.js
- JavaScript
- Tailwind CSS
- Figma
- Python
- HTML & CSS
- JSON
- Framer Motion
- Pagedeck
- WordPress
- Elementor
- Shopify
- Wix / Editor X
- Java
- Node.js
- APIs
- MySQL
- PostgreSQL
- MongoDB
- GoHighLevel
- DigitalOcean
- Git / GitHub
- Slack
- Chrome DevTools
- Zapier
- Mailchimp
- Prompt Engineering
- Gemini
- Claude
- Perplexity
- Loveable AI
- TypeScript
- Prisma
- Cloudflare

WORK EXPERIENCE

FRONTEND DEVELOPER

Blink Creative Studio | March 2022 – October 2023 (1 Year, 8 Months)

- Developed client websites using React JS, Wix, Editor X, and other web-building tools, improved event websites to support online conferences, and rebuilt e-commerce websites using React JS with marketplace API integrations for email marketing and e-commerce functionality.

SOFTWARE ENGINEERING INTERN

Yousource Inc. | June 2021 – October 2021 (5 Months)

- Developed websites using C# .NET Framework and AngularJS with Visual Studio Code, Azure DevOps, and Git; performed backend unit testing; collaborated on code reviews and CI/CD pipeline design; worked with UI/UX and QA teams; and participated in daily Agile Scrum meetings with team members from South Africa.
