HOTEL IMAGERY
from CRISTIAN BARNETT

Cristian is a highly experienced photographer with a 20 year background in food, art and crafts. These genres suit his need for variety and his curiosity about how things are created. Cristian is just as happy photographing a cacao farmer in Colombia as he is shooting the interior of a fine dining restaurant in Mayfair. His skill set allows him to shoot a broad range of subject matter, be it portraits, reportage on location or studio based still life.

Cristian works with daylight when available but can create a soft natural look anywhere with his location lighting.

“ Cristian manages to capture our food, restaurant and people perfectly, with both ease and efficiency. So much so that I also asked him to shoot my first cookbook. A great character, talented photographer and a pleasure to work with. ”
