

OA publication funds

From Open Access Directory

This list is part of the Open Access Directory.

- This is a list of funds to support OA journals, books, and other kinds of publication. The funds may be hosted by universities, research centers, foundations, or government agencies.
 - Until September 21, 2016, this page was limited to OA *journal* funds. Now it is more inclusive, for example, including funds to cover OA books.
 - All the *journal* funds listed here are designed to pay publication fees (or article processing charges, APCs) at fee-based OA journals. If funds emerge to support *no-fee* OA journals (<https://dash.harvard.edu/handle/1/4552050>), they belong here as well.
- When possible, annotate the funds with their launch dates, end dates (if any), special criteria, funding limits or cost-ceilings, and other notable features.
- If an institution once had an OA publication fund which has since expired, please add it to the list of Discontinued OA publication funds.
- Related lists in OAD: (1) OA book business models, (2) OA journal business models, (3) Discontinued OA publication funds.
- Related lists elsewhere:
 - Co-Action Publishing (<http://co-action.net/>) maintains a list (<http://www.journalofmicrobiology.net/public/site/pages/Funders.php>) of universities and funding agencies willing to pay article processing charges for grantees.
 - De Gruyter (<http://www.degruyter.com/>) maintains a list (<http://www.degruyter.com/page/1097>) of universities and funding agencies willing to pay publication fees.
 - PLOS (<https://plos.org/>) maintains a list (<https://plos.org/open-access-funds/>) of universities and funding agencies supporting open access fees.
 - SPARC (<http://sparcopen.org/>) maintains a guide to Open Access Funds (<http://sparcopen.org/our-work/oa-funds/Campus>), which includes a table of funds (<http://sparcopen.org/wp-content/uploads/2016/04/OA-Funds-in-Action-4.7.16.pdf>) and their associated features or policies.
 - Springer (<http://www.springer.com/>) maintained a list (<http://resource-cms.springer.com/springer-cms/rest/v1/content/6990/data/v5/Overview+of+open+access+funds>) until December 2014 of universities and funding agencies with OA journal funds. Springer also once maintained similar list in connection to university and funder support for OA publishing, *Funding and policy support* (<http://www.nature.com/openresearch/funding/#group107>). Springer now maintains a separate list (<https://www.springeropen.com/about/oa-funding-and-policy-support/funding-for-oa-books>) with regularly updated information on OA funding for books.
 - Ubiquity Press (<http://www.ubiquitypress.com/>) maintains a list (<http://www.ubiquitypress.com/site/oa-funding/>) of universities and funding agencies willing to pay publication fees for academic books.
