

VIVIANITE RITES

Soul centred dying and transpersonal death care

Honouring the sacred dance of mortality through compassionate liminal guidance

Welcome to *Vivianite Rites* - A sanctuary created to provide and encourage emotional, logistical, physical and spiritual wellbeing during the most transformational chapter in one's life.

Vivianite Rites practises the sacred art of death midwifery from terminal diagnosis up until the final breathe - and beyond.

My role as a death midwife is to assist those whom are at end of life.

Whether this be for somebody who is already undergoing the active dying process (perhaps from illness or old age) or has just received a terminal diagnosis.

My duties vary from simple bedside companionship, to administering the legalities and logistical help you may need - for example execution of vital documentation, completion of *Advance Decision To Refuse Treatment*, *Power of attorney for health & finance*, a *written will/certificate of trust* - etc (Compiling a file that includes all vital personal paperwork).

From this, to providing and facilitating through emotional integration tasks - such as completing a *Bespoke EOL 'Workbook'*. This is to complete with the intention of integrating feelings of uncertainty and trepidation which lead to anxiety or fear based emotions. This in turn allows the person to become acceptive and at peace with the nature of what is happening.

From here to the construction of individualised '*Legacy projects*' - activities we undergo that result in a creative project that shares our life's work/story, and to live on through our friends, family and loved ones.

Spiritual support and wellbeing is available through esoteric management and ceremonial etiquette.

Magickal happenings and ritual have been practised at the deathbed since the dawn of human history. At VR you are facilitated through transcendental states (induced by the dying process) via the use of intentional ceremony. For example personalised ritual, magics in correspondence to the transitioning of the soul, direct energy work, celebration of life ceremony, guided journeyworks, creation of altars and so much more.

It is important to note that the assistance and support of a death midwife is strictly non medical.

The majority of physical support is comfort based. Environmental adjustments, guidance with mobility/movement, anointing & non invasive 'hands on' holistic healing work is applicable.

We do not offer clinical medical care, administration of medication or personal care.

At *Vivianite Rites*, we operate on an 'A La Carte' style services menu which allows you to mix and match what services you wish for. If you're unsure on this, we can also provide you with a *tailored care package* which is formulated after a consultation. Initial consultations are free of charge and typically last approximately 45 minutes - 1 hour.

Dying can be a really uncertain time. It is also be incredibly beautiful.
Our core incentive at *VR* is to create the ultimate respected, honoured and sacred container which allows you to unconditionally dismantle fears and peacefully become one with the status of your mortality.

If this kind of support sounds beneficial to you or somebody you know, please get in touch to arrange your free consultation today at vivianiterites@gmail.com.
