

**VILLAGE OF CHAGRIN FALLS
PARKING COMMISSION
October 20, 2015**

Members present: Justin Herdman, Susan White, Rick Brown
Also present: Ben Himes, Bill Tomko

Mrs. White explained that Integrity Parking Systems has put together a proposal to update the 2000 parking study. There is enough sentiment that the parking dynamic has changed significantly since the last study was completed in 2000 and that there would be merit to consider having them update it. It is a budget item and could probably be included in next year's budget. Mr. Himes said the current proposal from Integrity Parking Systems is \$40,000, which includes both the demand study and also a study of the inventory.

Moved by Mr. Brown, seconded by Mrs. White to recommend that Council approve the proposal from Integrity Parking Systems for an updated parking study. Carried. Ayes: Herdman, White, Brown. Nays: None.

There was discussion regarding two-hour parking, increasing parking fees, and increasing enforcement.

The meeting adjourned at 7:16 p.m.
