

Episode 3

Name _____

Course _____ Year & Section _____

Resource Teacher _____ Signature _____

School _____

Your Goal

At the end of this episode, you should be able to give some principles involved in designing a curriculum.

Your Tasks

1. Visit a school and choose a class to be observed. Then arrange with the teacher that you are going to conduct a class observation.
2. Take note of the different learning environment provided in the lesson plan for the subject area. Get the following information: objectives, strategies and assessment used.
3. Find out whether the strategies are aligned with the objectives and assessment of learning.
4. Reflect on your Field Study experience.

Your Tool

My Observation Report	
Name _____	Year / Course _____
School Observed: _____	
Grade Level: _____	Section: _____
Subject Observed: _____	
 <i>Observations:</i>	
 <i>Teacher's Objectives:</i>	

Describe the Strategies:

Describe the Assessment Tool used:

My Insights and Reflections

OBJECTIVES (Write down the teacher's learning objectives)	STRATEGIES (Describe the strategies used by the teacher)	ASSESSMENT (Describe the assessment method/s & tool/s used)	REMARKS (Write your personal judgment on the alignment of the Objectives, Strategies and Assessment)

Your Analysis

Why do teachers need to align the objectives, strategies and assessment?

How should teachers align their objectives, strategies and assessment?

What has been your most meaningful experience in this episode? What makes it meaningful to you? How could such an experience help you to become a better teacher?
