

Why Choose Dance?

- Movement and dance activities develop self-discipline, improve coordination, balance and self-esteem as well as critical and creative thinking skills.

There are so many activities out there for our children, how do we know what activities will be the most beneficial? While sports develop coordination, discipline and team spirit, it doesn't utilize both sides of the brain (the artistic right side of the brain and the logical/technical left side of the brain) that a child needs for over all development and learning skills. Sports don't translate into the classroom like music & dance. Plus the added benefit of dance, is that it enhances and improves sports skills. The music used in dance plus activity not only develops coordination, discipline and team spirit, it makes academic learning easier, enhances reasoning skills, good speech patterns, and develops a well rounded, confident person. In our fiercely competitive society, we have put unbelievable pressures on our children to "win & achieve." Many succumb to the pressure and don't achieve even if they are capable. Hence, we have many children with low self-esteem which seeps into every aspect of their life, physical and emotional. Through our dance programs, children are expected to do their best, and **their best is good enough.**

The best choice you can make for your child academically, socially and athletically is to choose **DANCE.**

Drop Off & Pick Up: Parents of very small children (5 & under) stay in the lobby until the children are escorted to their classroom. Please be in the lobby 5 minutes before class is over so that your child can go directly to you when the teachers bring them out of class. You are welcome to stay in the lobby the entire class period. No child is to wait outside for their parent.

Remember class space is limited, **Enroll NOW** to be sure of your placement in the classes of your choice!
