Guaranteed Analysis

Calcium (Ca) 8%

Derived from: Calcium Hydroxide

GENERAL INFORMATION

NUE Cal-Hy is a liquid calcium fertilizer that can be used as a foliar or water run source of calcium to help prevent and correct nutrient deficiencies that may limit crop growth and yields.

DIRECTIONS FOR USE

Mixing Directions

1. Be sure spray tank is thoroughly cleaned.
2. Fill 1/2 full with clean water and start agitation.
3. Add other nutrients if compatible.
4. Add NUE Cal-Hy and continue agitation.
5. Adjust pH if necessary.
6. Add pesticides if compatible.
7. Fill tank and agitate thoroughly.

CAUTION: Always test combinations of products that raise the pH of the spray solution on small area before large-scale application. High pH solution may cause SEVERE plant damage, especially sensitive plant parts.

Foliar fertilization can be an effective remedy for diagnosed plant deficiencies of secondary nutrients and micronutrients, but may cause plant damage if applied at more than recommended rates or concentrations. Use of this product is recommended only as a supplement to a regular fertilization program and only on plants with confirmed secondary nutrient or micronutrient deficiencies.

SUGGESTED APPLICATION

	Volume of NUE Cal-Hy per acre collated as % solution of application rate.			
% Solution	25 gal	50 gal	100 gal	200 gal
0.5%	1 pt	1 quart	0.5 gal	1 gal
1.0%	2 pt	2 quart	1 gal	2 gal
1.5%	3 pt	3 quart	1.5 gal	3 gal
2.0%	4 pt	4 quart	2 gal	4 gal

NUE Cal-Hy can be used on most crops where foliar or water run calcium applications are commonly used.

Apply 1 pint to 4 gallons/acre in accordance with table below.

Do not apply more than 2% solution

NUE Cal-Hy is a high pH calcium product. It can be used to buffer acidic spray solutions to a higher pH or when a high pH spray solution is desired. Use caution when applying with pH sensitive chemicals.
