

Effective August 12, 2016, the Pearson VUE network team has provided additional IP addresses and domains (listed below) that can be forwarded along to have whitelisted:

1. Add our new IP range to the whitelist: 64.106.220.0/24
 - a. KEEP the current IP range whitelisted until we successfully complete our Production migration: 206.188.17.0/24
 - b. Note: Some companies take 48-72 hours to complete an update
2. Test connectivity to the new Staging environment by ensuring that you can successfully:
 - a. Ping 64.106.220.243
 - b. Connect to <https://testuatconnection.starttest.com>
3. Effective Monday, August 22nd test connectivity to the new PRODUCTION environment by ensuring that you can successfully
 - a. Ping 64.106.220.213
 - b. Connect to <https://testconnection.starttest.com>

As of June 7, 2016 The Pearson VUE network team has provided a list of IP addresses and domains (listed below) that can be forwarded along to have whitelisted:

64.27.100.27
64.27.64.232
159.182.0.0/16
206.188.17.0/24 KEEP THIS RANGE WHITELISTED
64.106.193.0/24

NOTE - The last 3 are IP Ranges, but if your system does not accept '0/16' or '0/24', then please try using just '0' at the end.

The following Domains have been approved and given unrestricted access:

http://*.starttest.com
https://*.starttest.com
http://*.starttest2.com
https://*.starttest2.com
http://*.startpractice.com
https://*.startpractice.com
http://*.programworkshop.com
https://*.programworkshop.com

NOTE - Sometimes it works better on certain systems if you add them in one of these fashions:
(1) <http://starttest.com> (2) <http://starttest2.com> (3) *.starttest.com* (4) *.starttest2.com* (5) *.programworkshop.com*
