

Gel-insulated joint:

- Complies with the EN50393 standard (0.6/1 kV)
- Self-extinguishing according to the EN 60695-2-11 standard
- Low emissions of smoke and toxic gases in accordance with the CEI 20-37/2-1 and CEI 20-37/7 standards

Terminal block:

- Conforms with the DIN EN 60998 and CSA/UL standards
- VDE mark
- Current: 20 A

SHARK 360

Smart series low voltage gel

Straight joints for single-core, 0.6/1 kV cables with maximum section of the main cable up to 6 mm². A three-pole terminal block is included in the kit and allows straight cable joints of small dimensions with sections from 1.5 to 6 mm², providing secure double-insulation.
