Important Disclosures

- **Simulated Historical Performance:** 1/1/1992 to 12/31/2015
- **These are simulated performance results and do not reflect the returns an investor would actually achieve.**
- Based on the Quantitative Momentum process outlined in the forthcoming book Quantitative Momentum by Wesley R. Gray and Jack R. Vogel
- Quarterly rebalanced and the portfolio is equally-weighted
- IQM results are net of 100bps management fee and 200bps transaction costs
- Benchmark results are gross of management fee and transaction costs and are for illustrative purposes only.
- All returns are total returns and include the reinvestment of distributions (e.g., dividends)
- Data sources include CRSP, Compustat, and Bloomberg
- Legend
 - IQM (net)** = International Quantitative Momentum
 - EAFE Growth** = EAFE Growth Total Return Index
 - EAFE** = EAFE Total Return Index
- Hypothetical performance results have many inherent limitations, some of which, but not all, are described in the disclosures at the end of this document. No representation is being made that any fund or account will or is likely to achieve profits or losses similar to those shown herein. In fact, there are frequently sharp differences between hypothetical performance results and the actual results subsequently realized by any particular trading program.
- Indexes are unmanaged, do not reflect management or trading fees, and one cannot invest directly in an index.
- **The results are hypothetical results and are NOT an indicator of future results and do NOT represent returns that any investor actually attained. Please see disclosures for additional information. Additional information regarding the construction of these results is available upon request.**
- ALPHA ARCHITECT is an SEC registered investment. The firm is based in the suburbs of Philadelphia, PA. For more information visit www.AlphaArchitect.com
