

The Sinking Of The Titanic by High Priest Don Danko

Just as 911 was pulled off for several reasons, one being insurance fraud, as the cost of taking the towers down as they were ready to be condemned and falling apart. So the Jews benefited on that level as well. As for the other agenda the Jewish power system had in mind, such as war against the enemies of the Jew World Order in the Middle East:

We also understand the evidence reveals that subliminal messages were used to assist this using the power of the mass mind, such as the 20 dollar bill which was circulated for decades before the attack:

We can see the same with the Aurora and Sandy Hook situation.

The ship that was sunk on an occult date 15 April 1912 [Good Friday, April 14th] was the day the Jewish Rothschilds had President Lincoln killed]. About 14 years before, a novel was put out by Morgan Robertson called the "The Wreck of the Titan," in which the largest ocean liner in the world the "Titan" is sunk in the North Atlantic by hitting an iceberg. The author of this book died by poisoning. Even the specs on the ship in Morgan's book are identical to the Titanic. Even being a British ship, designed to carry elite people back and forth. The shipwreck happened around the exact same date, doing the same amount of knots. And a little known fact is Capt. Smith was an area of a major icebergs, of about 70 miles. That the ship was warned about by several other ships. The overall story of Morgan's book is identical to the sinking of the Titanic down to smallest details.

This video explains a lot of what happened:

The White Star Line was owned by the Jew Banker J.P. Morgan, and the ship Olympic was decided to be scuttled on purpose under the false name of its sister ship "Titanic." Many of the crew jumped ship on the first port of call, during the doomed voyage of the "Titanic," as by their own testimony, they knew they were on the Olympic as they had served on the ship. They knew something was up. Given the purposeful stoking of a fire in a coal chamber in the ship, which if cold water hit it, it would blow. Ballard found a large hole blown out in the side of the wreck when he found it, right where the stoked fire was being kept, and surviving witnesses stated this area had exploded, helping sink the ship.

The J.P. Morgan owned ship "California," mentioned in the documentary film, and by witness accounts, it was not 19 miles off. They could see the bow and stern lights of the ship, and could hear when the screaming stopped. They could hear the steam boilers turning on the California. The California then left, only returning in the morning. Capt. Lord purposely held back and refused to allow

any help from his ship. Capt. Smith probably realized too late that he had been double-crossed.

Which gets into the second reason. J.P. Morgan and his close associates all cancelled their passage of the HMS Titanic at the last moment. J.P. Morgan was found to be lying by an American reported of his reasons for this. Many of the people taking passage on the ship were political and economic elites who one way or another, were opposed to the Jewish Bankers trying to pass the Federal Reserve Act, and their attempt to create fossil fuel corporations. As some like Astor were backing Tesla and his work, which Morgan had worked to shut down, as it was opening up a rival source of free energy. Tesla also invented a turbine system that could run off of any type of fuel, not just fossil fuel. And also keeping America out of a looming European war, which the Jews had already planned as proven here:

After this ship sunk, killing many of the elites aboard [the Jews cut a few of their own lose for whatever reason]. The Jews were able to pass the Federal Reserve Act, and created fossil fuel dependence monopoly, and got America into the First War which enslaved America to the Federal Reserve Bank quicker, and allowed for the creation of the Great Depression that wiped out all Gentile business, and media classes in America. This centralized all power under the Jews, and allowed for the facilitation of the rise of global Jewish Communism and the pushing of America into World War II.

Note all the safes brought up from the wreck of the HMS "Titanic." were all found to be empty of all gold and silver, that such a ship would normally be carrying large amounts of. Just as the 911 vaults were emptied before the attacks. Which there was no reason for this other than it was an inside job.
