

Guaranteed Analysis (0-28*-25)

Total Phosphoric Acid (P₂O₅).....28%
Soluble Potash (K₂O).....25%

Derived from Phosphorous Acid and Potassium Hydroxide.

GENERAL INFORMATION

NUE Neutral K 25 is a concentrated phosphorous and potassium fertilizer designed for foliar applications. Phosphorous acid products are for use as a supplemental fertilizer treatment.

* Upon foliar application, the phosphite ions are taken up directly by the plant foliage and may undergo a degree of conversion to phosphate ions or will be used directly by plants, as phosphite ions.

As a soil application to annual crops, a lesser response from the initial crop, with a corresponding superior response from succeeding crops, may be observed. In addition, placement close to seeds or root zones may be injurious to crops. The effect may be aggravated by a soil pH below 6.5.

Foliar fertilization with primary nutrients will not provide the quantities of nutrients required for normal plant growth.

This product may cause foliar burn if applied in higher than recommended rates or concentrations.

DIRECTIONS FOR USE

Compatibility - use caution when mixing with other NPK solutions. When tank mixing with trace minerals, be sure minerals are properly chelated.

Applications - NUE Neutral K 25 is recommended for soil and foliar applications only. Do not use with copper fungicides.

Dilution - Dilute at least to 50:1.

Containers - Triple Rinse. Dispose of containers only in a manner approved by local and state authorities.

SUGGESTED APPLICATIONS

Tree & Vine Crops

Grapes: 1-4 pints/acre at first full leaf. Repeat every 30-90 days as needed.

Raspberries, Blackberries & Blueberries: 1-4 pints/acre prebloom. Repeat every 30-90 days as needed.

Walnuts, Almonds & other nut crops: 1-4 pints/acre prebloom. Repeat every 30-90 days as needed.

Field Crops

Cauliflower, Broccoli & other Brassica Varieties: 1-4 pints/acre at second true leaf stage. Repeat 1-2 times every 10-20 days if needed.

Beets, Carrots, Onions & Garlic: 1-4 pints/acre when plants are established. Repeat 1-2 times every 10-20 days if needed.

Legumes (Beans & Peas): 1-4 pints/acre

Lettuce, Spinach & other Leafy Vegetables: 1-4 pints/acre. Repeat 1-2 times every 10-20 days if needed.

Melons, Cucumbers & other Cucurbits: 1-4 pints/acre. Repeat 1-2 times every 10-20 days if needed.

Potatoes: apply 1-4 pints/ac at early tuber initiation (dime size). Repeat in 10-14 day intervals in at least 3-4 applications

Strawberries: 1-4 pints/acre. Repeat 1-2 times in 30 day intervals as needed.

Tomatoes & Peppers: 1-4 pints/acre. Repeat 1-2 times in 30 day intervals as needed.

KEEP OUT OF REACH OF CHILDREN CAUTION - Harmful if Swallowed

Precautionary Statements: Harmful if swallowed, inhaled or absorbed through skin. May cause eye and skin irritation. In case of contact, immediately flush eyes and/or wash skin with plenty of fresh water for at least 15 minutes.

Do not contaminate feed or food items.

Only apply this product on crops specified on this label. Use caution in application to assure coverage on intended treatment areas only.

CONDITIONS OF SALE

Seller and/or manufacturer warrants only that this product consists of the ingredients specified on this label. No one is hereby authorized to make any warranty and/or guarantee concerning the use of this product. Being that the use, timing, placement, rate, application and other conditions are beyond the control of the seller and/or manufacturer, the seller's and/or manufacturer's liability for handling, storage and use of this product is limited to replacement of product or refund of purchase price.
