WebXpress
Visibility for supply chains

Warehouse Management System

www.webxpress.in

The global logistics industry is characterized by high costs of operations, low margins, shortage of talent, infrastructural bottlenecks, demand from clients for investing in technology and providing one-stop solutions to all their needs, and consolidation through acquisitions, mergers and alliances.
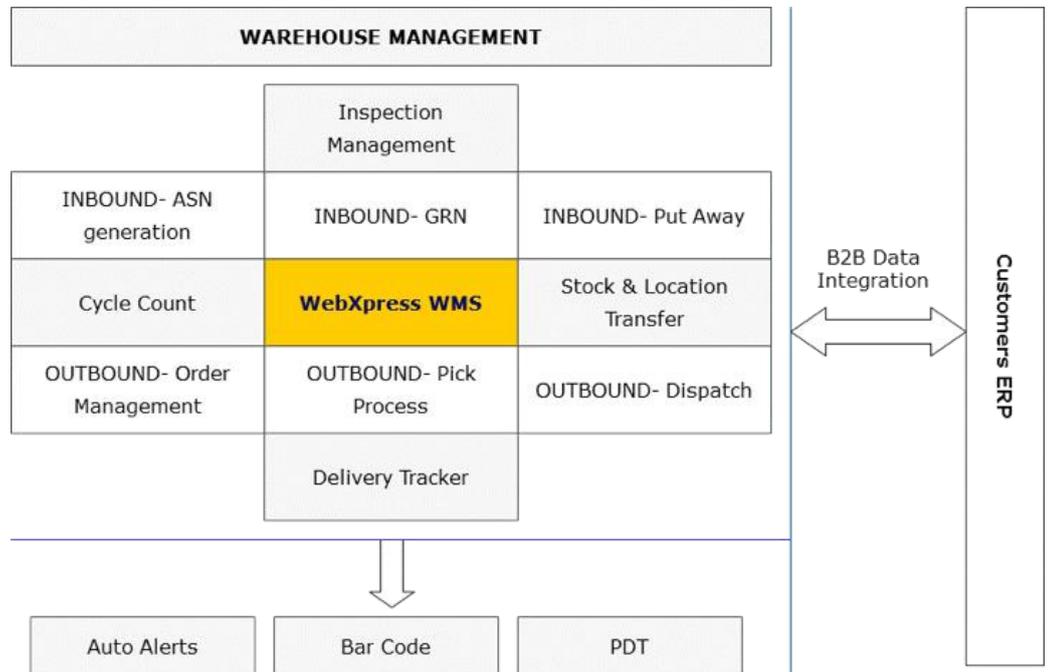

WebXpress WMS is a mobile enabled, web based tool to help customer gain real time visibility across their storage locations.

Most countries have Transporters or Fleet companies that own large number of fleet to service their network efficiently and timely and require control on attached or market vehicles also. Thus requires control in operations and visibility across chains of fleet.

WebXpress WMS helps to manage all the activities from arrival to storage to location management and dispatch. WebXpress WMS can be integrated with ERP to provide a seamless solution.
