

Home Delivery Solution

Welcome to the world of visible supply chains.

About WebXpress HDS

Rising incomes and a greater variety of goods and services that can be bought over the internet is making buying online more attractive and convenient for consumers all over the country.

E-Commerce is a booming sector and will continue with that trend. You can leverage the power of HDS to become the best E-Com LSP.

WebXpress HDS is a web based tool that manages your last-mile delivery. This system stands for speed. It gives you and all your customers real-time visibility.

WebXpress Home Delivery Solution is more than just a tool to streamline your operations; it is a complete solution from which your customers also benefit. It constantly supplies live data to your customers via. GPS and SMS alerts. It is fully integrated too, with support for your existing systems it enhances what you can do and *how fast you do it*.

HDS has a deep functionality of features such as Cash Management and COD remittance to form a complete cycle of operations and finance.

HDS Architecture

The processes that are part of the HDS solution

Business Intelligence

WebXpress BI enhances the functionality of HDS with our advanced reporting tool that assists in making decision

Successful Deployments

WebXpress HDS is servicing for about 50,000 docket bookings a day all over India. This coupled with our Android applications and over 2,00,000 SMSes sent per day, HDS is highly operative.

HDS Success Stories

Jabong.com has redefined E-Commerce delivery expectations across India. In a large part, WebXpress has played a role to enable this.

When Jabong started in 2012, it had modest plans for logistics and idea was to outsource the same to LSPs. But as volume grew at more than 200% per annum,

WebXpress has proven that it can cater to a new business very different from its traditional domain. WebXpress is fast emerging as platform of choice for e-commerce logistics in emerging markets.

Mr. Praveen Sinha
Jabong.com

HyperCITY is one of the India's leading retail chains with presence in over 6 cities with 10+ Hypermarket stores.

HyperCITY faced a problem that the functionality of warehouse system was not fully meeting requirements for an in-depth and step wise home delivery system

Hypercity is now able to track any home delivery status across India and provide an accurate answer to its customer.

Hypercity customers- already used to high level of service- are even more assured of a technology enabled quality home delivery service.
