# CHB Activate

## 2-5-0 Guaranteed Analysis

**Total Nitrogen (N)** ..... **2%**  
1.70% Water Soluble Nitrogen  
0.30% Water Insoluble Nitrogen

**Available Phosphoric Acid (P<sub>2</sub>O<sub>5</sub>)**..... **5%**

Derived from Hydrolyzed Fish & Phosphoric Acid (as stabilizer)

### GENERAL INFORMATION

CHB Activate is a protein hydrolysate derived from fish protein.

CHB Activate is primarily designed for soil and water run applications in conjunction with organic fertilizer or organic matter applications.

### DIRECTIONS FOR USE

**Applications:** CHB Activate can be applied by side dress and banding equipment, water run through irrigation systems or sprayed directly on soils with other fertilizer materials. CHB Activate can also be impregnated into dry fertilizer blends.

**Storage and Disposal:** Store in original containers at temperatures above freezing. Dispose waste at approved disposal facility. To dispose of containers, triple rinse and dispose according to local and state regulations.

### SUGGESTIONS FOR USE

CHB Activate can be soil applied and water run on all crops at rates of 3 to 60 gallons per acre. Use split applications at rates over 10-15 gallons per acre in 2-4 applications of 10-15 gallons.

CHB Activate is best applied late fall (minimum 40°F soil temperature) or early spring. For optimum results, spray directly on organic matter prior to incorporation.

CHB Activate is part of a complete fertility program, which starts with a soil test and proper interpretation. Use this product in conjunction with organic matter applications (incorporations) such as; green manure crops, compost, raw manure, grass clippings, etc. Spray material evenly over the organic matter just prior to incorporation.

CHB Activate is also recommended for water injection and drip applications. Apply 3-5 gallons/acre, especially in early spring and prior to root flush.

**It is recommended to shake, stir or agitate containers or tanks of CHB Activate just prior to usage.**

### NOTICE

Since many pesticide products can be neutralized and/or tied up by soil organic matter, it is highly recommended not to use pesticides applied directly with humic acids. Consult pesticide representative before using on a large scale.

### CONDITIONS OF SALE

Seller and/or manufacturer warrants only that this product consists of the ingredients specified on this label. No one is hereby authorized to make any warranty and/or guarantee concerning the use of this product. Being that the use, timing, placement, rate, application and other conditions are beyond the control of the seller and/or manufacturer, the seller's and/or manufacturer's liability for handling, storage and use of this product is limited to replacement of product or refund of purchase price.
