

Information for Students

Getting Started with Moodle Version 2.6

New student? Before you can log on to your Moodle account you must first log on to your computer account on the College network and change your initial password. Here's how ... Using a College computer (Library or Penfield 3rd floor, etc) log on to the computer with your student number as both your Username and your initial Password. Now create a new password.

Getting Started with Moodle

- Go to <http://www.johnabbott.qc.ca/moodle>
- Click on **Link to My Moodle** located in the middle of the page under Welcome!
- Type in the same username and password that you use to log on to your computer account on the College network and click on Login.

Problems logging on?

Go to the IT Help Desk – Penfield 315 with your student id card

- Once you have logged on to your Moodle account for the first time you will need to update your Moodle profile with a valid email address, a city/town and select a country.

*Remember to scroll down to the bottom of the page and click on **Update Profile** to save your changes.*

A confirmation email will now be sent to you and you must click on the confirmation link before you will be able to access your Moodle courses.

Important Final Step

Log to the email account that you just entered in your Moodle profile & look for an email from Moodle. Open it and click on the confirmation link to complete the activation of your Moodle account.
