Hello

## SHORT BIO

Began my professional career in 2010. After starting off in print, soon moved to the digital space.

In 2013, I joined ONY agency, where developed Norilsk Film, an interactive web-documentary. The project won prominent awards such as Red Dot Award International Design Competition, Art Directors Club Russia (Gold), Awwwards Site of the Day, among others.

Starting 2015 I've been working at Strelka Institute for Media, Architecture and Design. As a Digital Art Director, I led the development of all the digital products, from initial concepts to design implementation. Most of these projects have been recognised by leading showcase platforms.

Currently, I work for myself and live in Los Angeles, California.

## PROFESSIONAL EXPERIENCE

### Freelance

2010 – present (8+)
