

The Truth About The Book Of Daniel

High Priest Mageson 666

This is from a question I answered on the subject.

The Jews stole their Daniel off the Phoenician god of divination and dreams Danel, Dan-el, which means The God Dan. Which also is Danu to the Irish who their Ogham is also Phoenician. In the Torah Daniel interprets the Babylonian Kings dreams which is divination and gives him prophecies. Which is the role of the Phoenician god Danel. The Jews after stealing this from the Gentiles then used it as weapon to attack Gentiles with. In a tale of Jewish bullshit artistry of Jewish supremacy over the Goyim and their Gods and spiritual Empire which Babylon was, the Alexandria of the time. Were their gawd makes the Babylon Emperor bow down and worship the Jews and enthrone the Jewish race and their god over the Gentiles. Which is just Jewish supremacism, racism and bigotry at its normal.

Note the Babylonian Emperor was the High Priest of our Gentile People and Gods, and is made to live seven years as a wild beast in the fields by the Jewish god. The Jews call Gentiles.....wild beasts of the field, animals. Just a tale of Jewish racism which is based on the Jews dehumanizing non Jews as animals and then claiming we are their cattle [Goyim] property put here by their god to serve them as two legged beasts. To which the Babylon Emperor is made a slave and servant to the Jews along with all the Goyim in his Empire. Its a tale of Jewish conquest and enslavement of the Goyim. Any wonder the Jews created and ran the entire Trans Atlantic slave trade from start to end.

This is the hateful garbage Gentile Children are taught in Sunday Skulle, by brainwashed morons. Jews are their masters and we are their cattle.

I was just wondering if the name Daniel is Jewish. I heard that everything Jewish really has a Gentile origin. I heard it is from the Irish "Domhnall" meaning "Attractive".

I was wondering if you can tell me about this name because it is the name of someone that is important to me. Thanks!

Ave Satanas!"
