

# The Blacklist™

The quality and integrity of our products is important to us. As such, the following ingredients which we deem unacceptable, will never be found in any Lifestyle Foods products.

It's all part of our Health-venience® promise. For more information, visit: [healthvenience.com](http://healthvenience.com)

---

Acesulfame-K (Acesulfame Potassium)	Diacetyl/Acetoin	Microparticularized Whey Protein
Acetylated Esters of Mono- and Diglycerides	Dimethylpolysiloxane	Derived Fat Substitute (MSG)
Alum (Aluminum Ammonium Sulfate/Aluminum Potassium Sulfate)	Diocetyl Sodium Sulfosuccinate (DSS)	Monosodium Glutamate /Sodium Glutamate (MSG)
Ammonium Chloride	Disodium Guanylate	Neotame
Aspartame	Esters of Fatty Acids	Parabens (all)
Astaxanthin	Ethoxyquin	Polydextrose
Benzoic Acid	Ethyl Vanillin	Potassium Benzoate
Benzyl Alcohol/Benzoyl Peroxide	Ethylene Oxide	Potassium Bromate
BHA (Butylated Hydroxyanisole)	Ethoxyquin	Potassium Sorbate
BHT (Butylated Hydroxytoluene)	Fat Substitutes (Sucrose Polyester, Microparticulated Whey Protein Concentrate)	Propionates
Bromated Flour	Foie Gras	Propyl Gallate
Brominated Vegetable Oil (BVO)	Glycerides (Mono & Diglycerides, all forms)	Propylparaben
Caffeine	Glycerol Ester of Wood Resin	Propylene Glycol
Calcium Bromate	GMP (Disodium Guanylate)	Propylene Glycol Alginate
Calcium Saccharin	Hexa-, Hepta- and Octa-Esters of Sucrose	Saccharin
Calcium Sorbate	Hydrogenated Fats	Sodium Aluminum Sulfate
Calcium Stearoyl-2-Lactylate	IMP (Disodium Inosinate)	Sodium Glutamate
Caprocaprylobehenin	Irradiated foods	Sodium Propionate
Caramel Color (Classes II-IV)	Lactylated Esters of Mono- and Diglycerides	Stannous Chloride
Carmine	Lard	Sucralose
Certified Colors	Lead Soldered Cans	Sucroglycerides
Cyclamates	Methyl Silicon	Sucrose Polyester
DATAM (Diacetyl tartaric and fatty acid esters of mono and diglycerides)	Methylparaben	Tetrasodium EDTA
		Theobromine
		Triacetin/Glycerol Triacetate
		Vanillin
