

Change Your Google Classroom Image With PowerPoint

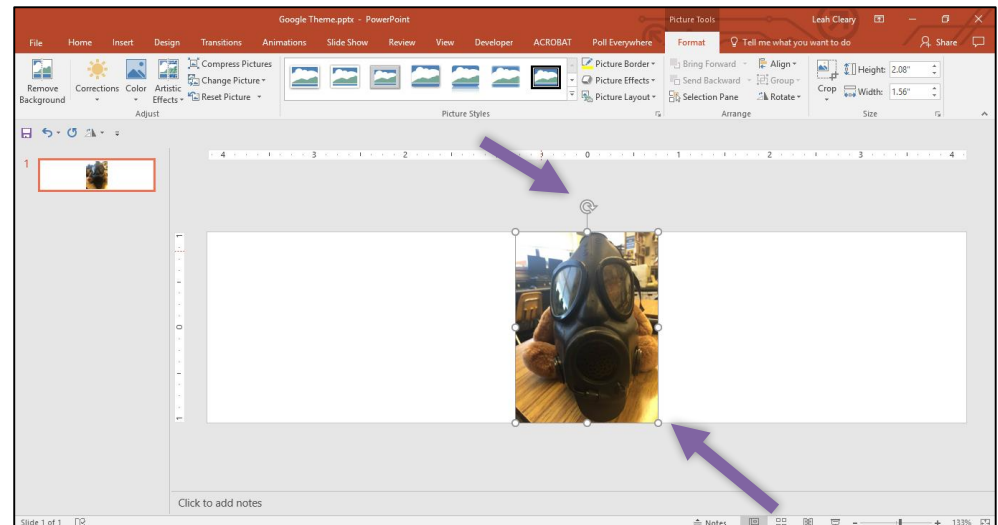

1. Open a blank PowerPoint Presentation, and delete any textboxes. → Select "Design," → "Slide Size," and → "Select Custom Size."

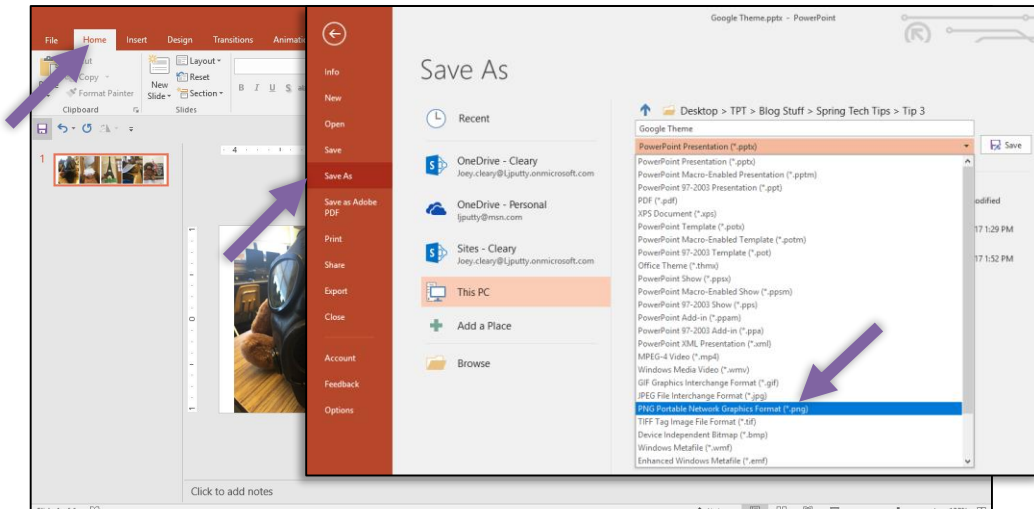

2. This box will pop up. → Go to the "Slides Sized For" drop box, and → select "Custom." Change the → width to 8.333 and the → height to 2.0833. → Select "OK."

3. → Click on "Insert," and → select "Picture." Choose a picture from your computer to insert.

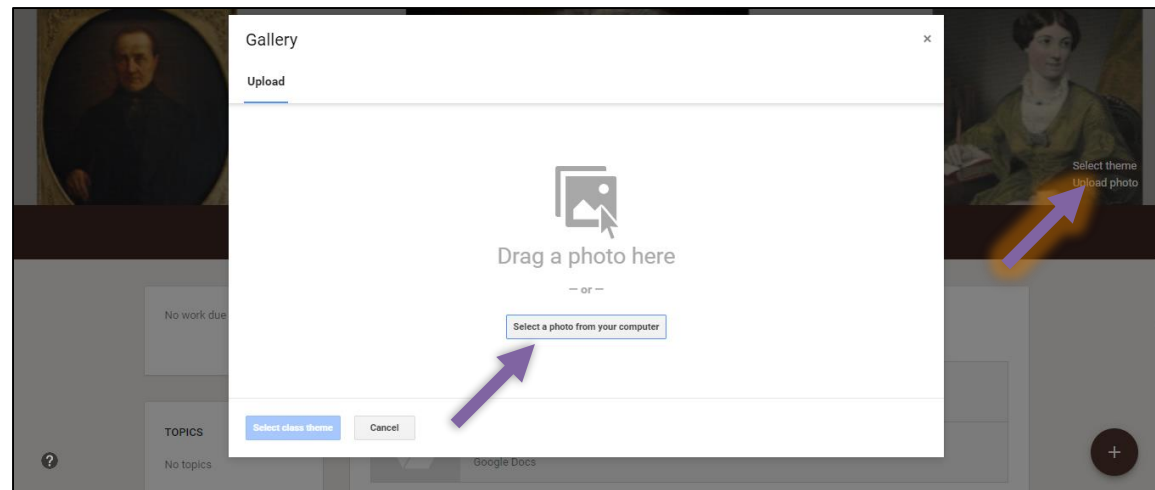

4. → Use the arrow to rotate, and → the edges to resize. Repeat steps 3 and 4 until your image is what you want.

5. → Click on “File,” → select “Save As,” and → select either “JPEG” or “PNG.”

Your PowerPoint is now an image that is ready to be loaded onto Google Classroom!

6. Go to your Google Classroom. At the top of your class, → select “Upload Photo.”

7. Save it, and you will have a customized theme!
