TESTIMONIALS:

"I thought I had a pretty good idea of what can be found on the web-couldn't be more wrong. If Sandra is going to be in your city or nearby, I would suggest you run, not walk and attend her one, or two day seminar ,will be well worth your time and expense." - Rick Johnson & Associates

'If you are interested in improving your overall understanding of Open Source Intelligence, I highly recommend this training to my fellow CALI members.' - Mark Aal, Aal & Associates

"Jam-packed, excellent sources of information. Glad I attended." - Joe Cortez, Insurance Services Group

"I have been to several social media classes. 'THIS IS THE BEST!'" - Scott Tufts, Detective, Clermont FL Police Department

Many of the attendees for this class have been federal employees or defense contractors. The agencies attending this course have included the US Secret Service, Federal Trade Commission, DHS Explosive Ordinance Disposal, DHS Transportation Security Administration, Social Security Administration, Department of Defense, NIRA (Immigration Customs Enforcement), Department of Commerce, sheriff's offices, police departments as well as various aerospace companies through DOD. Other attendees have been from international corporations involved in internet investigations and security as well as the financial and pharmaceutical industries.

This class offers something for everyone involved in the investigations profession as well as any other type of business, large and small. Please feel free to contact Sandra at <http://opensourceintelligencetraining.org> for further details about this class.

Register today as space will be limited for this event. All attendees will need to bring their personal laptop with wireless capabilities. It is recommended that you bring your own air card or hot spot to access the internet. However, wireless internet will be available for those who need it. Please do not bring government issued equipment.

Things to know:
