Manufacturers of:

“Dino” MSA Bandsaw Profilers  
“Dino” Bandsaw Setters  
“T-Rex” Chain Sharpeners  
“Handi-Rex” Chain Sharpeners  
“Cyclone” ABN Grinding Wheels

Proudly Manufactured in Australia

ABN: 15 112 881 875

## Dinasaw ‘Cyclone’ Grinding Wheels

Quality Australian made product

‘CYCLONE’ grinding wheels use a unique blend of CBN and ABN particles specifically designed for Dinasaw which makes use of the best properties of both materials.

**CBN** – (Cubic Boron Nitride) Second hardest material known to man.

**ABN** – (Amber Boron Nitride) Different fracture mechanisms to CBN.

### 10 reasons to use ‘CYCLONE’ grinding wheels;

### Recoat / Exchange Service

(Australia only)

When your ‘Cyclone’ wheel eventually wears out, simply return it and we will exchange it for new at a fraction of new cost.

1. Specifically formulated blend for use exclusively on Dinasaw ‘Cyclone’ wheels.
2. Heat treated particles increase bond retention.
3. Specifically selected ‘blocky’ crystals.
4. Very high thermal stability.
5. Purpose built for dry grinding.
6. High quality CNC machined blank means no runout and perfect balance.
7. Extremely long working life with no need to dress. Wheel shape never changes!
8. Only metal particles are ejected from wheel decreasing the wear factor on grinding machines.
9. Wheels will not fracture.
10. High airflow cut-outs increase cooling reducing cutter tempering.

Unique design forces cool air onto the grinding surface reducing heat and burning of teeth.

Outlasts standard wheels.

CNC Machined for perfect balance and concentricity

Only metal particles are ejected during grinding keeping the machine cleaner and reducing wear and respiratory problems.

ABN Coating

Steel blank eliminates the need to redress or reshape the wheel.

Coating will not glaze like standard vitrified wheels.

Nickel coated for durability.

Personalised Engraving available at no extra charge.

Steel blank will not fracture and Break.

**Beware of cheap imitations! Only use the original DinaSaw® ‘Cyclone’ ABN grinding wheel**
