

Satan Is The Giver Of Immortality And Freedom - High Priest Mageson 666

Shiva is the Lord of Hatha Yoga in the East. And as the article below this one shows. Shiva is literally just another name for Shaitan [Satan]. The Yezidi's and other cultures of the East state that Shaitan/Shiva gave the spiritual teachings so that beings may become liberated and become fully divine like Shaitan and the other Gods. Who are fully ascended, Nordic Extraterrestrials. The Jewish enemy only gives death, slavery and ignorance to humanity and the earth. The point of their programs is to be a cattle slave that are owned and abused by the Jewish People till it dies. Take a look at the Slave Trade it was run by Jews from start to end they just worked them to death, along with brutal abuse, in their Jewish owned sugar cane plantations, Blacks, Whites and anyone else equally. Died side by side as slaves of the

Jewish Race. The way the slaves were treated there is the same way the slaves of the Gulag's were treated in the Jewish run Soviet Union. And worked to death the same way, literally beaten, raped, starved, tortured by the tens of millions. One hundred million perished in the Holocaust of the Jewish run Soviet Union like the hundred million that perished in the slave trades and the one hundred and fourteen million that have died in Communist China which was also built and is run by Jews.

Whites, Blacks, Asians, all are victims of the Jewish Race.

Now contrast that to what Satan wants and teaches below. This is why the Jews hate Satan so much. You can't be their abused unto death animal if you have spiritual power and knowledge. Satan breaks all the chains the Jewish Race tries to put on humanity.

Satan breaks the chains...

The purpose of Hatha Yoga is stated:

"It is by a transubstantiation, which is the ultimate object of the practices of Hatha Yoga that the realized Yogi succeeds in elevating himself, body and soul, to a higher level of the hierarchy of creation. At this point he ceases to be a man, having transposed the harmonies, the characteristic patterns that constitute his physical nature into another state of matter. What he seeks is to leave the animal state [pashu] to liberate himself from the snare [pasha] of the material body which imprisons the plan of group of faculties that constitute his Transmigrant Body or Sexual Body containing all the elements of his physical and mental personality. By virtue of the Siddhi's or powers acquired by Yoga, he comes to realization and ascension in the hierarchy of being, which culminates in a transubstantiation that transforms the entire body into a celestial body without passing through death. The living being is thus transferred to a higher more subtle level of existence free from the constraints of materiality." [1]

"It is thanks to a particular technique that the body made of corruptible matter ashuddha Maya is made to correspond to incorruptible matter shuddha Maya and transubstantiation takes place... the human body becomes liberated from the requirements of the animal economy when the transfer from corruptible Maya to incorruptible Maya occurs. It is then no longer subject to death... it is transfigured into a body of glory and power called: Jnanatanu or spiritual body. The living liberated man jivan mukta leaves the domain of matter and with his body disappears suddenly into light. [V.V. Ramanan Shastri, Cultural Heritage of India."

Yogic Is Satanic - Satan Rules Yoga

Shiva is the Lord of Yoga...Who was Dionysus in the West...

As Laurence Garden showed in his book: Genesis of the Grail Kings that....

"The Serpent Lord was Enki, but in parts of Chaldea He had been called Shaitan."

Shaitan was the Serpent God of the Sumerian's who is also called Enki by them. Enki was also called Oannes who is known as Dionysus in the west and Shiva in the east. The Yezidi's the blonde blood line, were part of Sumer and they still call their God Shaitan they also stated they originally came out of the east from the Himalayas. Shiva is the White God [svarupa] who came from the Himalayas in the texts of the Hindu's. His sacred mountain is still there. Shiva's other name is Shaitan.

The Tibetan's stated they got the Kalachakra tantra, the Bon [the rainbow body tradition] around 17,000 years ago from White Aryan Peoples. Kalachakra is a title of Shiva. Mount Kailash, Shiva's mountain in the Himalayas, is sacred to the Bon's as the Hindu.

Alain Danielou shows in his book: The Gods Of Love And Ecstasy. That Siva and Dionysus are the same God.

The traditional image of the Devil in Folk art is a man with horns, adorned with serpents carrying a pitchfork, wearing animal skins and is the god of fire, forbidden knowledge and Siddhi's and personal freedom, He was called the "Devil of Freedom." He is colored red and associated with the Goat and mountains. It's known and admitted the Devil is taken from Pan. This is Dionysus who is Shiva in the east. The God of the Aryan People. Dionysus and Pan are the same God. They are both depicted the same. As they are the same. Pan is born from His father the Ather [Zeus] like Dionysus, Dionysus is shown as the black goat, or partial goat and man and plays the flute, like Pan. Dionysus was also shown red as well, the color of the rising sun at dawn over the mountain. The symbol of spiritual rebirth. Dionysus was also shown as the eternally young boy which is what the grimoires attribute to the appearance of the Devil and how Shaitan appears to Sheik Adi the prophet of the Yezidi's. And how Siva is shown as Skanda in the east. Dionysus's title in Rome was "Free". The Devil the Witches worshipped on the mountain Sabbat was called "The Devil of Freedom." The Meaning the serpent of freedom. Dionysus was called the "Good Serpent." Which is a play on words. The God Serpent. Which grants Freedom by the opus, Magnum Opus means Great Serpent. The wine of Dionysus is the Kundalini energy. Devil means serpent from Devi the serpent. Dionysus is also shown horned. Dionysus wine cup is the grail. The rites of Dionysus were based on the Kundalini power. As Evola states the rites of such Dionysian, western traditions are identical to those of Tantra.[1]

Shiva is shown red as well in some cases, has the crescent moon on his head like horns, the trident [pitchfork] is adorned with serpents. Is the God of the mountain and fire, Siddhi's and liberation. He wears animal skins is associated with the panther, goat and bull, the animals of Dionysus. Shiva is the God of the wilds and wine as well. The mythos of the birth of the God Dionysus and Shiva as Skanda are the same. Shiva's Gana's are the Korybantés.

Siva, Shaitan is Lord of Yoga and this is Dionysus.

The point of Yoga as stated in the Tantra is thus:

Outer Vedic ritualistic practices mirror inner Yoga practices balancing the fire and water, Agni and Soma within us. Vedic literature contains the secrets of the practice of Yoga, including the ascending of the Kundalini-fire force and the descent of the Soma nectar that open all the chakras. The practice of Yoga itself arose from the inner Vedic sacrifice in which speech, mind and prana were offered to the immortal Divine Fire present within our own hearts. Vedic deities reflect a profound psychological and spiritual symbolism relative to the practice of Yoga and meditation, not just outer ritualistic concerns."[2]

What do the Tanta's which as stated are the inner or esoteric aspect of the Vedic rituals state themselves?

"Siva first words speak to the goals of every tantric practitioner: "Eternal youth, immortality of the body and the attainment of an identity of nature with Siva. That is, liberation in the body."

"Liberation arises from gnosis(jnana), gnosis arises from the maintenance of the vital breaths. Therefore. Where there is stability mercury is empowered and the body is stabilized. Through the use of mercury obtains a body that is un-aging and immortal.

Supernatural powers and bodily immortality, the goals of the tantric practitioner[Siddha].

'So the soul penetrated by initiation [Kundalini fully risen] obtains Siva-hood"

'Therefore the breath overflowing bursting into the medial channel this surely brings immortality'

The piercing of the chakras effects a gradual resorption of implosion of the lower elements into their higher emanates. Thus, when the second cakra is pierced, the element earth whose support is the lowest, the muladhara cakra becomes imploded into the element water, the second element on the hierarchy, and so on, until nothing remains but ether in the cranial vault. The cranial vault, the locus of the ether-both the site at the Siddha techniques for penetration end and that at which mundane existence first begins, when the absolute first penetrates the human microcosm-is the zero point at which the two infinities meet, the point at which "black holes" issue into "Whites holes" This is the precisely the "end" of the process for the creation of the Alchemical Man. When all that remains of the practitioner is the fifth element, ether, in the cranial vault, he arises-out of the cauldron in which his lowering had been dissolved and imploded into its higher emanates as a massive, powerful, perfected Siddha...

The more general phenomenon of penetration or piercing that occurs within the yogic body when the breath, energy, and seed of the yogin embodied in the female kundalini serpent-pierce the six chakras-called cakra-vedhana or cakra bhedana-is also a sexual penetration of sorts, albeit with sexual polarities reversed, given that It is a female kundalini who awakens, stiffens, rises, even rushes upwards towards the cranial vault, the cavity that is the place of the passive male Siva. As the kundalini pierces each of the chakras, great quantities of heat are produced, which refine and gradually transmute the seed that is the stuff of her body: it is this transformed semen that becomes the nectar that immortalizes the yogin who holds in his cranium. [3]

This was the sacred knowledge the Yezidi and associated Aryan cultures stated that Shaitan taught them in the Golden age. That of perfection and ascension.
