GENERAL INFORMATION

Plant-X 21 contains humic acids derived from leonardite and an organic form of nitrogen derived from fermented grain by-products.

Plant-X 21 is designed for soil and water run applications in combination with fertilizers.

DIRECTIONS FOR USE

Applications - Plant-X 21 can be applied by side dress and banding equipment, water run through irrigation systems or sprayed directly on soils with other fertilizer materials.

Add Plant-X 21 to liquid fertilizer at rates specified by customer. Plant-X 21 can also be impregnated into dry fertilizer blends.

Storage and Disposal - Store in original containers at temperatures **above freezing**. Dispose waste at approved disposal facility. To dispose of containers, triple rinse and dispose according to local and state regulations.

It is recommended to shake, stir or agitate containers or tanks of Plant-X 21 just prior to usage.

SUGGESTIONS FOR USE

Plant-X 21 blends can be soil applied and water run on all crops at rates of 1 to 10 gallons per acre.

It is best to use materials in split applications with other fertilizer and micronutrient products at 1 to 3 gallons per acre in 2 to 4 applications.

Use caution in application to assure coverage on intended treatment areas only.

HUMIC ACID / Mixture

WARNING

H315 CAUSES SKIN IRRITATION
H319 CAUSES SERIOUS EYE IRRITATION

PRECAUTIONARY STATEMENTS

Keep out of reach of children. Read label before use. Wear protective gloves/protective clothing/eye protection. Avoid contact with skin, eyes, open cuts, or sores. Wash skin thoroughly after handling.
