Abstract

Insert your abstract here, 11 pt, Times New Roman

Keywords: keyword one, keyword two, ..., keyword five.

1. Main text

Introduce here the paper, single column. Insert ALL page numbers (even no. 1) in bottom right position. Manuscripts must be submitted as **either** ".doc" (NO .docx, please!) **or** ".odt" files **and** as ".pdf". They must be in print-ready setting as the Conference will not provide editorial assistance. The text should be typed in Times New Roman 12 pt fonts, except Tables and Figures captions (see below). Page dimensions should be like in this template. Page margins to be set: left, right, top 2,5 cm; bottom 3,0 cm.

Lists can be included and should look like this:

- First point
- Second point
- ...

Do NOT indent paragraphs. Leave a blank before and after each section title, like in this template is done:

1.1. Equations

Allow one line of space above and below. Enclose equations numbers in round parentheses and place them right justified.

$$x_{1,2} = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

(1)

Leave a blank before and after each equation.

2. Tables and Figures

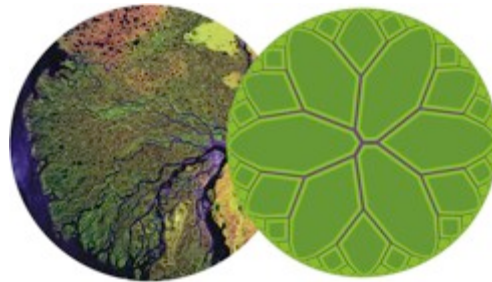

Figures and tables should be embedded in the text and not supplied separately. All tables should be numbered. Headings (10 pt) should be placed above tables, left justified. Only horizontal lines should be used within a table, in order to distinguish the column headings from the body of the table, and immediately at the top and at the bottom of the table. Use an external frame but NOT internal ones. Leave a blank before each table caption:

Table 1. An example of a table

Record X	Column A (<i>m</i>)	Column B (<i>T</i>)	Column C (<i>W</i>)
Entry A	1	2	3
Entry B	4	5	6
....

All figures should be numbered and included into the text. Like Tables, the figure number and caption should be typed above the illustration in 10 pt and left justified. Leave a blank before each figure caption:
