

## HEY THERE!

My name is Lesya. I am illustartor and designer of this product. Thank you for your interest and purchasing I Am In love Font. I hope you enjoy it!

A few words about the application of the product I Am In Love Font:

- ♥ I-Am In Love.\* - It is a vector font, contains latin and cyrillic characters, numbers and symbols. You can change the font color by applying a clipping mask. There is an alternative style in the font, you can mix the uppercase and lowercase to create a unique design.

- ♥ I-Am In Love Color Latin.\* - It is a bitmap color font, contains ONLY latin characters, numbers and symbols. You CAN'T change the font color, but it goes well with my other set I Am In Love Collection. The font also has an alternative style, you can mix the uppercase and lowercase.
- ♥ I-Am In Love Color Cyrillic.\* - It is a bitmap color font, contains ONLY cyrillic characters, numbers and symbols.
- \* I had to split the color font into two. Due to its large size, the font might work slowly. If you need cyrillic letters, just install it.
- \* \* I draw your attention to the fact that the color font is compatible only with Photoshop and Illustrator CC 2018 and newer.
