Ebook Tutorial Linux

Selamat datang para pembaca :

Disini saya sebagai penulis, sekaligus seorang auditing keamanan security digital, ingin membagikan tutorial ini, dengan judul : Menahan serangan MDK3 dengan Mengakali BSSID?

Cyberly	ons Places 🔯	** 🖬 🖶 🔄 🔄 📼	Thu Apr 25, 09/21/12	Wired Network disconnected	₩ (3 4)) \$ •	eric m 3s

Step 1: Diskonekkan Wifi anda terlebih dahulu, karena mdk3 bisa memulai serangan tanpa ada koneksi langsung dengan wifi anda ke accesspoint, melainkan serangan secara diam". lalu buka terminal linux anda.

Cyberly Development

📕 Applicati	ons Places 🙋	× 🖬 🖬 🔄 🔯 🔜	Thu Apr 25, 09:21:35	📮 🚺 🕸) 💲 💊 🔍 root.

Step 3 : Lalu ketikkan airmon-ng start wlan0 {enter} , fungsi perintah ini, untuk mengaktifkan mode selancar wlan anda agar mudah memonitoring aktifitas wifi sekitar anda.

Cyberly Development

Step 4 : Ketikkan airodump-ng mon0 {enter}, perintah ini berfungsi untuk melihat aktifitas keberadaan wifi sekitar anda, sekaligus bisa mengetahui jenis macaddress wifi yang digunakan.

Step 5: Nah selanjutnya kita sudah berhasil mengaktifkan airmon-ng untuk memonitoring. dan lihat apa yang terjadi.

Cyberly Development

Step 6 : Baiklah, kita sudah melihat, BSSID wifinya ketemu.. dan tekan CTRL+C untuk menghentikan monitoring sementara.

Step 8 : Lihatlah serangan sudah dimulai... dan pastinya semua terkoneksi ke accesspoint yang telah di targetkan, client akan mati koneksi tanpa ada rasa ampun lalu bagi wifi card client yang lemah, bisa membuat crash hingga 2 hari atau bisa rusak permanent. (Behati – hatilah dalam bermain mdk3)

Step 9 : Ini merupakan testing untuk melihat hasil kerjanya, bergerak atau tidak, ternyata loading page chromiumpiun gagal untuk konek. Dan ternyata serangan mdk3, berhasil di luncurkan

Ebook Tutorial Linux

Finish step : Tadaaa.. koneksi kembali stabil, dan hanya punya anda yang aman, yang lain terputuskan.

PESAN PENULIS:

Baiklah, sekian tutorial ini saya perbuat, dan saya berharap mendapatkan ilmu yang lebih lagi setelah anda membaca tutorial dari ebook ini, sebenarnya ebook ini sudah lama juga saya ingin buat, tetapi karena waktu masih terkendala, dikarenakan penullis juga masih focus dalam menyelesaikan perkuliahannya di Universitas Syiah kuala, jadi baru sekaranglah saya buat. Mohon maaf apabila penulis ada yang salah atau kurang jelas dalam menyampaikna materi, tetapi hati penulis slalu ikhlas dalam membagi ilmu dan tidak setengah – setengah. Terimakasih.
