Material

– Power Point Game

Possible Modification

This could be played with two groups of students working against each other.

How to Play

This is a simple Power Point game. Choose two people to play against each other. An image will be shown of the inside of an object. The first person to guess the correct image will receive one point. The person with the most points at the end of the game is the winner.

Pro Tip:

This would be a great game when talking about identity or Godly character traits. We often know things by the outside but do we know what is underneath.
