PROFESSIONAL EXPERIENCE

Ernst & Young (EY) – Digital & Emerging Technology

Apr 2021 – Present

Role: Technology Consultant

Ernst & Young (EY) – IT Risk and Assurance

Aug 2020 – Mar 2021

Role: Consultant

- Assessed Clients' IT environments and IT-related business processes that support the financial statements to determine the extent to which reliance can be placed on the internal control environment (ITRA FAIT engagements)
- Worked diligently with clients to promote communication and remediation throughout engagements, and engaged with Third Party suppliers during evaluation of SOC reports
- Contributed to business development through preparation of draft reports, and built presentation decks for Clients, following assessment of their cyber security maturity
- Prepared and delivered researched presentations to a group of colleagues and seniors on the potential use case and time saving benefits of Automation tools (ex. Alteryx) within Assurance
- Facilitated delivery of workshops for EYs Smart Futures Foundation; a paid work experience programme aimed at high school students looking to build transferable and employability skills

STL Partners (Research and consulting firm)

Sep 2019 – Aug 2020

Position: IT Analyst (Part-time)

- Fully designed and developed an opensource GUI application for the marketing department using Python, to allow for the easy generation of XML files
- Researched, designed and implemented an interactive tool within Tableau data visualisation software, following liaison with multiple stakeholders
- Integrated existing salesforce campaigns with email/online marketing suites and created reports/dashboards to track sales pipeline for management visibility

Group Renault (RCI Financial Services)

Jun 2018 – Jun 2019

Role description: Finance Placement Year

- Successfully automated multiple processes for preparing daily & monthly performance reporting, saving 25 hours per week on average
- Produced monthly key management KPIs, reporting to Senior Management and Directors
- Analysis and reporting on securitisations (a crucial funding source of the business worth over £1.5 billion)
- Ensured monthly dealer earnings in excess of £2million were calculated, checked and processed for payment
- Represented the department of finance at the RCI reporting Group, liaising with IS to rectify reporting defects
