Briscoes Homeware Online – Essential Goods

Briscoe Group advises it has reopened its online site (www.briscoes.co.nz) to supply homeware essentials via closed store fulfilment centres. This follows the government announcing yesterday that the sale of certain categories of essential goods would be allowed.

Rod Duke, Group Managing Director, welcomed the government's decision to allow essential goods to be made available to the public via online platforms. "People need to get prepared for the colder weather as we move into the autumn months and head towards winter.

"Having lodged our registration with MBIE this afternoon we are now open for business via our website, which has been updated to include only homeware essentials.

"The products we will have available will include blankets (including electric blankets), heaters, dehumidifiers, kitchenware, cooking appliances and winter bedding products.

"To make this offering more accessible to the public we have also created the ability to take orders over the phone through our contact centre (0800274726)."

Rod Duke further noted that, "Our retail stores will remain closed during this period until the end of the Level 4 lockdown."
