INSTALLATION INFORMATION (WIRING)

This product must be installed in accordance with National Electrical Code(NEC) and/or applicable local codes, by a qualified electrician.

DANGER - RISK OF SHOCK - DISCONNECT POWER BEFORE INSTALLATION

Wall Packs can be ordered with a specified twist lock plug or without a plug.

Plug in the Wall Pack or make the necessary 'HOT' (Black or Brown), 'Neutral' (White or Blue), and 'Ground' (Green) connections in an approved junction box.

INSTALLATION INFORMATION

Rotate the 3 mountin brackets to the proper angle.

Hold the fixture to the wall making 3 marks according to the mounting brackets and drill holes for them.

Push anchors into the holes. Match the mounting brackets to the anchors and attach the fixture to the wall with the screws provided.

Connect the wires making sure there is good wire protection.

Take apart the PC cover and fixture housing

Hold the fixture firmly against the wall and drill 3 holes for the mounting brackets

Push anchors into the holes. Line up the fixture to the wall with the holes and attach the fixture to the wall with the screws proved

Put the PC cover and fixture housing back together.
