
THE BAD GUY

||

Material

– Power Point Game

Possible Modification

This could be played with two groups of students working against each other.

How to Play

This is a simple Power Point game. Choose two people to play against each other. Students will take turns going back and forth between each set of pictures. The student will be shown a villain from pop culture. They must guess the villain's name. The student with the most correct answers at the end is the winner.

Pro Tip:

Have fun with your students. Have a leader or the person leading the game dress up as an evil villain. The more your adults get into the games and have fun with them the more students will enjoy them as well.
