All Captains and team members understand that their teams will be assigned a maximum of 3 courts for each home league match.

They further understand that their courts will become available to them at their designated start time and are not guaranteed any time before then.

Please check in with the office or pro on staff before taking any unused court as it may be reserved

In the event that a league match is postponed due to adverse weather, please contact the tennis office for help in securing a make-up time for the delayed match - there is no additional charge for courts used when making up scheduled matches
