

# Surfcaster'91

The Charvel Surfcaster series represents our entry to the alternative guitar market. It's designed with the "Back to the Future" philosophy in mind. This meaning we've taken certain aesthetic and tonal values from the past and brought them up to modern standards. All models of the Surfcaster line including the Six, the Twelve, and the Bass are built with the same high quality as you've come to expect from the Charvel / Jackson Guitar Company. We're very excited over this "New Line" and we're sure once you *Hang Ten* on one you will be too!

The Charvel/Jackson Guitar Co.

**BODY :** New unique "Surfcaster" design w/ hollow sound chambers ,features bound top and soundhole with white pearloid pickguard. African mahogany with a figured maple top is used on C-thru finishes while poplar is used on solid colored instruments.

**NECK :** 24 fret, 25.5inch scale North American maple neck with bound rosewood fingerboard featuring pearl sharkfin inlays, matching color cap, vintage style enclosed tuners, and 1 5/8" nut width, (1 11/16" on the twelve ) made of phenolic compound. A precision machined 1 5/8" roller nut is used on the 6-string.

**BRIDGE :** A two-point fulcrum tremolo with lock down saddles is used on the 6-string. The 12-string bridge is fully adjustable on all strings including the octaves. Jackson hi-density bass bridge is fitted to the Surf-bass.

**ELECTRONICS :** 2 single-coil "lipstick" pickups, volume and tone with push/push pot for in/out phase selection.

Sea Green, Magenta, Midnite Black, C-thru Orange, C-thru Red, Starglow.
