NOTE.

Cette oeuvre a été écrite à la notation exacte du diapason, c'est-à-dire que
ı indiqué sur la portée est le son exact de l'anche la plus basse.

Elle est conçue pour l'Accordéon de Concert, lequel se compose de deux cla-
entièrement chromatiques, à l'exclusion de tout accord-composé, système périmé,
ement impropre - ainsi que l'ont vu unanimement, les musiciens - à servir une po-
ıie subtile et une harmonie extra-tonale.

This piece has been written according to exact pitch notation. The pitch in-
ed on the staff is the exact pitch of the lowest sounding set of reeds.

It is conceived for "concert accordion". This one is made up of two keyboards,
chromatic, which excludes prepared chords, an obsolete system, unappropriate - as
sicians are aware of it - to serve a subtle polyphony and an extra-tonal harmony.

Dieses Werk ist nach der exakten Notenschrift der Stimmgabel geschrieben worden,
isst, dass der auf den Notenlinien angegebene Ton der genaue Ton des niedrigsten
atts ist.

Das Werk ist für das "Konzertakkordéon" geschrieben worden, das zwei völlig
tische Tastaturen hat, unter Ausschluss jedes vorbereiteten Akkords, völlig
etes System, und das - wie es dis Musiker einstimmig festgestellt haben - völlig
stande ist, eine subtile Polyphonie und eine aussertonale Harmonie zu begünstigen.

Torbjörn Lundquist

MICROSCOPE

21 Pieces

For Accordeon-Solo

FOR THE CHROMATIC FREE BASS

PREFACE

TORBJÖRN LUNDQUIST is one of Sweden´s foremost composers. His works include 2 symphonies, chamber-and choral music, in addition to music for film and theatre, etc. Lundquist was also the first Swedish composer who wrote serious music for the free bass accordion.

"MICROSCOPE" contains 21 short pieces in a folkloristic idiom. Some of them are in fact old, familiar folksongs. A correct performance of them requires a free bass manual.
The title "Microscope" came about when Mogens Ellegaard asked Torbjörn Lundquist to write a series of shorter pieces, each one presenting one or some technical and musical problems - built into the music itself. Seen through the composer´s musical microscope these problems might perhaps then appear more attractive.

The publisher wants to express his warm thanks to Torbjörn Lundquist, who dared and was able to write worthwhile music for the free bass accordion. His work has contributed largely to making the music world begin to accept the accordion as a concert instrument - even in Sweden. Also, in this connection, thanks to Mogens Ellegaard and Lars Holm for their energetic work to demonstrate and prove the qualifications of our instrument.....not least through their superb performances of Torbjörn Lundquist´s music.

NOTES TO THE PERFORMER

REGISTRATION

The internationally accepted switch symbols have been applied for the treble registration. Some new switch symbols have been contrived for the [B.B.] manual /free bass/, which is assumed to contain two sets of reeds. These symbols should present no problems to anybody who is familiar with the standard switch notation:

 = One reed - sounds as written /8´/

 = One reed - sounds an octave higher /4´/

 = Two reeds - octave coupling /8´+ 4´/

An 8va or 8va bassa sign over or under a switch symbol /treble or bass/ means that the passage following the symbol should be played an octave above or below the written notes- until a change is indicated by another switch symbol WITHOUT an 8va or 8va bassa sign. Every switch symbol represent the composer´s carefully prepared answers to questions- of tonal colour and balance. It is therefore urgent that the player solves the difficulties of registration with no less accuracy and diligence than any other of those technical and musical problems posed in the present collection.

FINGERING

The fingering in the treble is for the chromatic button keyboard.
A small line under a number/ 3, 4 etc. /means that the 4th or 5th/auxiliary/row should be used. Try also the alternative fingerings. The fingering in the left hand is for the 3 row chromatic free bass/C-Griff arrangement/.

BELLOWSYMBOLS

⌐ = Open bellows. V = Close bellows.

MOGENS ELLEGAARD LARS HOLM

VORWORT

TORBJÖRN LUNDQUIST ist einer der bekanntesten seriösen Komponisten Schwedens. Er hat 2 Symphonien, Kammermusik, Chormusik, Filmmusik, Musik für das Rundfunktheater, Musicals u. a. geschrieben, und er ist der erste schwedische seriöse Komponist, der seriöse Musik für Akkordeon geschrieben hat.

"MICROSCOPE" enthält 21 kurze Stücke in schwedischem Volkston. Einige sind wohlbekannte schwedische Volksweisen. Alle sind für Akkordeon/Ziehharmonika mit Melodiebass/geschrieben. Der Name "Microscope" entstand, als Mogens Ellegaard Torbjörn Lundquist bat, eine Reihe kurzer Stücke zu schreiben, wo jedes einzelne Stück ein oder einige technische Probleme enthalten sollte, die reingezüchtet werden konnten. Wenn man diese dann durch ein "Microscope" sah, würden sie noch deutlicher hervortreten, was der Sinn des Ganzen war.

Ich möchte hier gleichzeitig einen grossen Dank an Torbjörn Lundquist richten, der "gewagt" und gewollt hat, Originalmusik für Akkordeon zu schreiben. Das hat u. a. zum Ergebnis gehabt, dass das Akkordeon in den 60iger Jahren begann, als vollwertiges seriöses Konzertinstrument auch hier in Schweden akzeptiert zu werden. Und hier darf man die unermüdliche Arbeit von Mogens Ellegaard und Lars Holm nicht vergessen, die in der Verbreitung von Kenntnis über die Qualitäten dieses Instrumentes bestand und nicht zuletzt auch ihre Art, all die vornehme Musik zu spielen, die für Akkordeon von Torbjörn Lundquist geschrieben worden ist.

REGISTER, FINGERSATZ, BALGZEICHEN

REGISTRIERUNG

Die international angenommenen Registerzeichen finden Anwendung auf die Registrierung von Diskant und Bass. Einige neue Registerzeichen sind für das Manual geschaffen worden, B. B. , das voraussichtlich zwei Zungensätze enthält. Diese Zeichen dürften dem keine Schwierigkeiten bereiten, der die Bezeichnungen der Standardregister gut kennt.

BASS-REGISTER

 = 8´Fuss-Register, klingt wie notiert.

 = 4´Fuss-Register, klingt eine Oktave höher als notiert.

 = 8´+ 4´Fuss-Register, Oktavkoppel.

Die Bezeichnung 8va oder 8va bassa über oder unter einem Registerzeichen/Diskant oder Bass/ bedeutet, dass das, was auf das Zeichen folgt, eine Oktave höher oder niedriger gespielt werden soll, als was notiert angibt, bis eine Änderung mit einem anderen Registerzeichen oder dem Zeichen LOCO angegeben wird.
Jedes angegebene Registerzeichen stellt die genaue Abwägung des Komponisten inbezug auf die tonale Variation, das Kolorit oder die Balance zwischen Diskant und Bass dar. Es ist daher sehr wichtig, die Registerschwierigkeiten mit derselben Genauigkeit und Energie zu lösen, wie man alle anderen technischen und musikalischen Probleme löst.

FINGERSATZ

Fingersätze sind ausgearbeitet für eine 5reihige Tastenklaviatur für die rechte Hand und einen 3reihigen chromatischen Melodiebass für die linke Hand.
Ein Strich unter einer Ziffer/4, 3 usw./an der rechten Hand bedeutet, dass man die 4. oder 5. Reihe anwenden soll. Probieren Sie auch die alternativen Fingersätze.

BALGZEICHEN

Balgwendezeichen: ⌐ = den Balg öffnen. ∨ = den Balg schliessen.

Avant-propos pour les Professeurs

La lecture à vue, élément essentiel dans l'apprentissage d'un instrument, doit être pour l'élève, l'occasion de développer la rapidité de ses réflexes. Pour permettre ceci, il n'y a qu'une solution: concevoir des exercices dans lesquels se trouve un problème technique tel, que l'attention de l'élève et sa réflexion, soient constamment sollicitées. Les formules rythmiques trop connues, les formules mélodiques dans lesquelles la trame tonale est évidente, ne peuvent être de grande utilité pour l'élève, qui les exécute d'une façon presque inconsciente, et, par conséquent, sans profit.

On observera, le mieux possible, les doigtés lors du déchiffrage.

Lors du travail technique, plus approfondi, **les doigtés sont** *impératifs.*

Avant-propos pour les Professeurs

J'ai déjà dit, dans le 1er cahier, l'utilité de la lecture à vue, cependant, je voudrais développer quelques points particulièrement importants pour ceux que tente une carrière de concertiste.

Les difficultés -apparentes- des lignes mélodiques, et la difficulté réelle des rythmes de ces **60** exercices ne sont pas "gratuites". Elles seules, à mon avis, peuvent préparer l'accordéoniste de concert à la musique moderne. Le rythme est l'élément dominant de la musique moderne et contemporaine (voir les œuvres de Bartok, Messiaen, Boulez, etc...).

Si l'on veut que l'Accordéon s'élève dans la hiérarchie des instruments de concert, il est illusoire de se cantonner dans l'interprétation des seules œuvres classiques, il faut pouvoir se mettre au service de cette musique contemporaine. A cette nouvelle esthétique, à cette nouvelle manière d'écrire et de jouer la musique correspondent nécessairement une nouvelle pédagogie et un nouveau matériel pédagogique. C'est dans cet esprit que j'ai conçu ces cahiers de lecture à vue.

J'attire l'attention des Professeurs sur un ouvrage remarquable qu'il y aurait grand intérêt à consulter, puis à travailler: **15** LEÇONS DE SOLFÈGE de J. M. Damase, *Edit. Lemoine* (on pourra consulter également le: SOLFÈGE TRANSCENDANT de Y. Conrardy, *même Editeur.*)

PLAN GÉNÉRAL DE TRAVAIL

1°) Exécution à la M. D. puis à la M.G. S'efforcer à respecter les nuances. Exécutez plusieurs fois de suite l'exercice jusqu'à assimilation totale des difficultés mélodiques et rythmiques. Observez un Mouvement métronomique rigoureux.

2°) Exécution M. Ens.

3°) Révision des N°s précédents comme suit: travail du N° **11** et révision du N° **1**

ACORDEÓN

JESÚS RUEDA (1961)

Jesús Rueda nace en Madrid en 1961. Estudia piano en el "Real Conservatorio Superior de Música" de la capital con Joaquín Soriano y armonía con Emilio López. Posteriormente realiza estudios de composición con Luis de Pablo y Francisco Guerrero. También ha ampliado sus estudios con Manzoni, Gentilucci y Luigi Nono becado por el "Festival de Granada" (1985-88). Ha trabajado la música electroacústica con Horacio Vaggione en el gabinete de Música Electroacústica de Cuenca.

Ha sido pensionado por la "Academia Española de Bellas Artes" de Roma durante el año 95-96 y por la "Casa de Velázquez" (Academia Francesa de Madrid) en el 2.000. Ha sido Compositor en Residencia de la Joven Orquesta Nacional de España (JONDE) en 1997-98 y ha representado a España tanto en las Variaciones Europeas para las Jóvenes Orquestas de Europa organizado por EFNYO (Amsterdam) en el 2000, como en la Tribuna Internacional de Compositores (UNESCO Rostrum) en 2003.

Ha ganado varios premios de composición:

1° Premio del Ayuntamiento de Madrid 1989.

1° Premio de la Sociedad General de Autores de España 1990 y 1991.

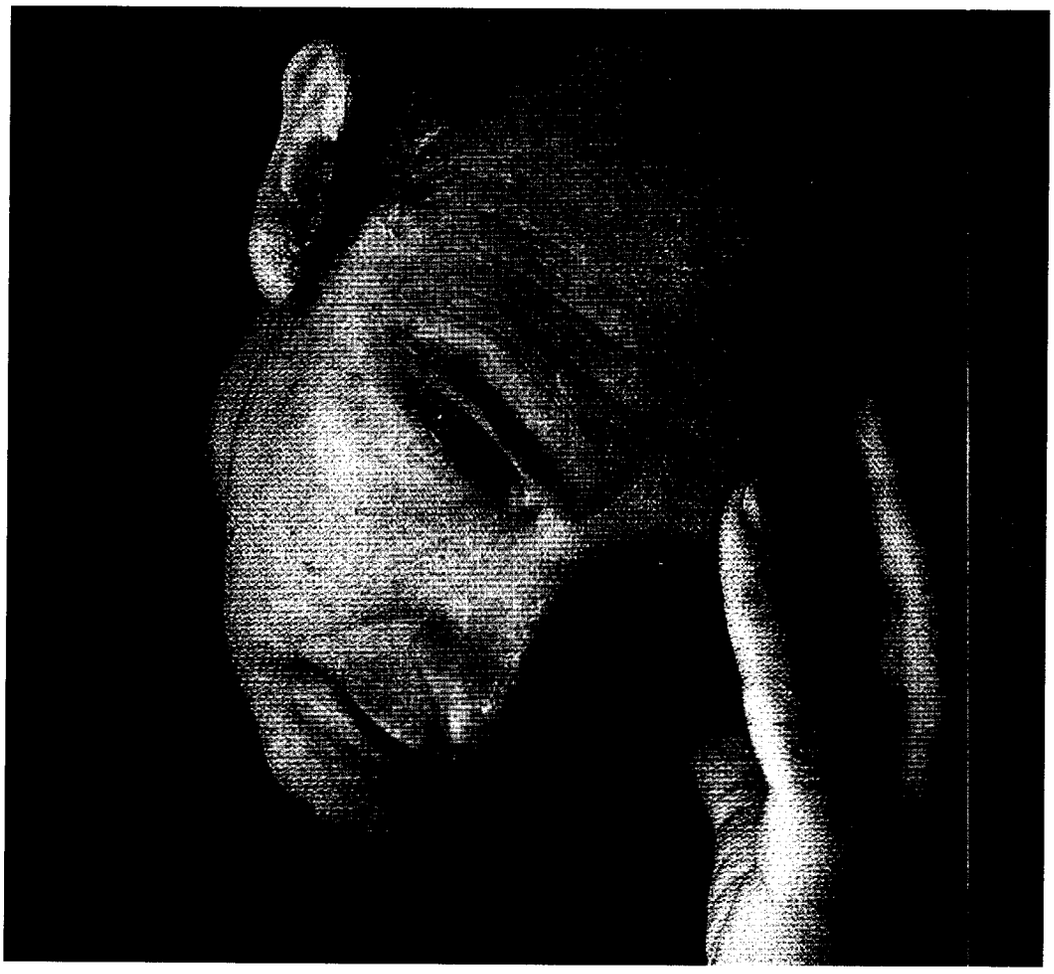

2° Premio ICONS de Turín 1991.

Premio Forum Junger Komponisten (WDR) de Colonia 1992.

IRCAM Reading Panel 1995 (Ensemble InterContemporain commission).

Premio Colegio de España de París 1996.

Premio Nacional de Música 2004.

INVENCIONES PARA JÓVENES ACORDEONISTAS, 2005

En los últimos años, además de una fuerte e interesantísima producción sinfónica y camerística, Jesús Rueda (Premio Nacional de Música 2004) ha comenzado a tener una honda preocupación por la música pedagógica. Lo cierto es que los compositores e intérpretes actuales son también responsables de la producción futura en este campo y del acercamiento de la música viva a los jóvenes estudiantes. Así pues, tras la petición de Ángel Luis Castaño, Jesús Rueda ha iniciado su acercamiento al acordeón de concierto con estas pequeñas piezas que conforman las *Invenciones para jóvenes acordeonistas.* La revisión de la obra ha sido realizada por el citado acordeonista que la estrenó en la *Fundación Juan March* de Madrid en febrero de 2005.

Estas invenciones están incluidas en el CD "Spanish Music for solo accordion" de Ángel Luis Castaño, editado por Several Records S.L. (SRD – 322) en el año 2006.

Vorwort

Die einzelnen Stücke dieser Sammlung sind bewußt in freier, ungeordneter Folge aneinandergereiht und erwarten, vom Interpreten in einen sinnvollen Zusammenhang gebracht zu werden, wie das Zusammensetzen eines Bildes aus einzelnen Mosaiksteinen.
So kann man beispielsweise drei bis sechs Stücke zu einer Suite zusammenfassen, wobei gleichbleibende oder verwandte Tonarten ebenso eine verbindende Klammer bilden, wie klangliche und rhythmische Gegensätze mit ihren Spannungs- und Entspannungswirkungen. Jede Stelle innerhalb dieses Suitengefüges (Anfangs- und Schlußglied, Anzahl der Stücke usw.) ist frei wählbar. Diese freie Zusammenstellung von Suiten ohne vorgeschriebenes formales Gerüst war in Frankreich bereits im 17. Jahrhundert üblich und wurde unter anderem durch die französischen Clavecinisten Chambonnières und Couperin bekannt.
Einzelne Mosaikstücke können auch mit vertauschten Manualen gespielt werden, z. B. Allegro giusto (Takte 1-8 und 21-28), Andantino (S. 7), Allegro giocoso II, Allegretto (S. 6, Takte 1-14 und 19-23) und Sostenuto.

Auch das transponierte Spiel von anderen Tonstufen aus ist möglich.
8va oder 8va bassa neben einem Registersymbol bedeutet, daß so lange eine Oktave höher bzw. tiefer gespielt werden muß, bis eine Aufhebung erfolgt durch ein anderes Registersymbol ohne 8va-Vermerk oder durch die Bezeichnung „loco".
Für fortgeschrittene Akkordeonisten sind die Mosaikstücke auch als Übungen für das „Vom-Blatt-Spiel" geeignet.

Preface

The individual pieces in this collection are deliberately cast in a free and random order, awaiting a logical grouping and sensible interpretation by the performer in a manner reminiscent of piecing together a mosaic.
One could, for example, group from 3 to 6 pieces together similiar to a suite where choice of movement and hence key is left to the performer. Whether the keys are nearly related or similiar between consecutive movements, nevertheless the selection of contrasting pieces should allow for a unified thread to connect the diverse rhythmic and tonal elements while stressing the accumulation and release of tension through the juxtaposition of variable elements. Regardless of the decision made as to beginning or concluding movements, or the number of movements etc. any point within the suite is free for selection and use.
This free indeterminate organization of the suite was a common performance — practice of seventeenth century France and the procedure was familiar to many others through the works of such French clavecin composers as Chambonnières and Couperin.

The individual Mosaic pieces could also be performed by switching Manuals, as for example Allegro giusto (measures 1-8 and 21-28), Andantino (page 7), Allegro giocoso II, Allegretto (measures 1-14 and 19-23) and Sostenuto. Transposition into other keys is also permissable.
The appearance of 8va or 8va bassa beside a register symbol refers to the adjustment of hand position an octave higher or lower respectively until the appearance of a succeeding register symbol marked without 8va or with the term "loco".
For advanced accordionists, these mosaic pieces make excellent exercises for sight reading.

Hugo Noth

Préface

Les différentes pièces de ce recueil sont consciemment présentées les unes après les autres, dé manière libre et désordonnée, et attendent de l'interprète qu'il les enchaîne de façon réfléchie, comme une image issue de l'assemblage de pièce de mosaique.
Nous pouvons ainsi réunir par exemple trois à six pièces en une suite; les mêmes tonalités ou les tonalités voisines formeront également un lien commun, ainsi que les oppositions de rythmes et de timbres avec leurs effets de tension et de détente. Chaque partie composant cette structure de la suite (pièce d'introduction et de conclusion, nombre de pièces etc. . .) peut être choisie librement.
Ces suites construites de façon libre sans modèle de structure précis, étaient déjà fréquentes en France au XVII^{e} siècle, et furent rendues célèbres par les clavecinistes Français: Chambonnières et Couperin.
Chaque pièce de "Mosaique" peut également être interpretée en intervertissant les claviers, par exemple: Allegro giusto (mesure 1-8 et 21-28); Andantino (p. 7); Allegro giocoso II; Allegretto (mesures 1-14 et 19-23) et Sostenuto. Il est également possible de transposer cette œuvre à des intervalles différents de la hauteur initiale.

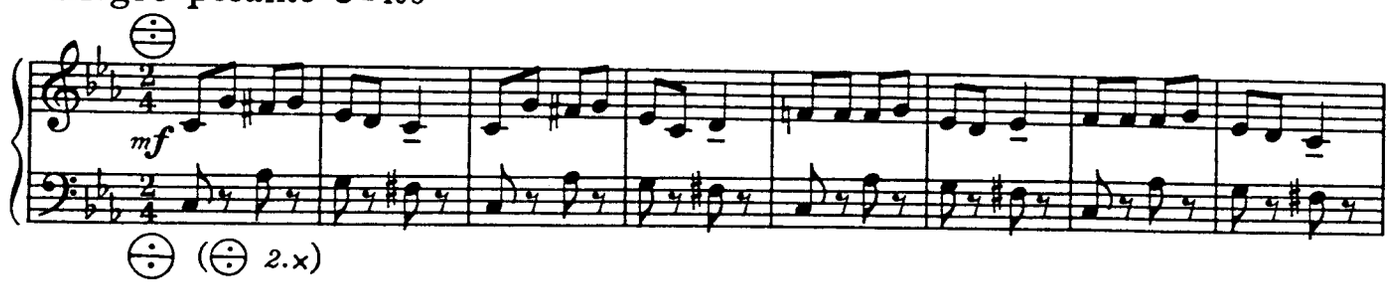

8va ou 8va bassa placé à côté d'un symbole de régistre signifie qu'il faut jouer soit à l'octave supérieure soit à l'octave inférieure, jusqu'à l'annulation soit par un autre symbole de régistre sans la précision 8va ou par terme "loco".
Pour des accordéonistes confirmés les pièces composant "Mosaique" sont également adaptées comme éxercices de déchiffrage.

Vorwort

„Tèma e variazioni“ umfaßt verschiedene Etüden für das Akkordeon mit Melodiebaßmanual (M III) unter besonderer Berücksichtigung des sehr wichtigen, aber oft vernachlässigten Zusammenwirkens von Balg und Taste.

Das Thema, ein Volkslied aus Süd-Norwegen, enthält Versions- und Inversionsmelodik mit den beiden Haupttönen fis und h, um die sich die Melodie entwickelt.

Die einzelnen Sätze, die als Monodie (Tèma), dynamisches Wechselspiel zwischen rechter und linker Hand (2. Satz), Homophonie (3. Satz) und Polyphonie (4. und 5. Satz) gestaltet sind, verlangen vom Spieler eine differenzierte Behandlung des Balges und der Fingerartikulation.

Die Metronom-Angaben sind als unverbindliche Richtwerte gedacht.

Preface

"Theme and variations" includes various etudes for free bass accordion with a special consideration of very important but often neglected connection of the bellows and the keys.

The theme – a folc song from southern Norway – consists of version and inversion melodics with the two main notes F sharp and B natural, round which the melody is developed.

In the different parts formed as monody (Theme), dynamic overlap from the right to the left hand (part 2), homophony (part 3) and polyphony (parts 4 and 5), a varied bellows work and finger articulation are demanded.

The metronome marks should be regarded as not binding values.

Hans Kåre Jacobsen

Préface

"Thème et variations" englobe diverses études pour accordéon avec clavier "chant" (M III) à la main gauche en prêtant particulièrement attention à l'action simultanée du soufflet et de la touche, souvent délaissée.

Le thème, un air populaire du sud de la Norvège, contient la version et l'inversion mélodique avec deux tonalités principals fa dièse et si autour desquelles la mélodie se développe.

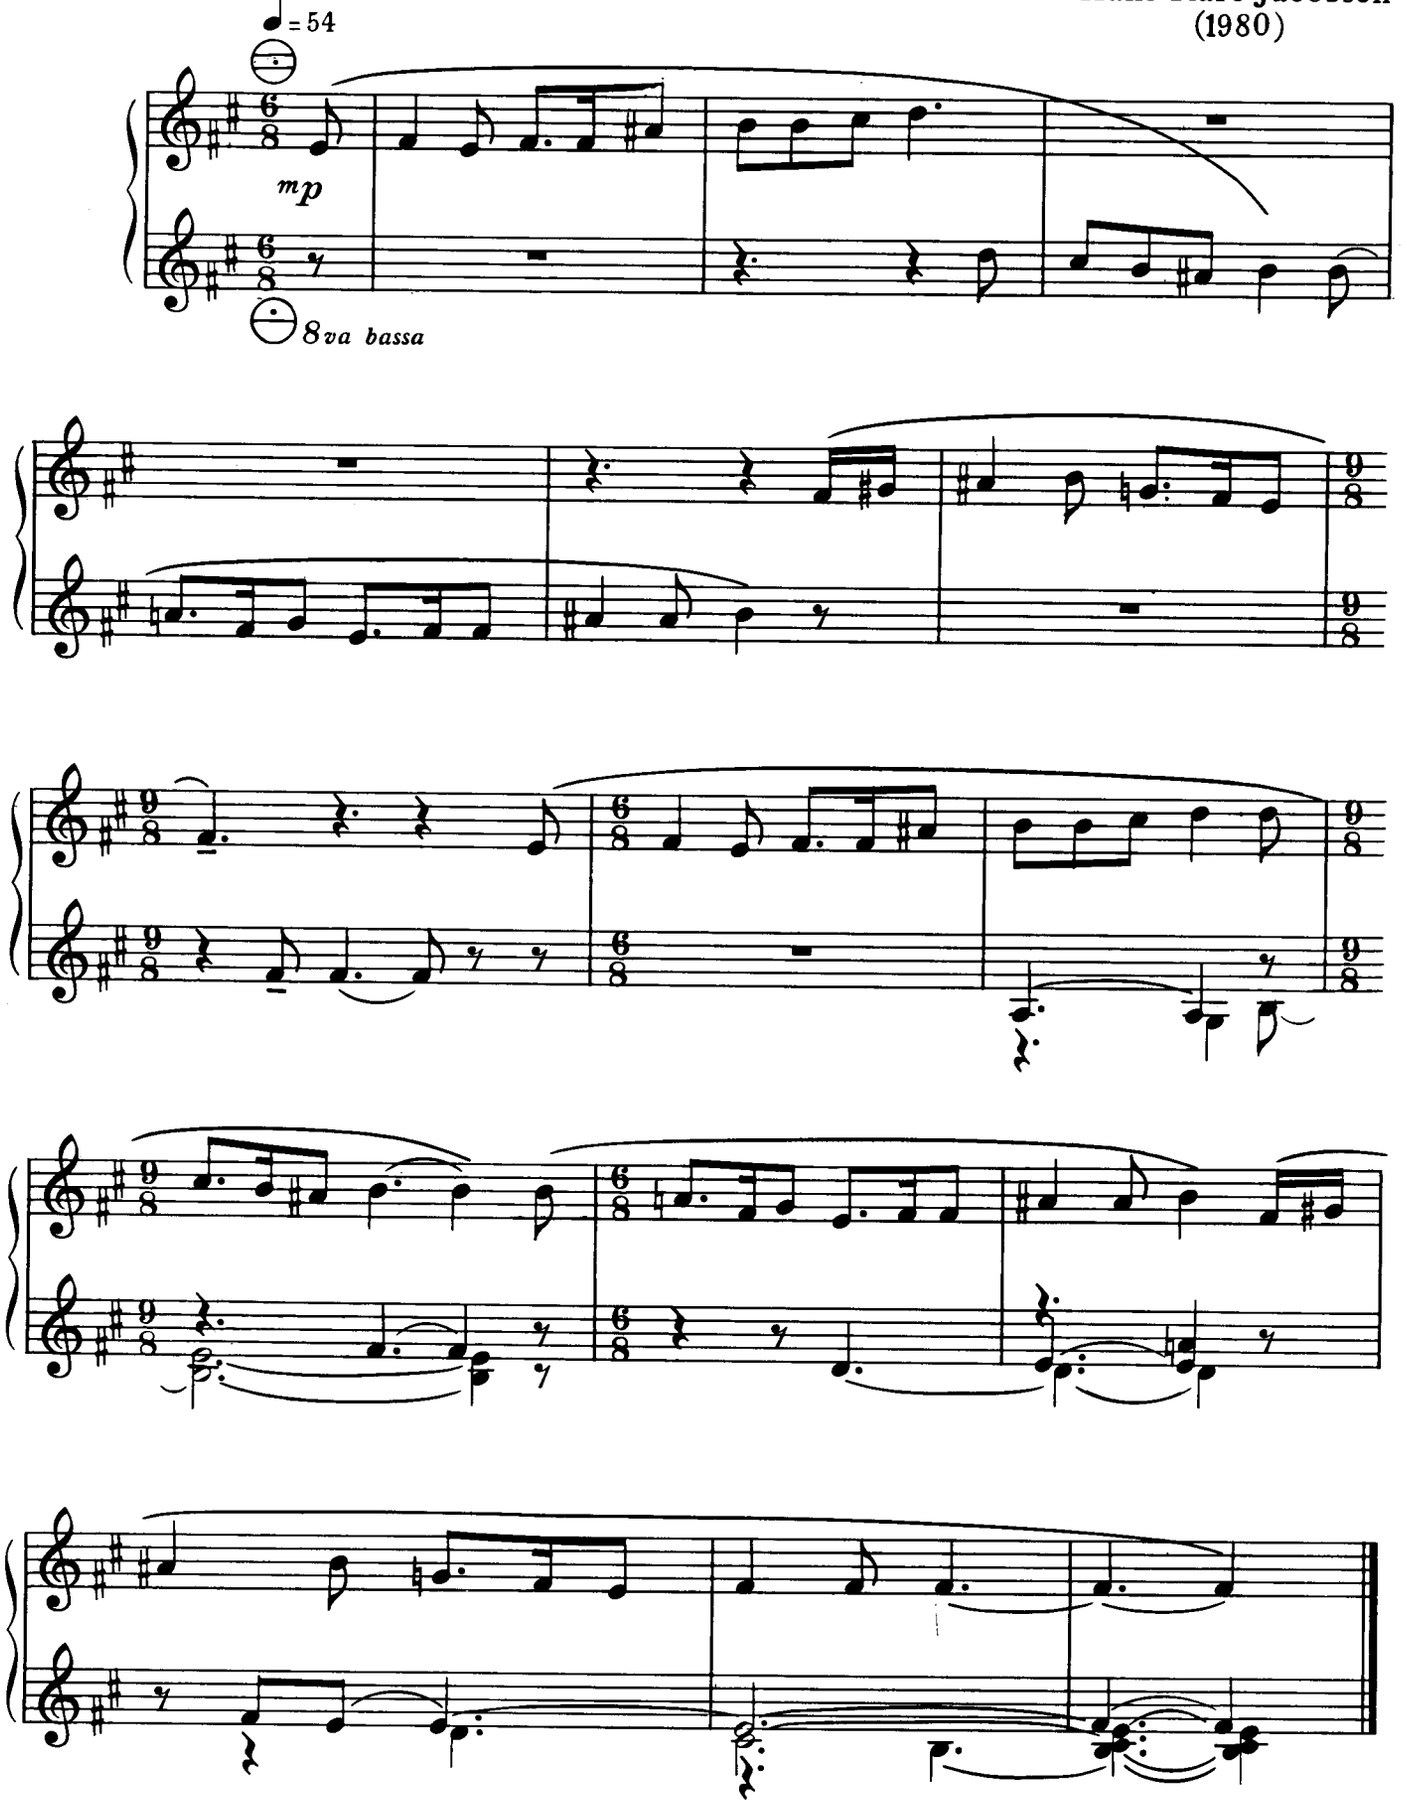

Chaque phrase conçue soit: comme monodie (thème), jeu dynamique entre les mains droite et gauche (2e phrase), homophonie (3e phrase) et polyphonie (4e et 5e phrases), réclame de l'interprète une différenciation dans les méthodes d'utilisation du soufflet et de l'articulation du doigté.

Les mouvements métronomiques sont donnés comme valeurs indicatives et facultatives.

Vorwort

Die beiden Liedsammlungen **"Musik für Kinder 1 und 2"** entstanden aus der langjährigen Arbeit mit Schülern der Elementarstufe. Die Autorin konzipierte sie für die allererste instrumentale Lernphase, zur Verwendung als Basishefte oder auch als Begleithefte zu bestehendem Unterrichtsmaterial.
Die einzelnen Lieder stehen bewußt in keinem zwingenden didaktischen Zusammenhang und können daher frei und in beliebiger Reihenfolge je nach dem Leistungsstand des Schülers ausgewählt werden.

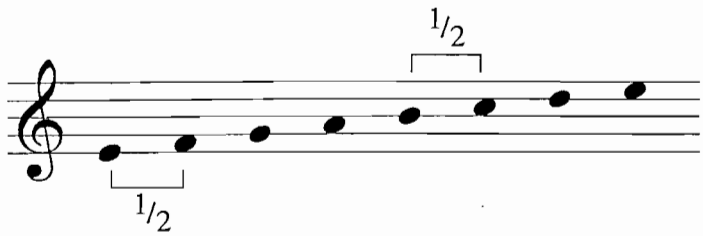

Die Lieder sind so gestaltet, daß rechte und linke Hand jeweils in etwa gleichem Maße spieltechnisch gefordert werden. Die Stücke bieten sich daher sowohl für das Solospiel an wie auch für das Musizieren zu zweit oder zu mehreren.
Bei Instrumenten mit Melodiebässen sind Ober- und Unterstimme, rechte und linke Hand beliebig austauschbar und auf die Kinder verteilbar. Bei Instrumenten mit Standardbässen empfiehlt sich aufgrund der Melodiestruktur in der linken Hand das Spiel nur im Diskant, allein oder zu mehreren. Oder aber der Lehrer notiert kurzerhand noch eine Begleitbaß-Linie hinzu. Eine reizvolle Aufgabe könnte im übrigen darin bestehen, die Wahl der passenden Begleitbässe den Schülern zu überlassen!

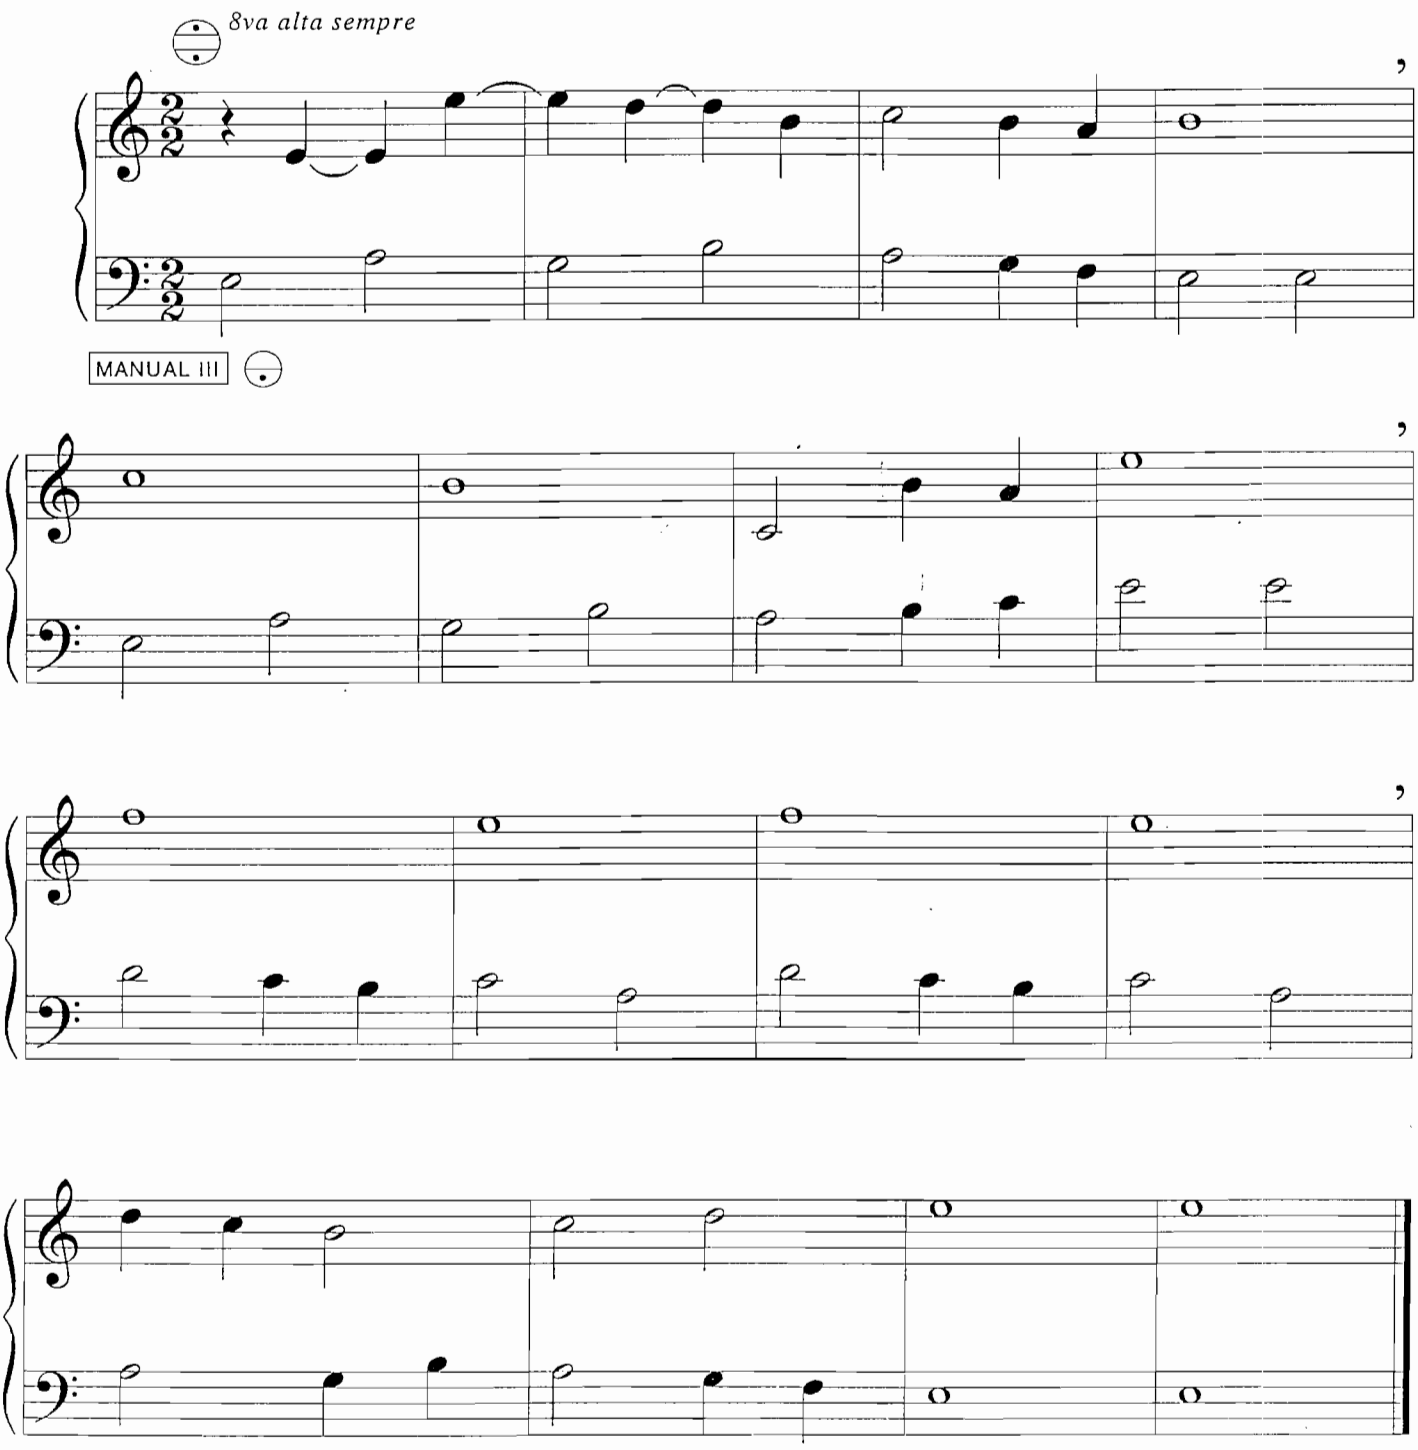

Die Zeichnungen können von den Kindern nach Belieben ausgemalt werden.

Für das Heft 1 - **"Kinderlieder aus der Früherziehung"** - hat die Autorin bekannte Kinderlieder ausgewählt, die unter anderem auch in dem Lehrplan "Musikalische Früherziehung" des Verbandes deutscher Musikschulen verwendet werden, und diese dann entsprechend bearbeitet. Ganz besonders für die Kleinsten wird es sich als Vorteil erweisen, daß sie auf dem neuen Instrument etwas spielen, was sie schon kennen bzw. einmal gehört und gesungen haben. Das Lernen fällt dann nur noch halb so schwer.

Das Heft 2 - **"Kinderlieder in Kirchentonarten"** - enthält ausschließlich originale Kompositionen für Akkordeon. Die Autorin hat sich hier des musikalischen Materials der klassischen Kirchentonarten bedient und es für Kinderohren kompositorisch geformt. So sehr die Lieder den Kindern vom Namen her fremd vorkommen werden, so sehr werden sie ihnen von der Melodiestruktur her bekannt und angenehm erscheinen. In dieser Verknüpfung des Ungewohnten mit dem musikalisch Bekannten liegt ein besonderer Reiz dieses Heftes.

Two-Part Playing

HOHNER · VERLAG · TROSSINGEN

Bestell-Nr. 0/134/045

Die vorliegende Partita ist im konsequenten zweistimmigen polyphonen Stil komponiert und soll dem Spieler Grundlagen bieten, beide Hände selbstständig und voneinander unabhängig beherrschen zu lernen.

This two-part composition provides the basis for playing both hands together and independently.

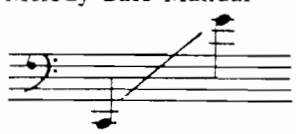

Das Werk ist speziell für kleine Instrumente mit Melodiebaß-Manual (M III) geschrieben und erfordert folgenden Tonumfang:

Produced specifically for small instruments with melody bass manual (M III), the following note range is essential:

Diskant-Manual (M I)
Treble Manual

Melodiebaß-Manual (M III)
Melody Bass Manual

Da die kleinen Instrumente zwar einen geringeren Tonumfang haben, dafür aber wesentlich leichter zu handhaben sind und sich besonders für Kinder und Jugendliche eignen, habe ich beim Komponieren weder an die technischen, noch an die klanglichen Möglichkeiten großer Konzertinstrumente gedacht, wie z.B. bei meinen älteren Kompositionen „Suite", „Vier Intermezzi", „Miniaturen" und „Duo". Im Vordergrund stehen hier rein musikalische Logik, empfindsame Musikalität bei der Darstellung und die Entwicklung des polyphonen Spiels. Die Partita weist keinen allzu großen Schwierigkeitsgrad auf, erfordert aber doch eine gewisse technische Beweglichkeit und Unabhängigkeit beider Hände, rhythmische Sicherheit und Musikalität.

Neither the technical nor the tonal scope of larger instruments has been considered, as in my earlier compositions: "Suite", "Four Intermezzos", Miniatures" and "Duo". I have restricted this work to clear musical logic and sensitive musicality in presentation and development of polyphonic performance.

The part playing is not very difficult but needs a degree of technical dexterity and independent action of both hands, rhythmic sureness and musicality.

Für kleine Instrumente ist keine spezielle Registrierung vorgesehen; alles klingt einchörig und wie geschrieben. Die eingeklammerten Registerhinweise sind für größere Instrumente gedacht, damit auch deren Klangmöglichkeiten ausgenutzt werden können. Diese Hinweise sind aber völlig unverbindlich.

Special registration is not provided for small instruments; everything sounds in single voice – at the written pitch. The bracketed registration signs are meant for larger instruments, so that their musical scope can also be utilised. However, these are entirely optional.

Die kleinen Noten im Diskant gelten ebenfalls nur für größere Instrumente mit entsprechendem Tonumfang.

The small notes in the treble also apply only to larger instruments with corresponding tonal scope.

Alle Stücke können auch einzeln vorgetragen werden.

Each piece may be performed on its own.

Anmerkungen für den Spieler

Das Werk ist nur auf Akkordeons mit zusätzlichem Bariton-(Melodie)-Baßmanual spielbar. Dieses Manual muß mindestens folgenden Tonumfang haben:

Notes on performance

This work can only be played on an Accordion with additional baritone (free bass) manual with at least this tonal range:

Remarques pour le joueur

Cette oeuvre ne peut être exécutée qu'avec des accordéons ayant des basses baritons. L'étendue suivante est nécessaire pour pouvoir jouer correctement ce morceau:

Notation

B.B. = Bariton-(Melodie-)Baßmanual
Baritone Bass (Free Bass)
baritone

S.B. = Standard-Baßmanual (120 Bässe)
Standard Bass (120 Stradella)
standard (120 basses)

Das am Anfang des Stückes angezeigte Baßmanual ist bis zum nächstfolgenden Zeichen beizubehalten. Wo das B.B.-Manual gefordert ist, muß jede Note und jeder Akkord so gespielt werden wie notiert. Der Baßfingersatz ist für die Hohner-Baritonbaß-Anordnung (C-Griff) gedacht.

The player should keep on playing on the bass manual indicated at the beginning of each movement, until another manual is indicated, Where the B.B. manual is indicated, every note and chord must be played as written. The bass fingering is for the HOHNER Baritone Bass (C arrangement).

Jusqu'à la prochaine marque l'on doit garder le système qui est désigné au début. Là où le clavier B.B. est précisé, il faut jouer chaque note et chaque accord comme demandé. Le doigté est prévu pour les basses Hohner Bariton (doigté italien).

Registrierung

Für Diskant und Standardbaß wurden die international anerkannten Registersymbole verwendet. Die Symbole für das 2-chörige B.B.-Manual sind neu und haben folgende Bedeutung:

Registration

The internationally accepted switch symbols have been applied for treble and standard bass registration. Some new switch symbols have been contrived for the B.B. manual, which is assumed to contain two sets of reeds, namely.

Registres

Pour les registres côtés chant et basses, les symboles internationaux et reconnus ont été utulisés. Pour les basses baritons à deux voix les nouveaux symboles de registres suivants ont été développés:

einchörig - Grundreihe (8')
= One Reed - fundamental row (8')
une voix - rangée fondamentale (8')

einchörig - hohe Oktave (4')
= One Reed - sounds an octave higher (4')
une voix - octave aiguë (4')

zweichörig - Grundreihe und hohe Oktave (8' + 4')
= Two Reeds - octave coupling (8' + 4')
deux voix - rangée fondamentale et octave aiguë (8' + 4')

Ein „8va"- oder „8va-bassa"-Zeichen über oder unter einem Registersymbol bedeutet, daß solange eine Oktave höher oder tiefer gespielt werden muß, bis Aufhebung erfolgt durch ein weiteres Registersymbol ohne „8va"- oder „8va-bassa"-Vermerk.

An 8va or 8va Basso sign over or under a switch symbol means that the passage following the symbol should be played an octave above or below the written notes - until a change is indicated by another switch symbol WITHOUT an 8va or 8va Basso sign.

Le symbole „8va" ou „8va bassa" au-dessus ou en-dessous d'un symbole de registre signifie qu'on doit jouer une octave plus haute ou plus basse jusqu'à ce qu'un autre symbole de registre suive sans „8va" ou „8va bassa".

Pour accordéon

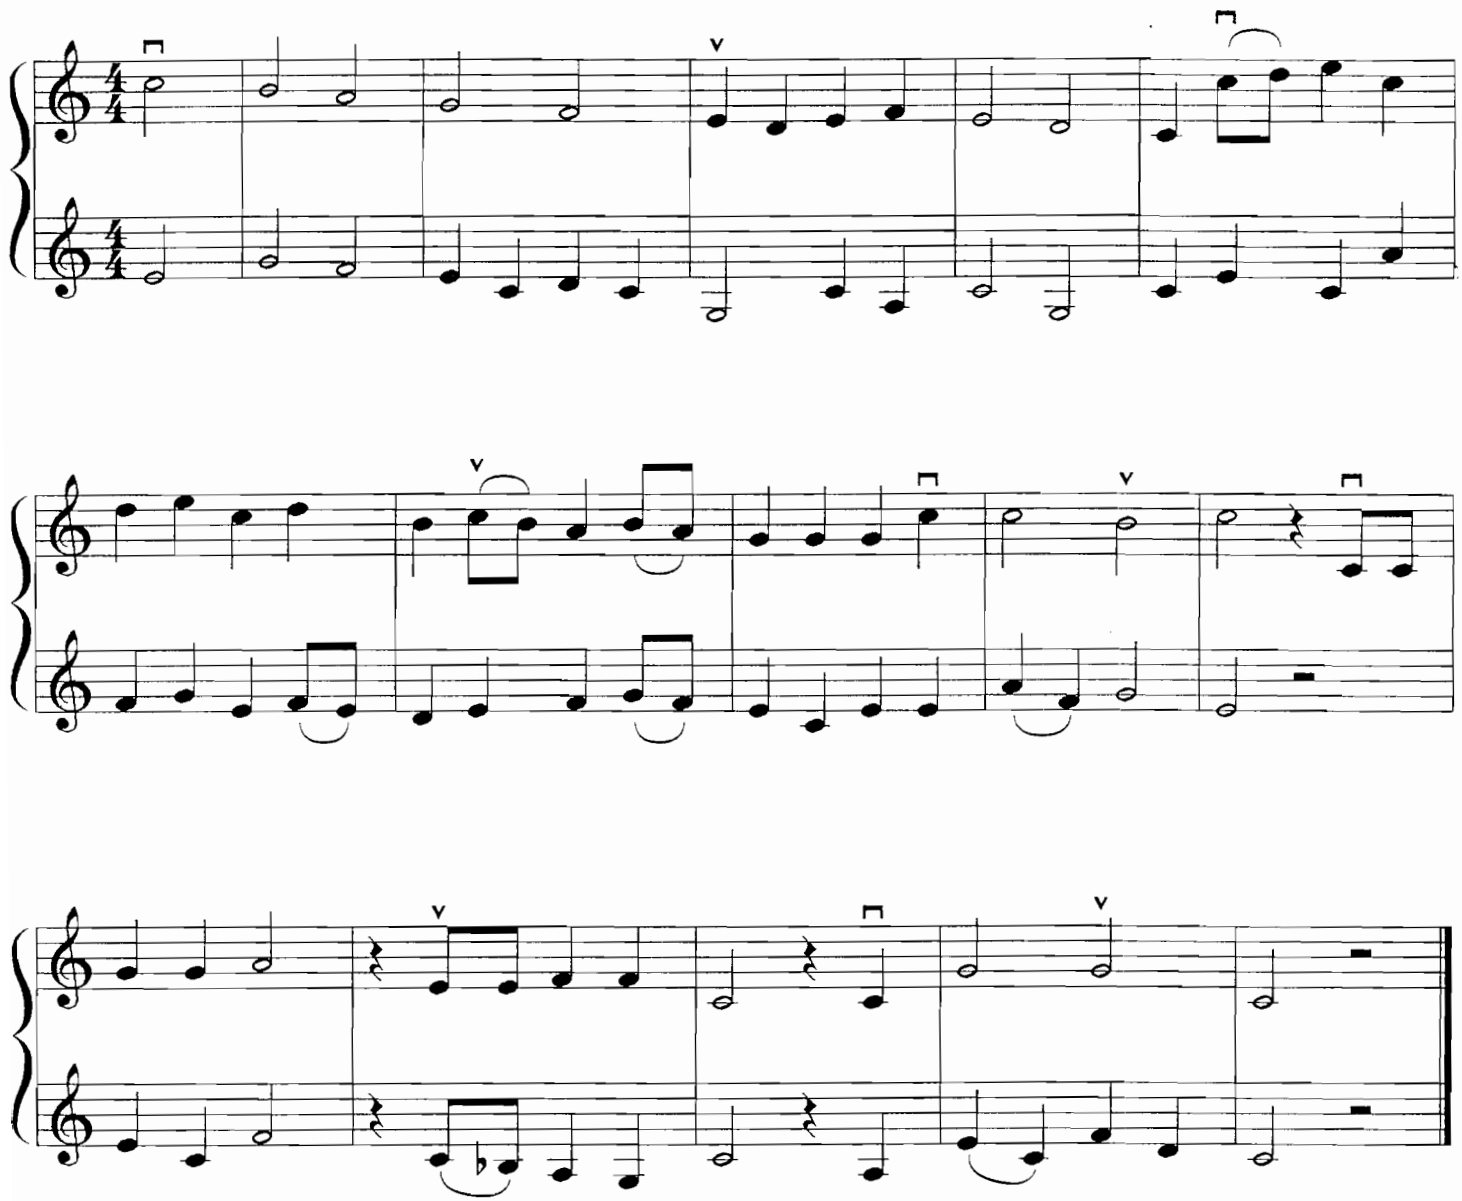

Patrick BUSSEUIL

Ces 10 pièces sont transcrites d'air populaire datant des XV, XVI, et XVIIème siècles. Les indications de nuance, tempo, articulation ne sont pas indiqué. Ces airs facilement joués aux instruments à vent de l'époque, sont particulièrement adaptés à l'accordéon. Cela permet un bon travail d'équilibre entre soufflet et touché. C'est aussi pour l'apprenti accordéoniste l'occasion de découvrir un répertoire riche et varié, mais d'un abord technique facile.

3 minisuites

pour accordéon

Patrick BUSSEUIL

Les "3 minisuites" ont été écrites dans les années 1980. Chacune des suites échelonne de très courtes pièces intégrant la technique dodécaphonique. Chaque pièce travaille sur une ambiance, une expression, et propose un travail multi directionnel pour le jeune élève (vitesses, articulations, jeu expressif, etc...).

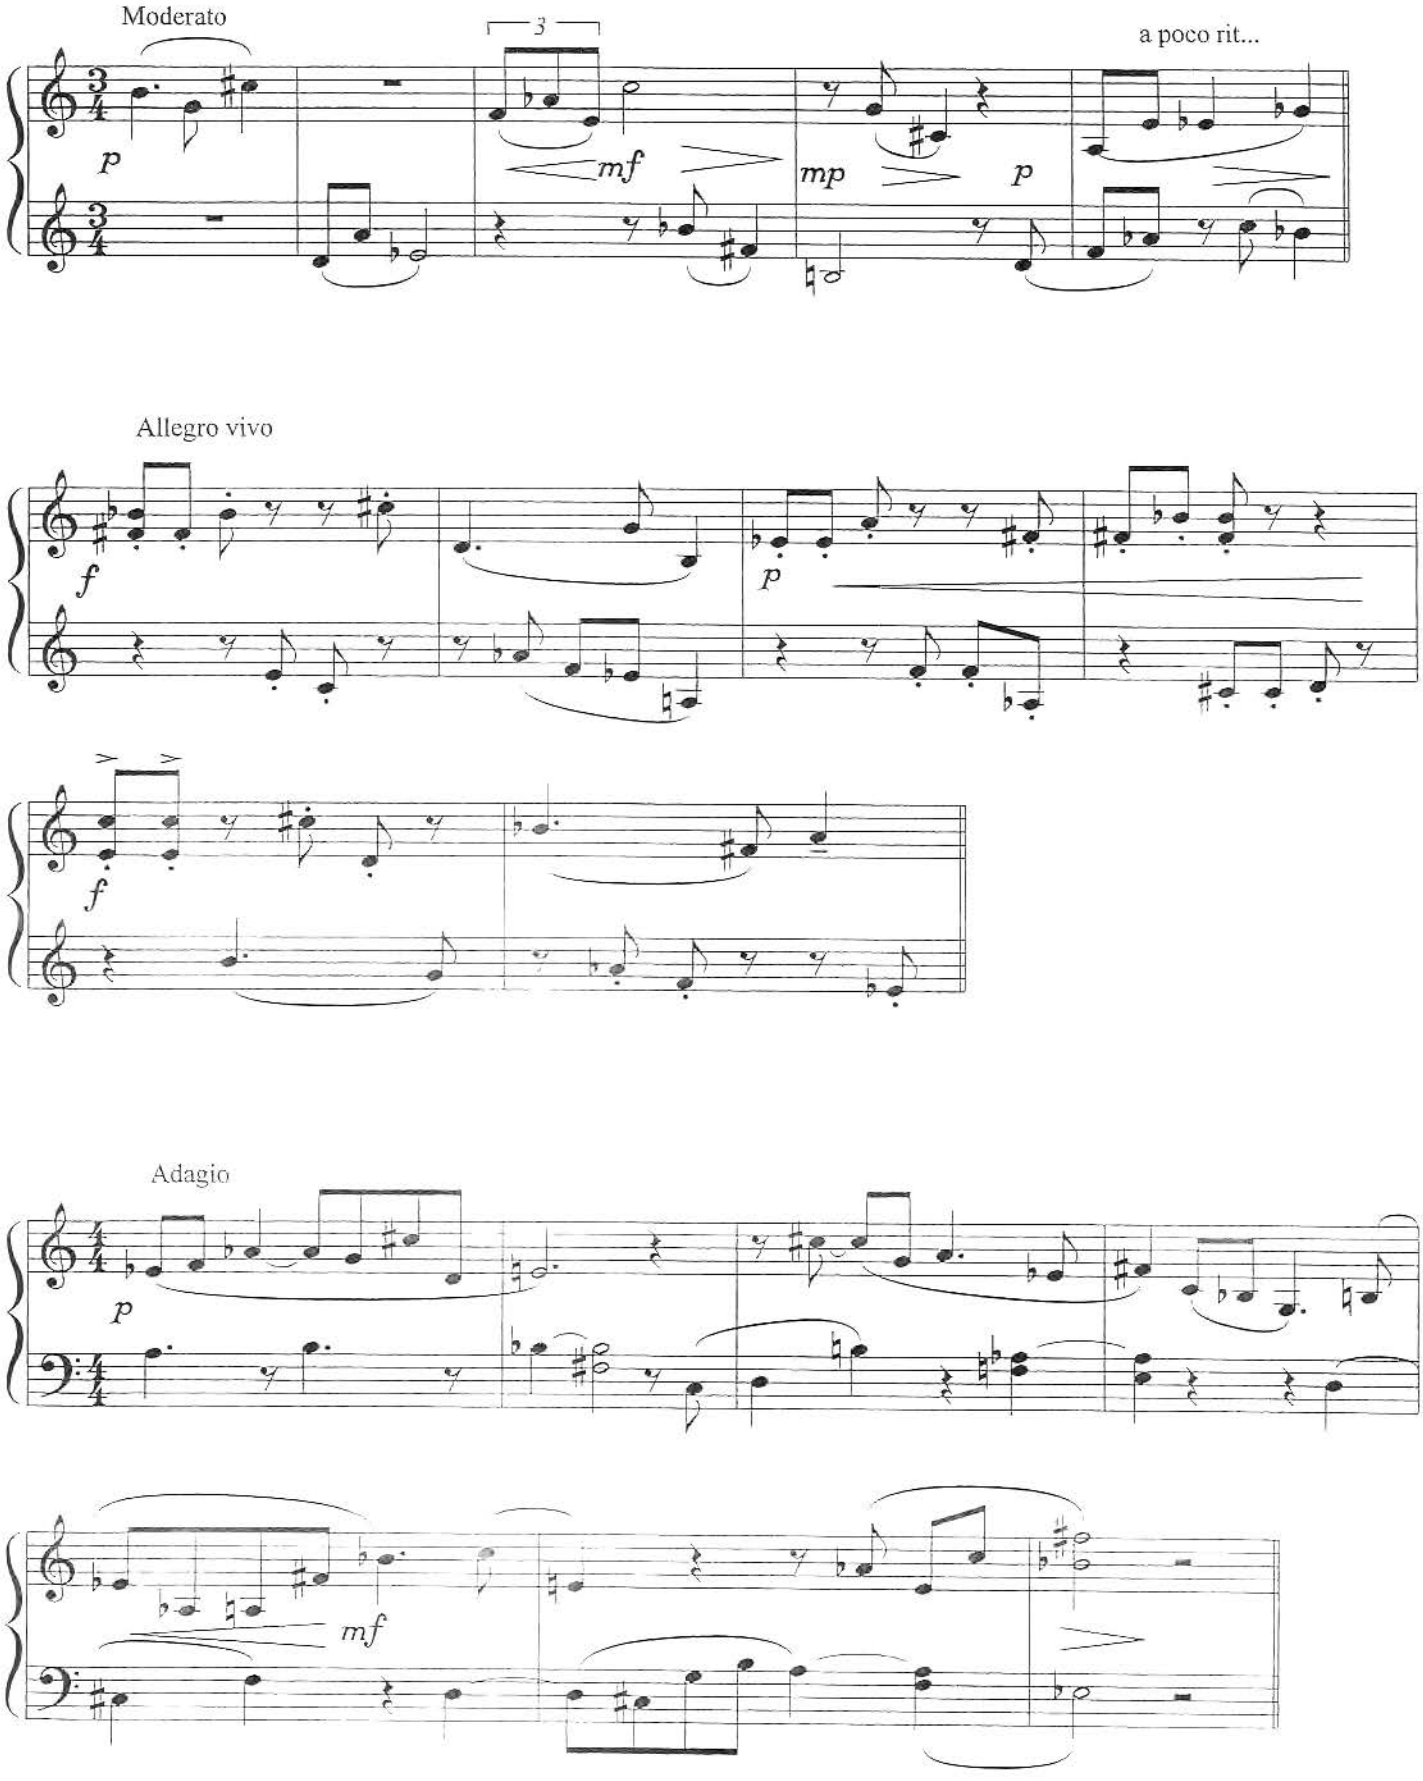

La registration est laissée au choix du professeur et de son élève.

BESPRECHUNG DER KOMPOSITION "SECHS MOMENTE" von Hugo Noth

Die vorliegenden "Sechs Momente" sind geschliffene, aphoristische Stücke absoluter Musik, deren programmatische Titel wohl erst nachträglich unterlegt wurden. Hugo Noth selbst deutet das im Vorwort an, wenn er schreibt, "die neuen Titel geben dem Interpreten eine der vielen Ideen (gemeint sind: Möglichkeiten) zur musikalischen Deutung des Inhalts."

Die programmatischen Titel erleichtern dem jugendlichen Akkordeonisten - für den die Stücke gedacht sind - den Einstieg in die Materie, der mittlere Schwierigkeitsgrad läßt sie für einen breiten Schülerkreis spielbar erscheinen.

Weiterhin mag den Komponisten die Absicht geleitet haben, dem Zufälligen der Abfolge der einzelnen Sätze (Momente), der losen Reihung (Suite), gewissermaßen als Klammer, ein übergeordnetes Programm zu geben. Doch liegt dieses Übergreifende und Sinnstiftende tatsächlich in der Qualität der Stücke - in der Einheit des Stils - , die Disparates zusammenzwingt und eben aus den unzähligen Möglichkeiten die passenden "stimmigen" herausfiltert.

Besonders deutlich wird dieses formale Bemühen im letzten Satz "Ein Tag wie jeder andere". Hier erreicht der Komponist einen überzeugenden Abschluß der Suite, in dem er die einzelnen "Momente" in einem Quodlibet zusammenfaßt. Interessant zu sehen, wie sich hier formale Verdichtung und programmatische Öffnung überschneiden, denn der Titel "Ein Tag wie jeder andere" zielt auf ein offenes, endlos Wiederholtes.

Überflüssig zu betonen, wie sehr diese Komposition dem Einzeltonakkordeon auf den Leib geschrieben ist. Die "Momente" sind eine wesentliche Bereicherung der Akkordeon-Literatur und ohne Vorbehalt zum Studium zu empfehlen.

Zu den einzelnen Sätzen:

1. Aufstehen
   Glockenschläge leiten ein und unterbrechen den Fluß eines modalen Gesanges, der, melismatisch umspielt, durch den begleitenden Ostinato der Baßstimme harmonisch verfremdet wird. Der träumerisch-grüblerische Charakter löst sich auf in einem Glockenschlag, der, horizontalausgebreitet, gewissermaßen aufgefächert als langsames Arpeggio das Stück beschließt - gleich einem Sonnenstrahl, der das Auge des Schlafenden trifft.

2. Waschen
   Ein lustiges, bitonales Tanzstückchen. Tanzrhythmen erklingen und begleiten eine fröhlich in sich kreisende Melodie.

3. Schule
   Zwei Stimmen verbinden sich zu einem dichten, linearen Gewebe. Alles harmonisch Funktionale ist eliminiert - es triumphiert Linie und Intervall.

4. Spiel
   Ein flirrender Ostinato (Bellowshake) als Kanon geführt, gibt die Klangkulisse für eine einfache Hexachordmelodie.

5. Abend
   Nur von einer Kadenz unterbrochen, hören wir einen zweistimmigen Dialog, ein freundliches Zwiegespräch, Ruhe und Entspannung vermittelnd.

Fritz Dobler

V O R W O R T

Meine Idee bei "Sechs Momente" war, originelle und originale fast in Vergessenheit geratene europäische Volkslieder in freier Bearbeitung dem Akkordeon nutzbar zu machen. Die ihrem Charakter nach vieldeutige musikalische Aussage wurde bewußt genutzt und angewendet. Verzichtet aber wurde auf die beim Akkordeon übliche und hinlänglich bekannte Art der Volksliedbearbeitung mit Harmoniekadenzen und primitiven rhytmischen Begleitformeln. Sie haben bisher sowohl dem Akkordeon wie dem Volkslied sehr geschadet. Diese Klischees gilt es zu durchbrechen, wenn wir die reiche Volksliedmelodik aus der Vergessenheit herausholen und zu "neuem Leben" erwecken wollen.
Béla Bartók hat den möglichen Weg dazu gewiesen.
Auf die originalen Titel und Liedtexte wurde verzichtet, ebenso auf eine taktmäßig strenge Kopie des Originals. Die neuen Titel geben dem Interpreten eine der vielen Ideen zur musikalischen Deutung des "Inhalts", welche ich im Original gefunden zu haben glaube.

Ich schließe mich gerne den Worten Domenico Scarlattis an, welche 1738 im Vorwort zu "30 Stücke für Cembalo" im Begleittexterschienen sind.

> "Ob Du Musikliebhaber bist oder Fachmusiker, suche nicht aus diesen Stücken viel Tiefgründiges zu erfahren. Sie wollen eher - mit spielerischer Kunst - Dich an die Meisterschaft des Cembalospiels (Akkordeonspiel) heranführen. Weder persönliche Interessen noch Verlockungen des Ehrgeizes haben mich dazu bewogen, diese Kompositionen zu veröffentlichen, sondern allein mein Pflichtgefühl. Vielleicht gefallen sie Dir. Umso lieber will ich dann, anderen Anregungen folgend, Dich mit einfacheren und auch unterschiedlicher gearteten Stücken erfreuen. Sei dann aber mehr Mensch als Kritiker, und Du wirst mehr Spass daran haben."

Zwanzig Spielstücke

für Akkordeon
nach
europäischen Volks- und Kinderliedern

Musikverlag Heinz Oettinger
7000 Stuttgart 31

V O R W O R T

Die Spielstücke dieser Sammlung wollen dem Anfänger eine Handhabe bieten, ihm nach Möglichkeit die Probleme zu vermitteln, denen er bei Beginn des Akkordeonspiels begegnet. Die Stücke sind für das erste oder auch für die ersten beiden Jahre im Akkordeonspiel gedacht. Sie sind entsprechend ihrer technischen oder musikalischen Schwierigkeit fortschreitend angeordnet, doch kann der Lehrer diese Reihenfolge je nach Anlage des Schülers abändern.

Die Tempoangaben brauchen bei den ersten Stücken nur annähernd realisiert zu werden. Sobald der Schüler aber Fortschritte macht, werden sie bindend und sollten daher eingehalten werden. Die Registerangaben sind, soweit es die Instrumente erlauben, einzuhalten.

Der Herausgeber empfiehlt, die Spielstücke auch von anderen Tonstufen aus transponierend zu spielen oder die Manuale (I - III) auszutauschen, wie z.B. auf den Seiten 8 und 10. Ebenso kann eine Übertragung von gewissen Stücken versucht werden. Es kann sich aber dabei nur um "strenge" Übertragungen mit Oktavverdoppelung nach Art des Clavecins (Cembalo) handeln. Einige Stücke (Seite 3,5,9) könnten so mit zwei Akkordeons gespielt werden, mit einem zweiten Spieler, der sie eine Oktave höher spielt.

Der fortgeschrittene Spieler kann sich dieser Spielstücke auch für das Blattspiel bedienen.

H U G O N O T H

ANWEISUNGEN ZUR AUSFÜHRUNG:

Besonders wichtig ist, daß der Schüler zunächst die technischen Vorgänge sowie den Charakter der Stücke erfaßt und sie daraufhin "musikalisch" zu spielen lernt.

Die Fingersätze sind für C-Griff Knopf-Akkordeons gedacht. Die unterstrichenen Zahlen bedeuten (IV od. V) Reihe. Für die Piano-Tastatur sind die Fingersätze gesondert angegeben.

Ein „8va„ - oder ein „8va basso„ -Zeichen über oder unter einem Registersymbol (für M I und M III) bedeutet, daß solange eine Oktave höher oder tiefer gespielt werden muß, bis eine Aufhebung durch ein anderes Registersymbol ohne einen „8va„- oder „8va basso„-Vermerk erfolgt.

Ein '-Zeichen zeigt Phrasenabschnitte an. Sie können durch Balgstop oder Balgwechsel deutlich gemacht werden.

1. Strolling Home

In the 1st, 2nd, 5th, 6th, 13th, and 14th measures the student should move the 5th finger up and down with as little a break in sound as possible between the first G and the next one. (>) is used as a reminder to diminish the amount of pressure on the bellows near the end of a phrase.

3. Gliding

The repeated E in the 5th and 6th measures should be performed in exactly the same manner as the repeated G in piece No. 1.

4. In the Glen

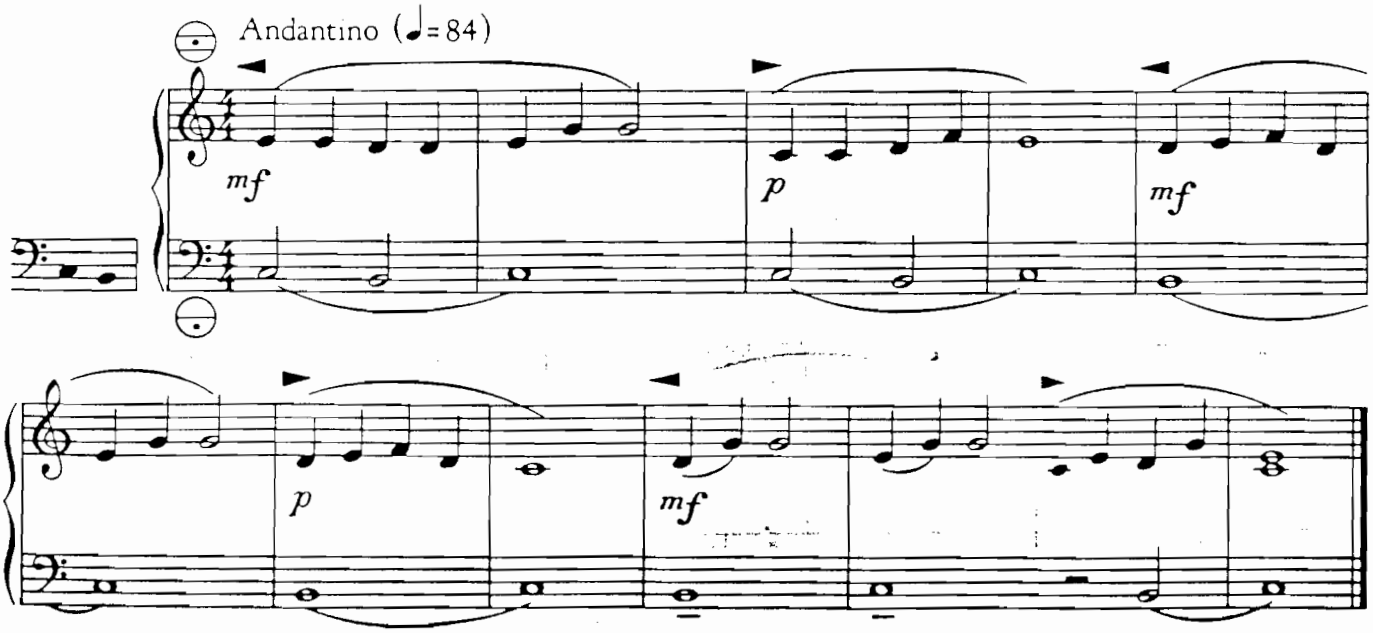

To prevent running out of air at the end of this piece, start with the bellows slightly open.

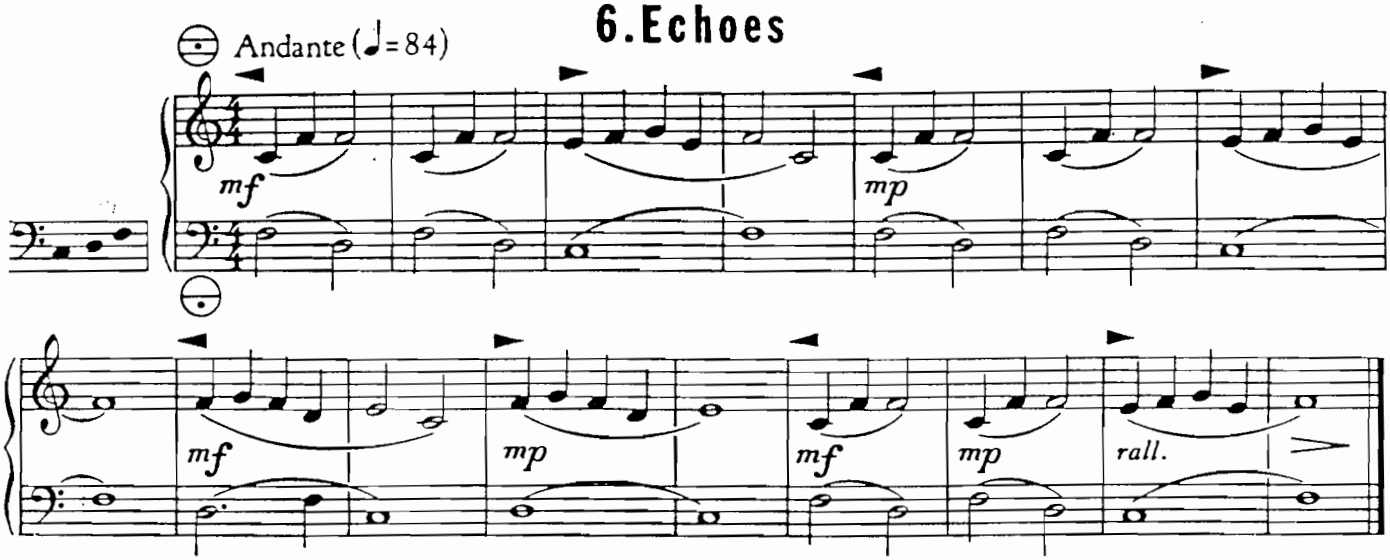

5. Loudly and Softly

The remark concerning the repeated G's in piece No. 1 applies to all of the notes in this piece which occur twice in succession, i. e. in the 1st, 2nd, 3rd and 6th measures, but not in the 9th and 10th measures — notice where the SLUR ends !

The line over the whole notes on the bass stave in the 9th and 10th measures means that there should be a slight separation between one note and the next to avoid playing these notes "legato".

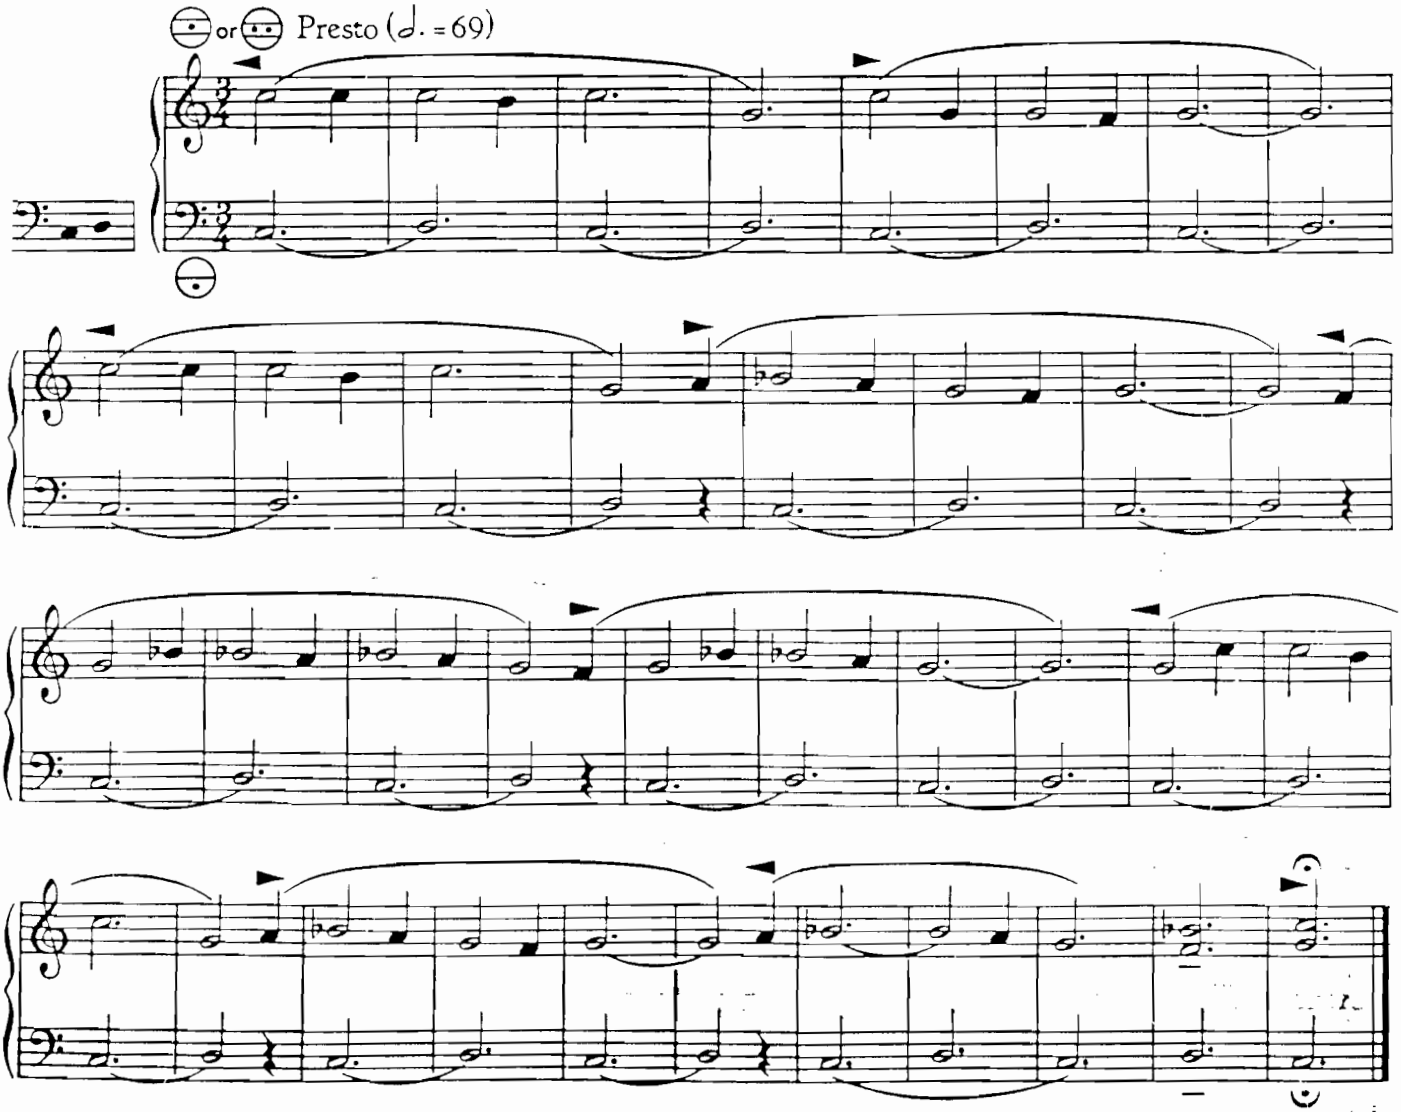

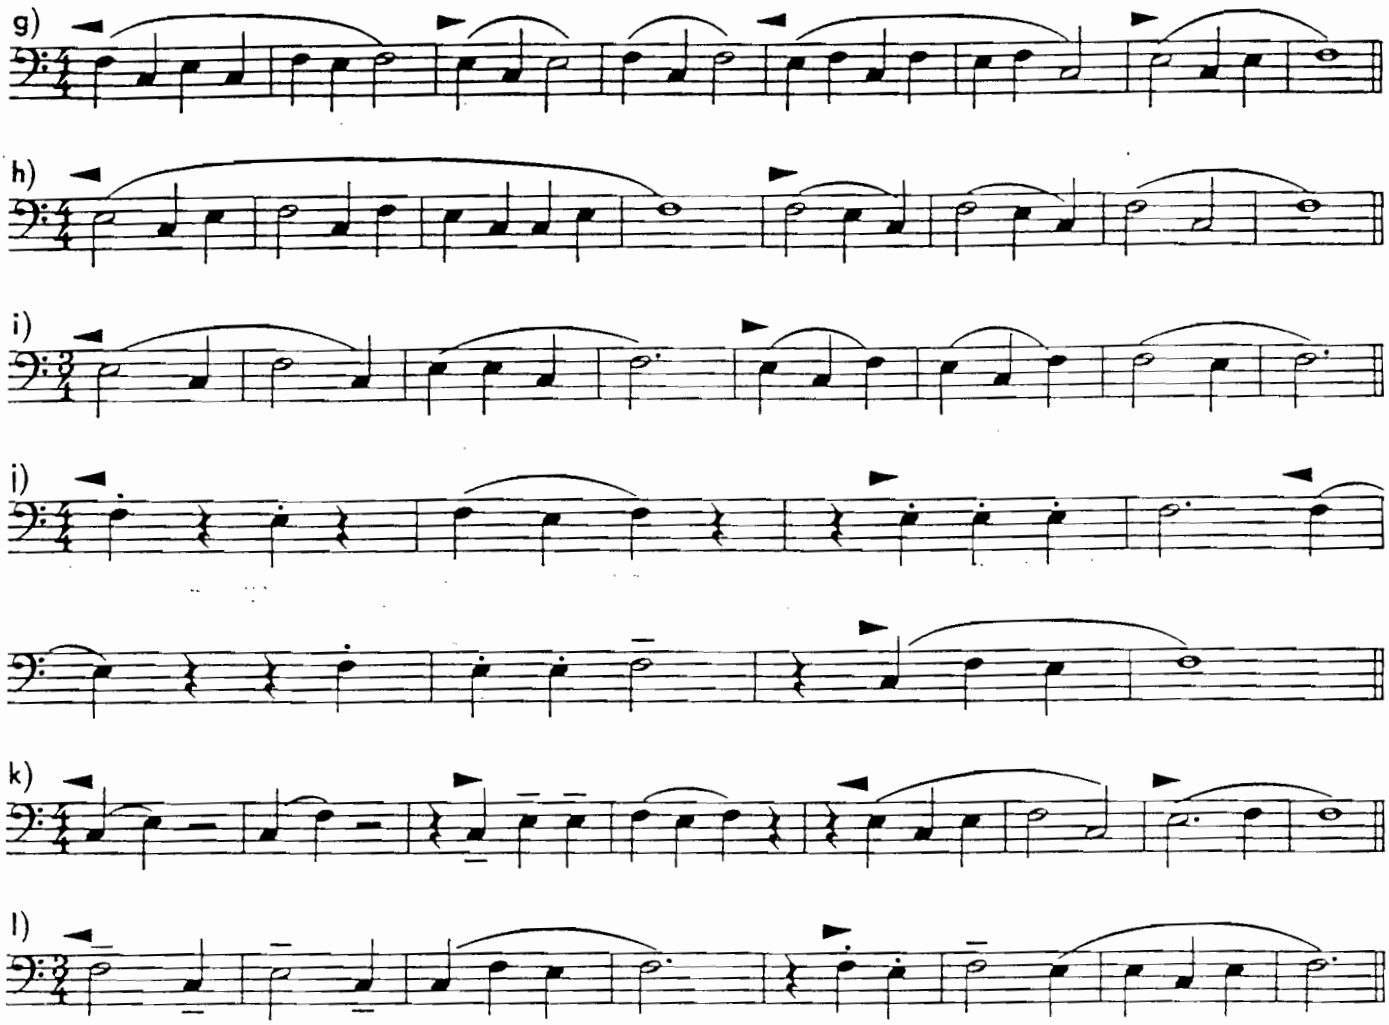

6. Echoes

7. Summer Song

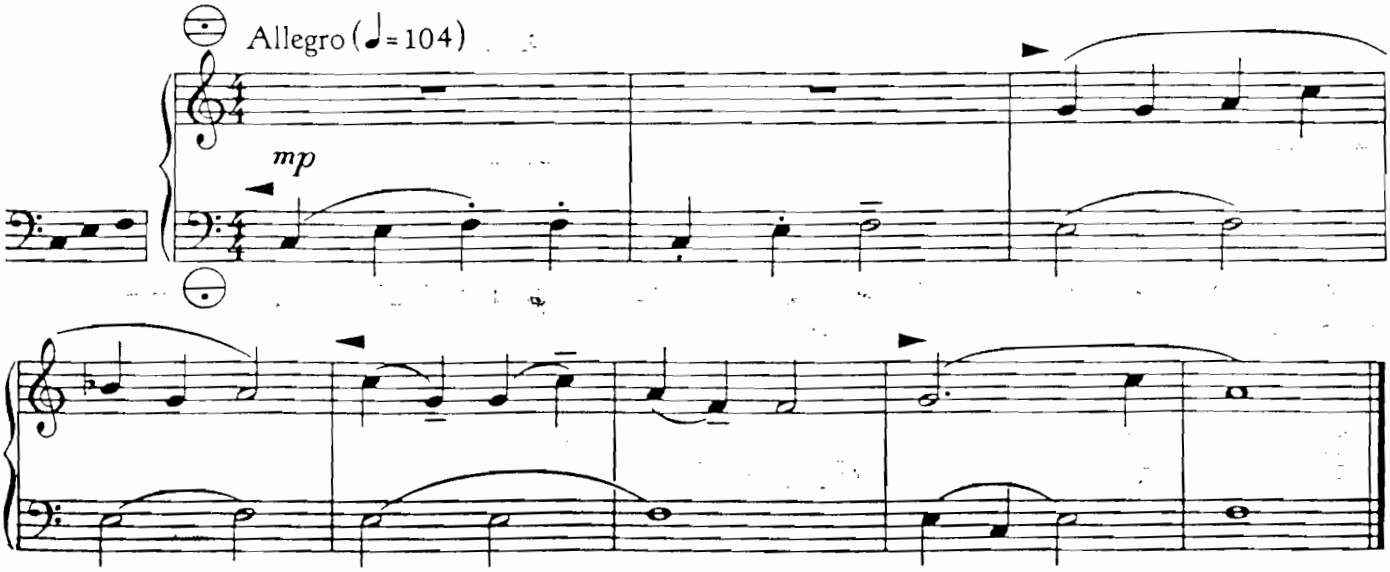

In the left hand, join every C to the D which follows, as the slurs show, but make a slight break after every D (as shown by the 'ends' of the slurs) except the D in the fourth measure from the end.

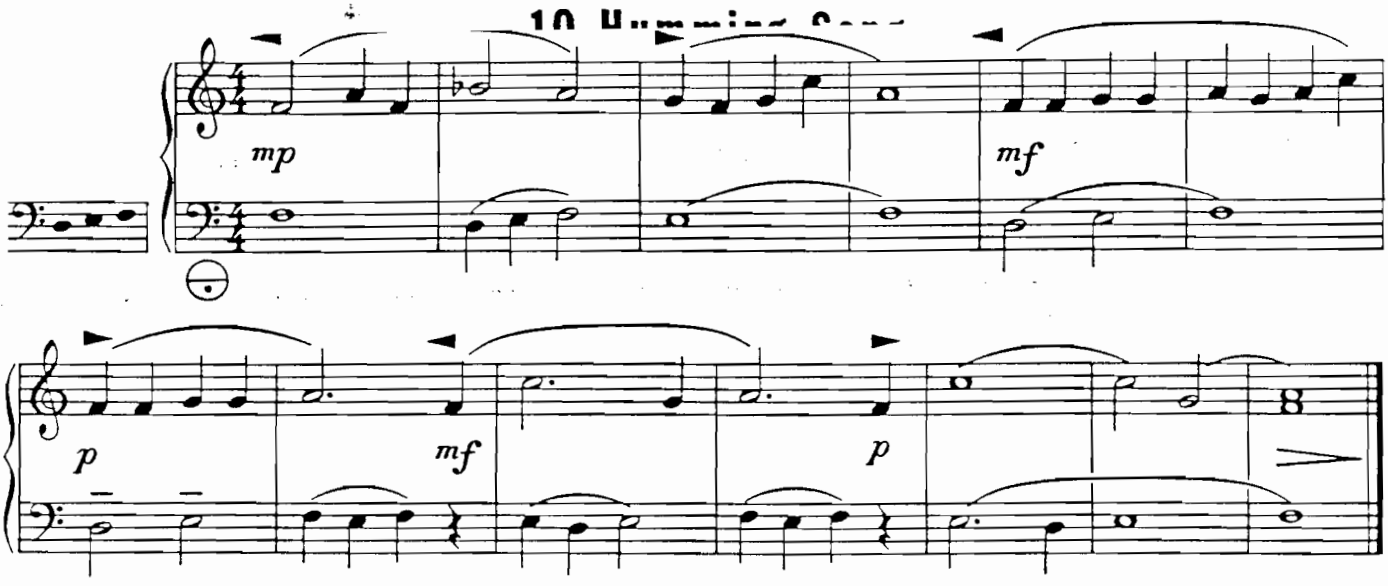

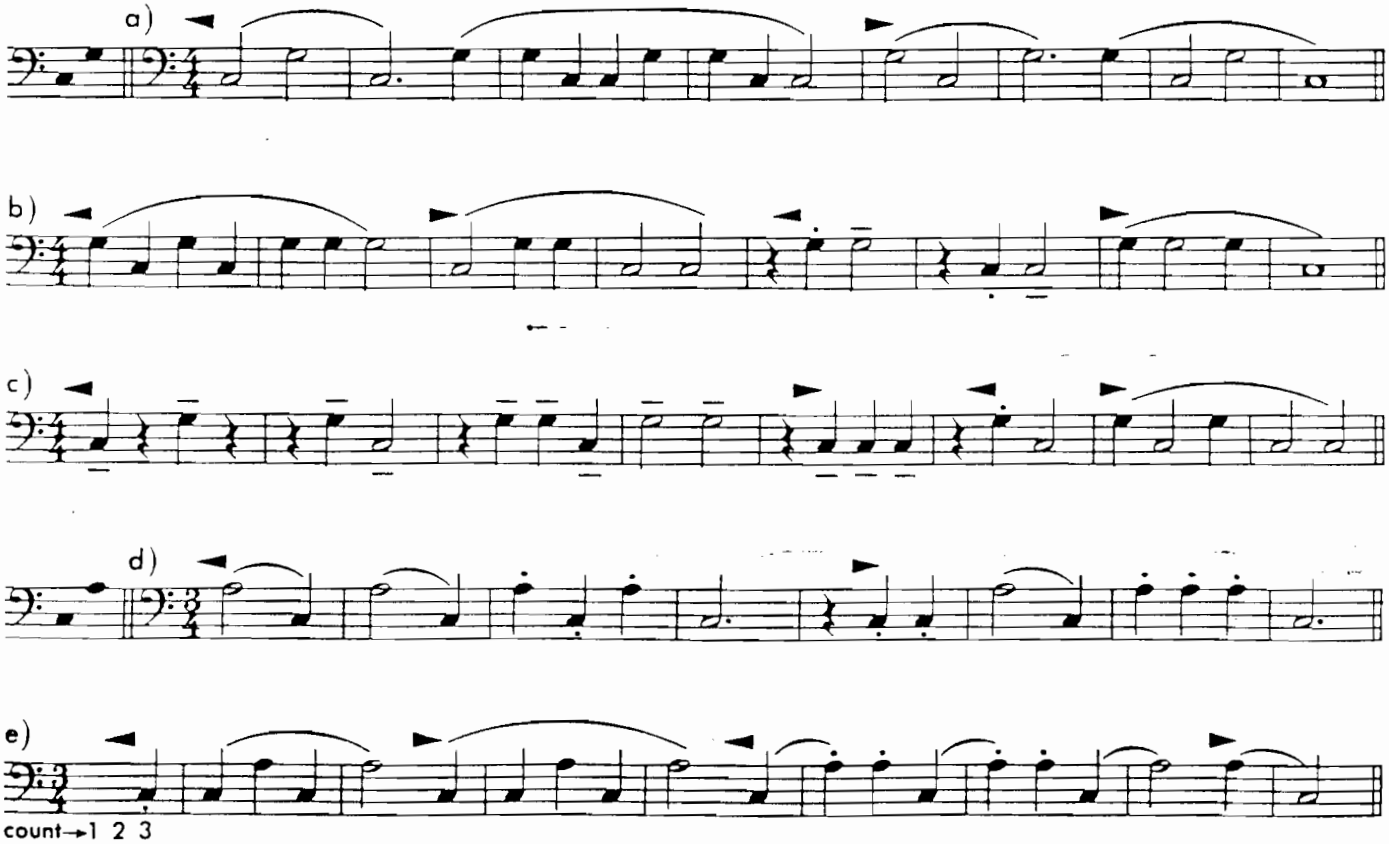

9. Hop And Roll

From the 3rd to the 4th measures and 7th to the 8th measures there is a break across the barline with the left hand but not with the right hand, as the slurs show.

Die in der Sammlung *Der müde Hampelmann* zusammengefaßten kleinen (im Sinne von nicht umfangreichen) Kompositionen sind sowohl technisch als auch musikalisch für junge Spielerinnen und Spieler ausführbar. Stücke tänzerischen und eher besinnlichen Charakters ergänzen einander zu einem farbigen Mosaik, für das die Natürlichkeit der musikalischen Sprache bezeichnend ist. Formale Anlage, Artikulation und Dynamik helfen, den Gehalt der kleinen Kompositionen zu erfassen und wiederzugeben.

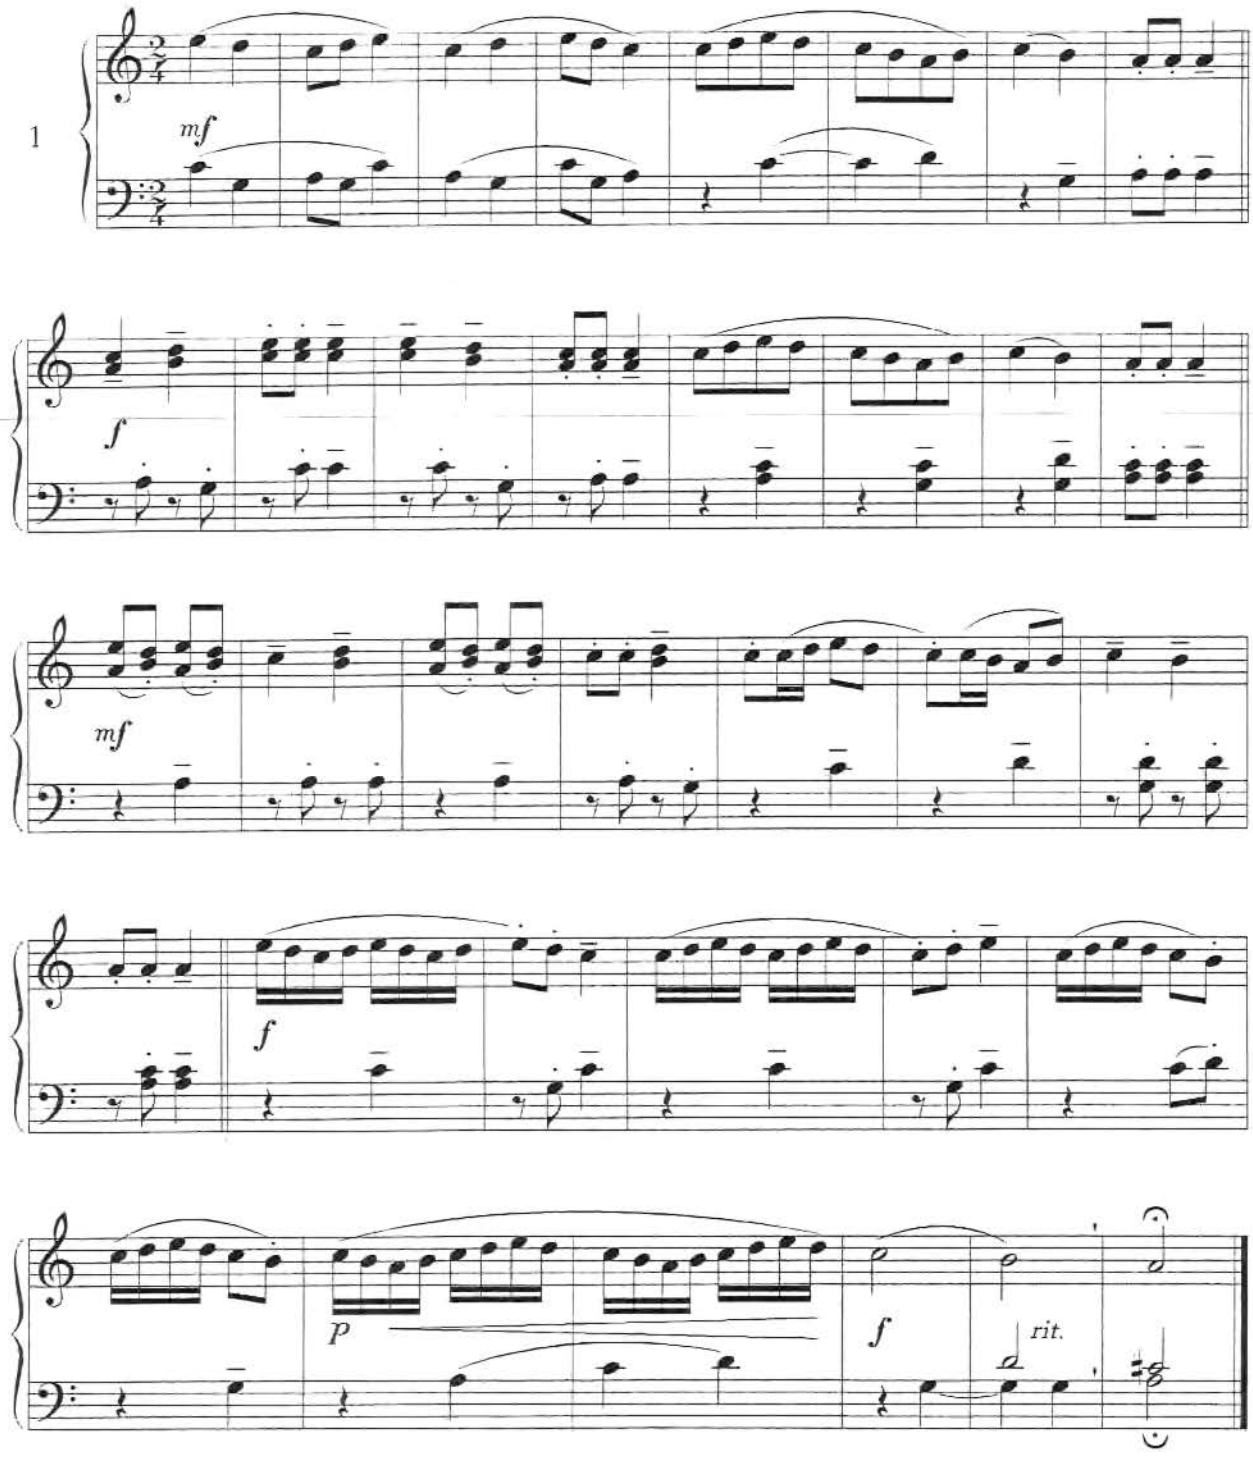

Durch die Arbeit mit diesen Stücken lernen Kinder und Jugendliche, daß lebendiges Gestalten möglich wird, wenn Musizierfreude und Ernsthaftigkeit in der Auseinandersetzung zusammenkommen.

Ralf Kaupenjohann, Bleckstraße 1a, 44809 Bochum

Lajos Papp (1935 in Debrecen/Ungarn geboren) studierte am Konservatorium in Debrecen Klavier und Komposition, anschließend Komposition und Dirigieren an der Franz-Liszt-Musikakademie in Budapest. 1960 erhielt er sein Diplom für Komposition. Von 1971 bis 1973 war er Stipendiat in Basel, wo er Komposition und Dirigieren in den Meisterklassen von Klaus Huber und Helmut Lachenmann studierte. Musikalisch und musikpädagogisch ist er Béla Bartók verpflichtet. Seit 1973 lebt er in Oldenburg/Oldbg.

Lajos Papp komponierte die *44 leichten Stücke für Akkordeon* für den Anfangsunterricht auf dem Einzeltonakkordeon im Sommer 1989. Wer oder was letztlich den Anstoß zu diesen kleinen Kompositionen gegeben hat, ist kaum zu sagen. Es waren sehr verschiedenartige Eindrücke, die Lajos Papp vom Instrument und von den Menschen, die es spielten, im Laufe von Jahren gesammelt hat: Ihn beeindruckte das Spiel von Ivan Koval, er beobachtete die musikpädagogische Arbeit im Fachbereich Akkordeon an der Musikschule der Stadt Oldenburg, er ließ sich Unterrichtsliteratur zeigen, informierte sich über die möglichen Tonumfänge - es war ein allmähliches Wachsen.

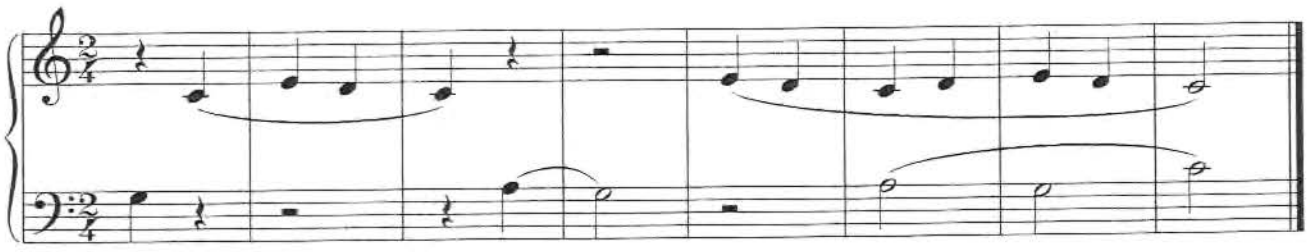

Den Stücken liegt die Idee zugrunde, Kindern über Pentatonik und modale Tonarten einen natürlichen Zugang zum musikalischen Erleben und Gestalten zu weisen.

In der praktischen Arbeit hat sich herausgestellt, daß die Kinder diese Stücke mit sehr viel Freude musizieren.

Vorwort

Die vorliegenden „Miniaturen" gehören zu einer Werkreihe mit Übungs- und Vortragsstücken, die eine gleichmäßige Ausbildung beider Hände fördern und den Spieler schon auf der Unterstufe mit polyphoner Musik vertraut machen soll.

Zur Ausführung eignen sich am besten Instrumente mit Melodiebaß-Manual. Die Stücke können aber mit guter Wirkung – wenn auch nicht immer mit dem gleichen Klangergebnis – auch auf Standardbaß-Instrumenten gespielt werden.

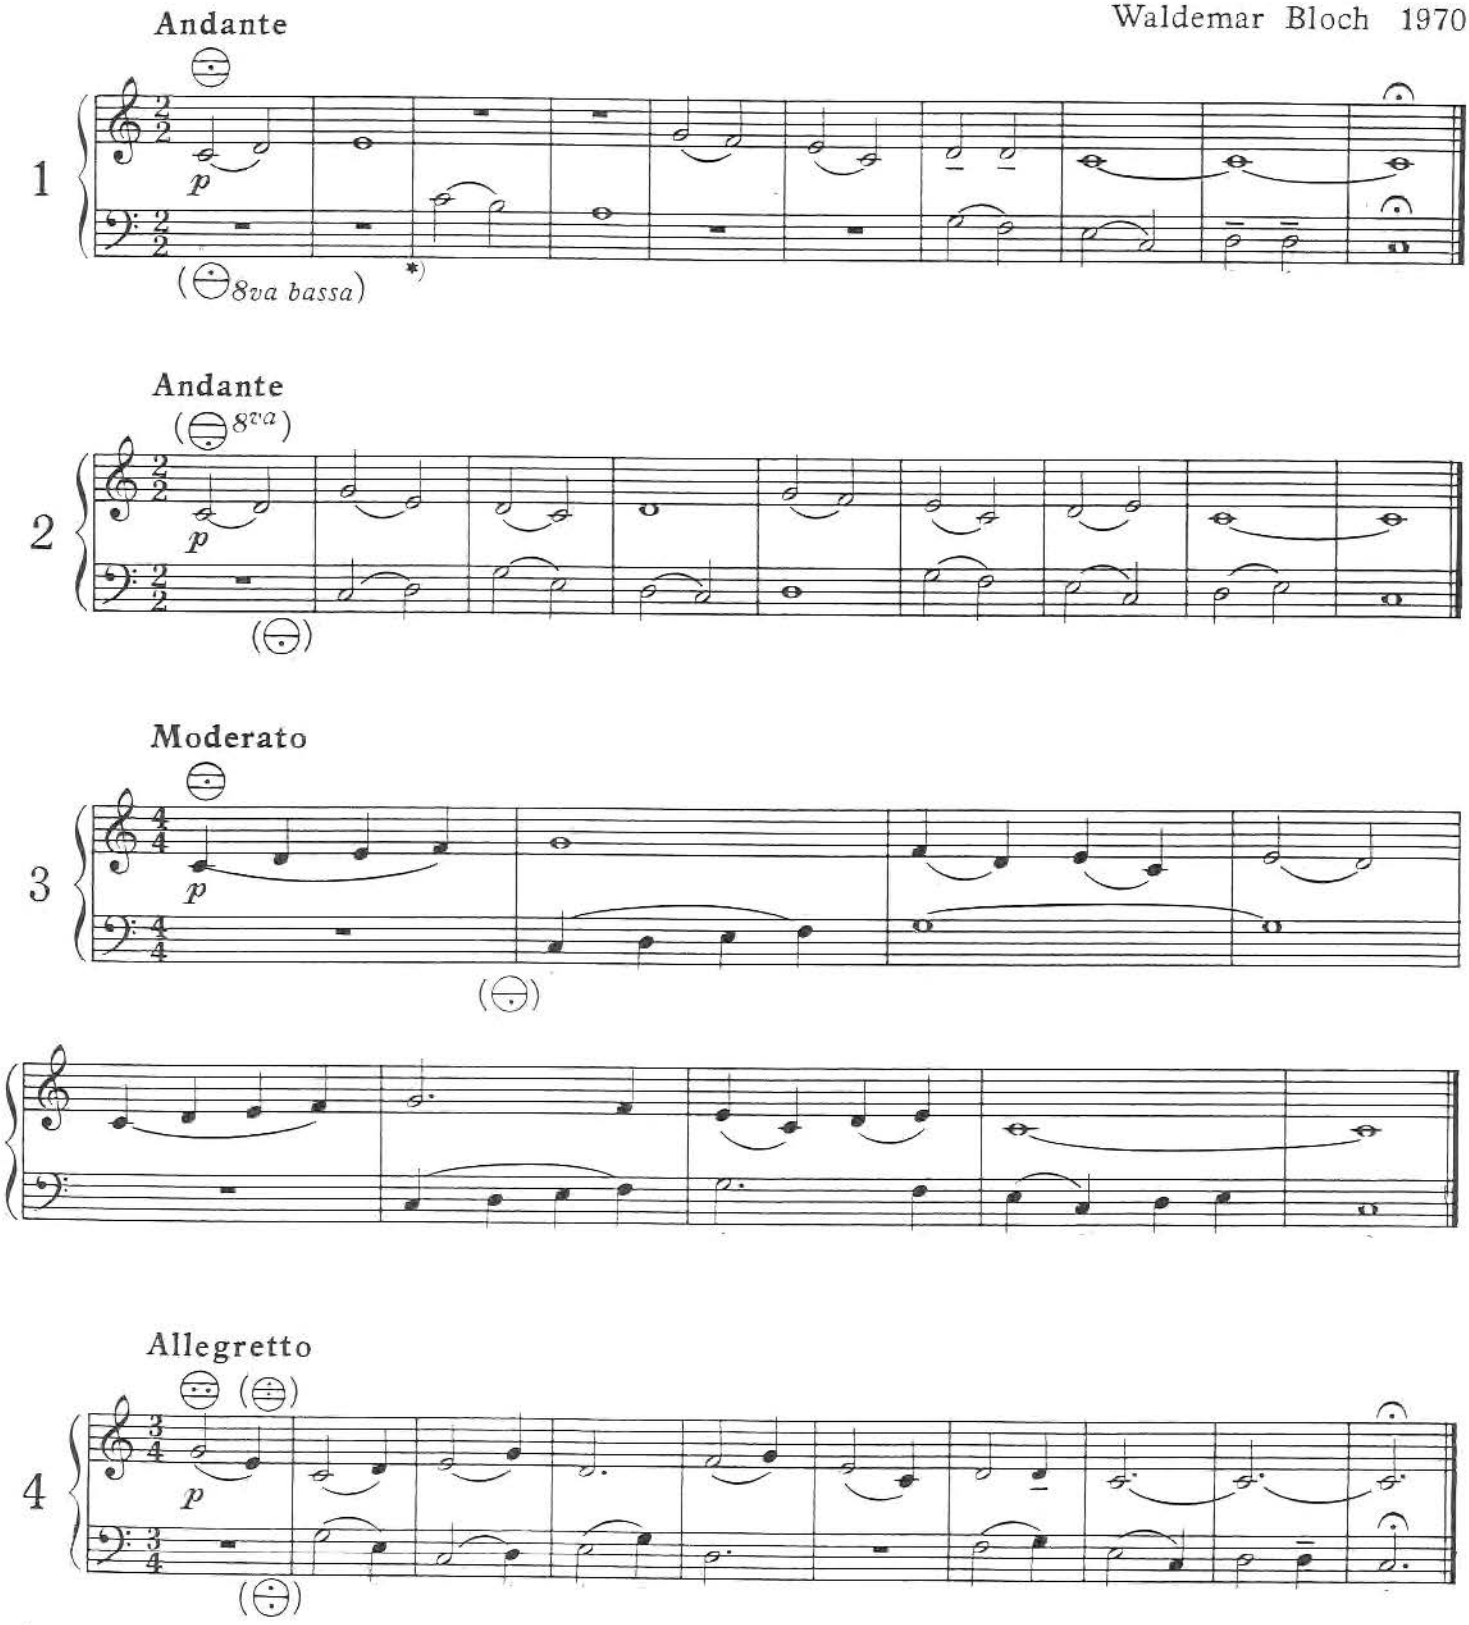

Die Fingersätze für die linke Hand gelten nur für Melodiebaß-Instrumente (C-Griff-Anordnung), die eingeklammerten Registerzeichen für zweichörige Melodiebaß-Manuale. Im Diskant wurde mit Rücksicht auf die Verschiedenheit der verbreiteten Instrumententypen auf Fingersatzangaben verzichtet. Die Diskantregister sind für kleine und mittlere Instrumente gedacht. Registervorschläge für größere Akkordeons stehen in Klammern.

Balgzeichen wurden nicht angegeben, weil die einzelnen Instrumententypen in ihrem Luftverhalten doch ziemlich unterschiedlich sind. Es muß hier dem Lehrer überlassen bleiben, die erforderliche Unterweisung zu geben.

Kummitusjuhlat

(Ghostparty)

Sarja harmonikalle

(Suite for accordion)

Petri Makkonen (1967-):

Kummitusjuhlat

Ghost Party

Kummitusjuhlat (1999) on Suomen harmonikansoiton opettajien tilausteos lapsille opiskelu- ja kilpailumateriaaliksi. Tilaajan toivomuksen mukaisesti teoksen ääniala on erittäin suppea ja tekninen vaatimustaso mahdollisimman kohtuullinen. Samalla sarja on tutustumispaketti dodekafoniaan eli 12-säveljärjestelmään: kaikki teoksen sävelet on johdettu seuraavasta rivistä: c d f a e cis dis gis ais h fis g. Perusrivi esiintyy sellaisenaan avausosassa, toisen osan rivi alkaa perusrivin toisesta sävelestä, kolmas osa kolmannesta jne. Lisämateriaalia sarjan osiin on saatu mm. kulloisenkin rivin erilaisista käännöksistä, omituisuutta on pyritty hillitsemään tonaalisuuden ja erilaisten kertausten avulla. Kummitusjuhlien kolmas tavoite on luonnollisesti mielikuvituksen vapaa lento, jolle vauhtia antanevat osien otsikot.

DAVID BARNETT

WATERLOO

The Registration:

This composition has been written according to EXACT PITCH NOTATION. i.e., the pitch indicated on the staff is the exact pitch of the LOWEST sounding set of reeds.

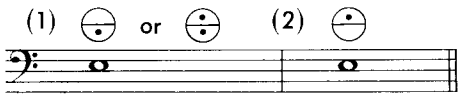

EXAMPLE

The above three notes are to be played at exactly the same pitch level (i.e., a perfect fourth above middle C).

The hand position on the keyboard must be changed to accommodate the pitch of the low reed in (1), the middle reed (the LOWEST sounding reed) in (2), and the high reed in (3).

SIMILARLY

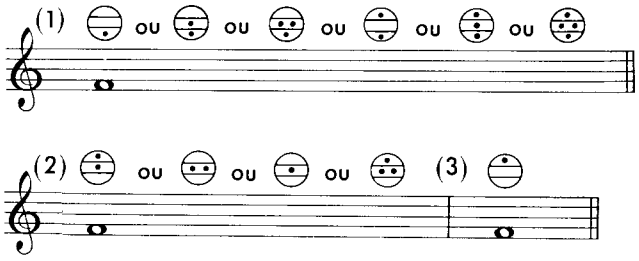

are played at the same pitch level. Only the choice of reeds (and therefore tone colour) is different.

Where is not available substitute  or .

Sur la Registration :

Cette composition a été écrite à la NOTATION EXACTE DU DIAPASON, ex., le ton indiqué sur la portée est le ton exact de la anche la plus BASSE.

EXEMPLE

Les trois notes ci-dessus doivent être jouées exactement au même niveau de son (ex., une quarte parfaite au-dessus du Do).

La position de la main sur le clavier devrait être changée pour harmoniser le son de la basse anche dans (1), de la anche moyenne (le son de la anche le PLUS BAS) dans (2) et la anche haute dans (3).

SIMILAIREMENT

Pražský speciálník

II

Bajky

Editio Supraphon

Nová předmluva
pro mé mladší přátele

Také v tomto druhém dílu „Pražského speciálníku" najdete vedle skladeb s krátkými anekdotickými texty ze života zvířat několik skladeb beze slov, u nichž jenom název napovídá jejich příběh. Odhalíte ho opět sami? Věřím, že máte k tomu dost a dost bohaté fantazie a když budete chtít, napište si třeba svůj vymyšlený obraz přímo k notám nebo s ním překvapte své milé doma spolu s hudbou.

Hodně zdaru při vymýšlení povídaček i při hraní!!

a pro jejich učitele

Skladby druhého dílu „Pražského speciálníku" jsou k sobě řazeny tak, aby tvořily uspokojivý cyklus, avšak při zachování určitých okruhů jednotlivých problémů polyfonní hry: První dvě „bajky" pokračují ve volném dvouhlasu prvního dílu zvýšenými nároky na samostatnost obou rukou. Po nich přichází dvouhlas jen v pravé ruce jako příprava trojhlasé hry (č. 3 – 7), po něm jeho kombinace a střídání s děleným dvouhlasem obou rukou (č. 8, 9), spojení dvouhlasu pravé s třetím hlasem v levé ruce (č. 10 – 12), samostatný dvouhlas v levé ruce (č. 13, 14) a nakonec, v posledním kousku, kombinace všech uvedených problémů.

Part levé ruky je vypracován jak pro nástroj se standartním basem (obdélníčkové rejstříky, prstoklady normálními číslicemi), tak pro školní nástroj s basem melodickým (čtverečkové rejstříky, prstoklady ležatými číslicemi). Pro nástroje s rozsahem klaviatury f-f^3 jsou některá místa upravena a označena *ossia*.

Veřejně je možno hrát „Bajky" samostatně, beze slov, ale již kvůli některým názvům bude asi výhodnější napřed zarecitovat text. Poněvadž řada těchto skladeb má miniaturní rozměry, doporučuji při provedení slučovat jich několik do malé svity.

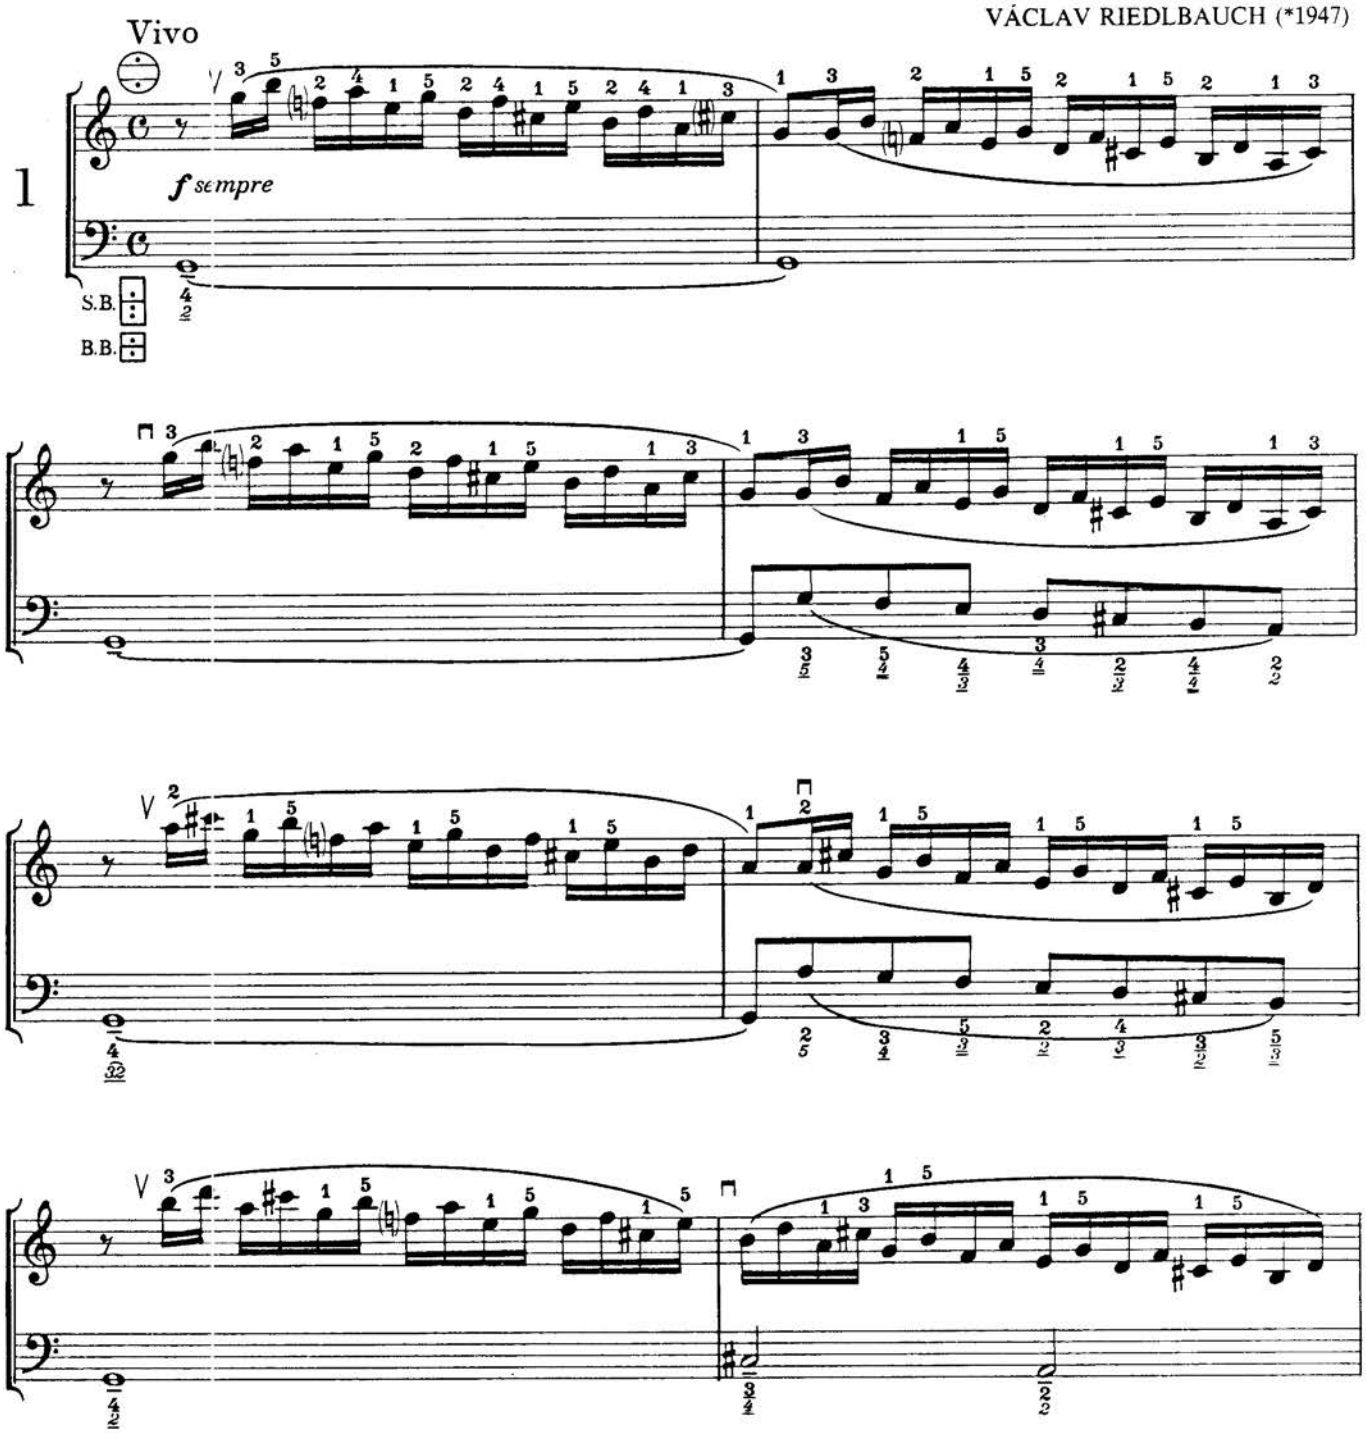

autor

Texty jsou dílem Jana Riedlbaucha (č. 1, 3 – 5, 7, 9 – 12, 14, 15) a Pavla Juriče (č. 6).

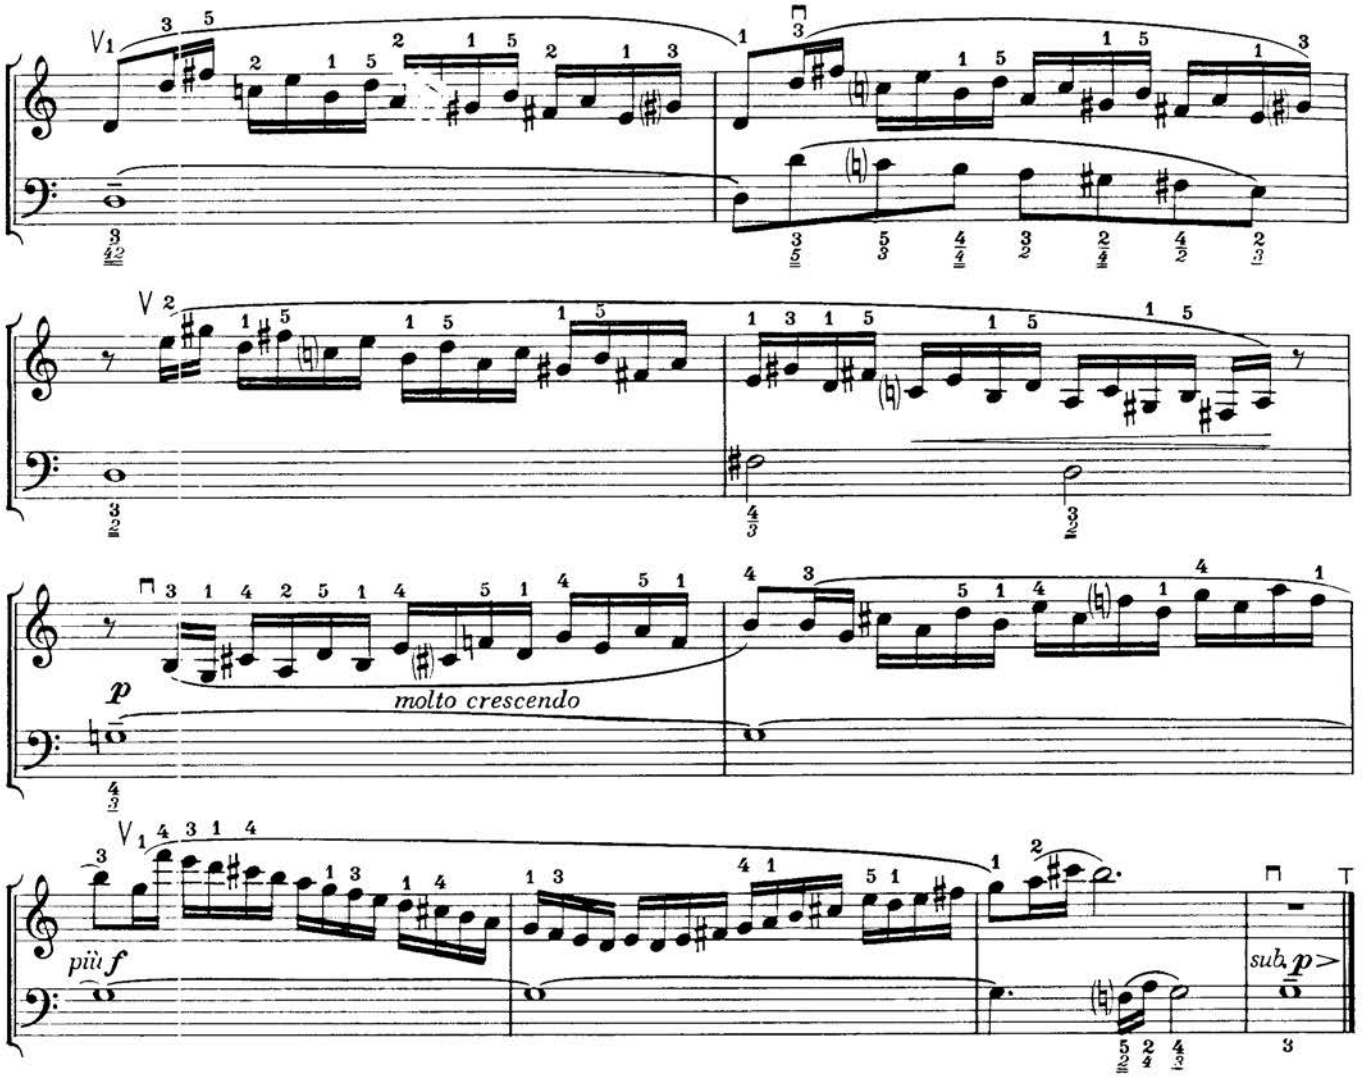

Zebra

„Hádej, proč jsem černobíle pruhovaná!",
s vážným pyskem pravila zebra zvědavé opičce.
„To nevím," pravila lítostivě zvědavá opička.
„Ha, háá!, já taky ne", rozchechtala se zebra.

Orel a sova

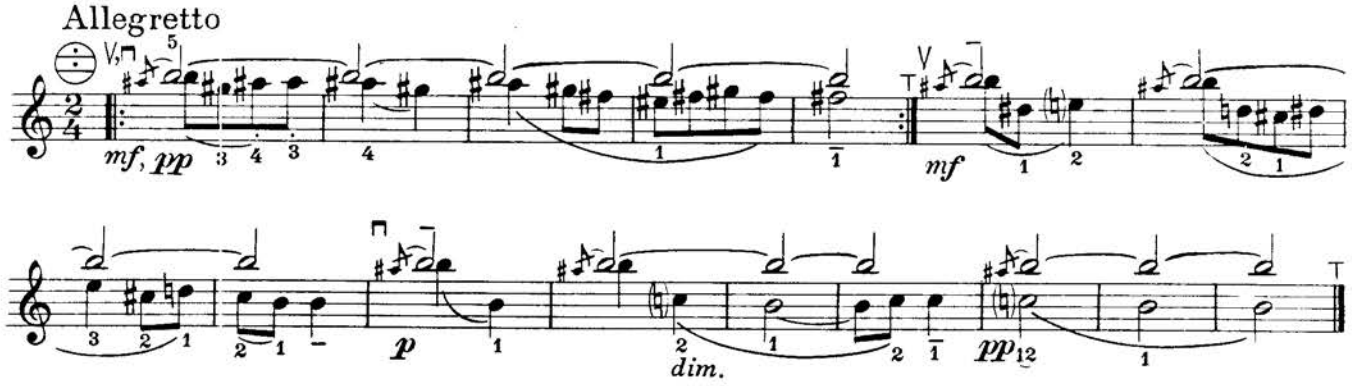

Orel si přiletěl pro radu k sově – ptačí doktorce.
„Ztrácím orlí zrak!", naříkal.
„Jé, to jest legrační, já zase ztrácím schopnost léčit oční neduhy",
utěšovala ho dobrácky sova.
„To se musí zapít", zasténal orel.
A že byl krátkozraký, zapili to vodou ze studánky.

Kuna

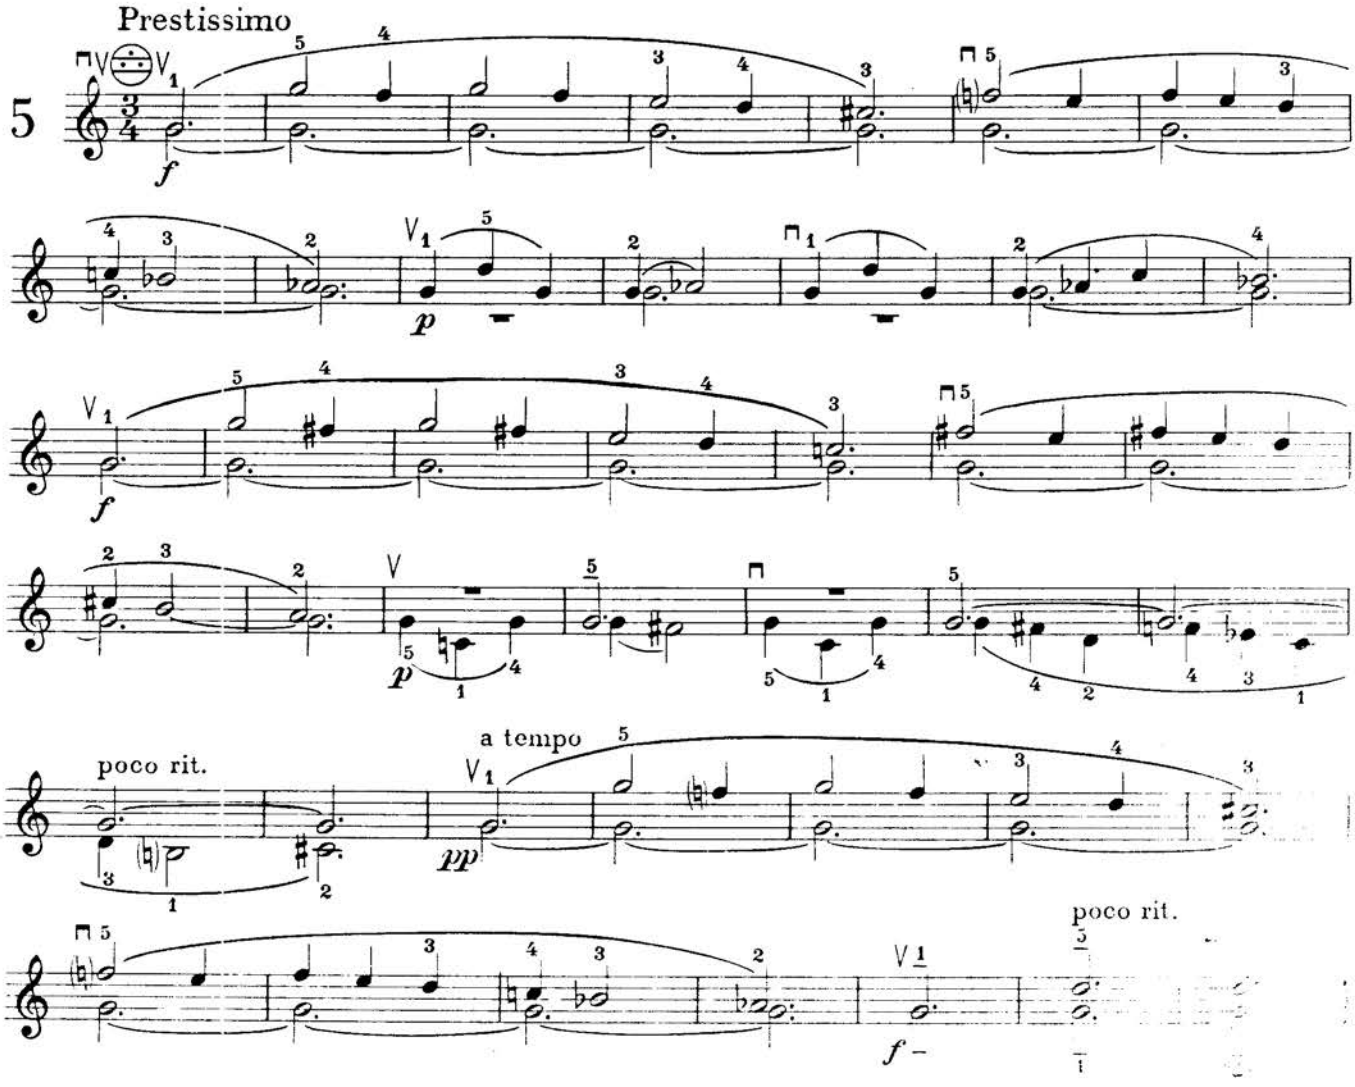

Kuna lapila veverku, právě když si pochutnávala na oříškách.
„Ó, pardón, vzácná paní", lichotkou vyjekla
veveruška se srdíčkem hodně vzadu pod ocáskem.
„Hledám naléhavě Popelčiny zlaté šaty."
„Na co ty potřebuješ zlaté šaty? Hned maž pryč!",
poroučela kuna parádnice, které nestačil její nádherný kožíšek.
Veverka se nedala dvakrát pobízet a skok, skok! –
hajdy do bezpečí!
A kuna parádnice? Hledá ty Popelčiny šaty dodnes.

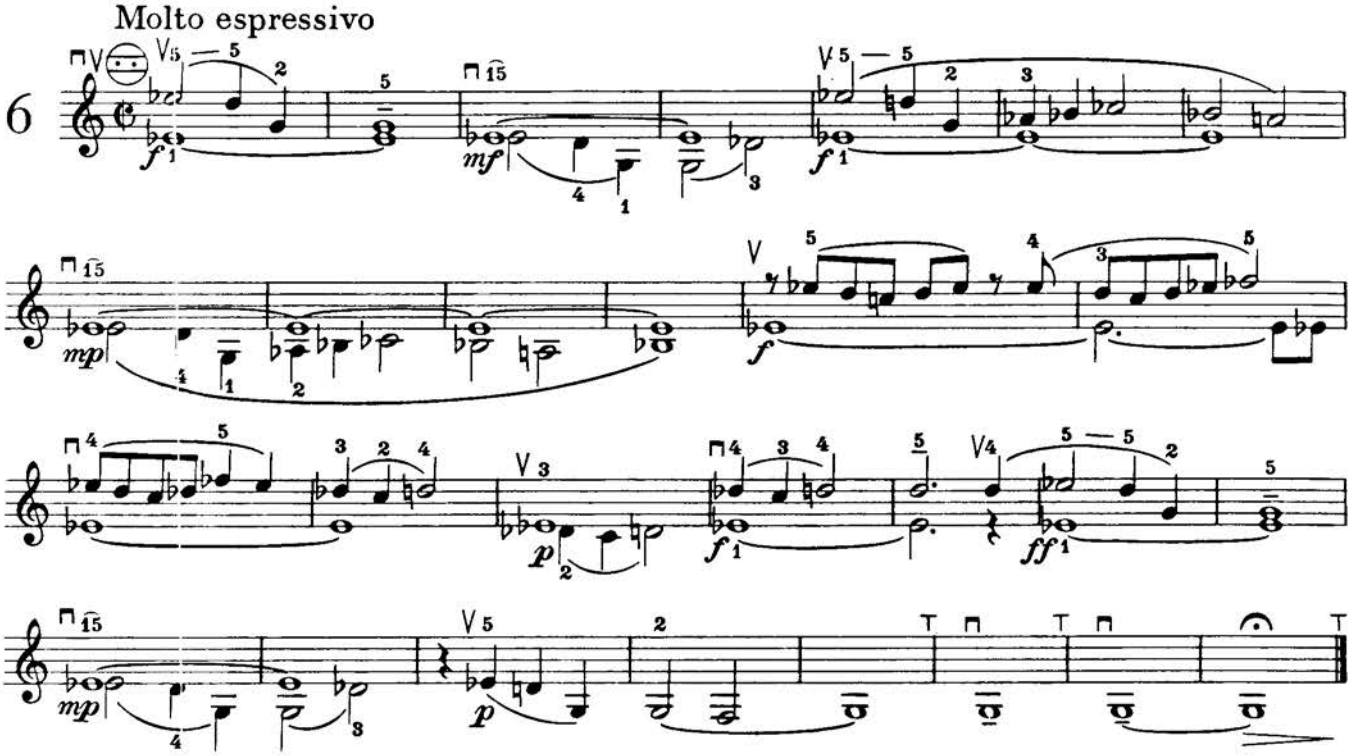

O býkovi

Toreador elegantně a pánovitě mává svým červeným hadrem,
stojí s vitězným úsměvem a čeká.
Rozzuřený býk vyrazí z druhého konce arény
a když se dostane k němu na čtyři metry,
zazní toreadorovi do uší mezi zběsilým dusotem:
„Co blázníš, člověče, já jsem stejně barvoslepej!!"

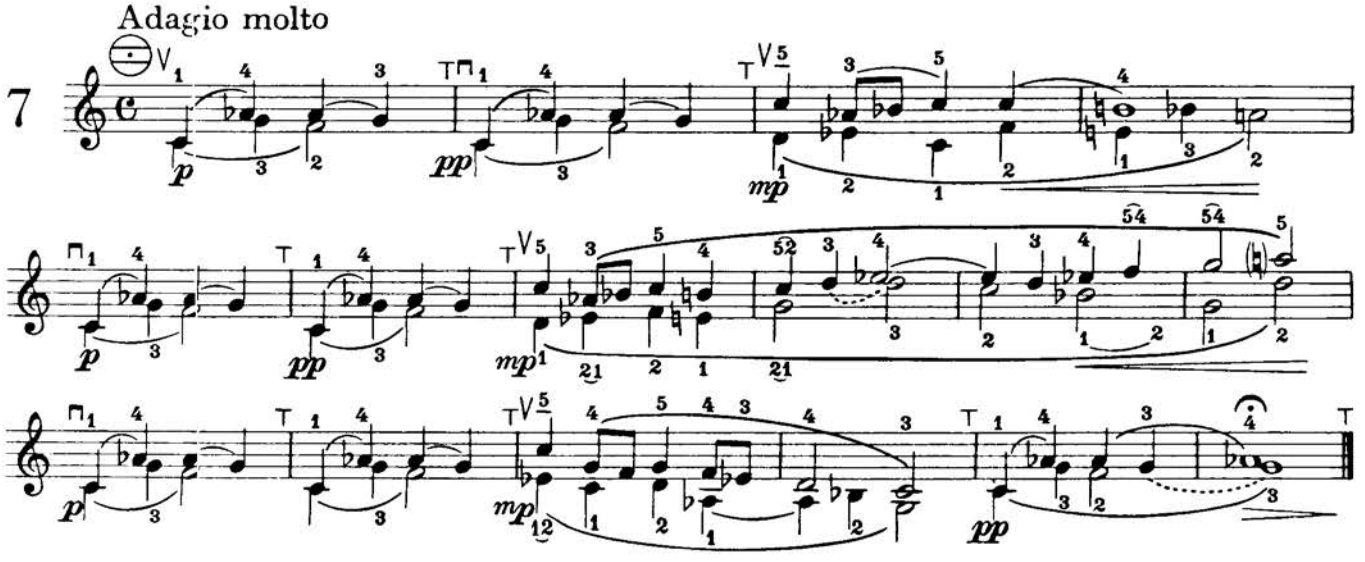

Dva pštrosi

Z hromady písku čouhaly dva pštrosí zadky.
„Je mě ještě vidět?", zeptal se z hromady dutý hlas.
„Kdepak!", odpověděl mu z hromady hlas stejně dutý.

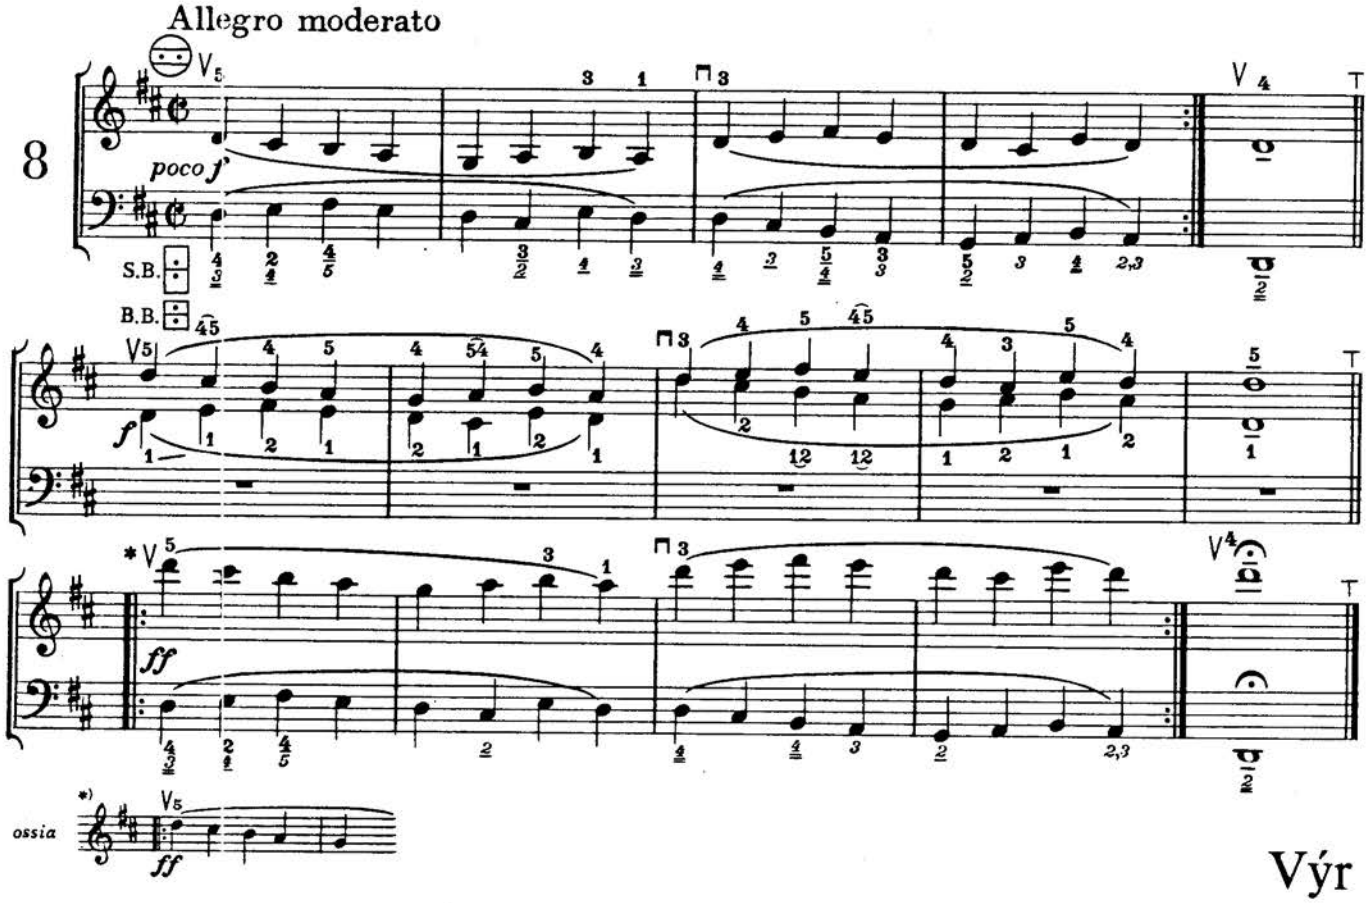

Ježkovo trápení

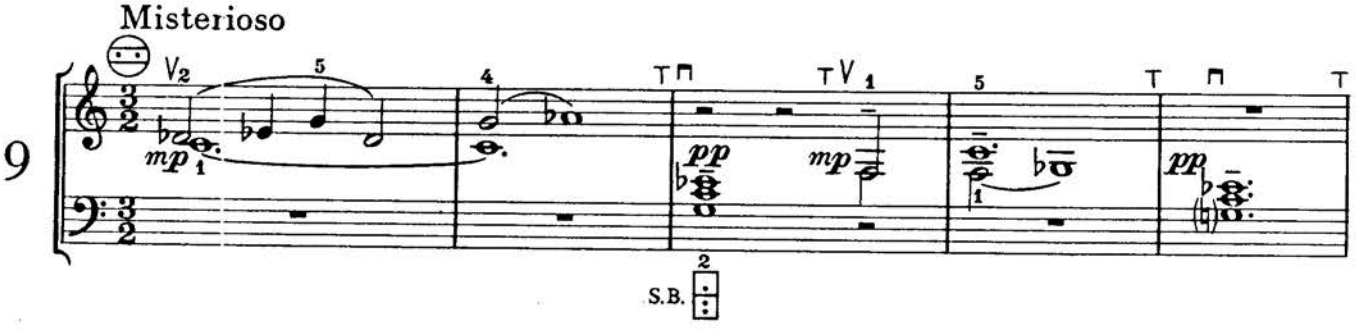

Krysa a kočka

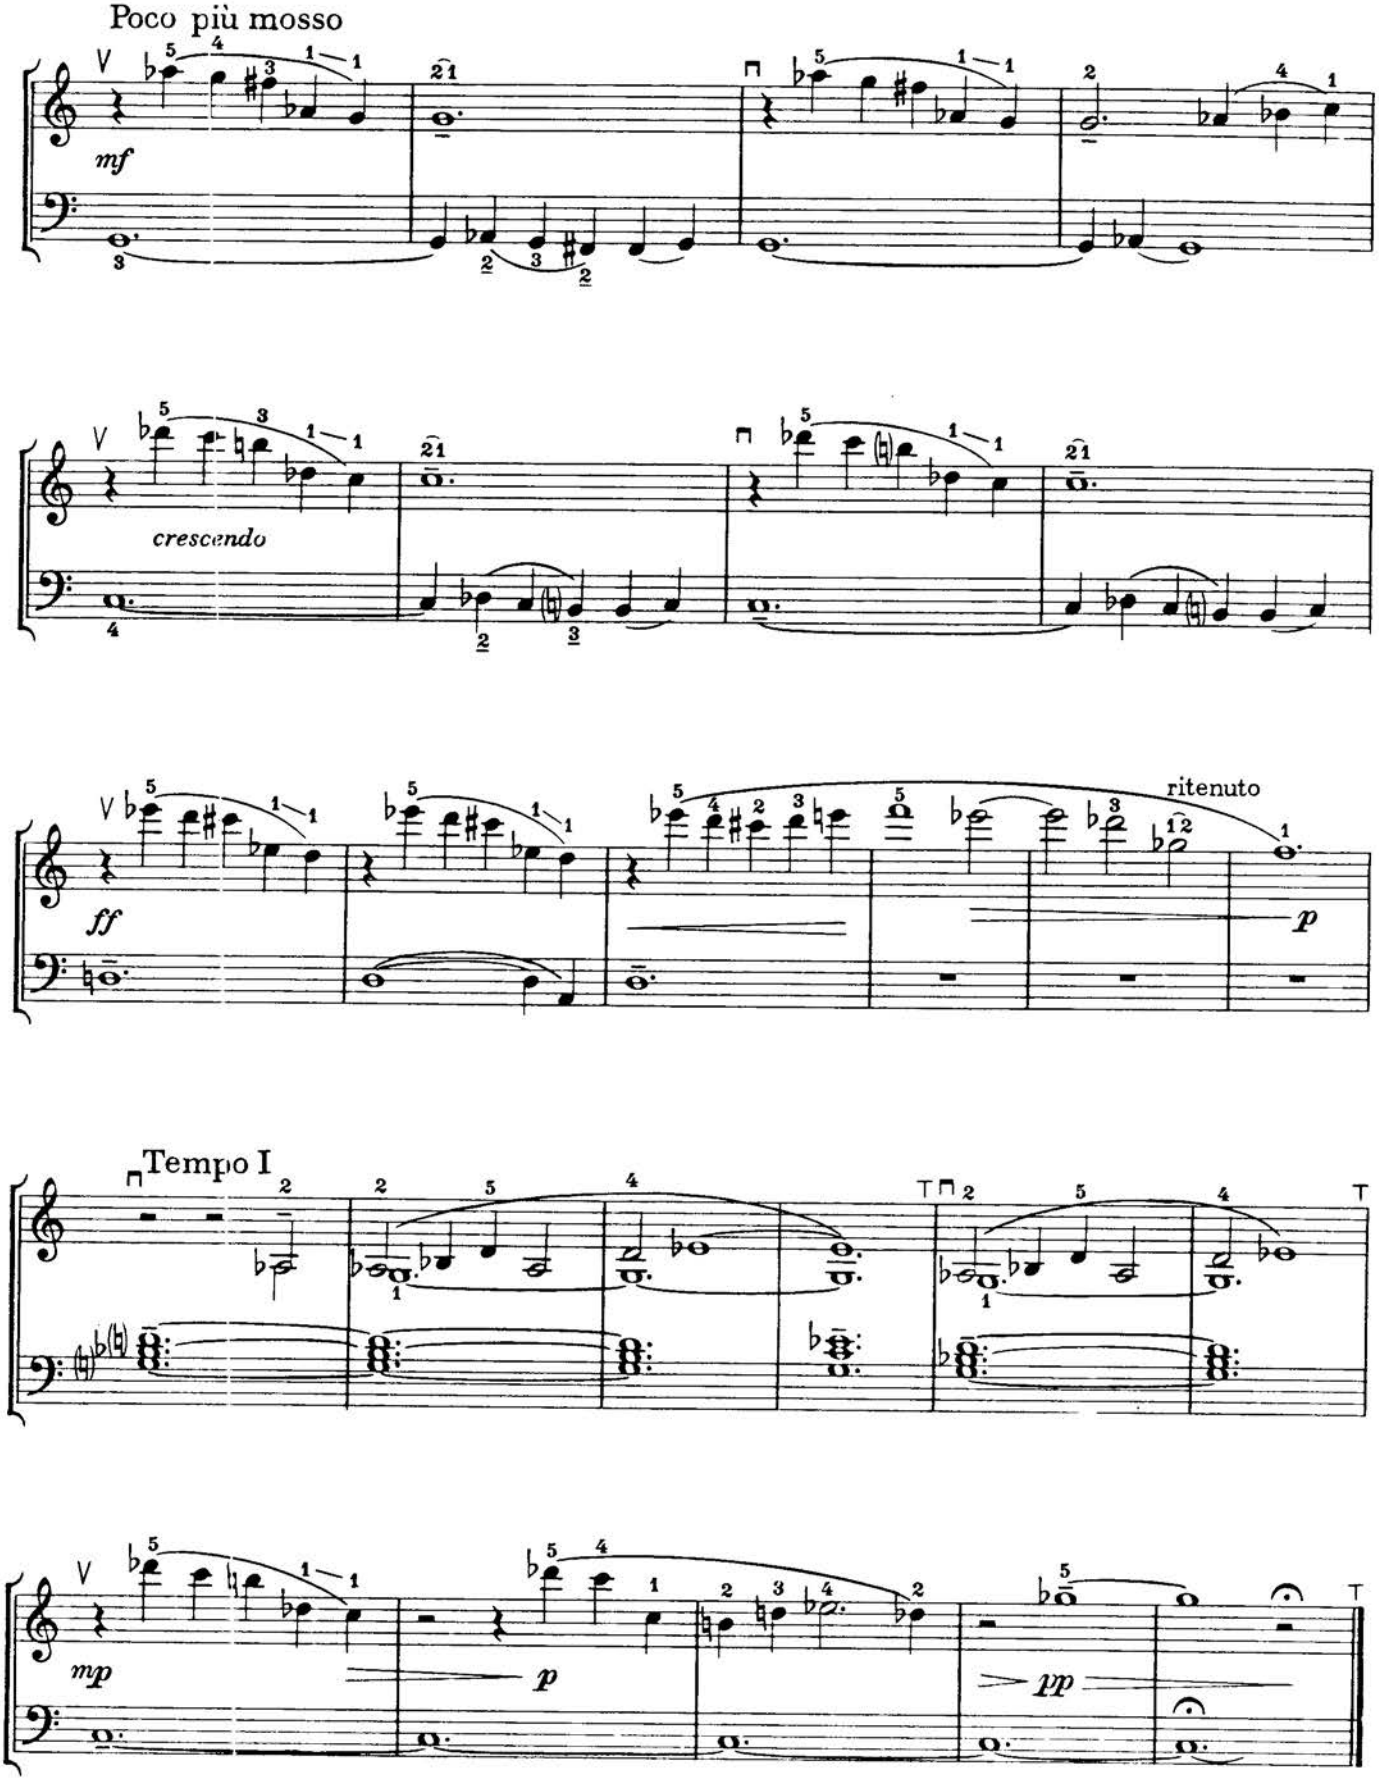

„Pojď, změříme se",
navrhla vypasená krysa ještě nedorostlé číče,
„ať vidíme, kdo se má před kým třást!"
Vyběhly ze sklepa na sluničko –
na zeď se odrazily dva macaté stíny.
„Jste vy to ale klacandy!", volal z vlhkého sklepa hnědý mlok.
„Když klacandy, tak klacandy", souhlasily soupeřky.
„To se musíme tedy navzájem třást a navzájem bát!"
Naježily chlupy a začaly se navzájem třást a navzájem bát.

Výr

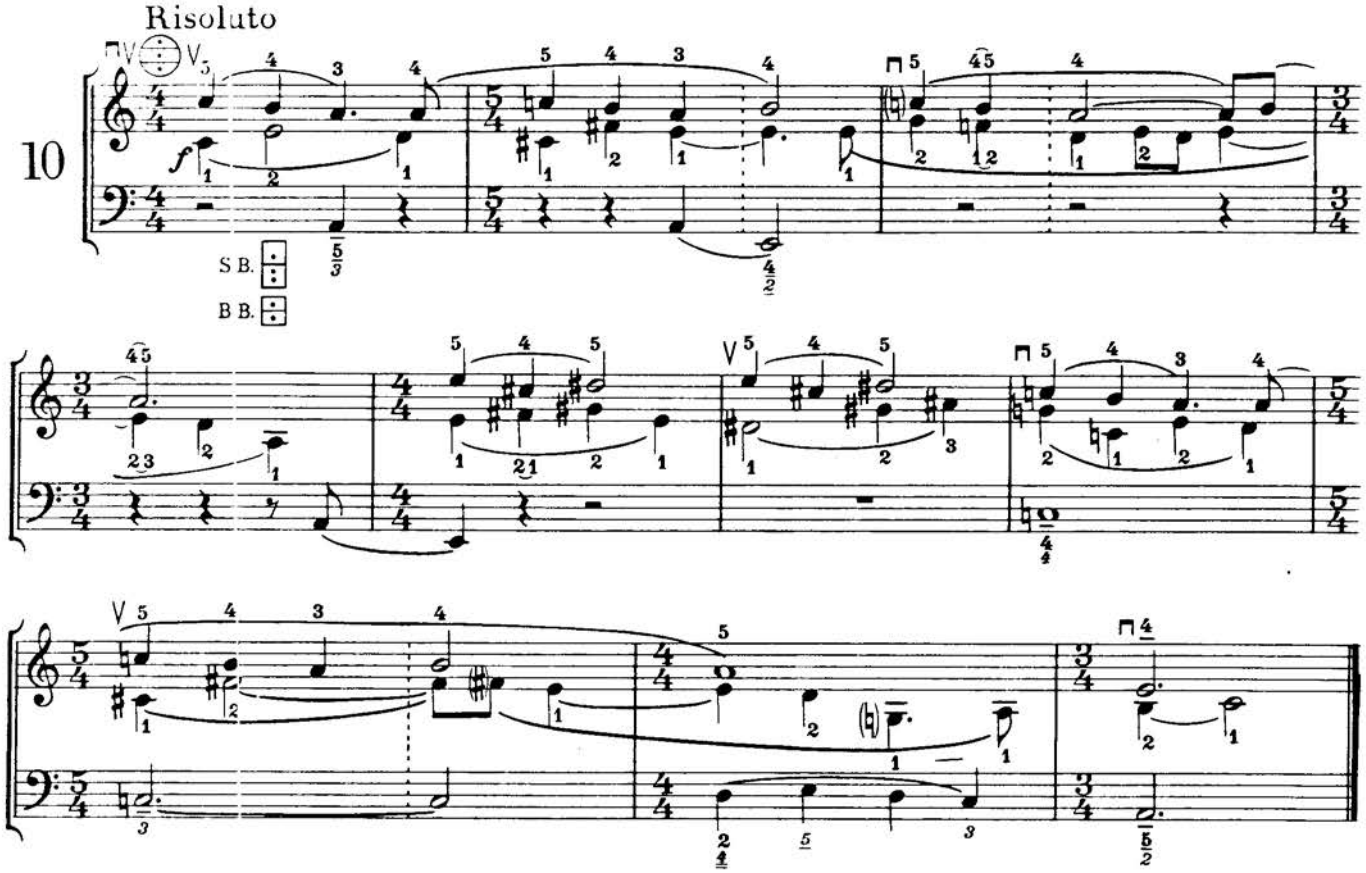

Zmlsaný myšák spolkl světlušku,
jež se v něm rozsvítila jako lampička nejmenšího
výpravčího na světě.
„Á, že by úcta ke stáří?", lebedil si na vysoké jedli stařičký,
přisleplý výr.
Snesl se za světýlkem na myšáka, uchopil ho do pařátů
a vznesl se s ním k nebi plnému hvězd.
Na Mléčné dráze vypadal jako opeřený vláček-motoráček.

a sedly si k sobě jako vrána k vráně.
„Vrána k vráně sedá!", zakrákoraly vrány.
I v krákorání si byly podobny jako vejce vejci.

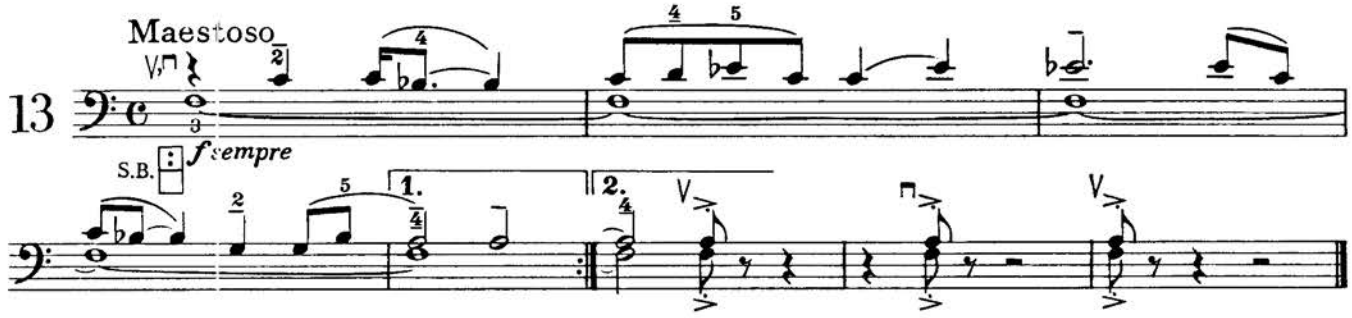

Poledni pastorále

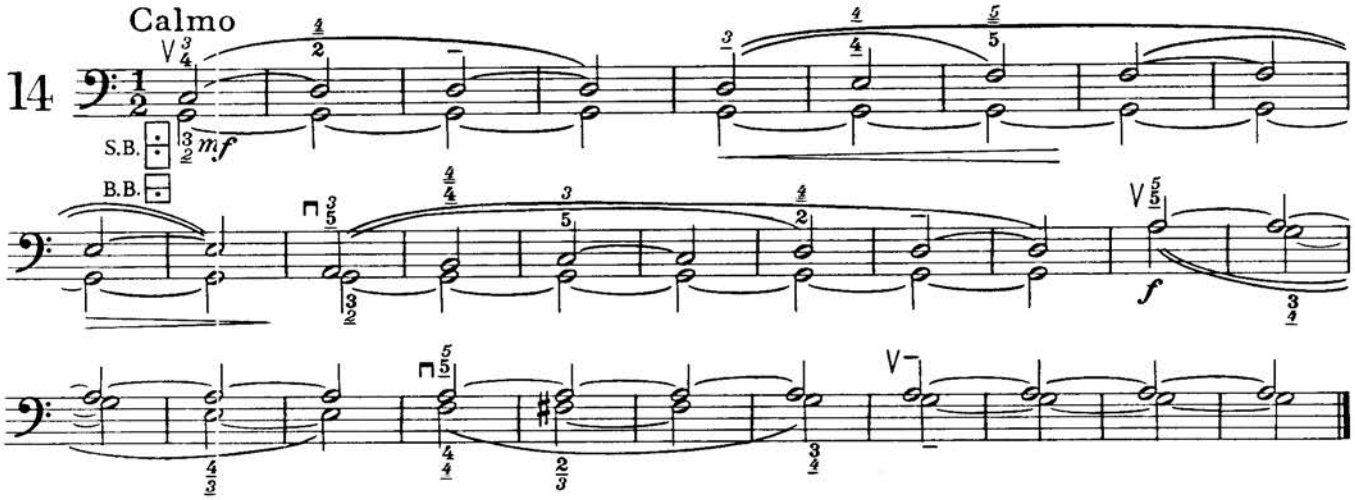

Červ a slepice

Na zemi se svíjel červ.
„Jsem vysoce inteligentní", chlubil se slepici.
„To nevadí. Já jsem zase hloupá jako, koko, jako husa",
řekla slepice a ďob, ďob, ďob –
bylo po inteligentním červovi.

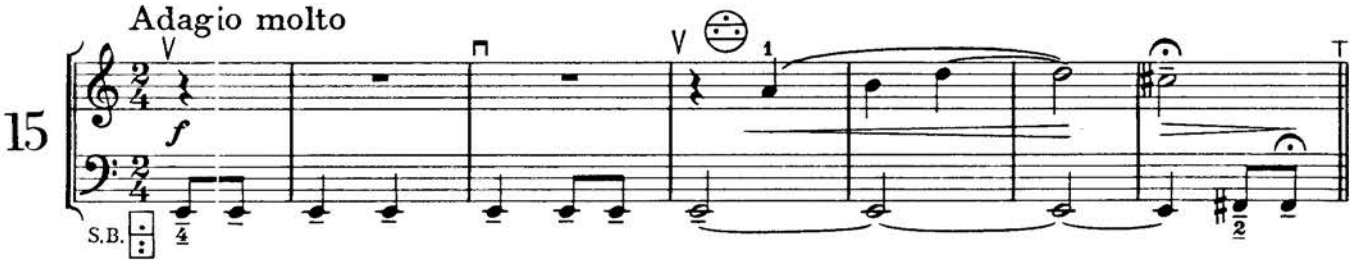

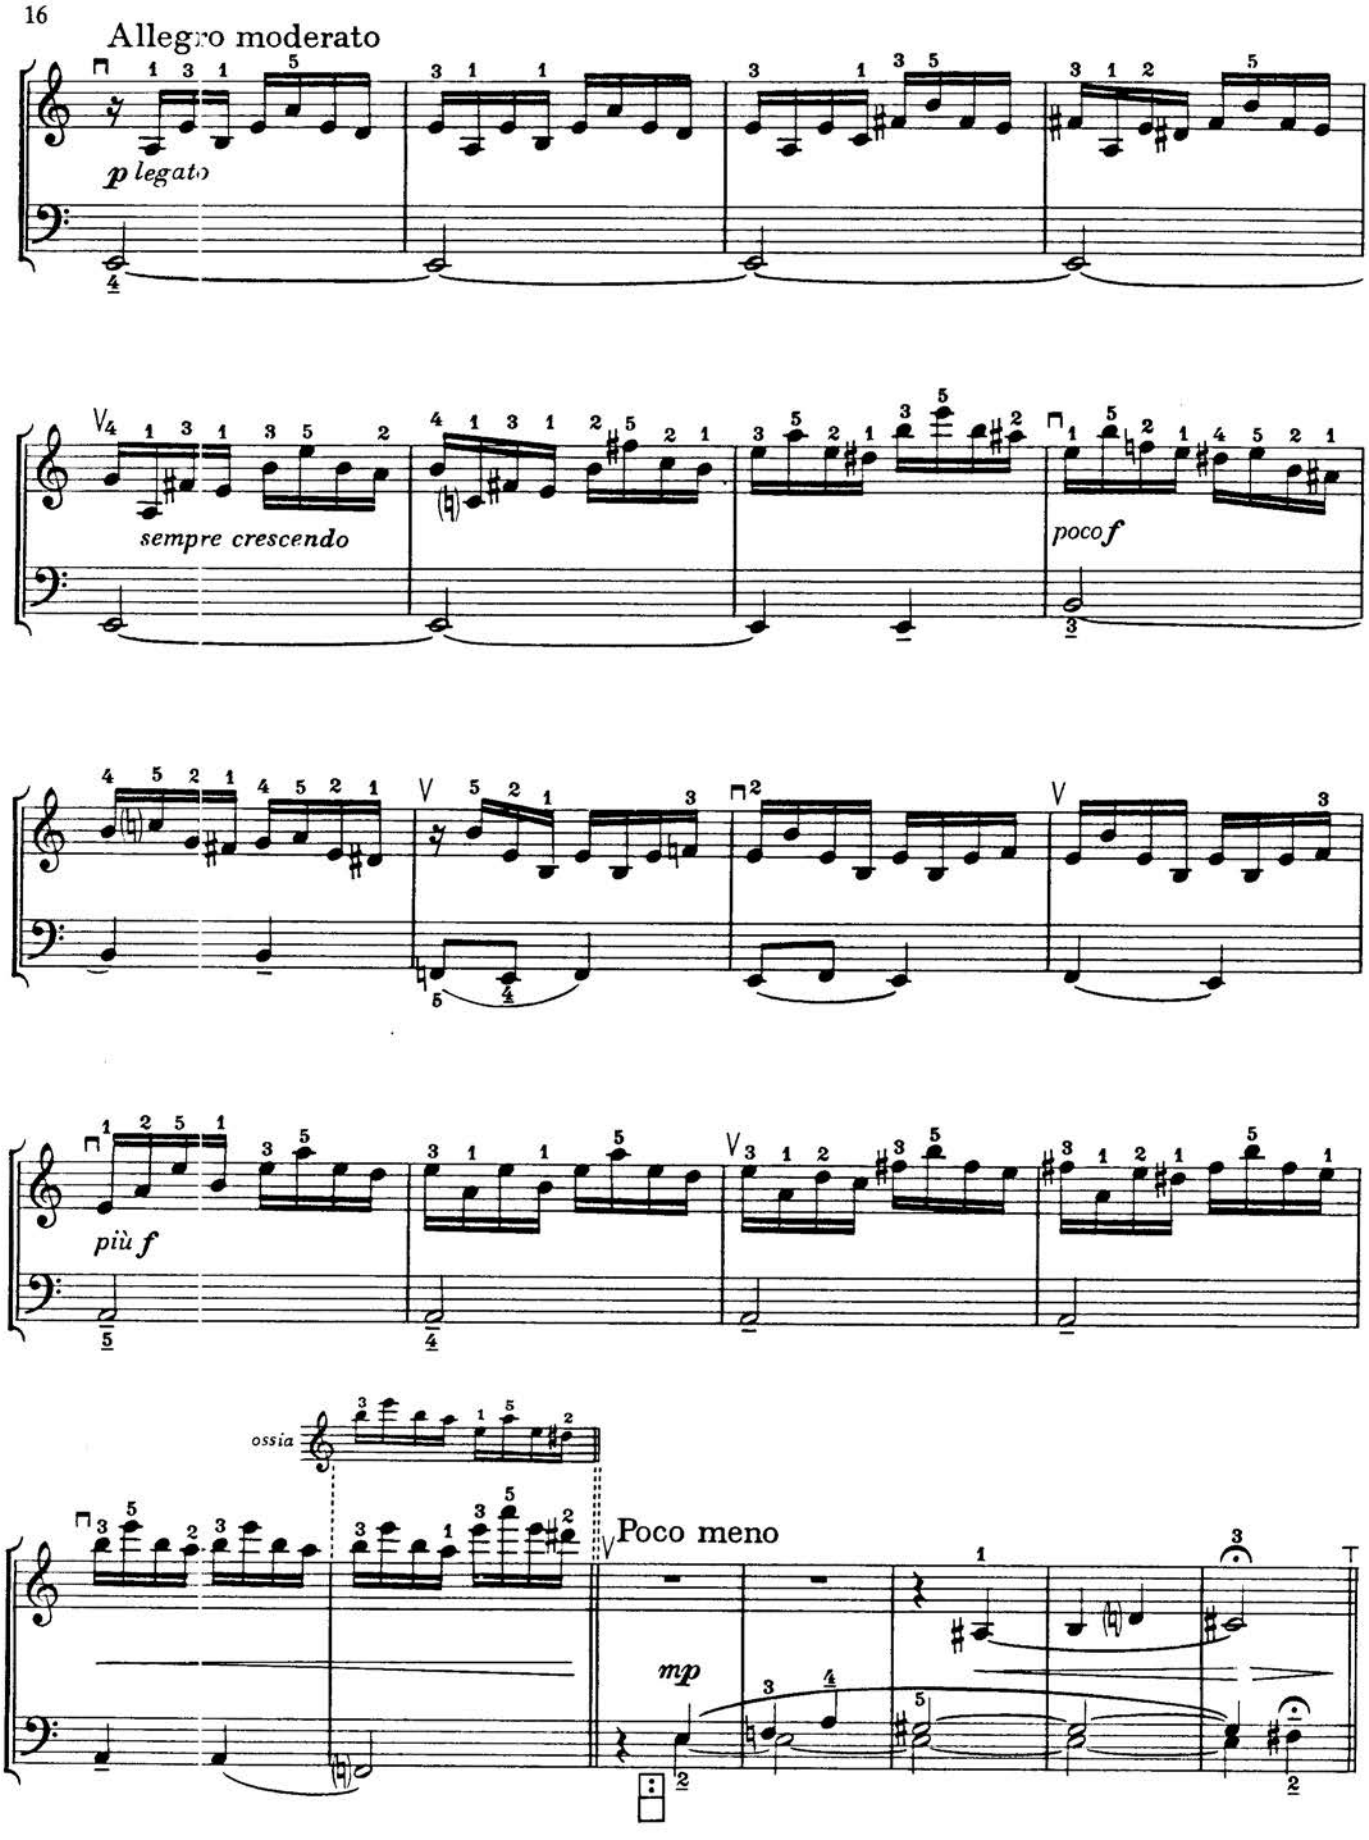

Tetřev

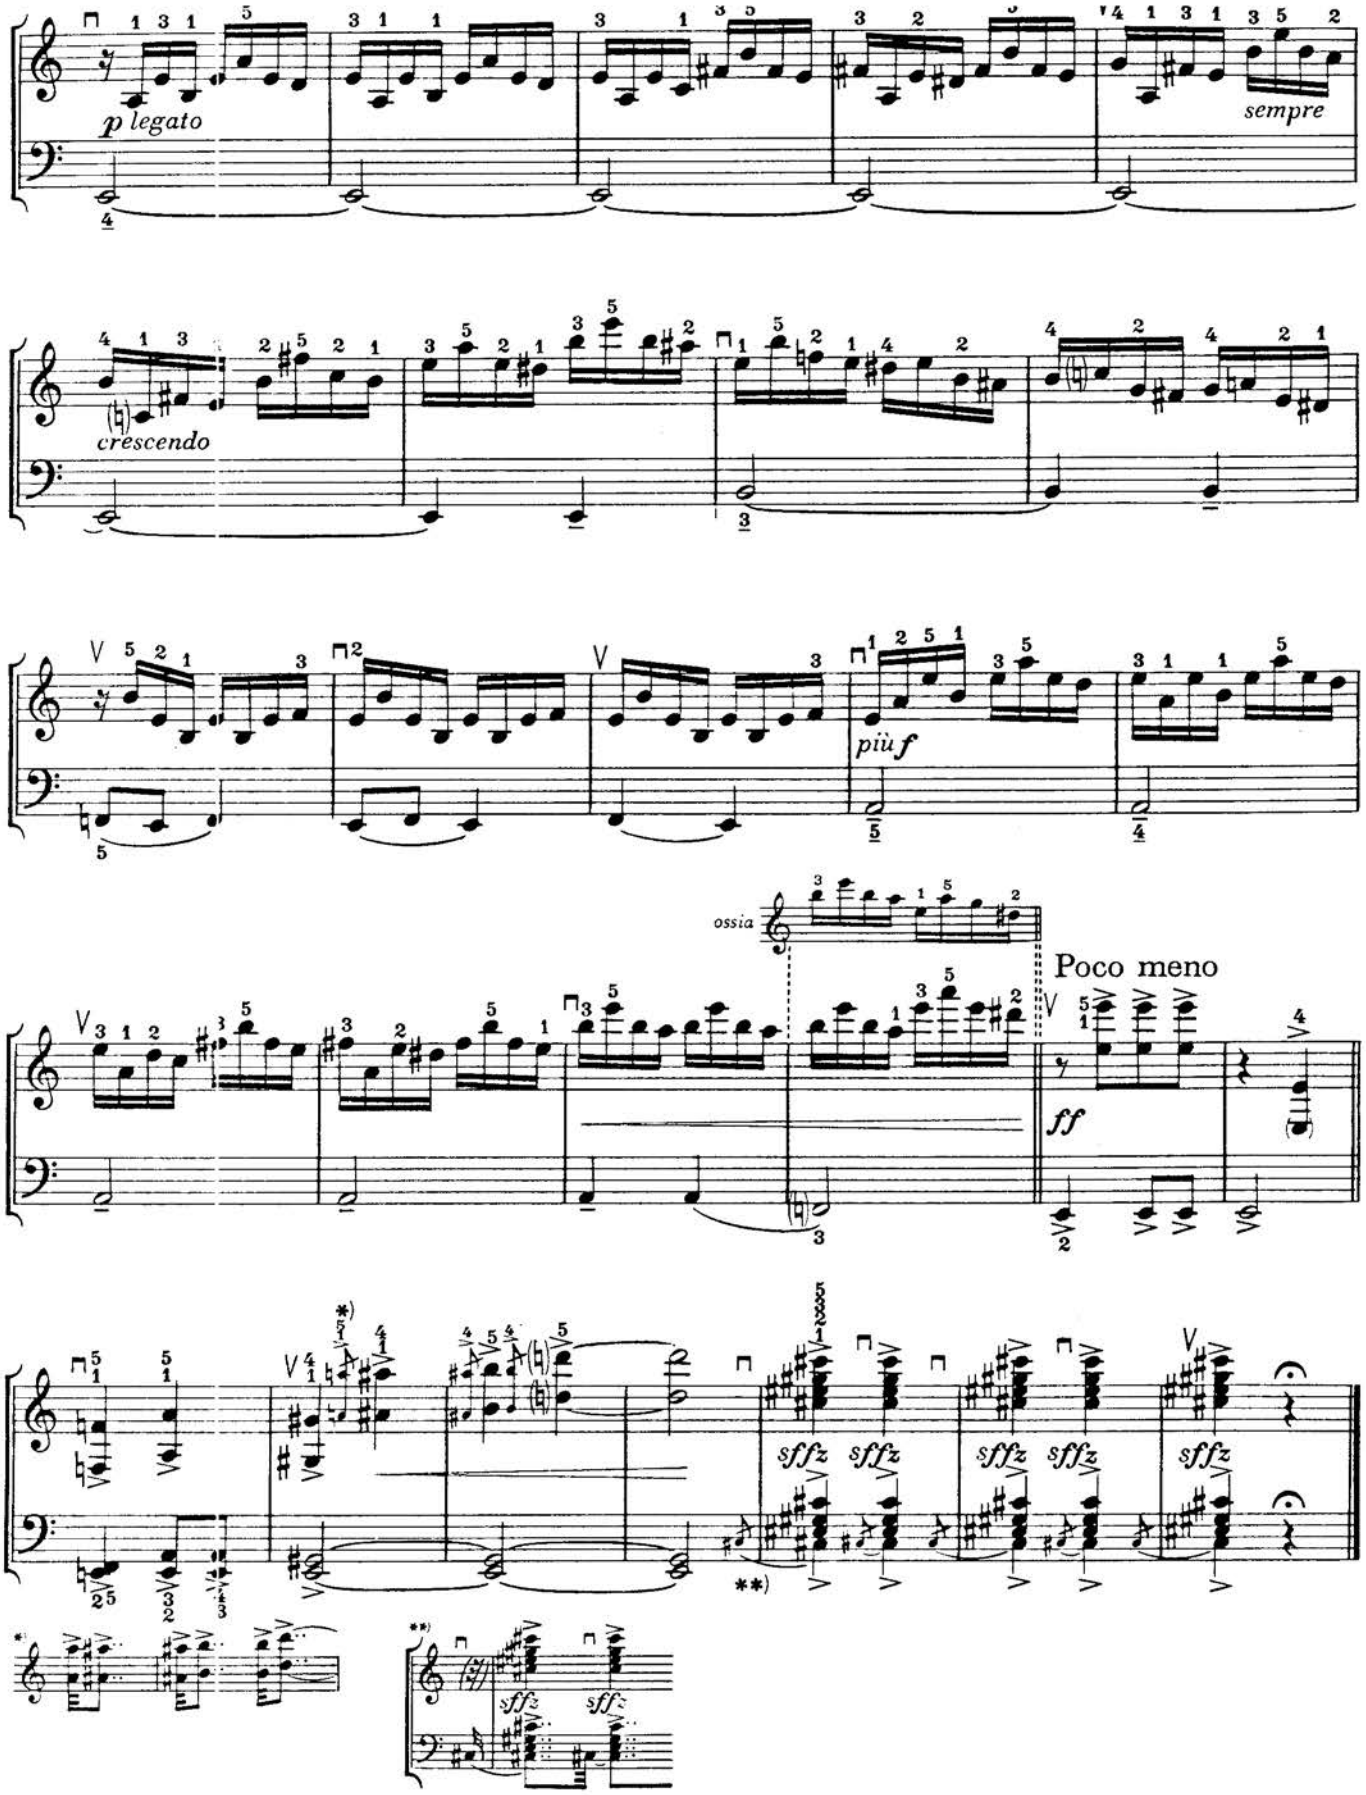

Tetřev hlušec v milostném tokání lišáka ani nepostřehl.
„Pane, vy zajisté neznáte tok lásky, pane!",
čilil se tetřev.
„Pane, já zajisté neznám tok lásky, pane", litoval lišák
a z té lítosti, tok – netok, schlamstnul tetřeva hlušce.

Avant-propos pour les Professeurs

La lecture à vue, élément essentiel dans l'apprentissage d'un instrument, doit être pour l'élève, l'occasion de développer la rapidité de ses réflexes. Pour permettre ceci, il n'y a qu'une solution: concevoir des exercices dans lesquels se trouve un problème technique tel, que l'attention de l'élève et sa réflexion, soient constamment sollicitées. Les formules rythmiques trop connues, les formules mélodiques dans lesquelles la trame tonale est évidente, ne peuvent être de grande utilité pour l'élève, qui les exécute d'une façon presque inconsciente, et, par conséquent, sans profit.

On observera, le mieux possible, les doigtés lors du déchiffrage.

Lors du travail technique, plus approfondi, **les doigtés sont** *impératifs.*

DEGRÉ MOYEN - SUPÉRIEUR

60 leçons de lecture, servant également d'exercices techniques

ÉDITIONS HENRY LEMOINE
PARIS-BRUXELLES

Avant-propos pour les Professeurs

J'ai déjà dit, dans le 1er cahier, l'utilité de la lecture à vue, cependant, je voudrais développer quelques points particulièrement importants pour ceux que tente une carrière de concertiste.

Les difficultés -apparentes- des lignes mélodiques, et la difficulté réelle des rythmes de ces **60** exercices ne sont pas "gratuites". Elles seules, à mon avis, peuvent préparer l'accordéoniste de concert à la musique moderne. Le rythme est l'élément dominant de la musique moderne et contemporaine (voir les œuvres de Bartok, Messiaen, Boulez, etc...).

Si l'on veut que l'Accordéon s'élève dans la hiérarchie des instruments de concert, il est illusoire de se cantonner dans l'interprétation des seules œuvres classiques, il faut pouvoir se mettre au service de cette musique contemporaine. A cette nouvelle esthétique, à cette nouvelle manière d'écrire et de jouer la musique correspondent nécessairement une nouvelle pédagogie et un nouveau matériel pédagogique. C'est dans cet esprit que j'ai conçu ces cahiers de lecture à vue.

J'attire l'attention des Professeurs sur un ouvrage remarquable qu'il y aurait grand intérêt à consulter, puis à travailler: **15** LEÇONS DE SOLFÈGE de J. M. Damase, *Edit. Lemoine* (on pourra consulter également le: SOLFÈGE TRANSCENDANT de Y. Conrardy, *même Editeur.*)

PLAN GÉNÉRAL DE TRAVAIL

1°) Exécution à la M. D. puis à la M.G. S'efforcer à respecter les nuances. Exécutez plusieurs fois de suite l'exercice jusqu'à assimilation totale des difficultés mélodiques et rythmiques. Observez un Mouvement métronomique rigoureux.

2°) Exécution M. Ens.

3°) Révision des N°s précédents comme suit: travail du N° **11** et révision du N° **1**
travail du N° **12** et révision du N° **2**, etc...

Vorwort

Mit „Lieder, Tänze, Vortragsstücke" werden nach der vollständigen Revidierung der „Schule für Piano-Akkordeon" von Horst Frühauf, Hans Luck und Heinz Zeiske zwei Hefte vorgelegt, die dem im Schulwerk vorgezeichneten instrumental-methodischen Lehrweg folgen. Die in „Lieder, Tänze, Vortragsstücke" aufgenommenen Werke aus dem kulturellen Erbe sollen dazu beitragen, stilistische Besonderheiten vergangener musikalischer Epochen zu erarbeiten und das Blickfeld der Akkordeonisten zu weiten; die Lieder und Tänze aus der deutschen Folklore und der anderen Nationen könnten helfen, das Verständnis für die Entwicklung der Musik verschiedener Völker zu fördern.

Alle in „Lieder, Tänze, Vortragsstücke" aufgenommenen Einrichtungen, Bearbeitungen und Originalkompositionen sind so ausgewählt worden, daß mit ihrer Hilfe ein bestimmtes spieltechnisches Problem gefestigt bzw. vertieft oder die Geläufigkeit, die Stilistik sowie das Ausdrucksvermögen geschult werden können. Die vorliegenden Hefte dürften damit die „Schule für Piano-Akkordeon" sinnvoll ergänzen.

Die Zusammenstellung zu Zyklen wurde willkürlich vorgenommen. Die in ihnen enthaltenen Sätze können einzeln und einige davon auch in anderer Reihenfolge vorgetragen werden. In ( ) gesetzte Fingersätze sind dann zu verwenden, wenn es die physische Besonderheit der Spielerhand erfordert. Bei einzelnen Werken ist die Möglichkeit der Verwendung des Solobaß-Manuals gegeben, ohne dies in jedem Falle kenntlich zu machen. Auch wurden dafür keine Fingersätze festgelegt. Der Benutzer der Hefte sollte selbst entscheiden, in welcher Weise die Spielmöglichkeiten der Baßseite des Akkordeons eingesetzt werden können.

Es bleibt nun zu hoffen, daß sich „Lieder, Tänze, Vortragsstücke" der gleichen Beliebtheit erfreuen wie das Schulwerk.

Dr. Hans Luck

VORWORT

Mit dem vorliegenden Heft wird eine Reihe von Herausgaben eingeleitet, in der entsprechend dem Untertitel alte und neue Spielstücke für Akkordeon-Solo veröffentlicht werden. Die Zielstellung dieser Reihe ist es, solche Werke zusammenzufassen, die sowohl im Unterricht als auch bei Konzerten und Wettbewerben Verwendung finden können. Es ist vorgesehen, diesem, dem zeitgenössischen Schaffen gewidmetem Heft ein solches mit Bearbeitungen und Einrichtungen von Orgelwerken des XVII. und XVIII. Jahrhunderts anzuschließen. Herausgeber und Verlag hoffen, daß diese neue Reihe recht viele Freunde findet.

Im Heft I sind vier Kompositionen vereint, mit denen der Herausgeber eng verbunden ist. 1952 wurden durch ihn die Stücke von Günter Lampe uraufgeführt, Norbert Stannek regte er zur Komposition seiner Stücke an, und zwei Kompositionen stammen aus seiner Feder.

Die „Fünf Stücke für Akkordeon" von Günter Lampe umfaßten ursprünglich nur die Nummern 1–4. Es war nicht vorgesehen, sie nur als Zyklus aufzuführen. Der Komponist versuchte vielmehr, in die einzelnen Sätze unterschiedliche musikalische und spieltechnische Probleme einzubeziehen. Kurze Zeit später fügte Günter Lampe die Nummer 5 „Kleiner Reigen" hinzu. Für das vorliegende Heft wurden die Spielstücke in Übereinstimmung mit dem Komponisten an Hand der Urschrift neu durchgesehen und die Schreibweise der Bässe und Akkorde der heute üblichen angepaßt.

Norbert Stannek komponierte seine „Fünf Spielstücke für Akkordeon" im Jahre 1957. Sie können, nach dem Willen des Komponisten, einzeln Verwendung finden, es lassen sich aber auch Zyklen zusammenstellen. Dem Notentext wurden in dieser Ausgabe Fingersätze beigefügt und einige Artikulationszeichen der heutigen Praxis entsprechend verändert. Einzelne Passagen lassen sich mühelos auf das Solobaß-Manual übertragen.

Die „Variationen über ein Lied von Ottmar Gerster" entstanden im Jahre 1972 im Auftrage des Rates des Bezirkes Neubrandenburg. Als Thema fand Ottmar Gersters „Hymnus der Jugend" aus der Kantate „Eisenhütten-Kombinat Ost" Verwendung. In den einzelnen Variationen wurde versucht, bestimmte sich aus dem Text des Liedes ergebende Stimmungen oder Verhaltensweisen bestimmter Gruppen von Menschen in konkreten Situationen widerzuspiegeln. Die Komposition fand beim internationalen Solistenwettbewerb "Festtage der Harmonika 1974" in Klingenthal, Deutsche Demokratische Republik, als Pflichtstück Verwendung.

Die Nummern 2–5 der „Aphorismen" entstanden im Jahre 1974, die Nummer 1 1970. Dem Titel entsprechend sind die einzelnen Sätze recht kurz gehalten und sollen zum Nach- und Weiterdenken anregen. Die Notierungsweise entspricht der Wiedergabe auf einem Instrument mit Solobaß-Manual. Bei der Verwendung eines mit dem traditionellen Baß- und Akkordwerk ausgerüsteten Akkordeons empfiehlt es sich, einzelne im System der Baßseite notierte Passagen auf den Diskant zu übertragen. (Nr. 2 Takte 9–11; Nr. 4 Takte 10–11 usw.).

Alle Fingersätze und Registerangaben sind Vorschläge. Die Balgwege ergeben sich aus dem musikalischen Inhalt und der Einzeichnung der Artikulation, darum wurde auf das Eintragen von Balgwegzeichen verzichtet. Spezielle Versetzungszeichen haben nur für die bezeichnete Tonhöhe und nur für einen Takt Gültigkeit.

Die vorliegende Sammlung soll dazu beitragen, die Akkordeonspieler an den Musizierstil des XVII. und XVIII. Jahrhunderts heranzuführen. Bei den ausgewählten Stücken handelt es sich um solche, die auf Tasteninstrumenten ausführbar sind. Der Klang der Orgel, vor allem der der Kleinorgel, kommt dem des Akkordeons recht nahe. Darum wurden nur solche Werke ausgewählt, deren Notierungsart auf die Möglichkeit der Ausführung mit einer Kleinorgel hinweist. Die Kleinorgeln fanden vor allem in der Hausmusik Verwendung. Der Herausgeber glaubt, hieraus die Berechtigung ableiten zu können, diese Musik vergangener Jahrhunderte für das Akkordeon zu erschließen.

Die Folge Vorspiel – Fuge stellt eine im XVII. und XVIII. Jahrhundert viel angewandte zyklische Form dar. Beide Sätze sind in der Regel so angelegt, daß sie inhaltlich eine Einheit bilden. Der Charakter der beiden Sätze, das Tempo und auch die Dynamik sind jedoch meistens unterschiedlich. Es muß auch beachtet werden, daß kleinere Notenwerte (Sechzehntel-Noten usw.) nicht unbedingt auf ein schnelles Tempo hinweisen. Bei der Festlegung der Interpretation muß daher von der Einheit der beiden sich ergänzenden Sätze ausgegangen werden.

Auf die Einzeichnung von Artikulationszeichen, Tempoangaben, Balgwegen und Registerangaben wurde weitgehend verzichtet und damit an der zur Zeit der Entstehung der Werke üblichen Praxis angeknüpft, dem Interpreten bei der Darstellung der Komposition größtmögliche Freiheiten für seine Ausdeutung des Werkes einzuräumen. Bei der Interpretation muß jedoch die Tatsache Beachtung finden, daß die Lautstärke bei den zur Zeit der Entstehung der vorliegenden Kompositionen benutzten Orgeln nur stufenweise veränderbar war. Das Verändern der Lautstärke geschah durch das Zu- oder Abschalten von Registerzügen oder durch das Betätigen lautstärkenverändernder Mechanismen. Stufenlose Übergänge von einer Lautstärke zur anderen sind daher weitgehend zu vermeiden

Dem Legato sollte beim Vortrag der Vorzug gegeben werden. Bei der Herausarbeitung des thematischen Materials kann aber auch Portato sparsam Verwendung finden. Für die Einteilung der Balgwege dürfte die Regel gelten, daß der Vorrang der im Moment wichtigsten Stimme gebührt, während die anderen Stimmen willkürlich unterbrochen werden müssen. Unreine Register (Tremolo) sind nicht zu verwenden. Offene und gedeckte Zungenreihen sollten zur Gegenüberstellung verschiedener Klangfarbennuancen genutzt werden. Spezielle Versetzungszeichen gelten nur einen Takt und nur für die Tonhöhe, in der sie notiert sind.

Ab Nummer 9 finden sich die Zeichen (8va) und (loco) im Notentext. Das Zeichen (8va) zeigt an, daß ab dieser Stelle die Notierung eine Oktave höher als der Klang erfolgte. Vom Zeichen (loco) an stimmen Notierung und Klang wieder überein. Diese Notierungsweise, die sich auf Grund des Tonumfanges des Diskantes beim Pianoakkordeon notwendig machte, sollte bei der Registrierung berücksichtigt werden.

Die vorliegenden Kompositionen wurden eigens für Akkordeons mit traditionellem Baßmanual eingerichtet. Bei der Auswahl ist darum berücksichtigt worden, daß die im Original vorhandene Baßführung den natürlichen Tonraum des Baßwerkes beim Akkordeon nicht wesentlich überschreitet. Mitunter mußte jedoch bei der Notierung der Baßlinien über den natürlichen Tonraum hinausgegangen werden. Auch machten sich öfter Oktavierungen einzelner Stimmen notwendig. Beim Vorhandensein eines Solobaßmanuals sollte daher auf die Originale zurückgegriffen werden.

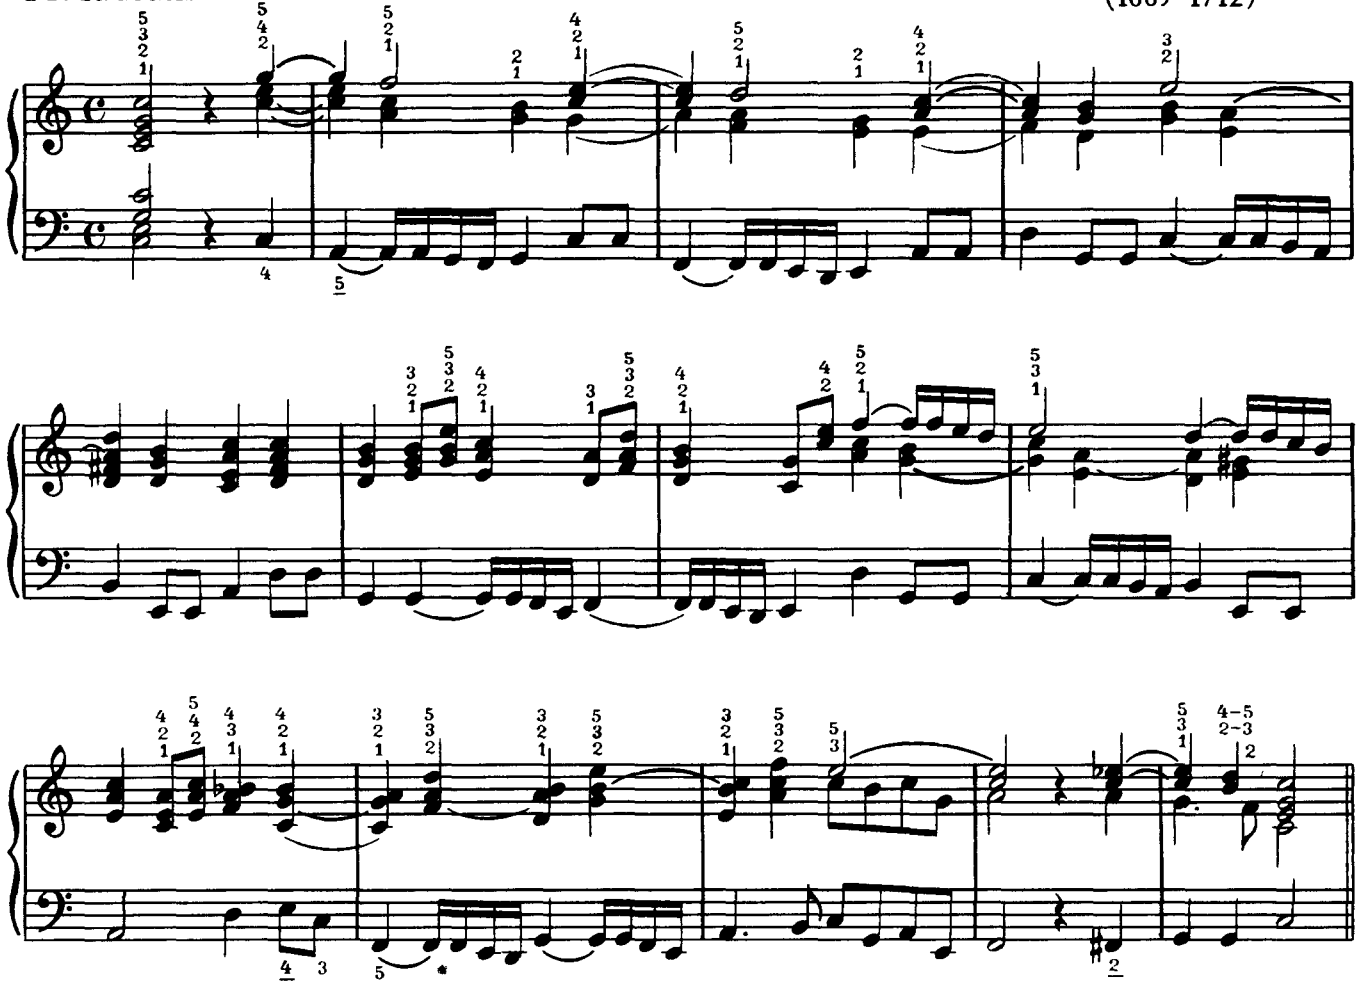

Der Herausgeber würde sich freuen, wenn die vorliegende Sammlung dazu beitragen könnte, das kulturelle Erbe für das lebendige Musizieren zu erschließen.

Vorwort

Mit „Lieder, Tänze, Vortragsstücke" werden nach der vollständigen Revidierung der „Schule für Piano-Akkordeon" von Horst Frühauf, Hans Luck und Heinz Zeiske zwei Hefte vorgelegt, die dem im Schulwerk vorgezeichneten instrumental-methodischen Lehrweg folgen. Die in „Lieder, Tänze, Vortragsstücke" aufgenommenen Werke aus dem kulturellen Erbe sollen dazu beitragen, stilistische Besonderheiten vergangener musikalischer Epochen zu erarbeiten und das Blickfeld des Akkordeonisten zu weiten; die Lieder und Tänze aus der deutschen Folklore und der anderen Nationen können helfen, das Verständnis für die Entwicklung der Musik verschiedener Völker zu fördern.

Alle in „Lieder, Tänze, Vortragsstücke" aufgenommenen Einrichtungen, Bearbeitungen und Originalkompositionen sind so ausgewählt worden, daß mit ihrer Hilfe ein bestimmtes spieltechnisches Problem gefestigt bzw. vertieft oder die Geläufigkeit, die Stilistik sowie das Ausdrucksvermögen geschult werden können. Die vorliegenden Hefte dürften damit die „Schule für Piano-Akkordeon" sinnvoll ergänzen.

Die Zusammenstellung der Zyklen wurde willkürlich vorgenommen. Die in ihnen enthaltenen Sätze können einzeln und einige davon auch in anderer Reihenfolge vorgetragen werden. In () gesetzte Fingersätze sind dann zu verwenden, wenn es die physische Besonderheit der Spielerhand erfordert. Bei einzelnen Werken ist die Möglichkeit der Verwendung des Solobaß-Manuals gegeben, ohne dies in jedem Falle kenntlich zu machen. Auch wurden dafür keine Fingersätze festgelegt. Der Benutzer der Hefte sollte selbst entscheiden, in welcher Weise die Spielmöglichkeiten der Baßseite des Akkordeons eingesetzt werden können.

Es bleibt nun zu hoffen, daß sich „Lieder, Tänze, Vortragsstücke" der gleichen Beliebtheit erfreuen wie das Schulwerk.

Dr. Hans Luck
