Construction Logistics

---

Please find attached the REVISED construction logistics map showing the impacted areas. Relocation of fence will begin on Monday, March 3, 2014. Any of the area inside the blue line (construction fence) will not be accessible.

Campus road will be available for emergency vehicles only.

The map will continue to change with the progression of the project and the TDLA office will continue to provide updates to the map.

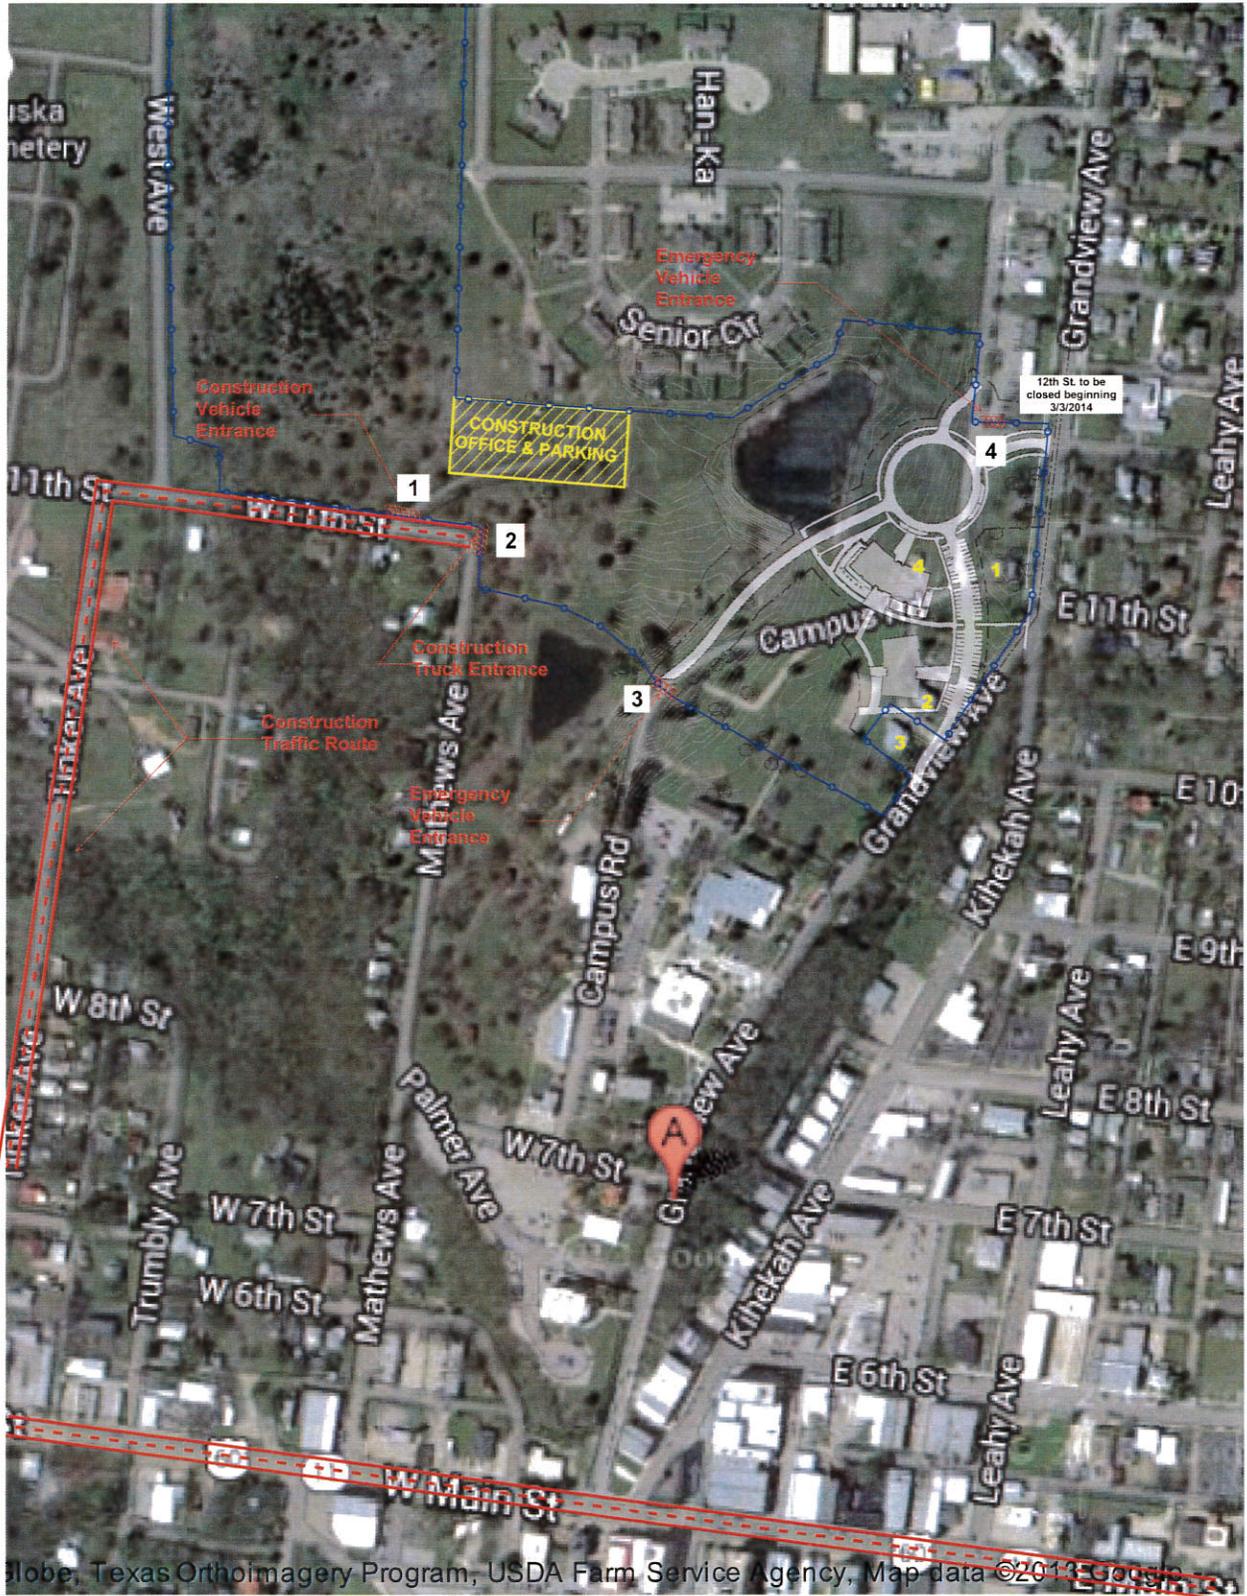

If you have any issues concerning the accessibility of the campus, please forward your concerns to the following:
