

Founded by
THE HERO GROUP

Established under The Haryana State Private Universities Act, 2006.

FROM HERE TO THE WORLD.

Promoted by the founders of the Hero Group, BML Munjal University (BMU) aspires to transform higher education for the better. BMU seeks to enhance the student learning experience by collaborating with pre-eminent universities and corporates, and by adopting their best practices. A fully residential university, BMU aims to nurture the spirit of inquiry, creativity, problem solving and innovation as well as promote hands-on and cross-disciplinary learnings. The objective? Help students graduate successfully into the real world.

OUR VISION.

BML Munjal University seeks to nurture ethical leaders who are skilled, knowledgeable and have the life skills required to lead their organisations to success. The University shall seek the advancement and dissemination of practical knowledge benchmarked with the best global standards.

FROM GOOD TO GREAT.

TRANSFORMING STUDENTS INTO SKILLED, KNOWLEDGEABLE, AND WELL-ROUNDED INDIVIDUALS.

Our objective is to ensure that students are imbued with the undermentioned attributes when they graduate from BMU:

- Passion for technology, innovation and creativity
- High employability skills
- Hands-on skills
- Leadership qualities – independent thinker, enthusiastic, transparent, effective, questioning ability
- Team player instincts and adept at collaborative learning/working
- A pro-active and self-starting attitude
- Problem-solving skills
- Effective communication skills
- Global awareness
- Strong sense of values and integrity
- Strong work ethic

FROM CHANGING THE FUTURE OF LEARNING TO CHANGING YOUR FUTURE. BRIDGING THE GAP BETWEEN YOU AND YOUR POTENTIAL. BMU'S UNIQUE EDUCATION MODEL.

At BMU, the academic framework has been designed to close the gaps between theory and practice, between the classroom and the industry and between learning and living. Thereby, enhancing the employability quotient of students.

Flexibility

Every student has a different learning pace. At BML Munjal University, students have the flexibility to finish their course in less or more than the prescribed time. They can also opt for a dual degree, say, in engineering and management. Furthermore, they can supplement their core subjects with electives.

Outside-in approach to curriculum

Academic concepts have been integrated with the needs and challenges of industry and society to make the curriculum more relevant.

Hands-on learning

The application-based curriculum makes sure that students spend a quarter of their time in practical projects, building the skills and confidence required to tackle real-world situations.

Innovative instructional design and delivery

The latest, out-of-the-box teaching methodologies enable faculty to teach and demonstrate complex academic concepts in an interactive and interesting manner. For students, learning becomes an easy and fun activity.

Multi-disciplinary approach

This approach ensures students are grounded in knowledge and skills across disciplines.

Holistic education

Students will acquire a vast array of leadership and life skills – critical thinking, presentation skills, ethics, good citizenry and social etiquette – making them well-rounded individuals.

Group-based learning

By studying and working in groups, students will develop collaborative and leadership skills that will enable them to work with people from different backgrounds and temperaments.

Learning beyond the classroom

To prepare our students for life beyond the classroom, we get them to participate in internships, student exchange programmes, real-world research and projects, community outreach activities, field trips as well as engage with distinguished professionals and leaders.

FROM LEARNING ABOUT LEADERS TO WORKING WITH THEM.

ALLIANCES WITH REPUTED UNIVERSITIES AND CORPORATE ORGANISATIONS.

Imperial College London

Imperial College London will mentor our School of Management. The College will co-design the curriculum and content, facilitate student and faculty exchange programmes, conduct joint research activities and establish digital learning platforms. Apart from this, select BTech students will have the opportunity to undertake a one-year MSc programme at the Imperial College Business School. There will also be opportunities to join innovation camps and credit-based summer school courses in London.

Industry-promoted Centres of Excellence on campus

Here, students will be exposed to the latest technology platforms, real-life projects and hands-on learning. They will also get a chance to work in virtual-cum-physical labs at the Workshop of the Future where they can conceptualize, design, produce and test real-life products. One such centre is being established by Siemens PLM Software.

Focus on social research

The Institute of Inclusive Innovation, established in partnership with Imperial College London, will spearhead the University's research-led social initiatives at the grassroots level.

FROM INSPIRING SPACES TO INSPIRING MINDS.

BML MUNJAL UNIVERSITY'S SPACIOUS GREEN CAMPUS.

Designed by HOK, USA, our campus seamlessly integrates academic spaces with recreational ones to spur creativity and foster inter-disciplinary learning. This stimulates collaboration between students, and between students and faculty in an informal setting. The campus is a fully self-contained constituent; having a variety of sports and recreational options, and other facilities including hostel accommodation. Most importantly, steps have been taken to ensure the safety and security of students. Sprawled over 50 acres, the campus has eco-sustainability as its underlying theme and is home to over 1800 trees, many of which are rare, native trees. By the time the University opens in July 2014, an additional 1000 trees would have been planted on the campus.

BMU SCHOOLS AND ACADEMIC PROGRAMMES.

School of Engineering & Technology

BTech

- Mechanical Engineering
- Civil Engineering
- Electrical & Electronics Engineering
- Computer Science
- Computer Science & Engineering
- Electronics & Communication Engineering

School of Management

MBA

BBA
