

JUKEBOX

SUPPLIES

All you need is the game slides in this folder and a room full of willing participants!

MODIFICATIONS

This is a great game for a battle of the sexes or to pit small groups against each other to see who is the best!

HOW TO PLAY

In this take on *Reverse Charades*, your competitors will try to guess what song everybody else is singing. Bring two or more students up on stage, facing their teams and away from any projection monitors. Make sure each team has a clear line of sight to the projection monitors. When each song title appears on screen, teams will begin singing the song title. The first player on stage to guess the song title correctly wins!

NEXT LEVEL

If your students get too good at guessing songs at the first few lines being sung, outlaw singing and only allow your students hum the songs! Don't forget to use the blank slides to bring your group's favorite songs.
