RGD

The RGD is Ibanez's ultimate metal machine. The demands of down-tuning require a specifically designed responsiveness not found in "normal" guitars. To optimize for the rich, desirable thickness of tone that down-tuning produces, we extended the neck by one inch to a 26.5" scale. Longer-than standard yet not overly long. The neck is still considered a "fast" neck for speed soloing. Extra-deep cutaways grant comfortable access to the neck's highest notes.

S The cutting edge of Ibanez design, the S series continues to be a marvel of form and function. Its signature body shape - sculpted, lightweight, and mahogany - is stronger and more musically responsive than guitars weighing twice as much. The S series is still a rock 'n' roll version of a quick, graceful, and potentially lethal weapon.

Artstar

The parallel histories of Jazz music and hollow-body electric guitars have been manifested in the Artstar. The influences of these legendary instruments are immediately apparent with bone nut, ebony fretboard, and Ibanez's signature Super 58 custom pickups. The critical eye will appreciate the details like the smoothness of the fretboard and a skilled crimping technique generally found on instruments costing twice as much. The Artstar is a pure jazz-box that embodies the continual innovation that is Jazz.

Artcore Expressionist

For a decade now, Ibanez has continued to energize the hollow-body segment with wide range of designs—with everything from rockin' hybrids to straight-up jazz-boxes. The new Expressionist line begins yet another chapter in the Artcore story. The Expressionist difference? Jazz fans will recognize the Ibanez original Super 58 custom pickups—the preferred pickup of George Benson, Pat Metheny, and John Scofield on their own Signature models. A jazz favorite, yes, but as funk guitarist Eric Krasno has been proving, the Super 58s perform well in a variety of situations. Warm, balanced articulation, and excellent response characterize the Super 58 custom.

Artcore

Ibanez introduced Artcore in 2002 and has been the hollow-body guitar of choice for musicians for the last 10 years. The Artcore's combination of quality workmanship and affordability has created legions of fans from diverse genres as blues, country, rock and jazz. Musicians can find the purity of an old school style jazz-box to a hybrid semi-hollow rocker. Artcore is highly respected for its tone, sustain and the way they hold their tuning and how the series continues to push the boundaries of guitar building.

Ibanez Bass Workshop

For more than 40 years, Ibanez has pioneered new frontiers in bass development, pushing the boundaries of conventional designs to bass players of all styles and aptitude new ways of expressing themselves. This spirit of exploration has led to the creation of some of the most successful and popular production basses of all time. It is this same drive to bring new and relevant ideas to the forefront that serves as the basis for an ongoing exploratory project, appropriately dubbed the Ibanez Bass Workshop. The impetus behind each one of these unique instruments comes from a personal desire by one or more members of the Ibanez bass development group to satisfy the particular needs of a very particular player. These inventions may not be for everyone but for those who yearn to explore new sonic vistas through the medium of bass, the Ibanez Bass Workshop project may give you just what you're looking for.

Grooveline

Over the course of three years, dozens of prototypes, and hundreds of drawings, we never swayed from our first objective: For bass and player to share a center of balance. Standing up or sitting down, the first thing you'll notice is that the Grooveline does not require the support of your hands. Meaning you can use them for other things-like playing bass. A premium, boutique level instrument right down to its Sonic Arch pickups and 5-piece Wenge/Bubinga neck, the Grooveline may be the most responsive, comfortable bass you've ever played.

BTB

Without a doubt, your instrument should equal the quality of your effort. At some point the word "boutique" comes to mind: Select-grade materials, neck-thru construction, and top quality components, all in a meticulously crafted instrument. But what about the price? That's where Ibanez comes in. Our ability to build small-shop quality into inspiring yet affordable instruments is showcased by BTB series basses.

ATK

With the ATK, we took the traditional concept of the bass and turned it up to "11". The result is one of the most straightforward, versatile basses on the market. The ATK's large Ash body plus its conventional neck design will keep "old school" stylists happy. Additionally, the CAP Double Humbucker gives you three distinct voices at the flick of a switch, allowing you to find the musical sweet spot, no matter what the genre.

Artwood vintage

Ibanez has long described Artwood as a "modern approach to acoustic guitar tradition." Now with these two new Artwood Vintage models, Ibanez delves fathoms deeper into guitar building tradition. The AVD1NT is a pre-war early Dreadnought-style guitar, with a 12th fret joint for a robust sound and an old-school slotted head with Butterbean knobs that drench this guitar in yesteryear. The AVN1BS is a solid Sitka-top parlor guitar that is as mighty in voice as it is compact in size.

AEW

As an industry leader in the use of Exotic tonewoods, Ibanez continues to innovate with their new AEW series. This fresh approach merges a classic Spruce top with an elegant exotic tonewood back-and-sides. The thinner, amplification-friendly body of these new acoustic/electrics make them the perfect choice for gigging singer-songwriters. A "soft" Florentine cutaway provides easy accessibility all the way to the 17th fret. The Fishman Pickup and Ibanez AEQ-SP2 Preamp deliver excellent reproduction and control of tonal characteristics and easy operation, while 1/4" and XLR outputs give you options for a variety of direct plug-in applications. The exotic tonewoods give each respective model a distinctive tone and appearance that will garner attention and inspire the imagination. Let yourself be captured by the grandeur of the AEW Series.

AEG

The AEG series' slender, single-cutaway bodies deliver powerful and balanced acoustic sound, unplugged or through an amp or PA system. These guitars combine easy playability, classic solid and sunburst finishes, and tonal wood materials to create a quality, workhorse acoustic guitar that will rise to any occasion. High quality Fishman® Sonicore pickups and Ibanez preamps with onboard tuners provide the sparkling tones that sound great in any venue.

Talman

You've noticed by now that we at Ibanez hold a studious respect for tradition. That said, every now and then you have to hang a right where everyone else is turning left. The double-cutaway Talman is our rebel with a cause. Electric players looking to add an acoustic-guitar dimension to their arsenal go head-over-heels for this distinctive hybrid.

Ukulele

The sweet-toned, nylon-stringed ukulele originated in the 19th century Hawaii. It gained great popularity in the U.S. during the early 20th century and from there spread internationally. Ibanez is pleased to offer variety of models, including those with electronics. Our lineup includes soprano and concert-size ukuleles, which bring the rich, textured sounds to your fingertips.

B200

It's been three decades since Ibanez was in the banjo biz, but we're back with a bang ... or is it a twang? Old-timers may recall Ibanez was quite enamored with banjo-building, having even collaborated on an artist signature model with the late, great Earl Scruggs. But, things change, and hair bands happen. And now, we're back at it, and in the Ibanez tradition, our banjos deliver a sweet 5-string closed-back banjo at a price that won't break the bank.

Mandolin

Mandolins have been gracing music since the 17th century and their popularity is a testament to their unique, crisp sound. With F-Style and A-Style bodies, we offer three mandolins, from the traditional pure acoustic to the acoustic-electric option, all in attractive classic finishes. From rosewood bridges and fretboards, and your choice of Spruce or Mahogany tops, there's a mandolin for any melody you want to play.

Troubadour

What's the one thing that almost all small venue musicians strive for when it comes to amplifiers? Some might say "pure immersive tone", which would undoubtedly be followed by "portability". The Ibanez T Series Acoustic Guitar Amplifiers deliver exactly that, along with the striking appearance of a hand-crafted boutique amplifier. Whether you're playing at the local coffee shop or you're gigging at religious venues, the sounds of the T Series will fill the room. Plus, you won't have to break your back getting your amp in and out. The Ibanez T Series was designed with portability in mind.

9 Series

For more than a quarter century, the Tube Screamer has continued to captivate players as the first name in overdrive pedals. With that same distinctive sound and high quality, the Ibanez compact effect pedals are esteemed even by pro players and set the new standard in guitar sound.

Echo Shifter

To the fans of analog delay pedals: your prayers are answered. With the introduction of the ES2, Ibanez combines true analog sound quality with digital-like flexibility; features like a tap-tempo footswitch, allowing on-the-fly tempo adjustment (a rarity among analog stompboxes). The ES2 also offers an infinite variety of sonic possibilities, with features like an oscillation switch, feedback control, modulation, and a depth control that promises miles of creative inspiration.

Analog Delay ES2

- controls Tap/ Delay Time/ Feedback w/ Oscillation On/Off
Mix/ Depth w/ Modulation On/Off
- delay time 30ms - 1000ms
- size 120(W) x 160(D) x 65(H)(mm)
- weight 630g
- power source One 9V Battery or external AC Adapter ACS09 (sold separately)

Weeping Demon

The Ibanez WD7 Weeping Demon Wah Pedal will have your audience screaming for more with its shrieks, cries, wails, and seductive siren songs. Among its features are spring and normal footboard action, selectable wah range, and fine tuning controls.

Wah Pedal WD7

- controls Level, Auto Off Delay, Q, Lo, Range Fine Tuning, Foot SW, Mode Lever
- i/o's Input, Output
- size 154(W) x 259(D) x 117(H)(mm)
- power supply One 9 Volt Battery or external AC adapter ACS09 (sold separately)

Signature Effect Pedal

The Paul Gilbert Signature AF2 AIRPLANE FLANGER is two pedals in one package. One section is a traditional chorus flange (TAXI), the other is an insane (TAKEOFF) flange (hence the "AIRPLANE" moniker), which provides virtuoso guitarist Paul Gilbert's own "Crazy Flange" sound. Time to buckle up. The AF2 features Manual (delay time), Speed (modulation speed), Range (depth of modulation), and Enhance (feedback) controls.

Paul Gilbert Signature Flanger™ AIRPLANE FLANGER™

- AF2**
- controls TAXI Mode : Range/Chorus Type Modulation Effect
MANUAL : Delay Time
SPEED : Modulation Speed
RANGE : Depth of Modulation
ENHANCE : Feedback
TAKEOFF Mode : Jet Sound (shifting pitch up and down)

 - weight 866g
 - power source Operates with a DC 9V AC Adapter

Classic Wah Pedal

The WH10V2 features the same circuit as the original with one major upgrade: a very sturdy metal housing. Ready now for the rigors of the road, the WH10V2 features the same multiple feedback Op-Amp circuit as the original, a feature rarely found in today's wah pedals. It also has a depth knob to control the level of the wah effect and a dry out for mixing a dry signal with the wah sound. The WH10V2 has a unique tone character setting it apart from all traditional wah pedals.

Wah Pedal WH10V2

- controls Depth
- switches Effect on/off, Frequency range (GTR/BASS)
- i/o's Input, Output, Dry Out
- size 87(W) x 202(D) x 84(H)(mm)

Tuners

In the process of designing six, seven, and eight string guitars for players who use all kinds of alternate tunings, we learned plenty about what works and what doesn't when it comes to tuners. Ibanez makes tuners that work—quickly, accurately, and with the reliability that performers have come to trust.
