

MEGAMIX

MIXTAPE | GAME BOOSTER

HOW TO PLAY

1. Have your supplies setup but don't explain it all away yet.
2. Invite a few students friend pairs up to the platform without explanation and send half of each pair away to another room.
3. Then explain to the rest of the room and the half of each pair still with you that today they are going to build a "custom mix" for their friend.
4. Next level, switch the pair (if you dare)

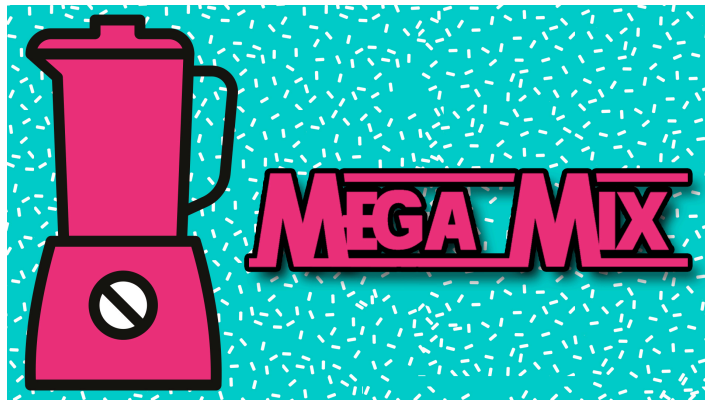

PRO TIPS

1. Do **warn** some of your students who may be **averse** to vomiting that it could occur (no reason to start a chain reaction).
2. Do make sure none of the ingredients will cause an allergic reaction for the students participating.

MEGAMIX – OVERVIEW

There is nothing better than getting a custom mix playlist from a loved one. Well except maybe a custom mix smoothie from someone you love :). Today's game is a food one with a mix and a twist.

GAME LOGO

SUPPLIES

- Blenders (either one for the table or one for each team)
- “Mix ingredients” We suggest having a sampling of “normal” smoothie items alongside some maybe less savory options. So make sure and have fresh/frozen fruit, juices, ice, baby food, French fries, sour cream you know the works?
- A strong stomach (seriously make sure the queasy are aware)
