Cache Across Maryland 2020

(print your caching name)

The Maryland Geocaching Society welcomes you to the 2020 edition of Cache Across Maryland! Each of the ten CAM 2020 geocaches contains an attribute icon which will be required in order to determine the location of the CAM 2020 Picnic. The icons can be found on the inside front covers of the log books as well as on the inside surfaces of the cache containers. **Keep a record of which attributes you find by circling them below.** By the time you have successfully completed CAM, you should have at least ten attributes circled. The CAM decoder will publish the last week of April. All ten of the correct attributes must be entered into the Decoder to obtain the coordinates to the picnic. Any cacher who completes all ten CAM geocaches **and attends the CAM Picnic on May 2nd (GC8GPVQ)** will receive a Certificate of Completion and a CAM 2020 geocoin. We hope you have an enjoyable CAM!
