How to Play

This is a fun game based on opinion that will allow your whole audience to play. It does not matter if they play Fortnite or not. Students will be shown two “skins” or costume that are part of the Fortnite game. Your students will move to the left or right side of the room depending on which skin they like the best.

Pro Tip:

Find the Fortnite music on Youtube and have it playing while you play the game. If you want to go the extra mile have one of your leaders dress up like a Fortnite player and have them lead the game.
