themes

Every problem comes with a
Ready, Set, Show
& Answer slide

Ready

$$5 \times 5 =$$

Set

$$5 \times 5 =$$

Show

$$5 \times 5 =$$

Answer

25

Introduction slides with editable text boxes

When you see the word
READY

get ready to listen and read
the problem. You can get
your white board and
marker ready. This is your
signal to erase your board
if needed.

© wanttobesuper teacher.com

When you see the word
SET

you can start working
out the problem and
showing your answer on
your white board.

© wanttobesuper teacher.com

When your
answer is
ready, put
the white
board under
your chin with
your writing
facing you.

© wanttobesuper teacher.com

When you see the word
SHOW

hold up your white board
and show off your
answer. Make sure your
teacher can see it.

Practice question with step-by-step instructions

**Let's
Practice!**

Ready

Erase your board if
needed and read the
question.

$$4 \times 2 =$$

Set

Now work out the problem on
your white board. When you
have your answer ready, put
the white board under your
chin with your work facing you.

$$4 \times 2 =$$

Show

Show off your answer!
Hold up the white board so
your teacher can see your
work. Don't worry if it's
wrong. Mistakes are proof
that you are trying!

$$4 \times 2 =$$

Answer

8

169 Multiplication Fact Problems + 20 Challenges

Ready

$$9 \times 5 =$$

Set

$$1 \times 6 =$$

Show

$$8 \times 2 =$$

Ready

$$12 \times 11 =$$

Set

$$7 \times 12 =$$

Show

$$11 \times 11 =$$

Ready

$$\times 2 = 12$$

Set

$$\times$$

$$= 81$$

Show

$$4 \times 9 = 9 \times$$

Every multiplication equation
with a factor of 0-12
is included

Ready

$$0 \times 0 = \text{🍀}$$

Show

$$12 \times 12 = \text{👧}$$

All problems have factors
written in two ways for
commutative property practice

Ready

$$6 \times 5 =$$

Show

$$5 \times 6 =$$

168 multiplication problems with factors 0-12

Ready

$$8 \times 5 =$$

Set

$$3 \times 10 =$$

Show

$$4 \times 4 =$$

Ready

$$1 \times 6 =$$

Set

$$9 \times 10 =$$

Show

$$2 \times 3 =$$

Ready

$$5 \times 11 =$$

Set

$$8 \times 8 =$$

Show

$$12 \times 7 =$$

20 Challenge Problems

Ready

$$\text{U} \times 10 = 90$$

Set

$$\text{Girl Reading} \times \text{Girl Reading} = 36$$

Show

$$5 \times \text{Leprechaun Hat} = 40$$

Ready

$$\text{Boy Reading} \times \text{Boy Reading} \times \text{Boy Reading} = 27$$

Set

$$\text{Clover} \times 9 = 63$$

Show

$$\text{Book} \times \text{Book} = 121$$

Ready

$$10 \times 3 = \text{Pie} \times 6$$

Set

$$\pi \times \pi = 144$$

Show

$$\text{Pot of Gold} \times 12 = 10 \times 6$$

Editable slides + instructions for easy customization

Editable Slide Instructions

IF you would like to create additional slides for this show, the text boxes on the slides below are editable and can be copied and pasted into the existing show as many times as you would like.

To get the slides, just click on the text box and edit away! The Fonts used on these slides are embedded into this presentation, so you can copy and paste them into other presentations. However, if something isn't looking right, you may need to download the fonts to your computer. If you would like to create additional slides for your presentation, you can copy and paste them into the existing show as many times as you would like.

To edit the slides, just click on the text box and ear "wink" sound. I used Microsoft PowerPoint so they should show up on your computer just like they do on mine. However, quite right, you can also download these Fonts For Free at Tpt and download them to your computer.

The Fonts used are: (various)

The Fonts used are:
KG Miss Kindergarten (questions)
KG Blank Space Solid (answers)
 Follow the links, **right click** on the link above and choose "open hyperlink".
 See and paid clipart sets here: [Sarah Beccantini's Small Kids & Food](#)

KG Blank Space Sold (drawings)

To Follow the links, right click on the link above and choose "copy" or "copy link address"

If you want to add the same clipart images, you can find the Free and paid clipart sets here: [Sarah Peacor's Monthly Calendar Icons 1st Edition](#), [2nd Edition](#), [3rd Day Clip Art](#), [Prince Peacor's Multicultural School Kids](#) & [Food & Art](#), [Narnia's Originals St. Patrick's Day Clip Art](#). To Follow the links, right click on the link(s) above and choose "copy" or "copy link address"

Right click on the link above and choose "copy" or "copy link address". Then paste, and move them wherever you would like in the show.

Once you have created your own slides you can copy, paste, and move them wherever you would like in the show.

To do this, go to the left-hand side of the screen where you see all the slides. Click the first slide you want to copy (probably the Ready slide). Now hold down the Shift key and click the last slide you want to copy (probably the Answer slide). Now hit Ctrl+C to copy.

Now hit Ctrl+v to paste the slides you copied.

Go wherever you want to put the selected slides in the show and click on the first slide.

Now hit Ctrl+v to paste the slides you copied.

If you want to move the original slides, you can do this using the same process above, but when you paste them, just hover over the first slide you pasted and choose "Keep Source Slides".

If you want to move the original slides, you can do this using the **Slide Sorter** view. Just click on the **Slide Sorter** button in the bottom-left corner of the application window. The slides will appear blank. Don't worry! Just hover over the first slide; you'll see a small arrow cursor. Click on the slide, and it will be selected. Then, click on the **Format** menu, and then click on the **Slide Sorter** option. The slides will look like the originals. Formatting from the pop-up clipboard menu. Then the slides will look like the originals.

If you make a mistake, stop...breathe... And take the next steps. (This strategy works very well for kiddos in the computer lab too.)
