

Company deck —

Innovative digital solutions for a brighter future.

WHO WE ARE?

Our skilled pack hunts great ideas restlessly to ensure clients achieve the impact they want.

Devolfs' experienced talents, freelancers, and other team members make strategic designs and digital product branding completely tailored to the client's needs. Our work is always research-based. Behind the incredible app, website, or digital brand we provide there are hours or surveys, inquiries, workshops - and quite a few forgotten lunches.

We are able to come up with future-proof digital branding and compelling, people-friendly visual content, successfully navigating any challenges along the way. In addition, we tend to work closely with our remote clients, making them part of the process and providing a wholesome and enjoyable working relationship - or so we've been told.

Devolfs - a pack of young creatives chasing innovation

Born in 2017 as an idea and transformed into reality in 2022, Devolfs is now a small team of individuals that rely on one another in a common pursuit of innovation. Combining our vast industry knowledge, problem-solving mindsets, and designing skills, we work on products that better the lives of many - something we are very proud of.

*Client-centric approach, user-friendly solutions, and constant aspiration for improvement are the cornerstones of our agency - and they help us build value for our partners and their target users.

[MEET US ONLINE](#) ↗

Devolfs is here to bring the ultimate digital experience for different-field partners, no matter their location.

Devolfs is more than a creative digital agency. We are strategic partners to companies that work on improving different areas of life but need stronger visual communication to help them achieve it. Our skillfully designed websites, applications, and digital brands help our partners build new ideas and reshape the old ones. We provide digital solutions that push the boundaries of today - and help our partners make a

better tomorrow. Remote collaboration allows us to have constant communication with our global partners, wherever they are. From the sand desserts of UAE, over the countries of the old continent such as Germany, Switzerland, and the UK, to the powerful USA on the west, different companies come to us searching for forward-thinking digital solutions that can help them grow and evolve.

OUR SERVICES

How do we build your story?

From cubs that need our help to grow to alphas that wish to re-establish their place in the digital world, our line of partners is constantly expanding!

We embody the spirit & strength of the wolf pack!

Introducing positive changes through the values we cherish.

Fearless mindset

Our team attacks each new task boldly and never shies away from a new challenge. Not only that, but we welcome projects that will make us leave our comfort zones and force us to think outside of the box.

Strong communication abilities

Like wolves, we are natural team players who work best in group settings and we thrive in a collaborative environment. That is why we tend to nurture effective and transparent communication inside our team - and out of it.

Intelligence and adaptability

Wolves are known for their intelligence, tenacity, and problem-solving abilities - and so are we. It makes us the perfect choice for projects that require innovation and creativity, alongside our constant aspiration to learn more and improve ourselves.

Taking the lead

Once a client comes to us with projects and ideas, we take responsibility for shaping them into unique and practical digital solutions. Like alphas of a pack, we will take the lead, tackle all the challenges, and make sure to deliver only the best results.

Ambition and determination

Wolves are fierce creatures that demonstrate unparalleled determination and resilience in all that they do, much as we exhibit a tireless drive and unwavering dedication to our goals. We won't stop until we reach the outcome we want.

Brand Identity

UX Design

UI Design

Lingostruct is a forward-thinking technology company committed to simplifying project management for construction companies.

Recognizing the diverse linguistic landscape within the construction industry, Lingostruct sought to address the communication challenges faced by international teams by providing a robust platform capable of real-time translation to users' mother languages. By doing so, Lingostruct aimed to enhance collaboration, productivity, and efficiency across all project stages.

Our mission

The objective of the project was to create a comprehensive solution that would revolutionize the construction industry by enabling seamless communication and project management across language barriers. Devolfs undertook the task of developing Lingostruct's brand identity, conducting UX research, designing the user experience, and crafting the user interface for the platform across multiple devices.

We embarked on a journey to capture Lingostruct's values and mission, ensuring that their brand would resonate with their target audience. By conducting in-depth workshops and collaborating closely with the team, we developed a comprehensive brand identity that reflected their commitment to innovation, reliability, and global collaboration. The final result conveyed a sense of trust, professionalism, and user-friendliness, aligning perfectly with Lingostruct's vision.

Brand Identity Guidelines

Created in 2023

Meet us

LingoStruct is a company dedicated to revolutionizing the construction industry by offering a software solution that eliminates the need for physical plans on construction sites.

Our software is designed to facilitate seamless collaboration between all members of the construction team, from engineers and architects to project managers, subcontractors, and construction workers. We understand a significant challenge to effective communication on construction sites is the inability to translate and display planning information on a single device, let alone each participant on their handheld device.

Overview

The Lingostruct wordmark & icon are an important expression of our brand identity. By applying the wordmark in a consistent manner, it strengthens the recognition & visibility of our brand.

Icon can be used as a stand-alone graphic, however, the Lingostruct wordmark should appear somewhere in the layout to enforce brand recognition.

Primary logo

We are very proud of our logo. Our logo is the combination of a bold, simple and easy recognizable icon with the wordmark.

The Lingostruct colored version, is our primary logo colourway, and it should only be used with LingoDark, Grey and White backgrounds.

Our icon is a shortened version of the wordmark, and it should only be used with LingoDark, Grey and White backgrounds.

Webflow CMS

Eurosearch is an innovative recruitment company that is redefining the industry through the power of artificial intelligence (AI). With a forward-thinking and tech-driven approach, Eurosearch leverages cutting-edge technology to revolutionize the way organizations find top talent and individuals discover rewarding career opportunities.

With a strong focus on innovation and staying at the forefront of industry trends, Eurosearch continuously evolves and adapts to the ever-changing recruitment landscape. They invest in research and development to enhance their AI capabilities, ensuring they remain at the cutting edge of technology-driven recruitment solutions.

Our mission

The project aimed to create a fresh and modern brand image that reflected Eurosearch's cutting-edge approach to recruitment, which leverages AI technology. We were tasked with designing a new logo, developing brand guidelines, creating engaging social media posts and banners, and revamping Eurosearch's website using Webflow.

The primary objective of the project was to establish a strong visual identity for Eurosearch that would convey their commitment to leveraging artificial intelligence in recruitment. The new design elements would align with the company's vision of being a forward-thinking, tech-driven organization, while also presenting a professional and trustworthy image to potential clients and candidates.

We began the project by crafting a brand new logo for Eurosearch. The logo design aimed to capture the essence of the company's AI-driven approach.

UI Design

Webflow Development

Blue Rhythm was founded by a collective of creatives spanning the fields of music, film, and television. Their shared aspiration was to develop a therapy platform specifically tailored to serve the unique needs of individuals from all creative backgrounds. Having personally experienced the transformative power of mental health support, they recognized a crucial pain point in the creative community – the difficulty of finding the right therapist.

With thousands of therapists available, creatives often faced unexpected obstacles when seeking the support they needed to feel better.

Our mission

Devolfs undertook the complete rebranding, UX/UI design, and Webflow development for Blue Rhythm. We began by crafting a compelling brand identity that resonated with the vision of the therapy platform, emphasizing the harmonious connection between creativity and mental well-being. This included designing a new logo, selecting typography, defining a color palette, and establishing brand guidelines to ensure consistency.

For the digital presence, our team leveraged Webflow to create an engaging and responsive landing page. The landing page was thoughtfully designed to welcome creatives seeking mental health support and showcased the essence of Blue Rhythm's mission. We implemented interactive elements, intuitive navigation, and user-friendly features to provide a seamless experience for visitors.

Throughout the project, Devolfs maintained a strong focus on delivering a landing page that embodied Blue Rhythm's message and connected with its target audience.

Logo Philosophy

Our logo embodies the duality of the creative mind - the emotional lows represented by the color blue and the rejuvenating journey towards a healthy state of mind. The rhythmic lines symbolize the essence of creative flow, while the cut circle signifies a transformative experience.

LOGO RULES

Because of the meaning behind the logo design we had to set up some standards and rules so that we always come off as clean and professional. With that in mind, left face of the logo should always be darker than the right one and the left smile should always be lighter than the right one.

BLUE

Down, feeling low, somber

HAPPY AGAIN

Improved mental health

RHYTHM

Healthy Rhythm of life

CUT CIRCLE

The cut out circle of lines represents the change of creative mental health.

Maintenance & support

Hexagon Startup is a web application designed to help women grow their businesses. The platform provides access to business-related courses through registration, allowing users to expand their skills and knowledge.

The goal of Hexagon is to provide a valuable resource for women who aspire to become successful business owners and entrepreneurs. With its comprehensive course offerings and user-friendly interface, Hexagon is the perfect tool for women looking to grow their businesses and achieve their goals.

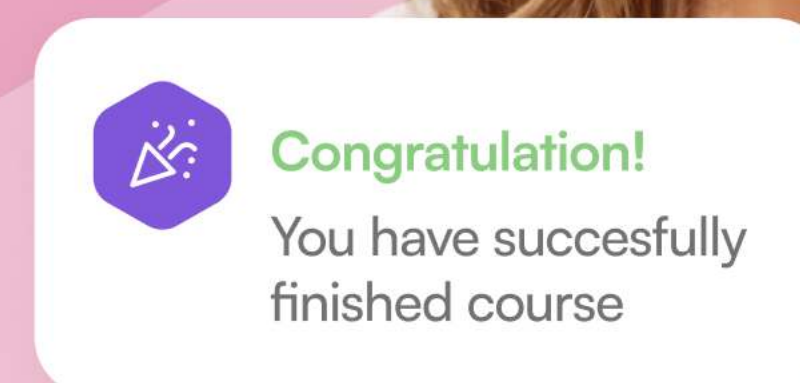

Our mission

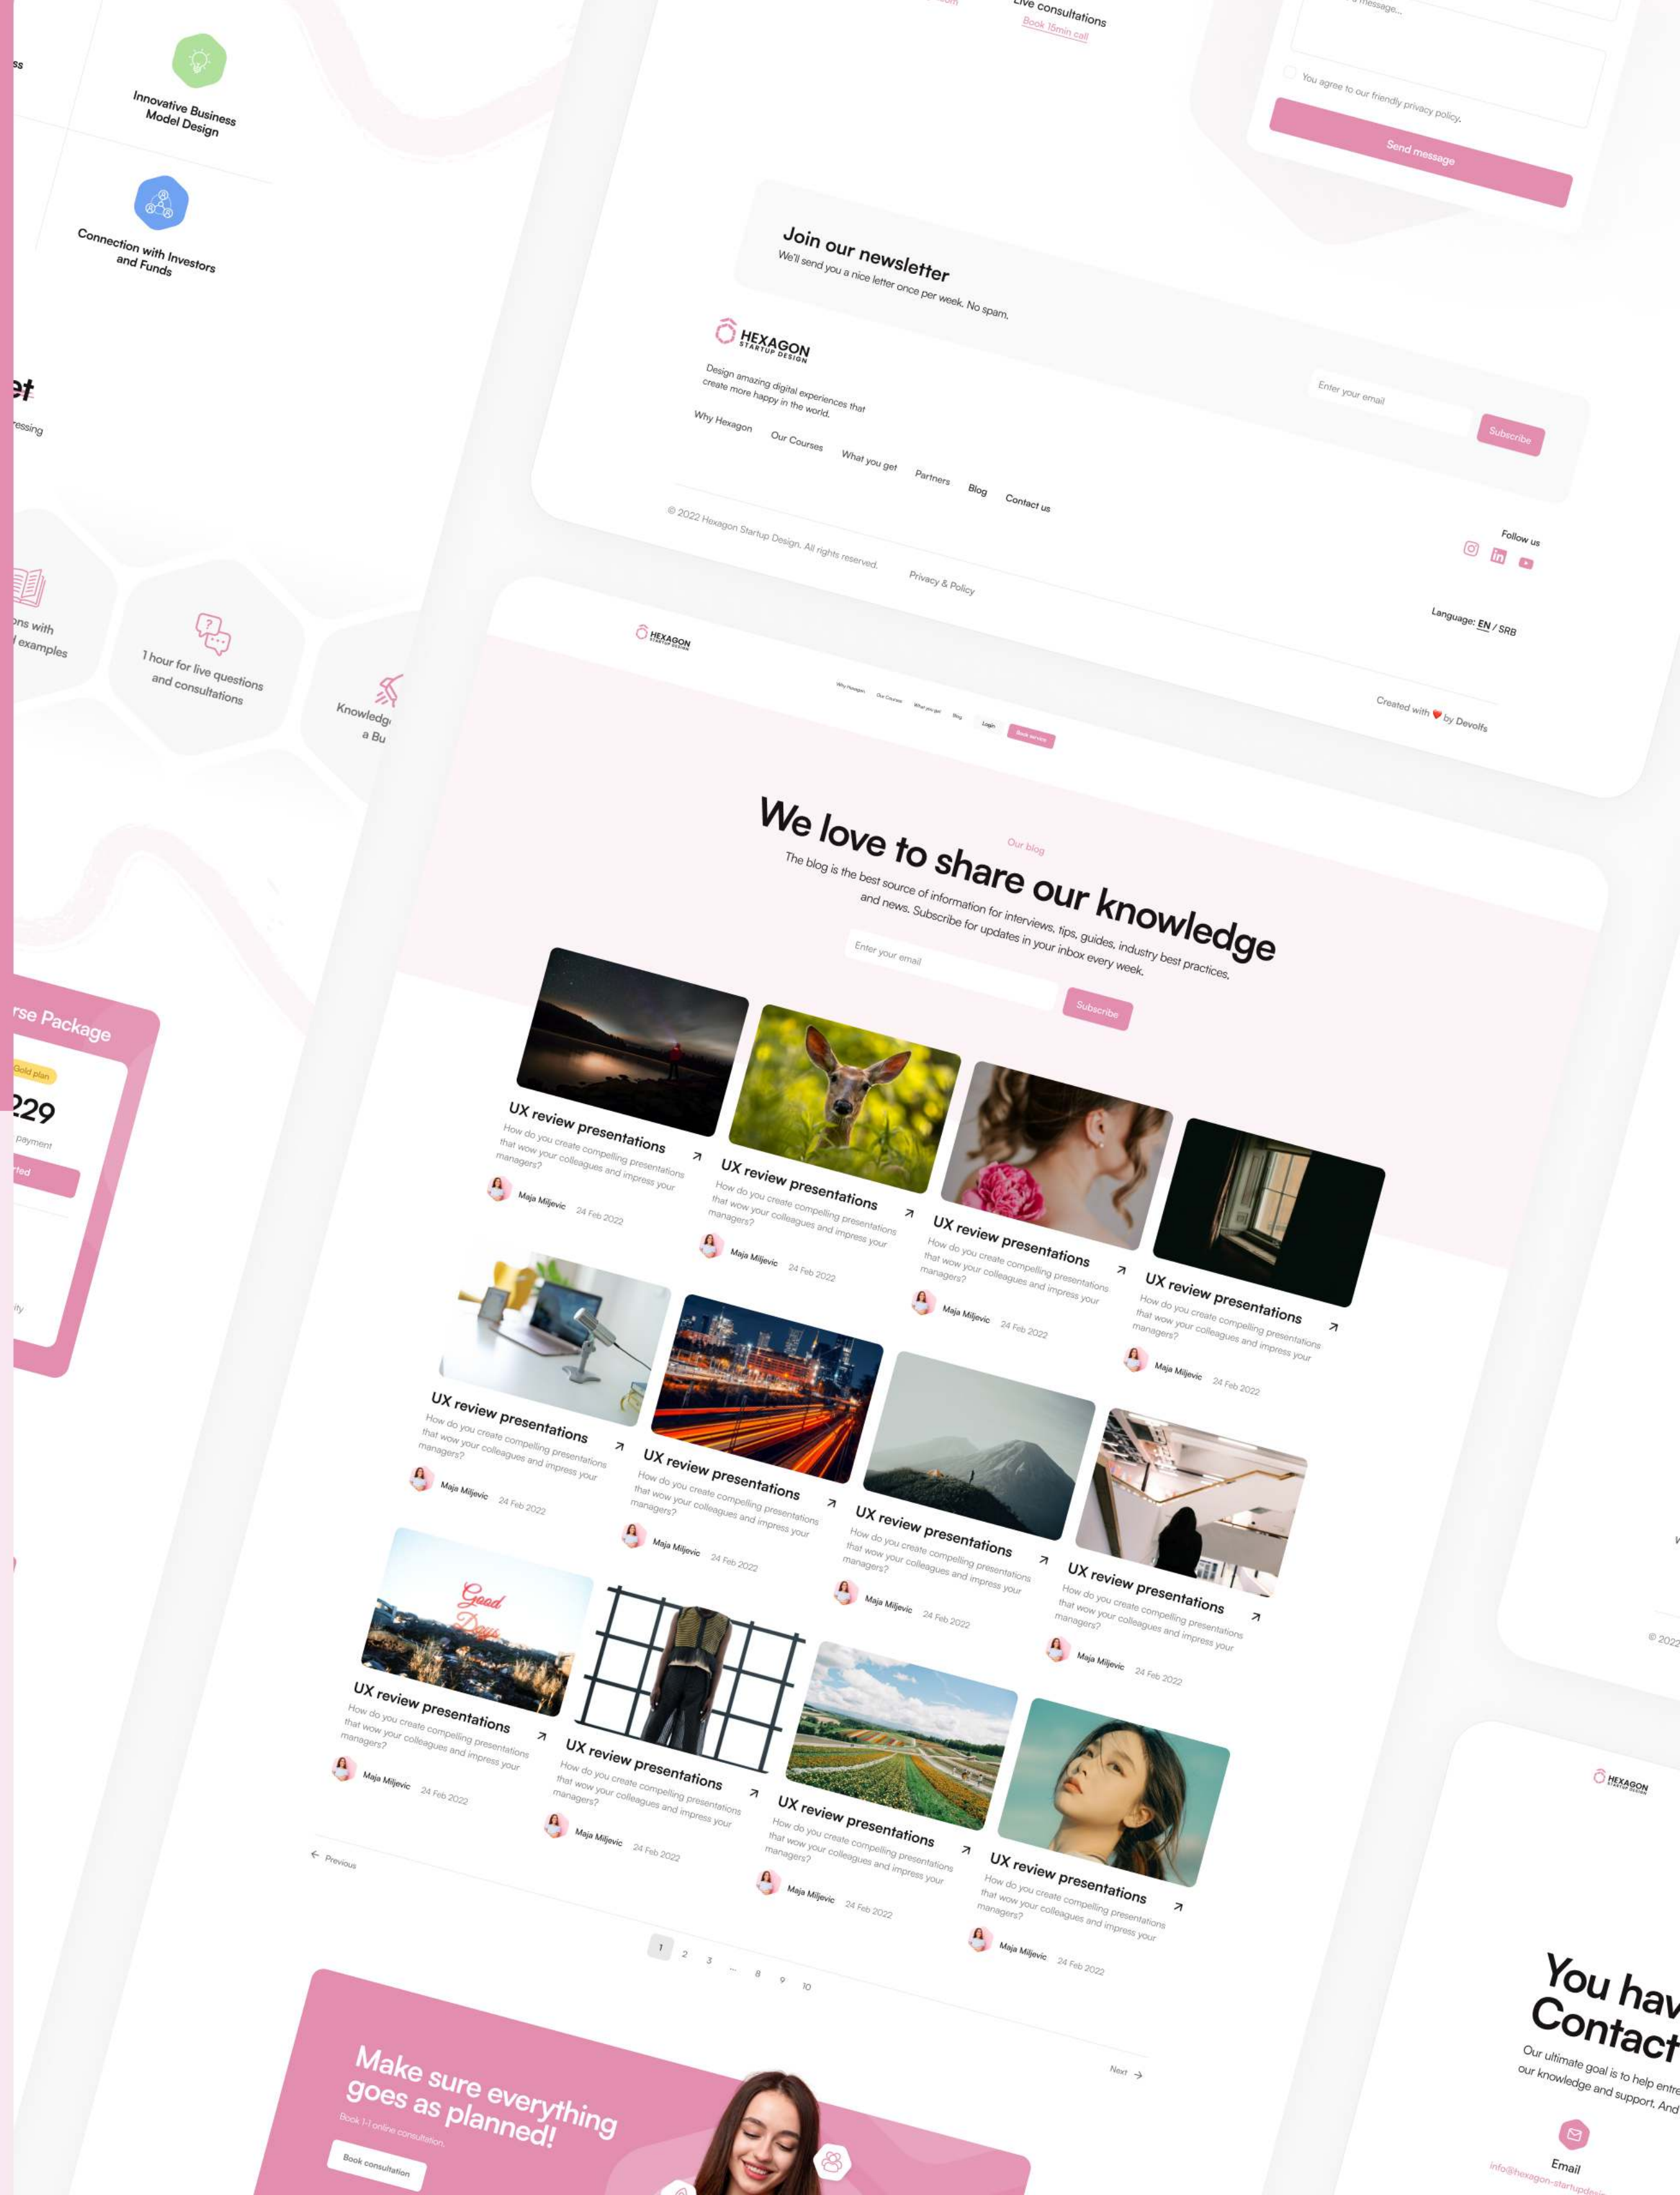

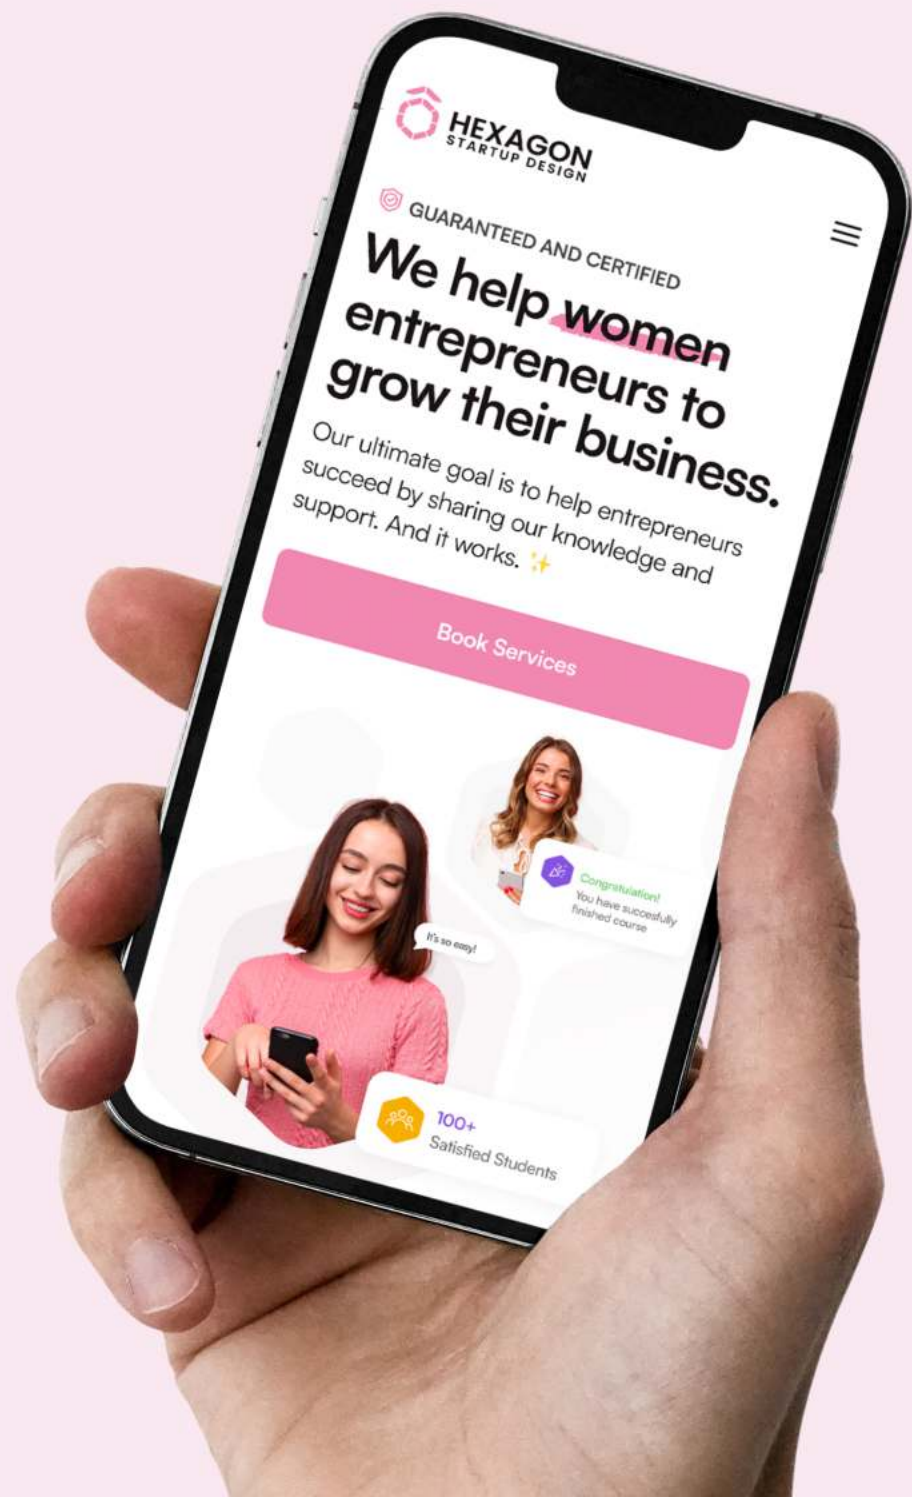

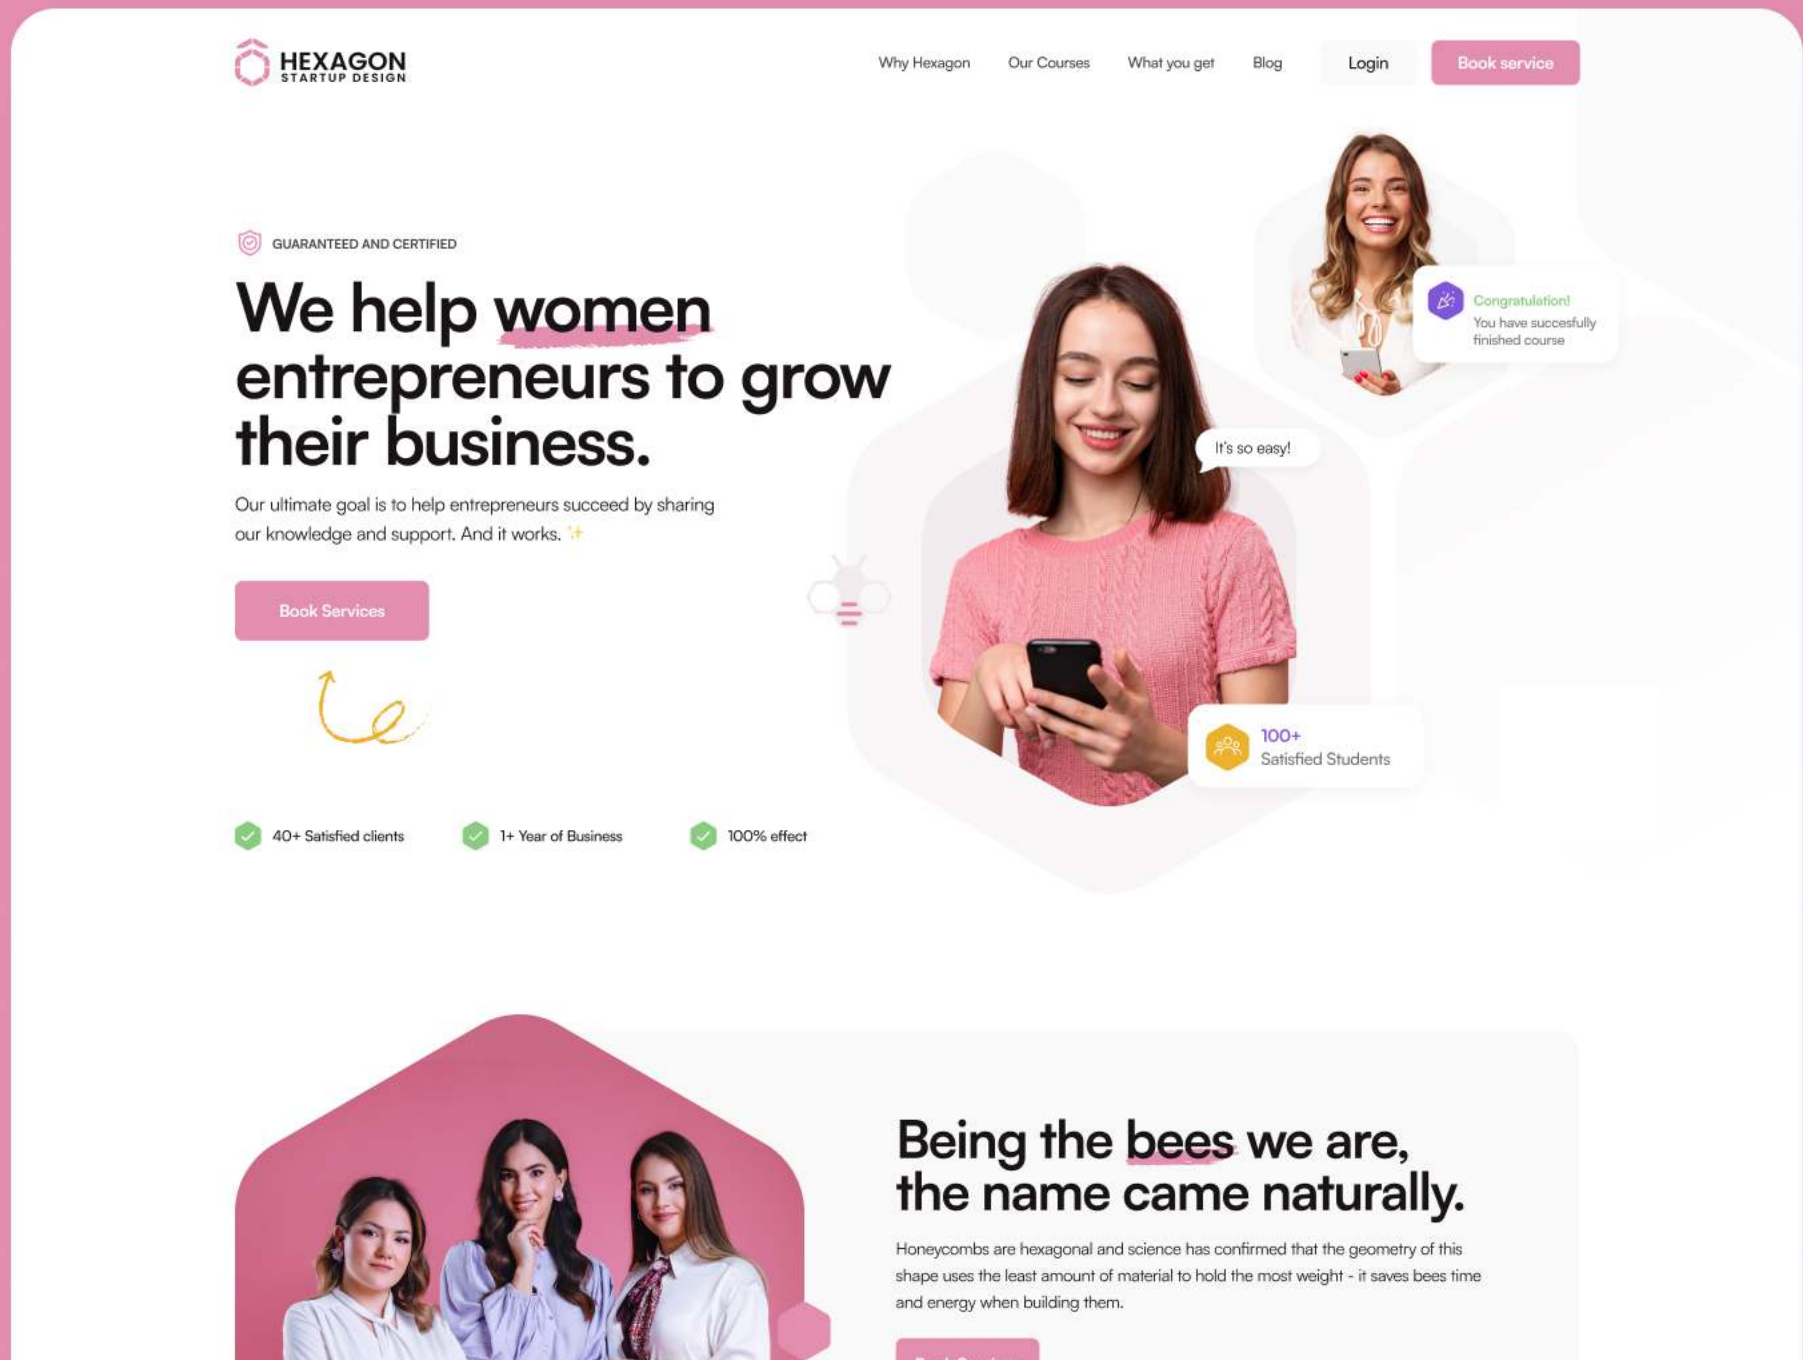

Our mission in the Hexagon Startup Web Application project was to create a seamless and intuitive user experience and user interface. We utilized our expertise in design and development to create a user-friendly interface that is easy to use and navigate. This was achieved by carefully considering the needs and goals of our target users, women who are looking to grow their businesses and develop their entrepreneurial skills.

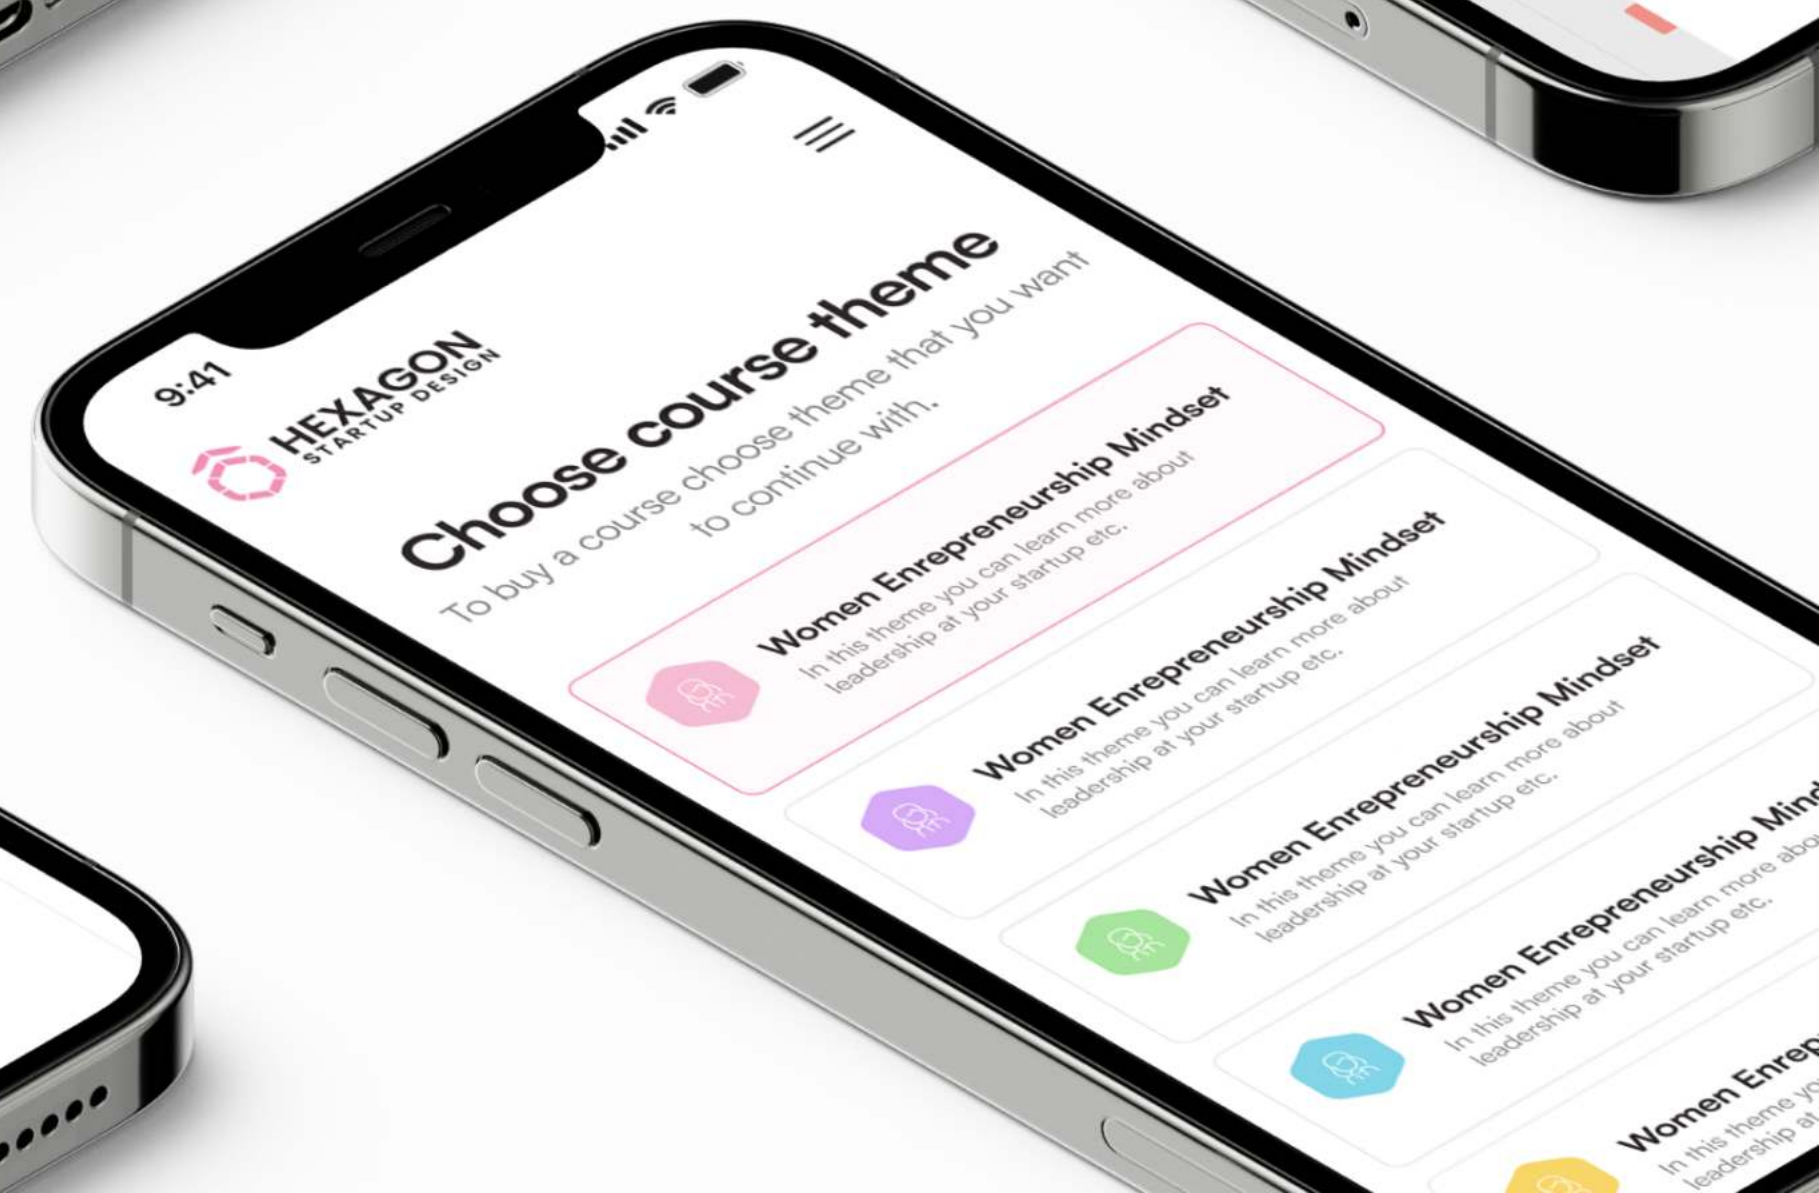

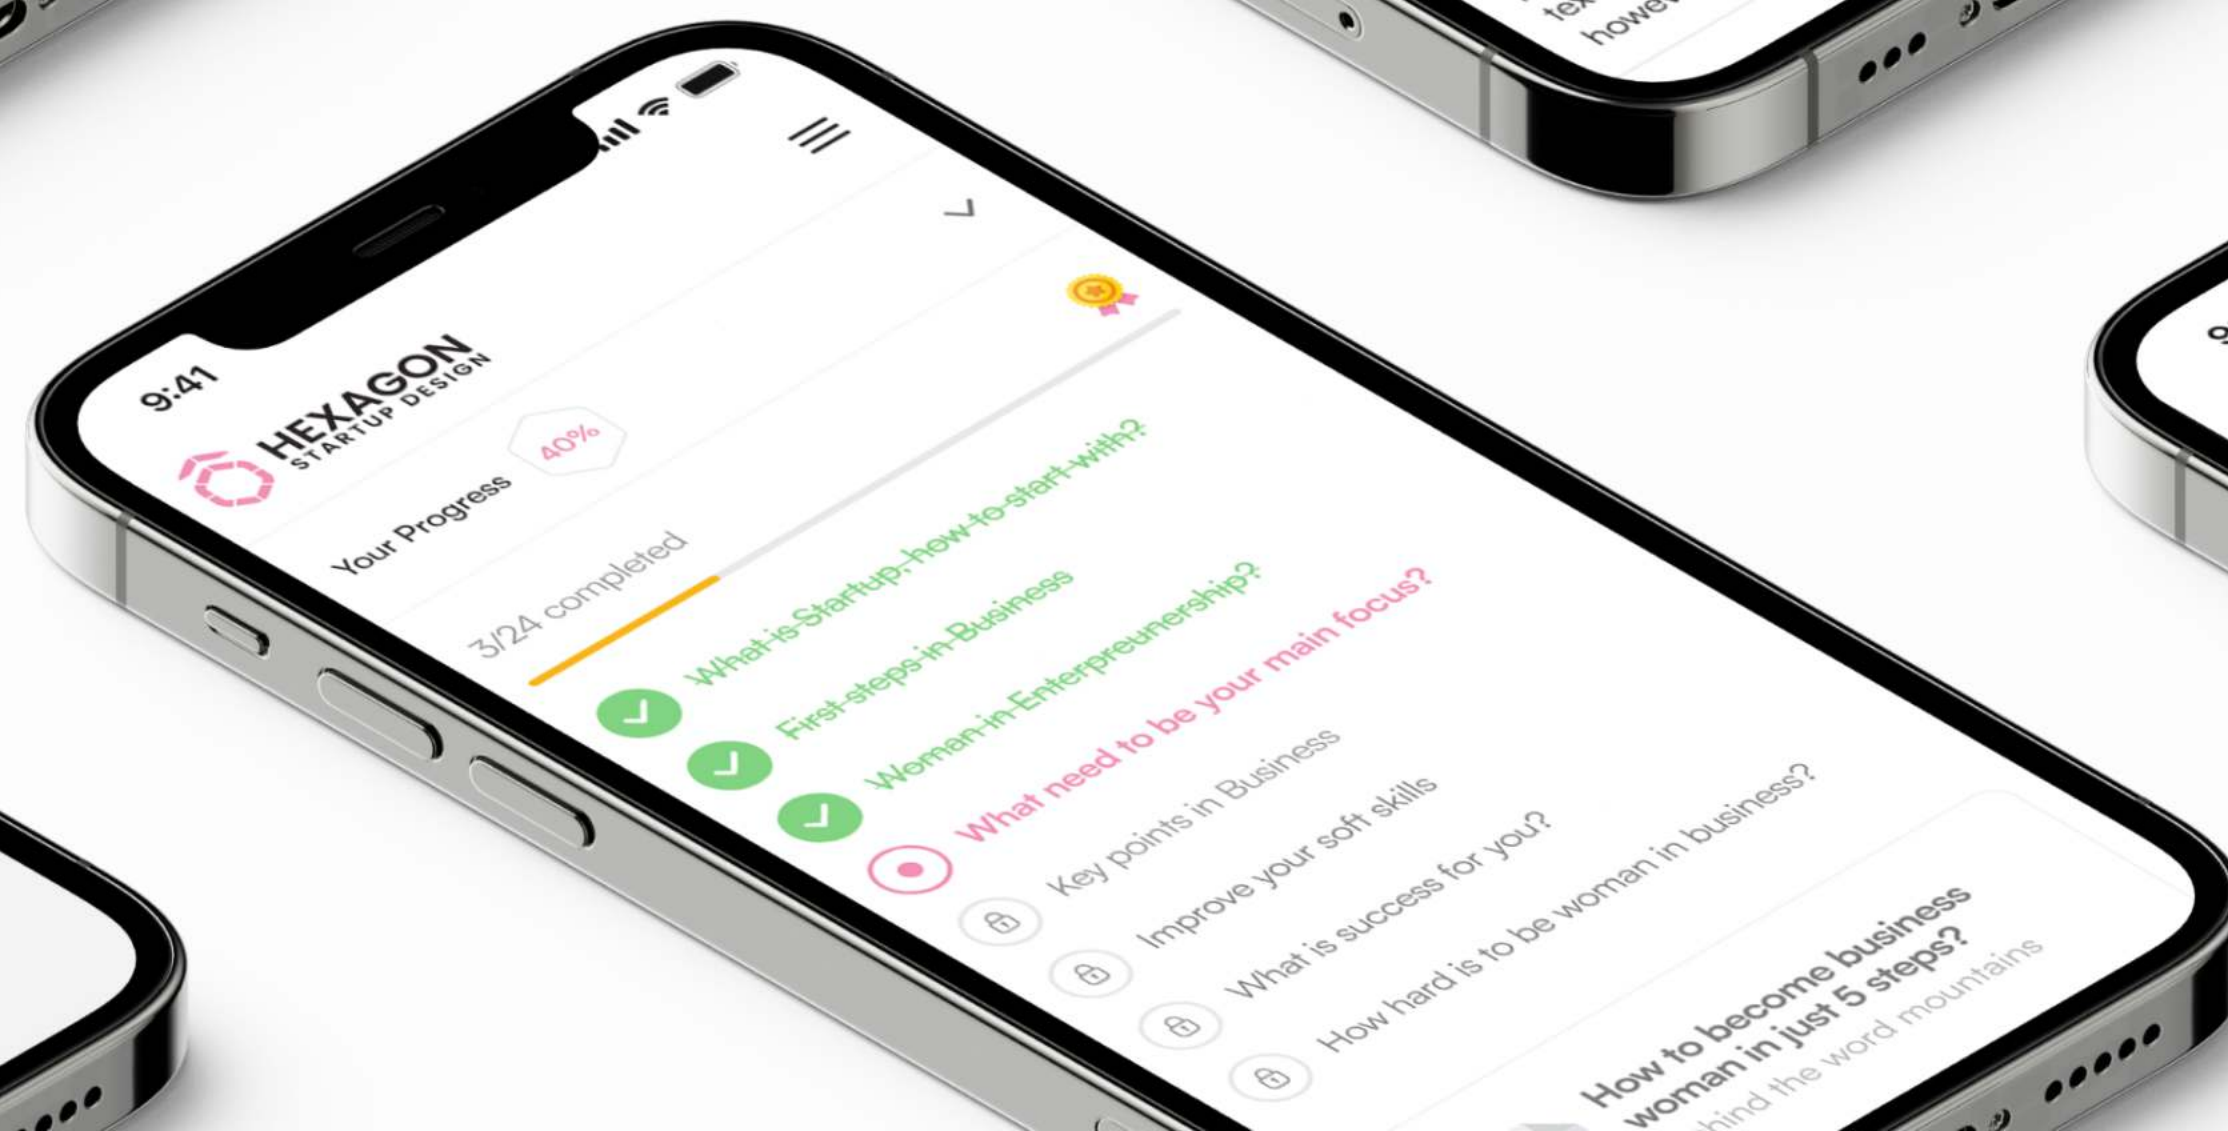

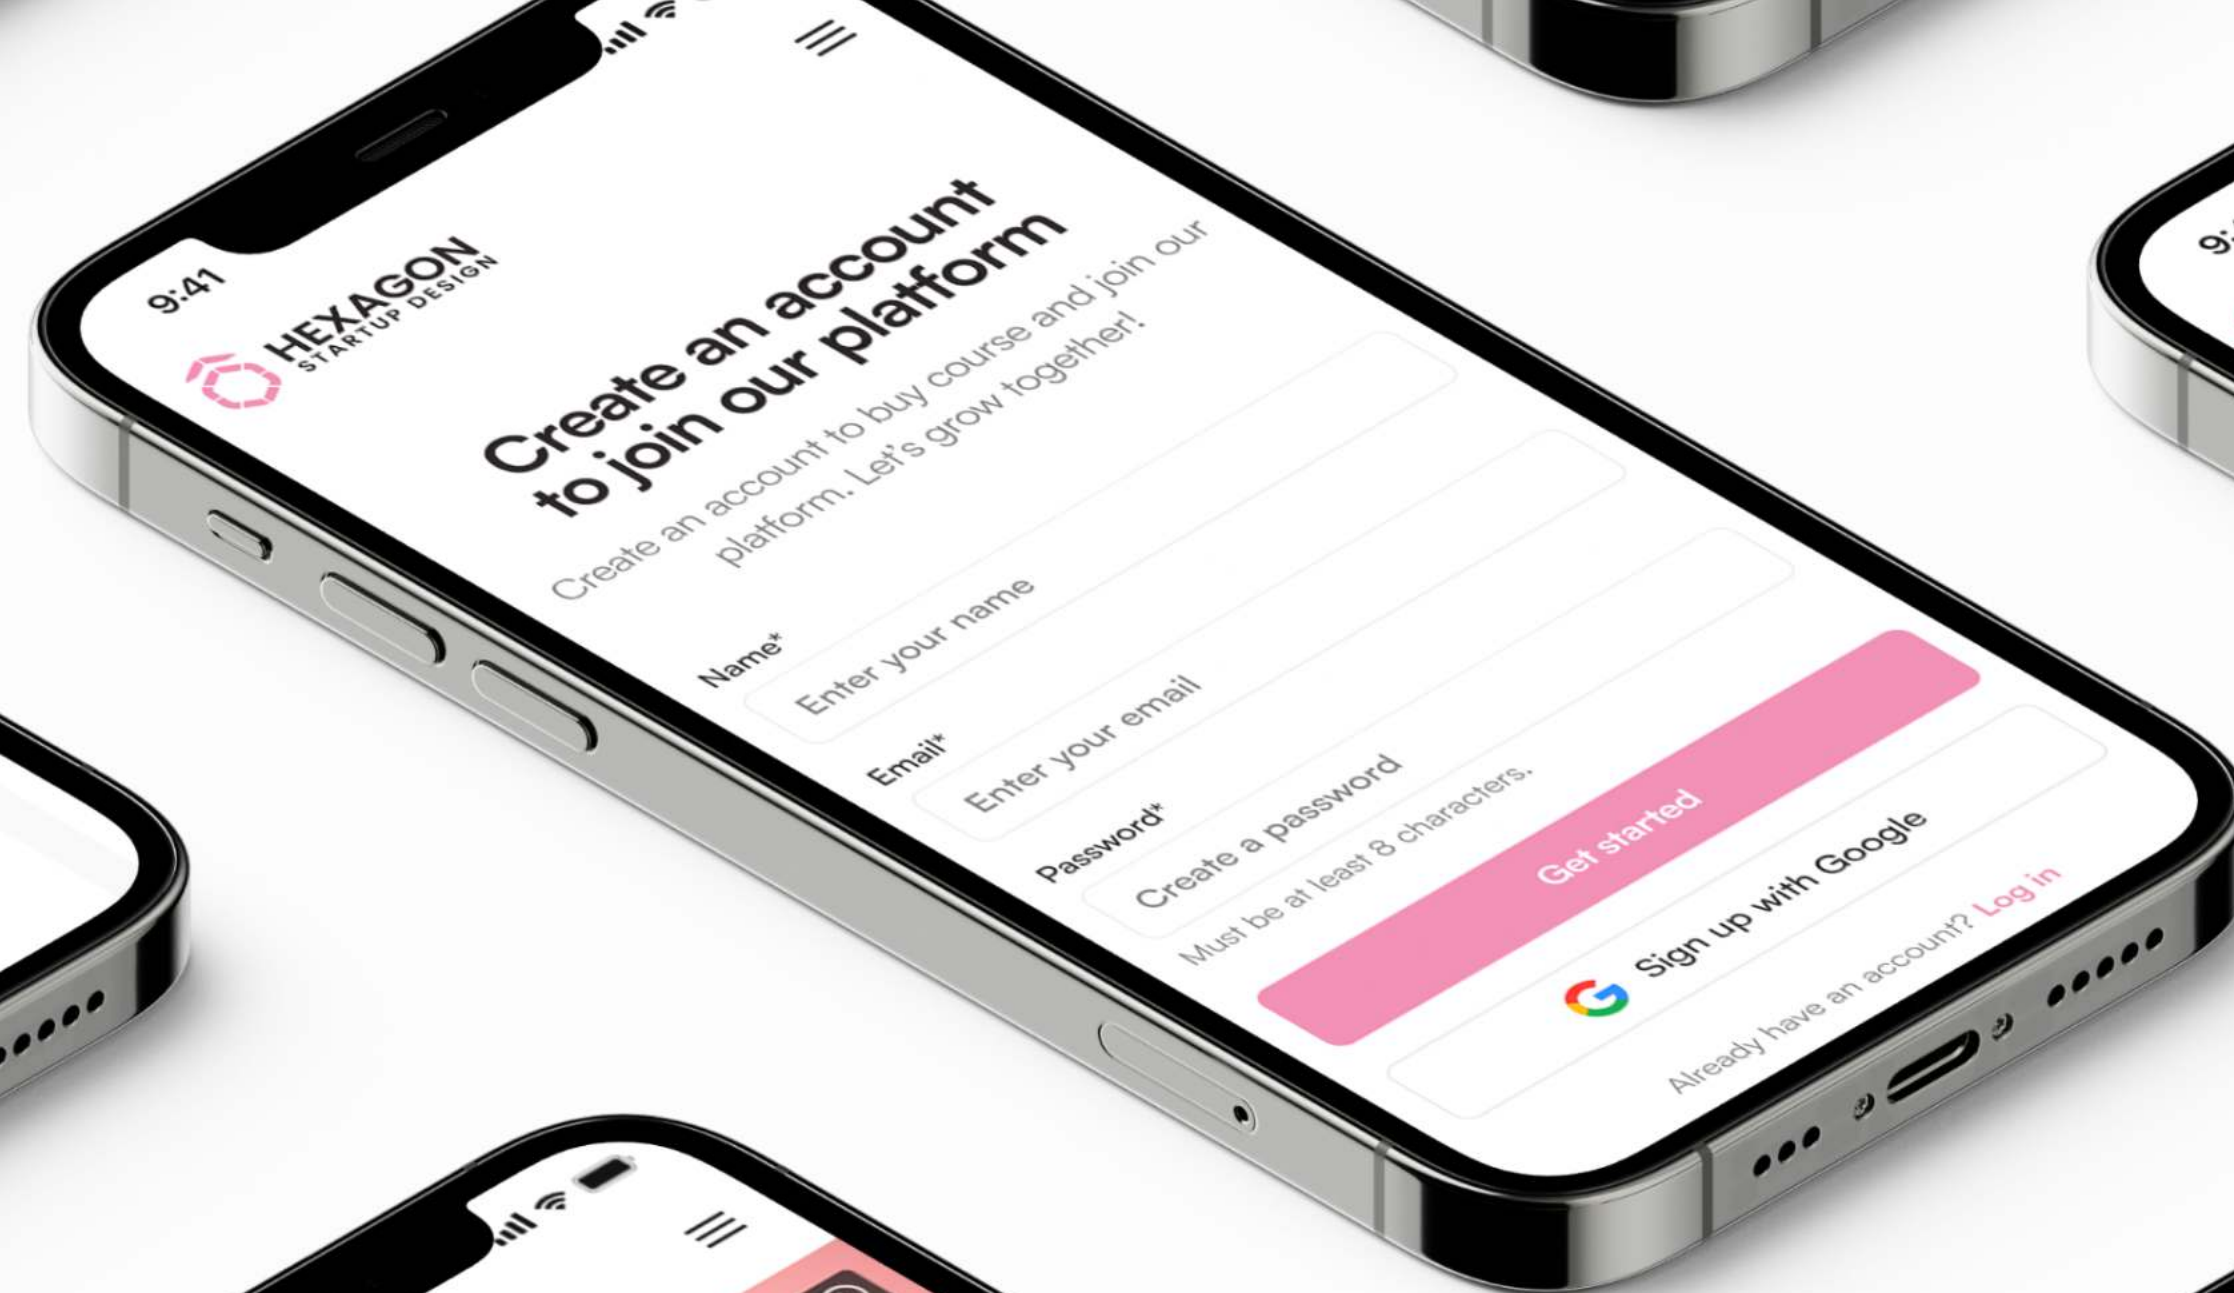

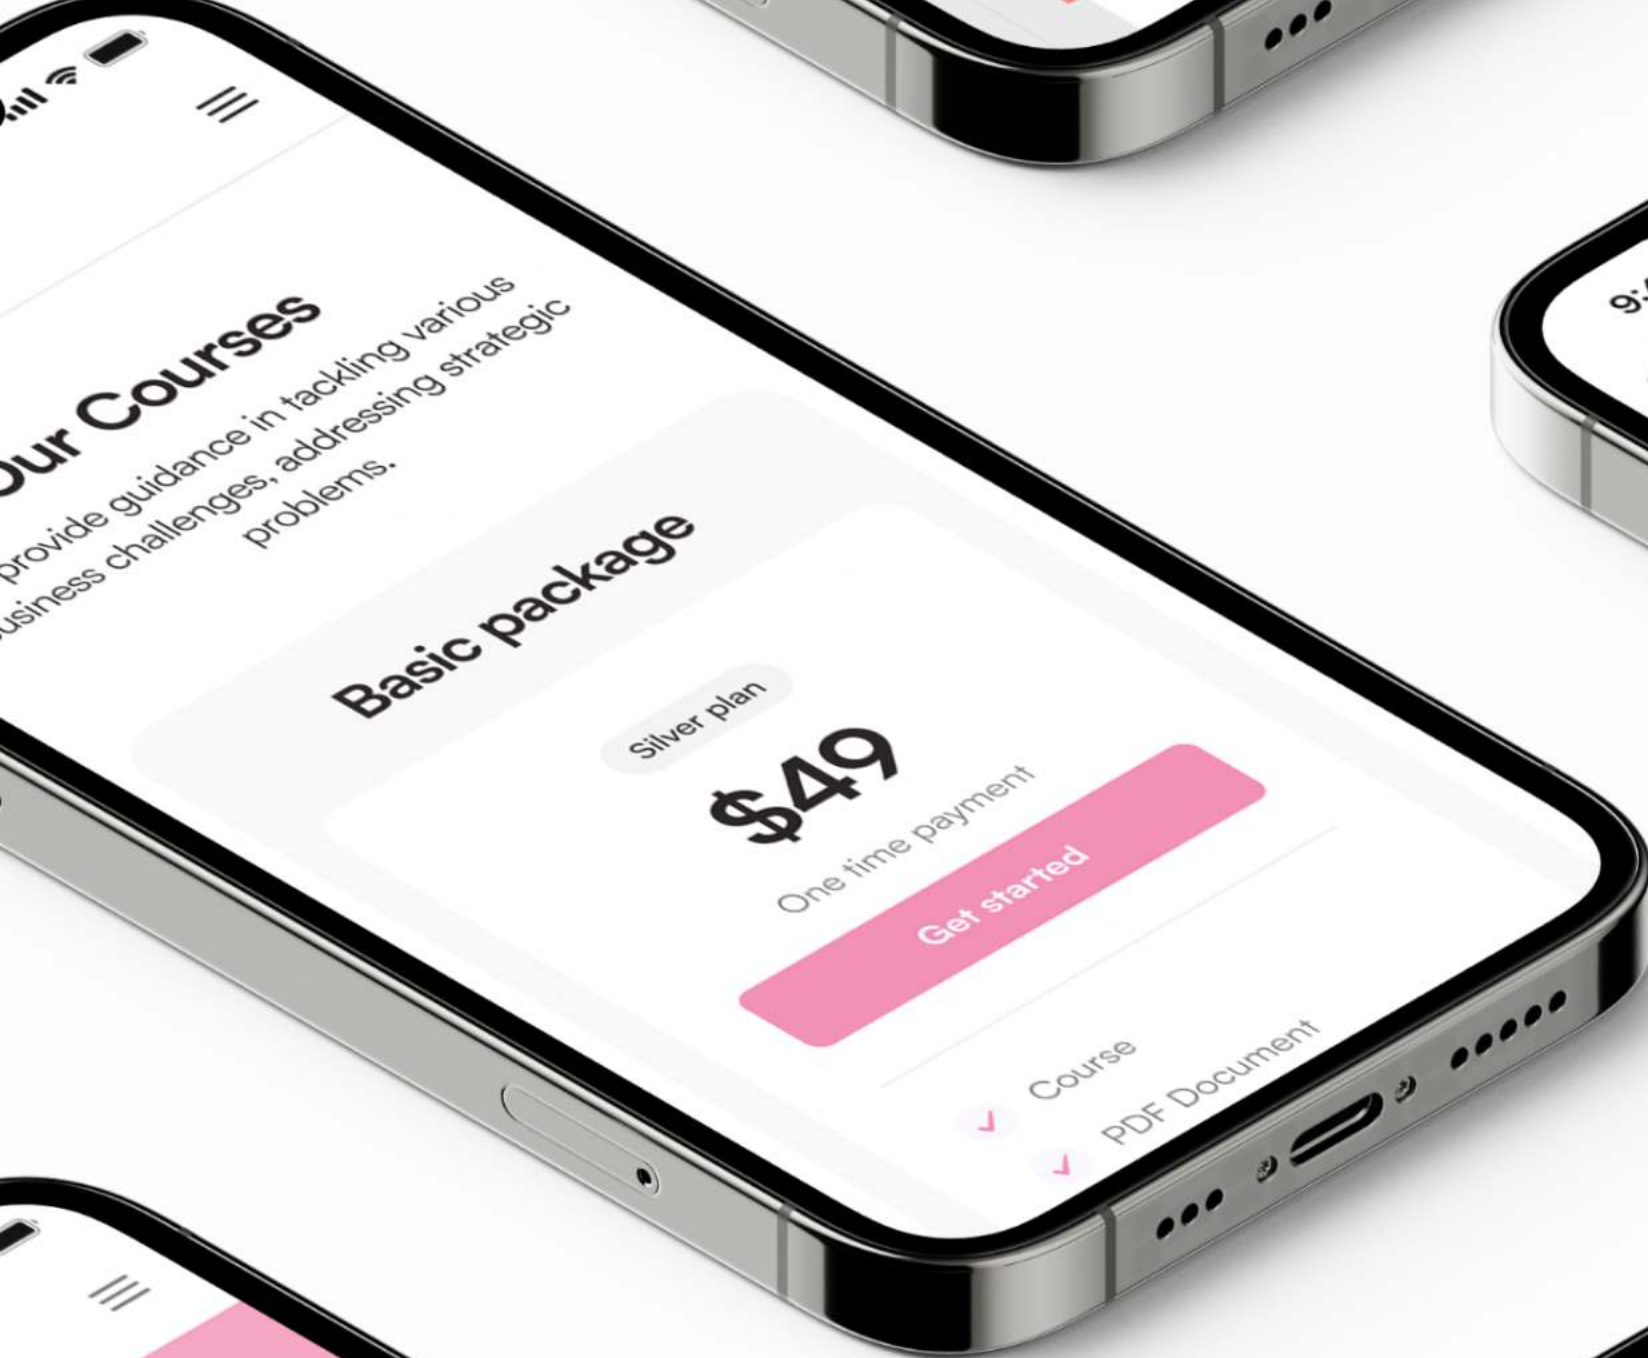

To deliver a robust and efficient platform, we employed the latest web development technologies and best practices. This included utilizing modern front-end frameworks, such as React, to create a responsive and dynamic user interface, and using a CMS solution, such as Strapi, to manage the platform's content and data. This combination of technology solutions allowed us to create a platform that is both user-friendly and scalable, providing women with the resources they need to grow their businesses and achieve their goals.

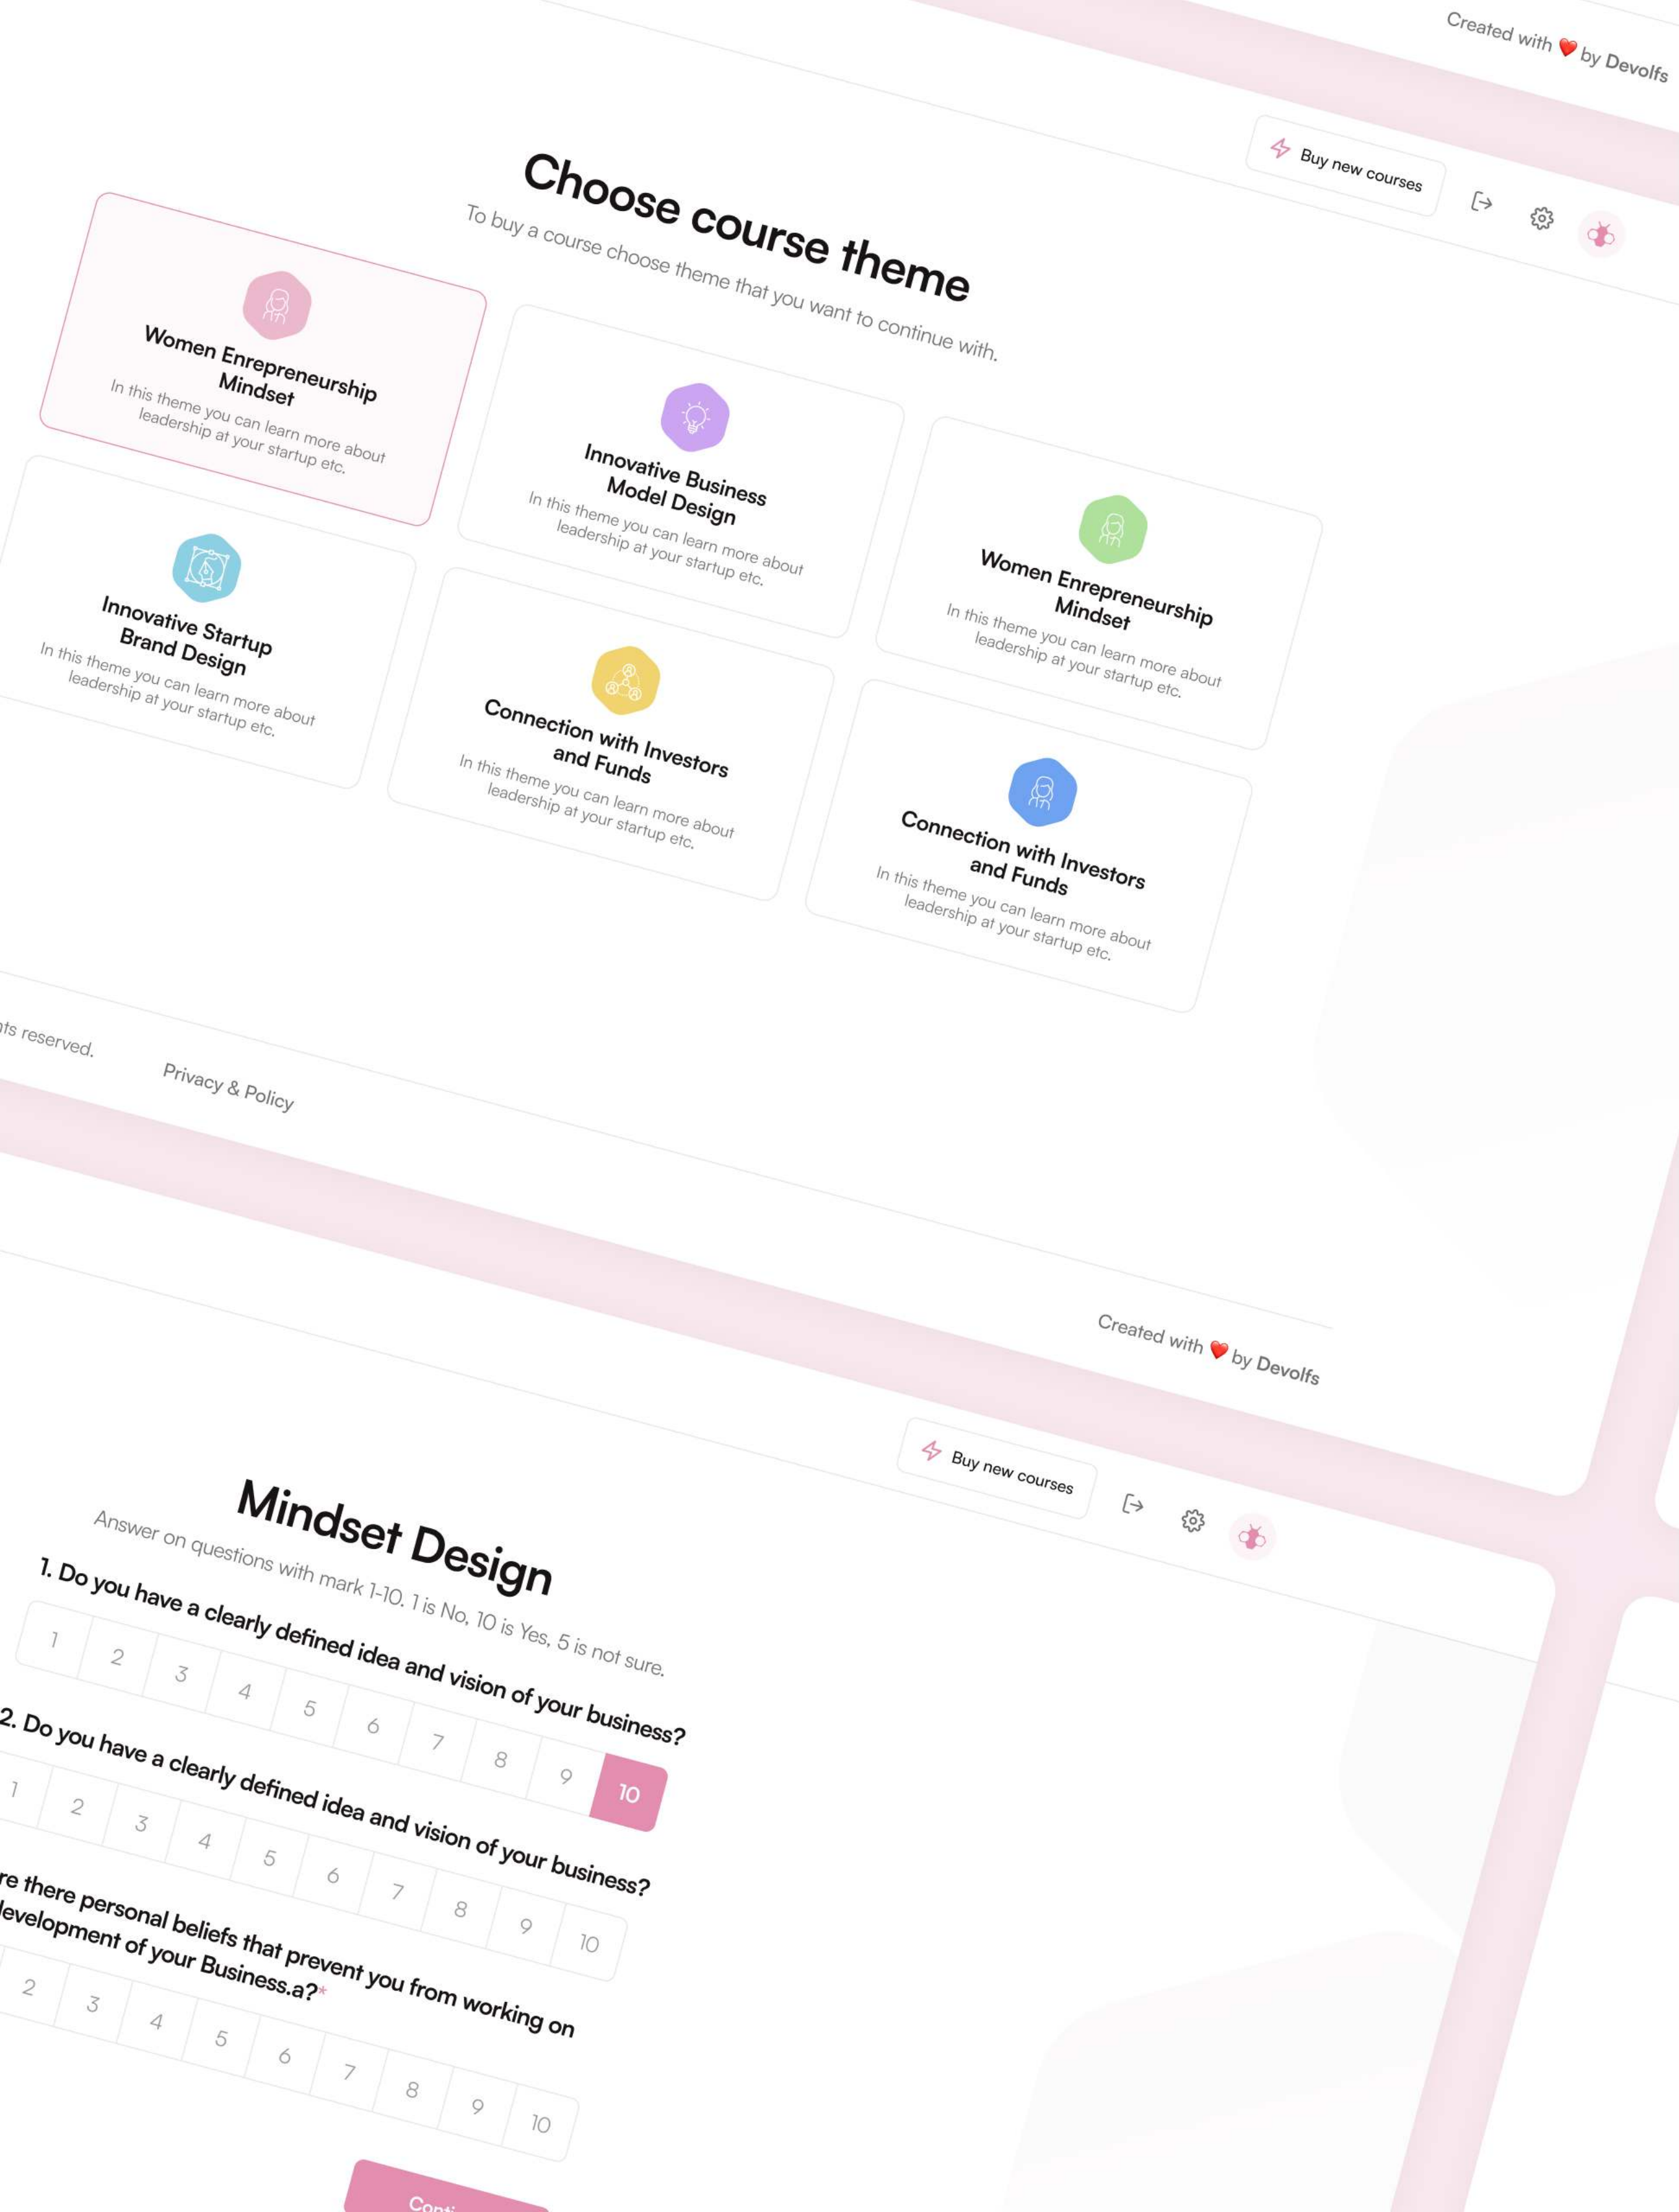

Overall, our mission was to support the mission of Hexagon Startup in empowering women in business through the creation of a comprehensive and user-centric web application.

Maja Miljevic Author

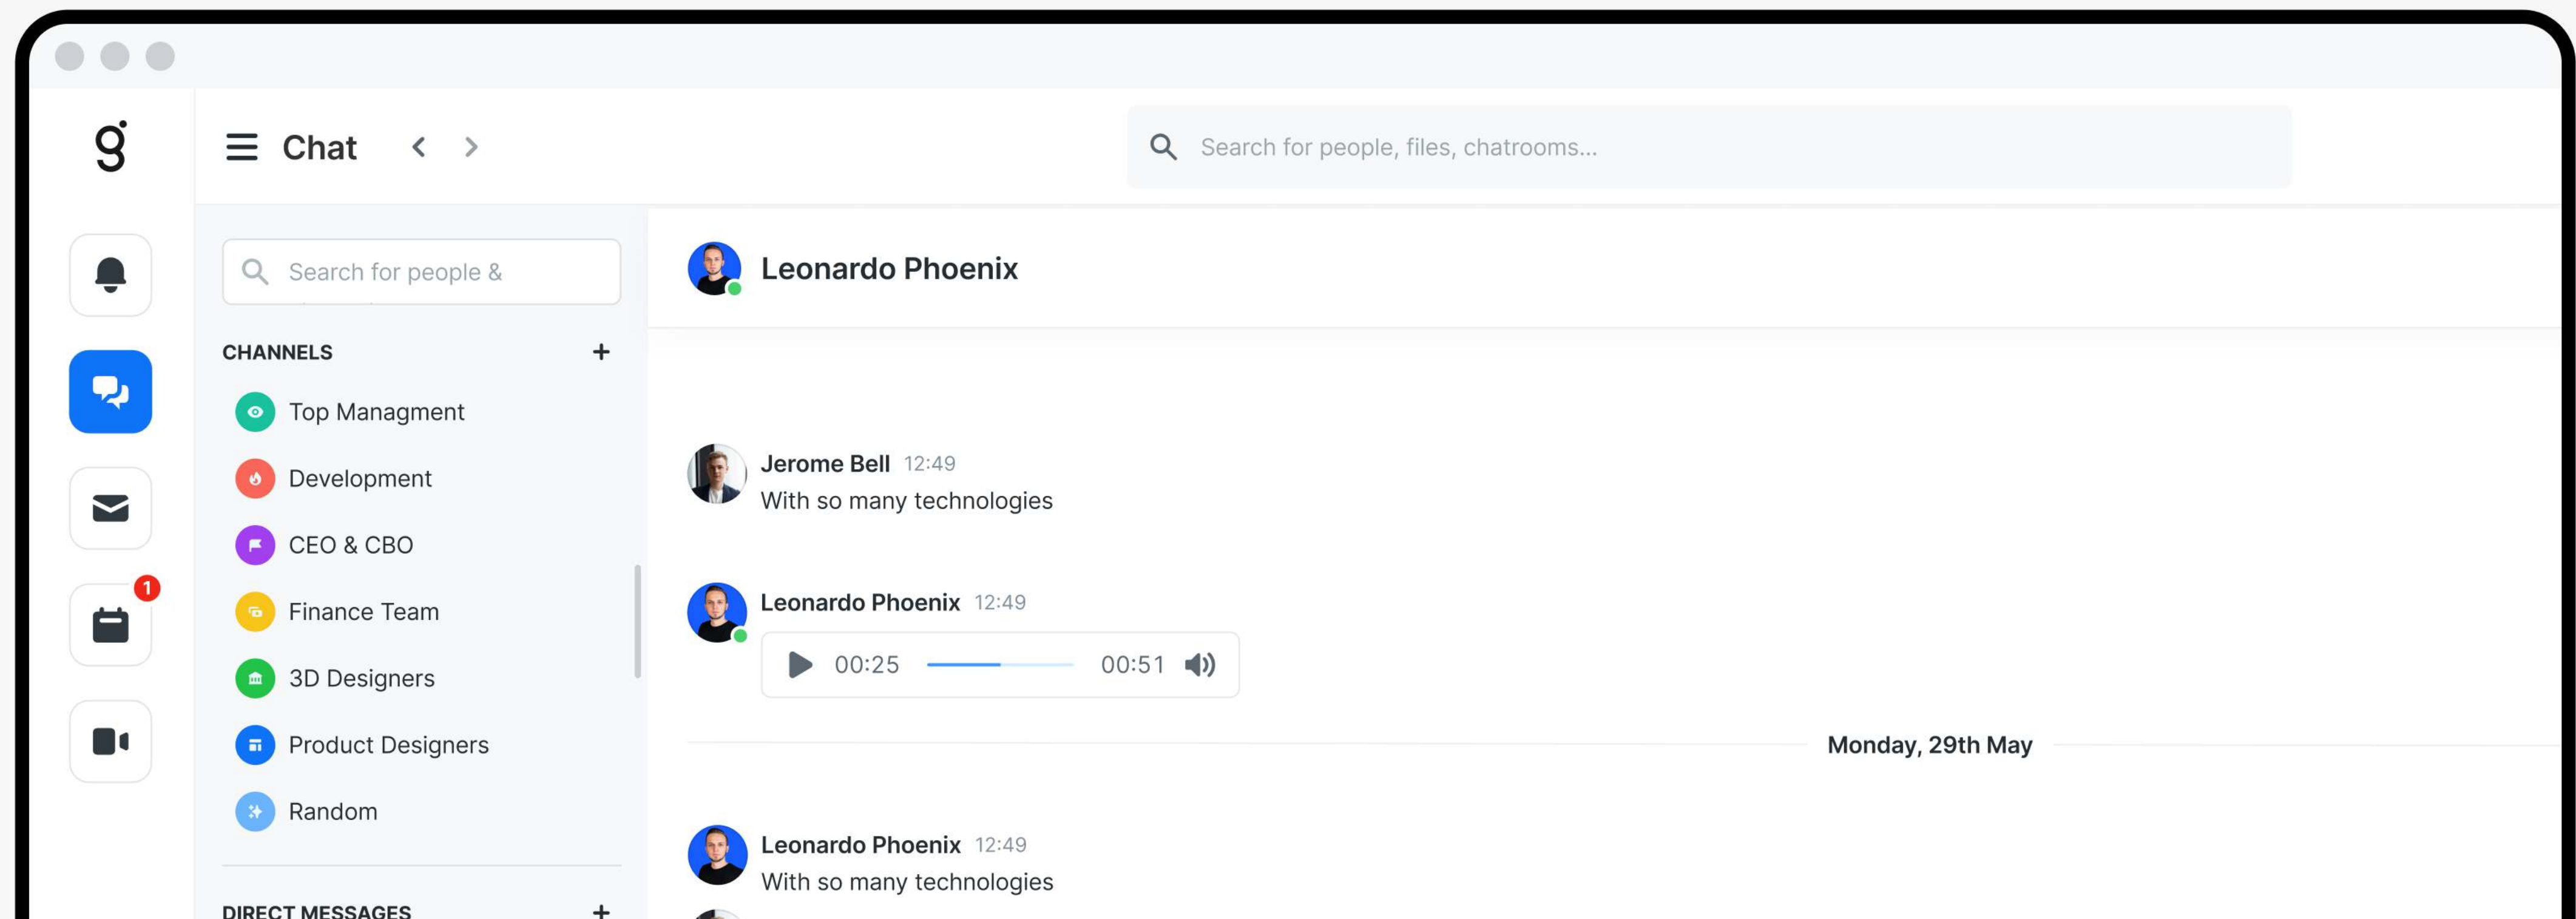

Far far away, behind the word mountains, far from the countries Vokalia and Consonantia, there live the blind texts. Separated they live in Bookmarksgrove right at the coast of the Semantics, a large language ocean.

A small river named Duden flows by their place and supplies it with the necessary regalia. It is a paradisiatic country, in which roasted parts of sentences fly into your mouth. Even the all-powerful Pointing has no control about the blind texts it is an almost unorthographic life One day however a small line of blind text by the name.

Golixxo is an all-in-one software based in Frankfurt, Germany. It is designed to provide users with a comprehensive suite of tools that can help them manage their daily tasks and activities. The app features an email, messaging, calendar, and meeting tools, all in one place. With Golixxo, users can easily stay organized and on top of their communications, appointments, and meetings, without having to switch between multiple apps and platforms.

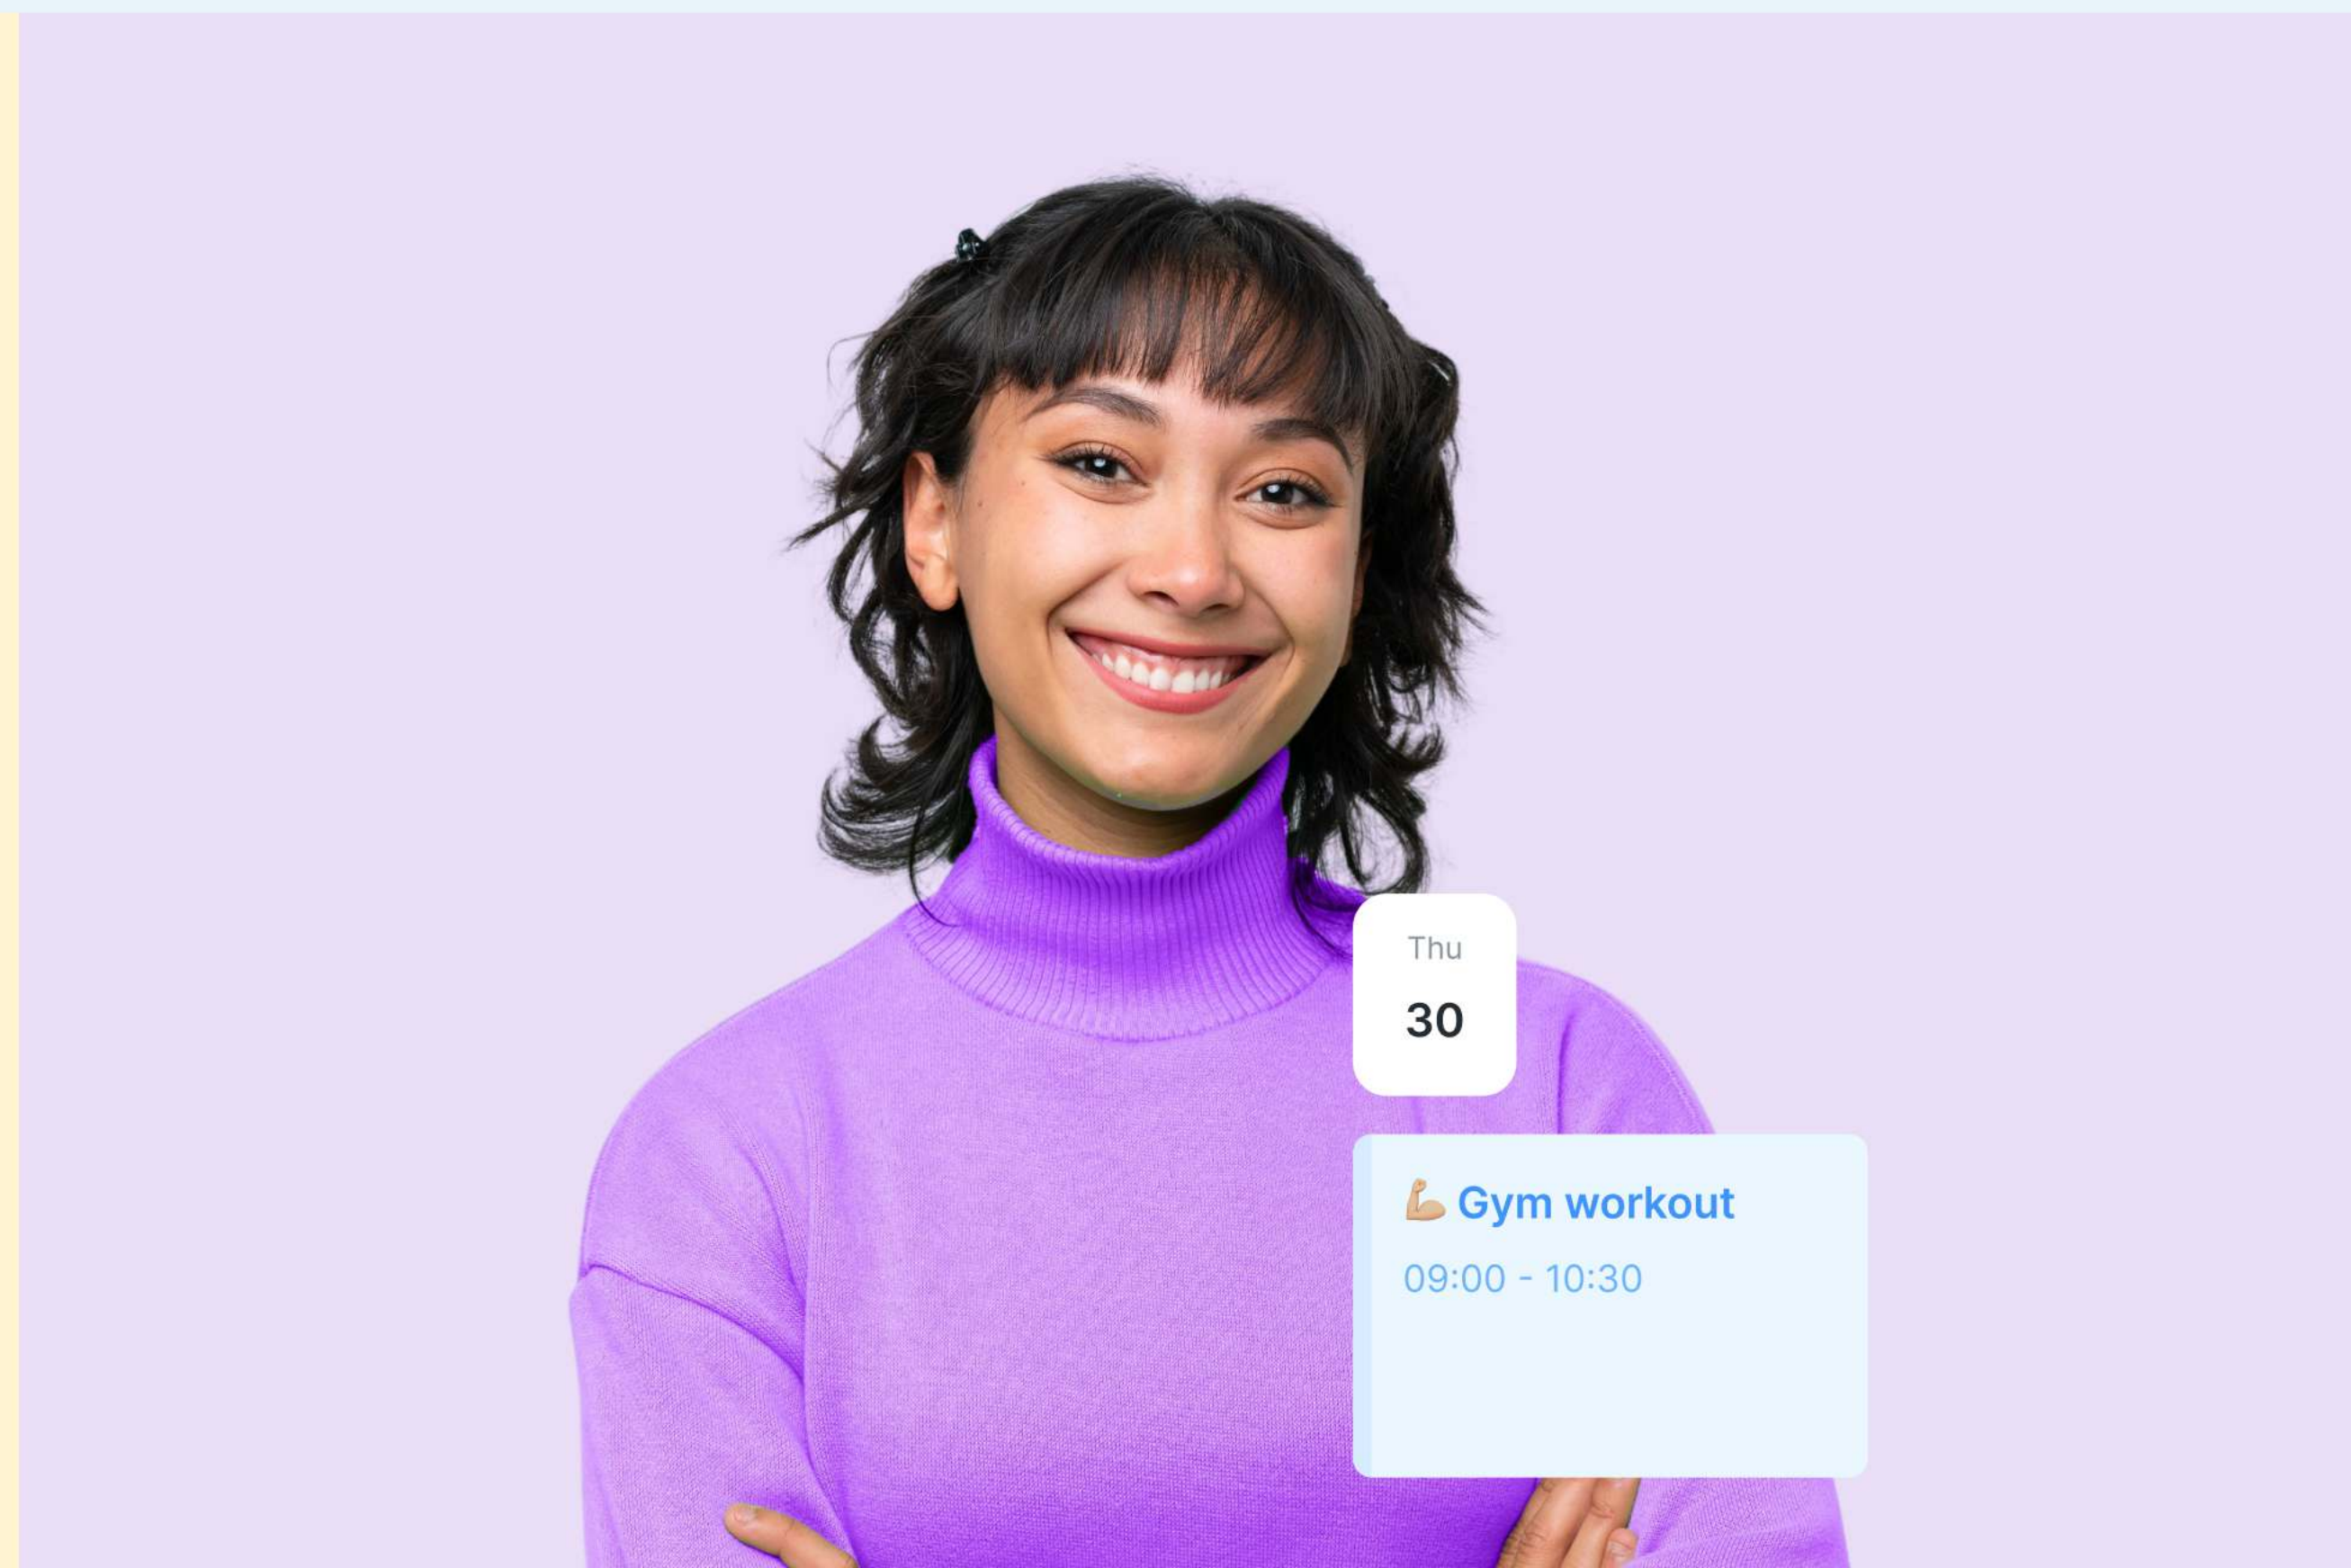

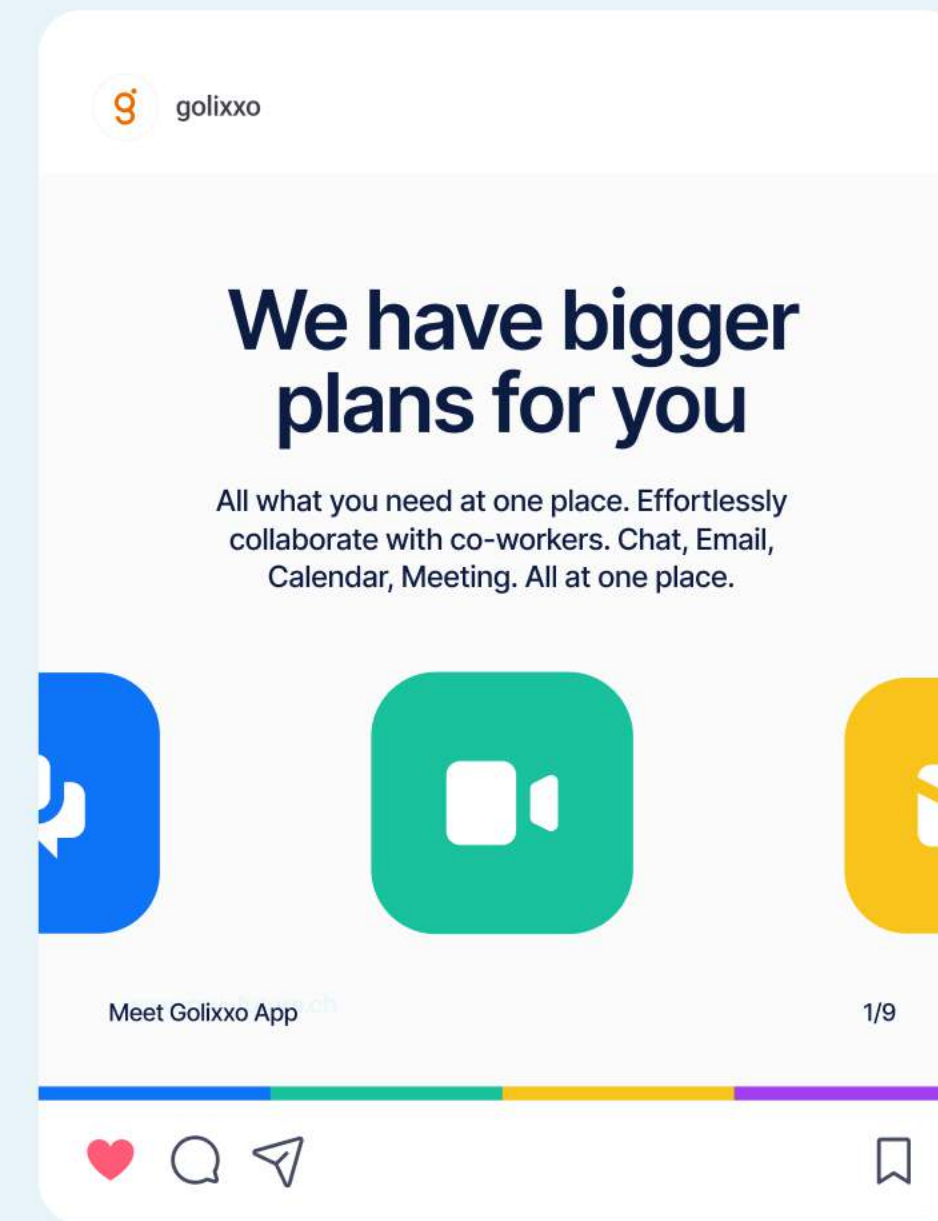

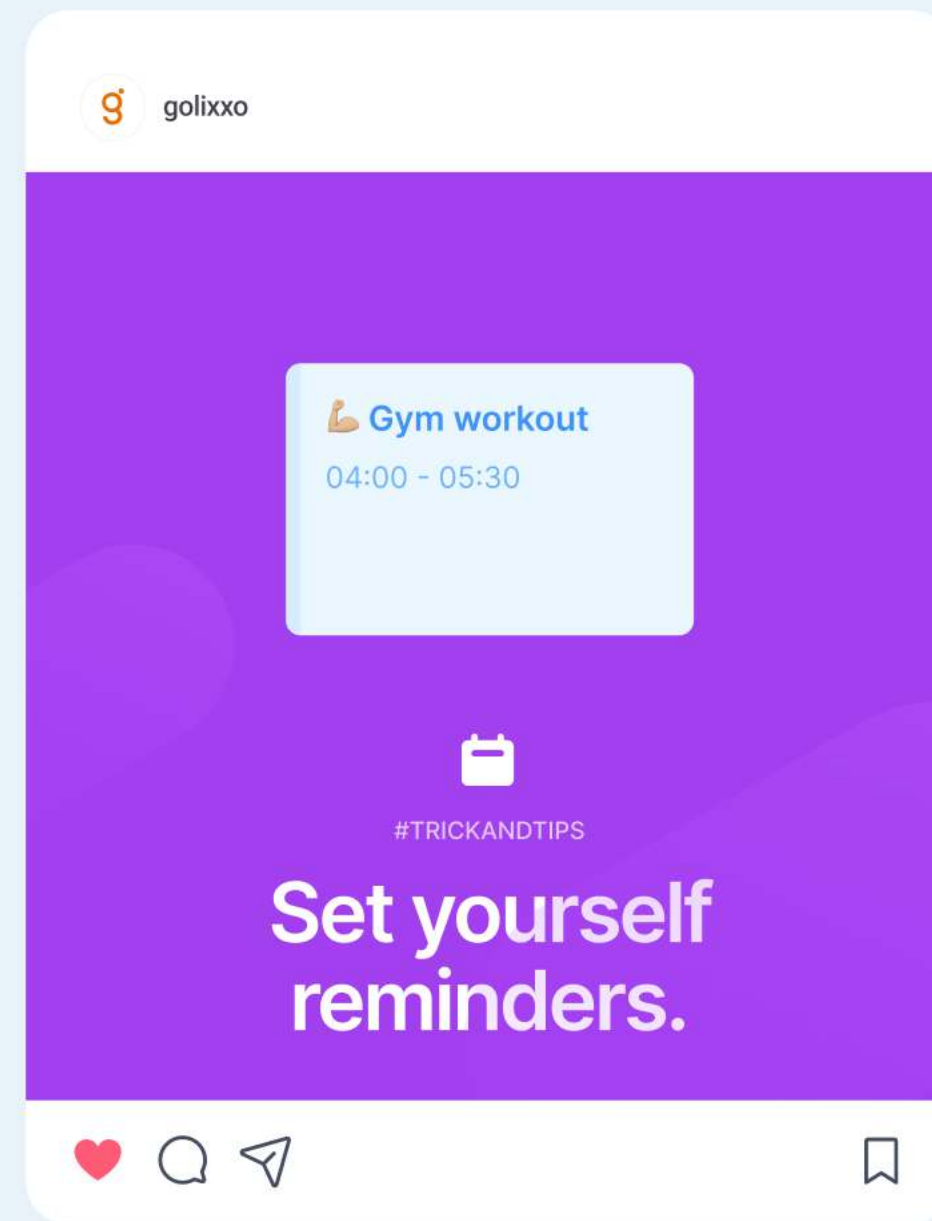

Golixxo is an time-saving tool for professionals, it allows you to access all your essential tools for communication, scheduling, and organization in one place, eliminating the need to switch between multiple apps and platforms, saving you valuable time and energy.

Our mission

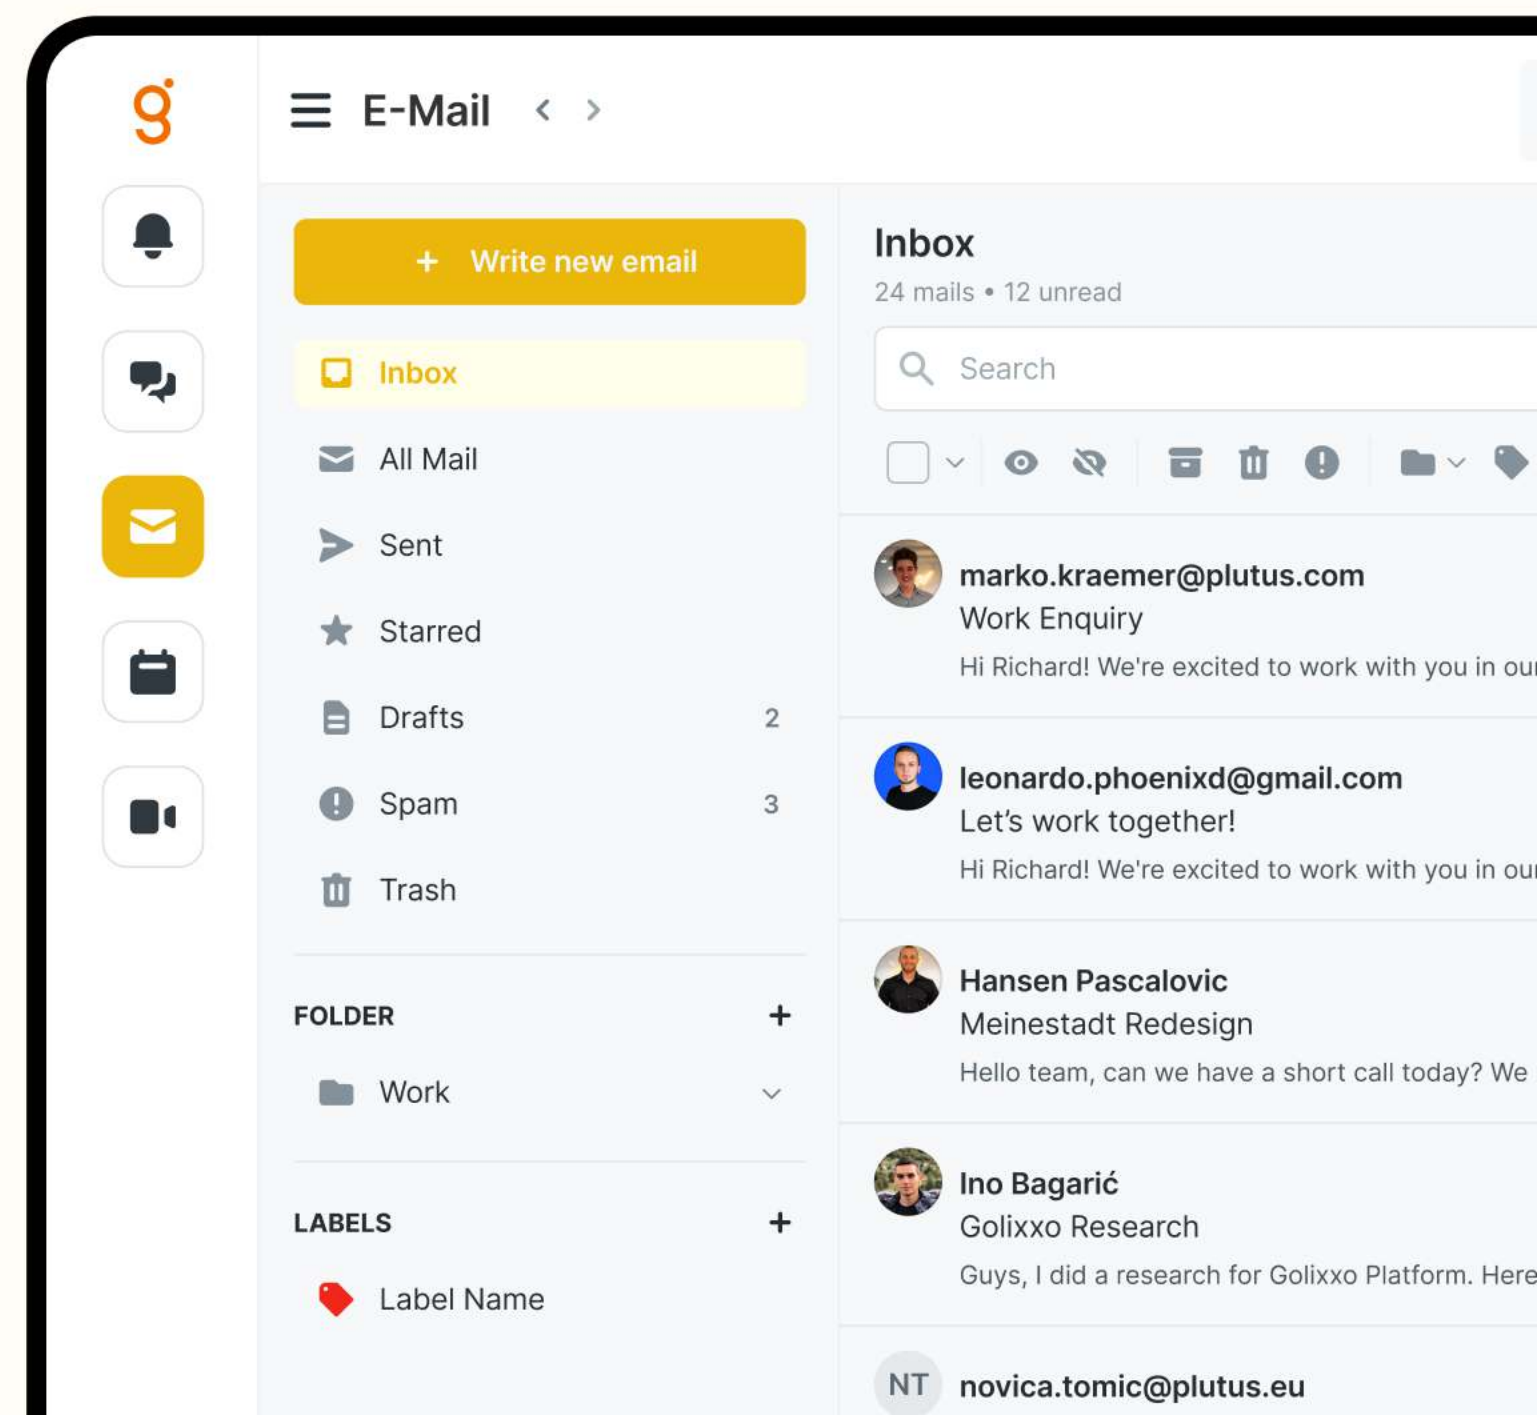

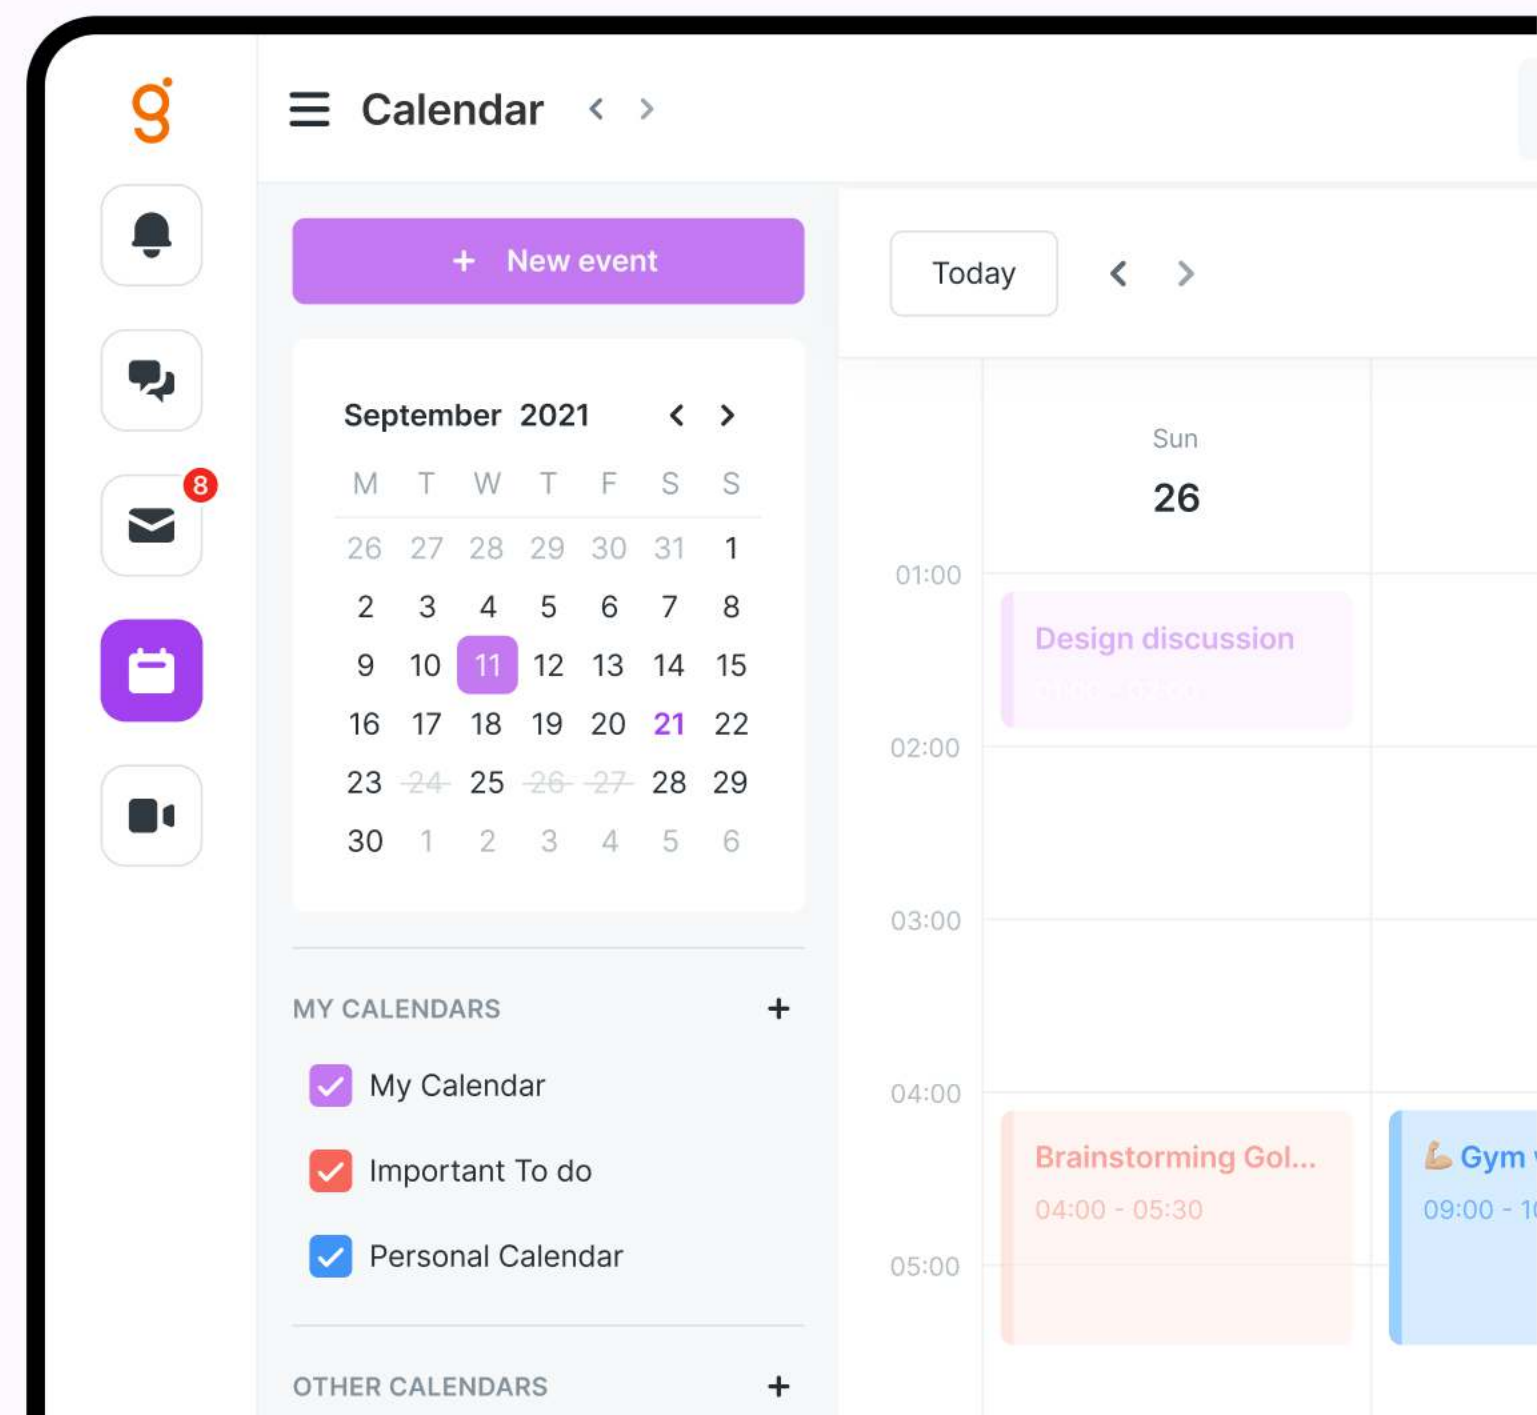

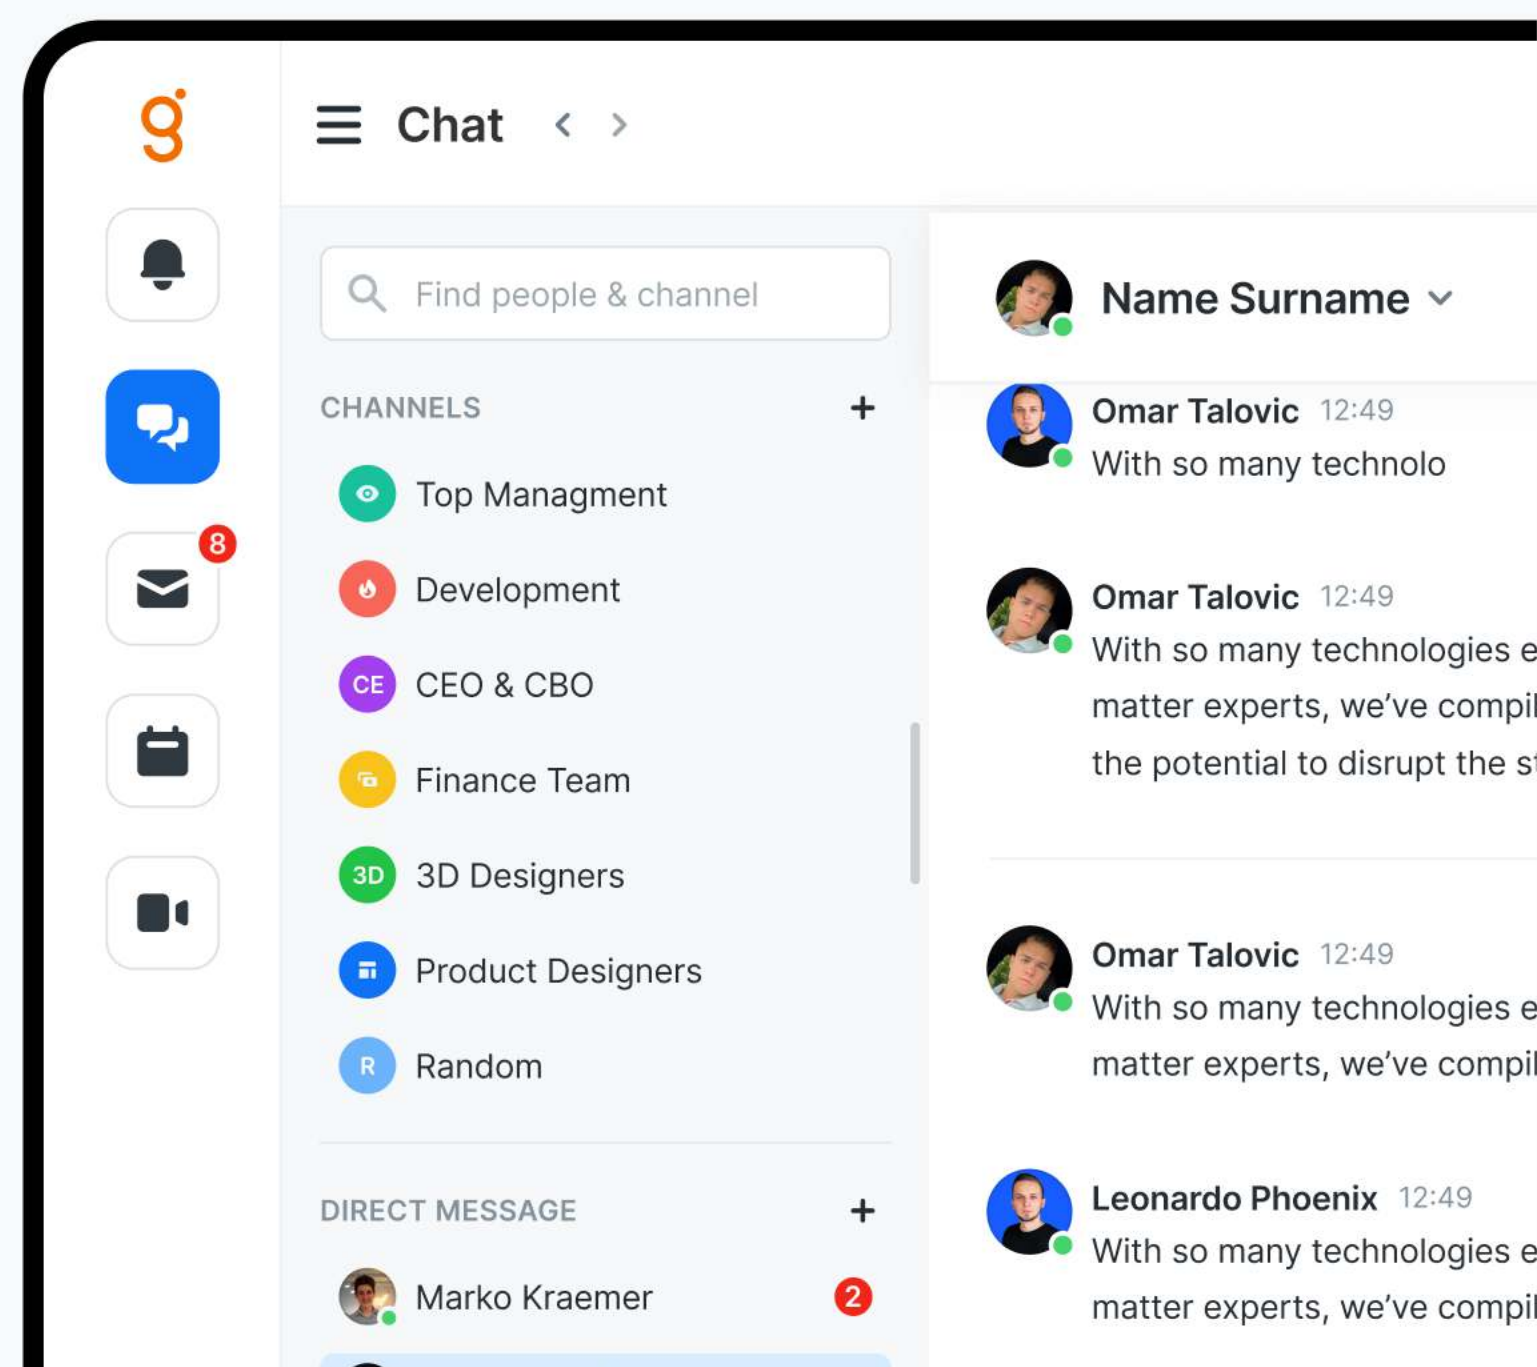

Our mission at Golixxo is to revolutionize the software industry by creating a brand identity, user experience and interface that is both memorable and intuitive. Our team is dedicated to understanding the needs and pain points of our target users, and using that knowledge to design a product that stands out among its competitors.

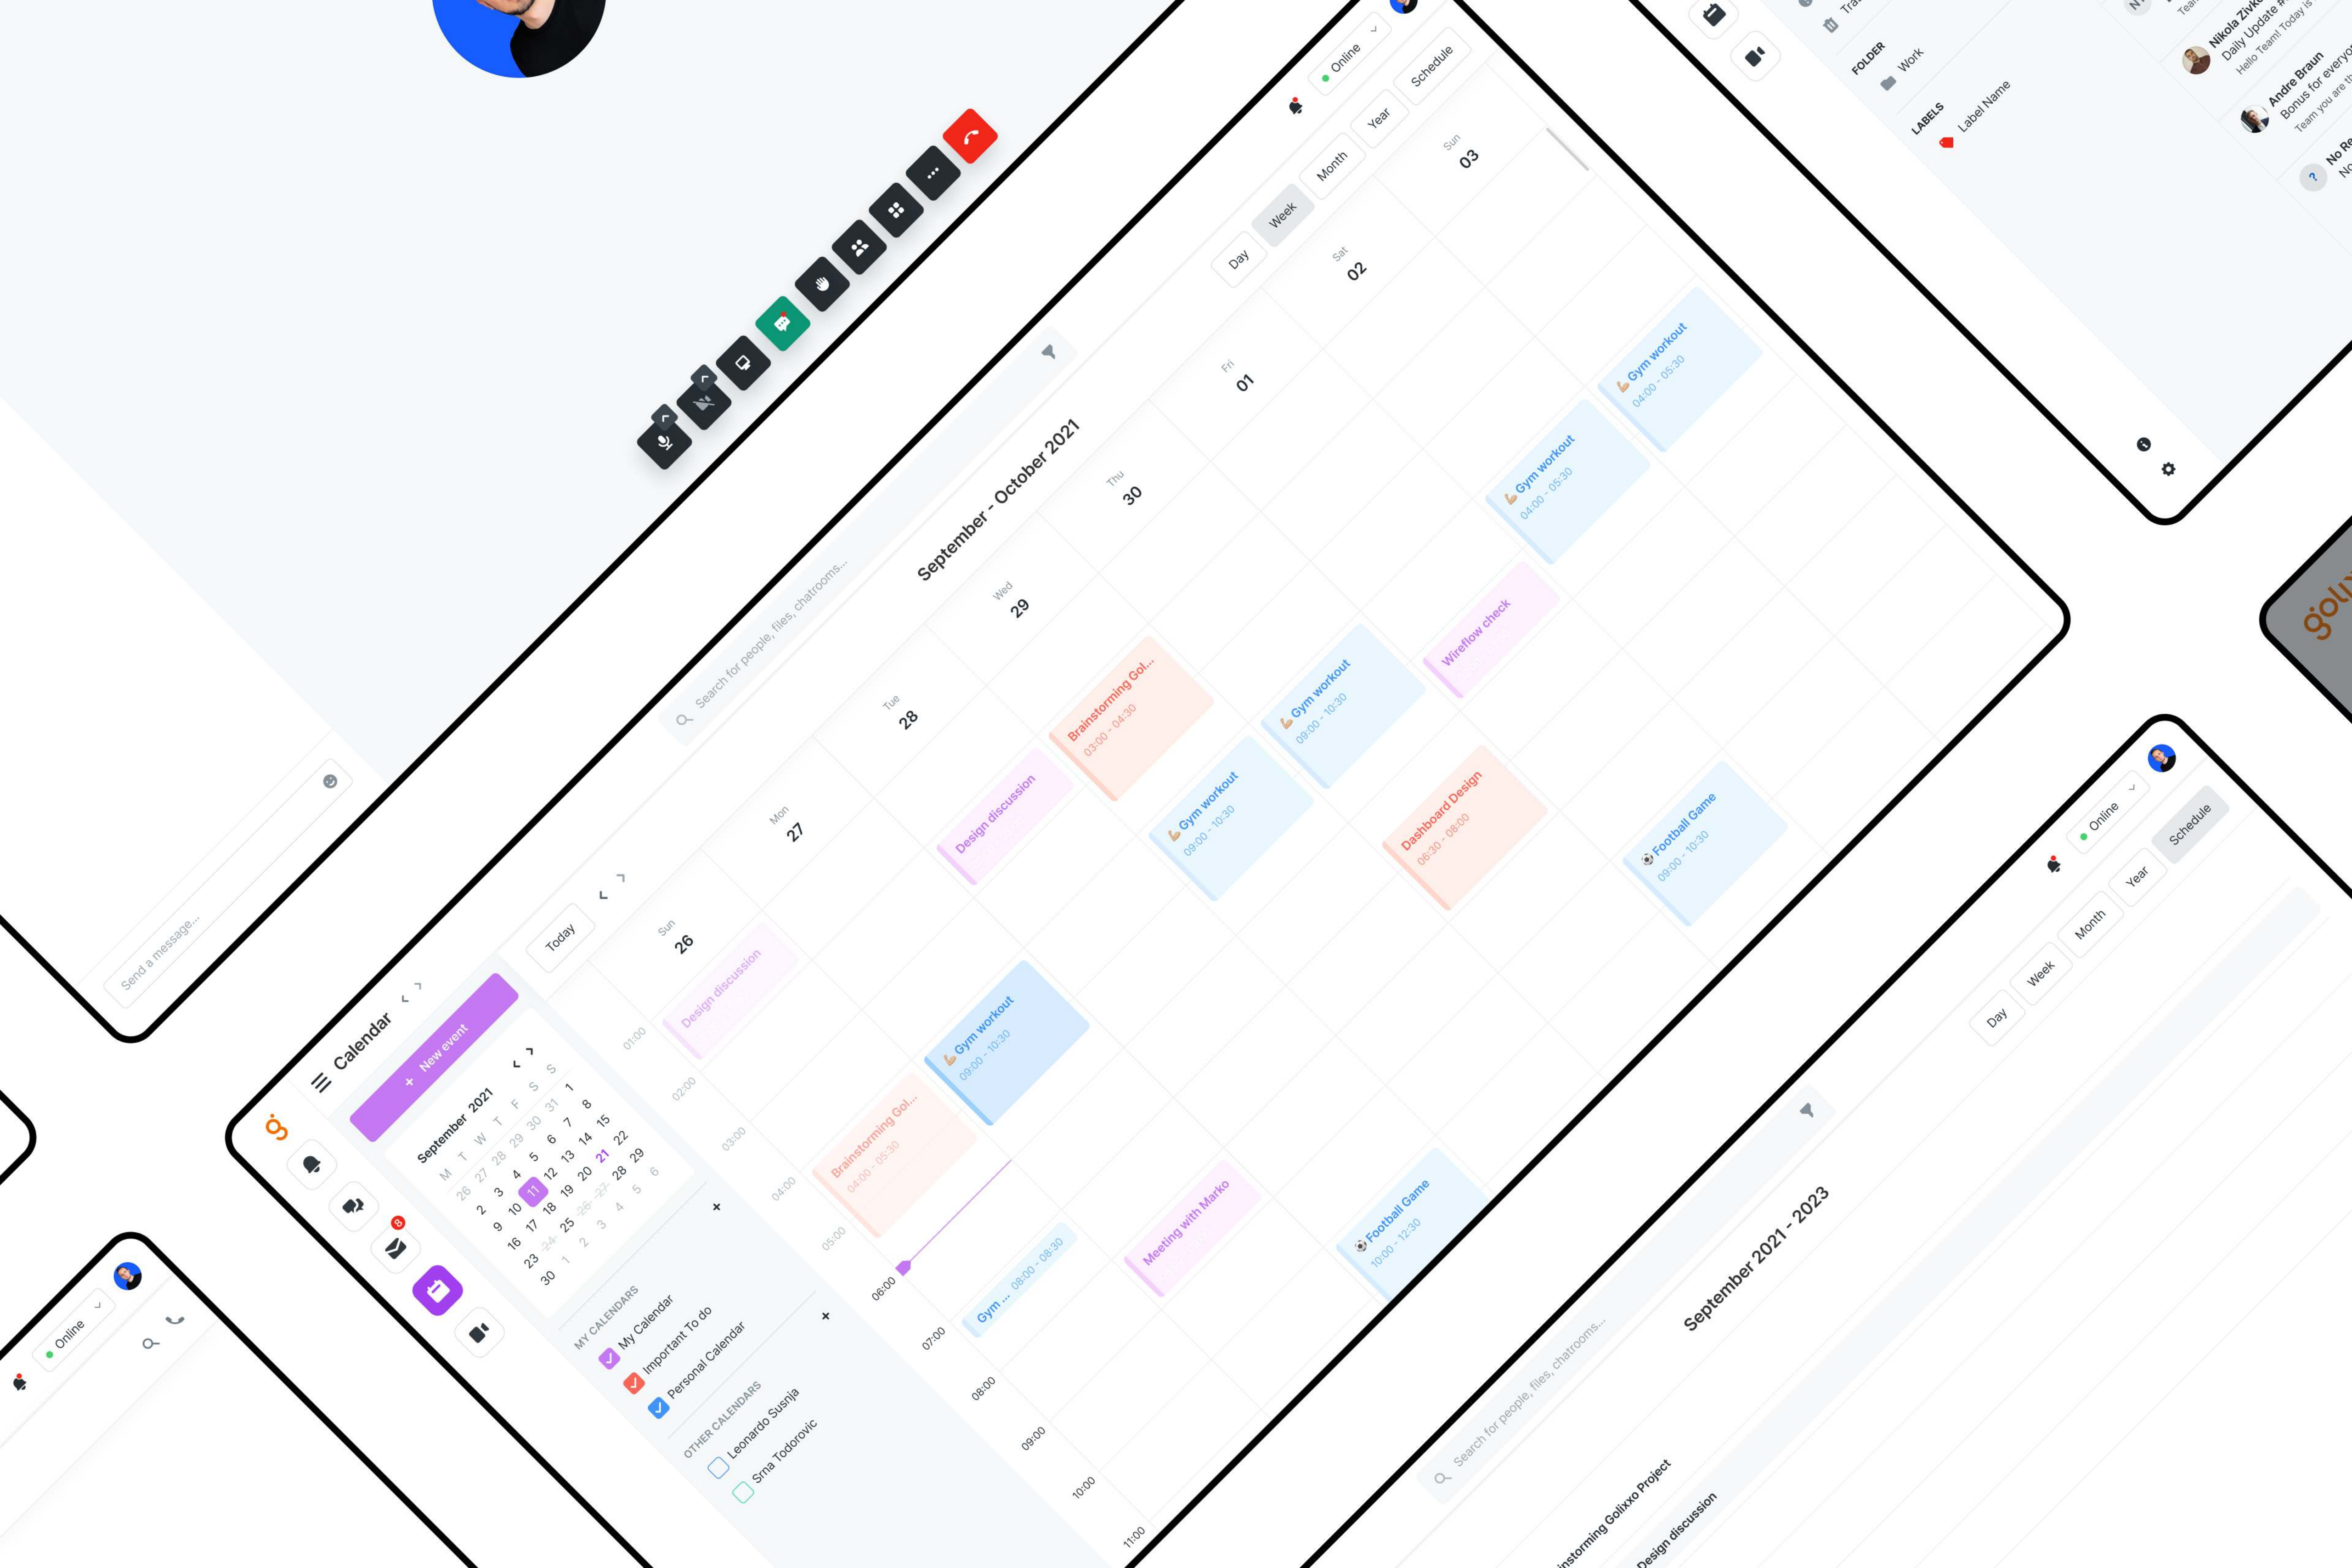

We began by conducting in-depth market research to gain a thorough understanding of the software market and our users. From this research, we developed a brand identity that effectively communicates our unique value proposition and differentiates us from other

Espira®

Cannabinoid therapy at a glance

The primary possible effect of THC

analgesic, muscle relaxant, appetite stimulant, antiemetic, sedative/

- The cannabinoids THC and CBD from medical cannabis can help relieve your chronic pain.
- They affect what is happening in your body and block the transmission of pain impulses.
- Unlike many conventional medicines, medical cannabis is often particularly low in side effects after the familiarization phase.

Treating chronic pain with medicinal cannabis

The patient suffers from chronic pain and previous medications could not provide any relief? We support your patient with our range of cannabinoid therapies.

Espira ® is an importer and distributor of high quality medical cannabis products.

Espira is the optimal solution for the global cannabis market. It has exclusive collaborations with reliable organic producers and is perfectly positioned to meet the challenges of the dynamics and explosive growth of the cannabis industry.

At Espira, they work closely with a carefully selected group of producers who adhere to their strict internal standards as well as EU GMP certifications to ensure the highest possible quality.

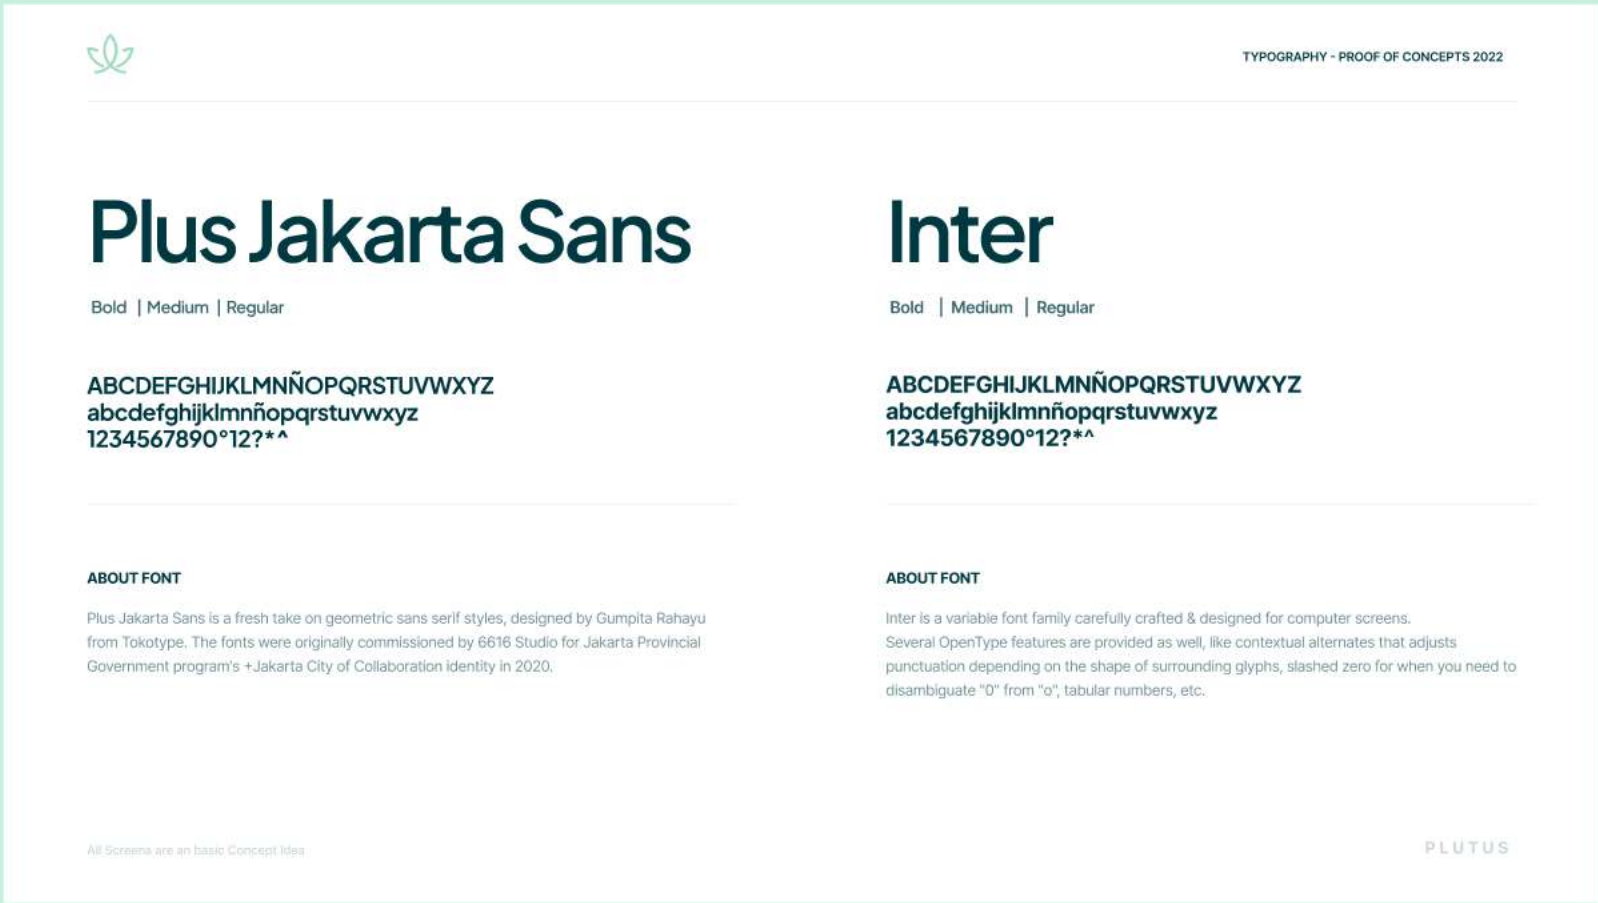

Our mission

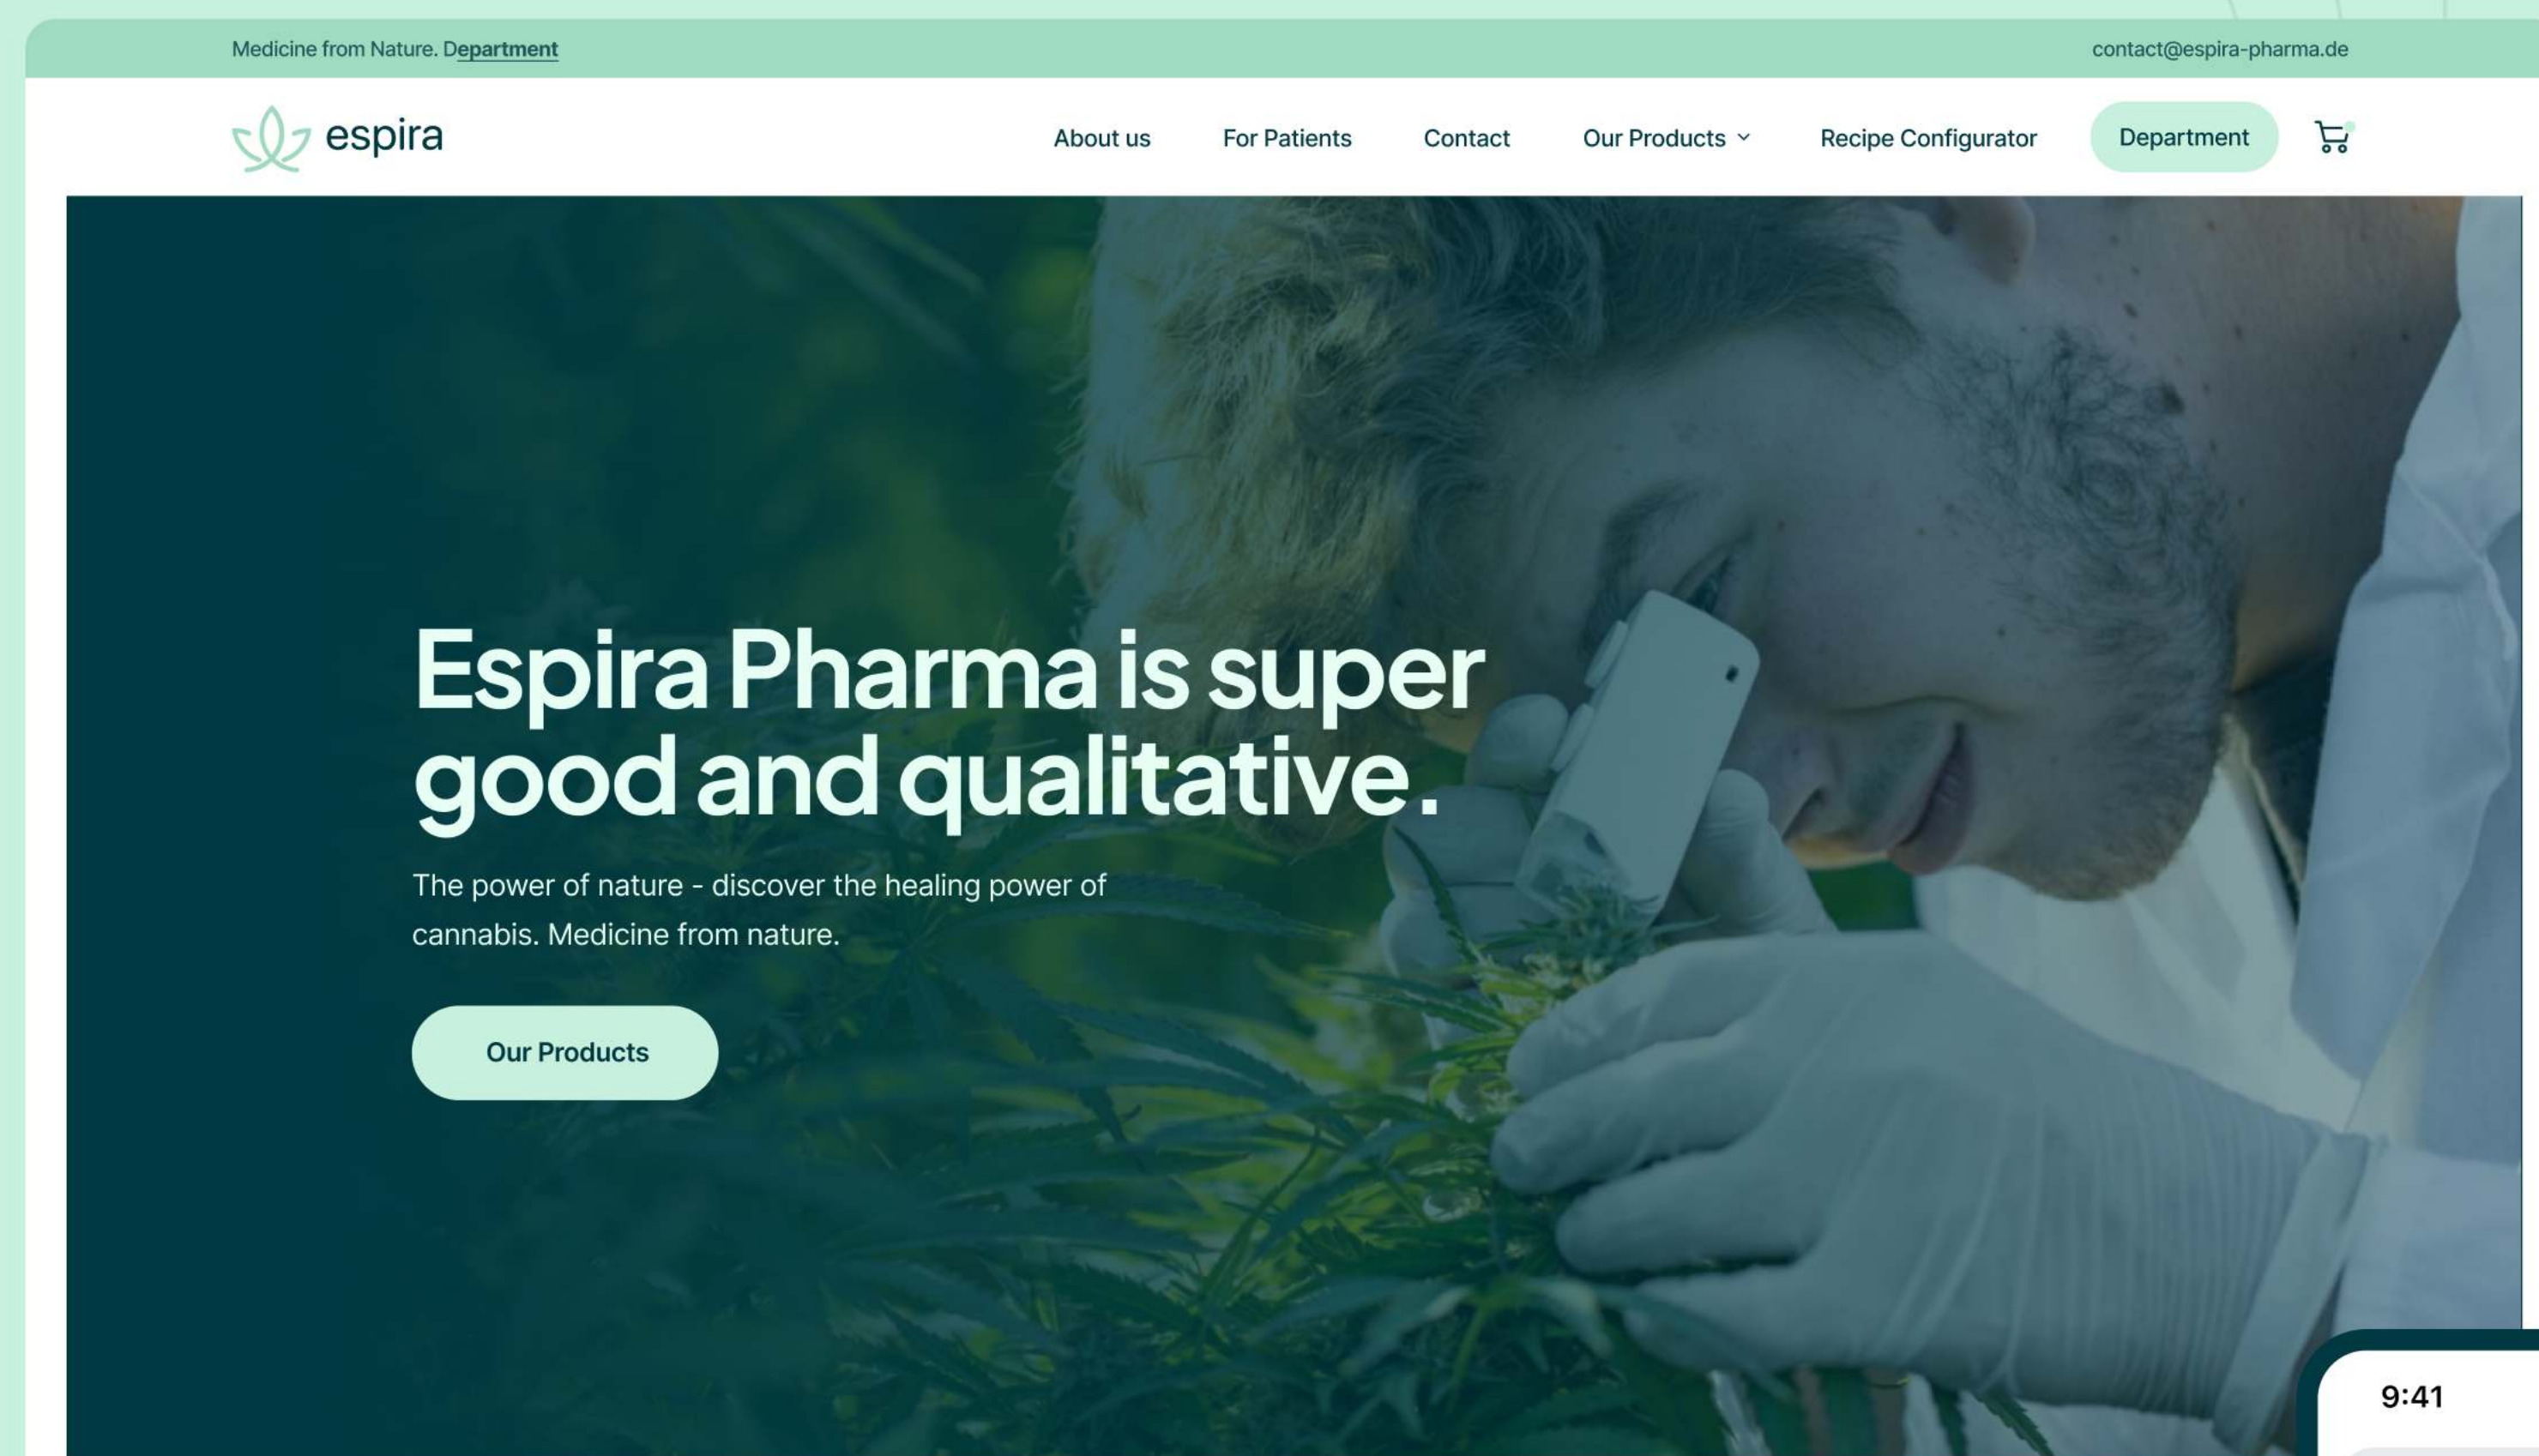

Our design process began with extensive research and analysis of the cannabis market, as well as Espira's target audience and competitors. Based on this information, we developed a brand positioning and messaging strategy that clearly communicated Espira's commitment to quality and sustainability.

We identified a bold green and gold color palette and developed a visual language specifically designed to help Espira stand out in the crowded cannabis market, aid in visual recall, and increase brand awareness. We also created a sleek and modern visual identity, including a logo, typography, and imagery that aligned with Espira's brand identity.

To ensure that the website was easy to use and visually appealing across all devices, we provided user experience (UX) and user interface (UI) design services. This included creating wireframes and prototypes, designing high-fidelity mockups, and conducting user testing to gather feedback and make any necessary adjustments.

Juice Plus+ presents in cooperation with Detlef D! Soost an ultimate 16-week program that brings you closer to your goal of a more conscious, fitter, and healthier lifestyle.

Now! By Juice+ is a web platform with a focus on nutrition, sport, motivation & mindset content. With the mobile web version of the platform, you can train flexibly anytime and anywhere. Always keep an eye on your goals and achieve your best form in just 16 weeks.

Our mission

Devolfs was responsible for the design of the web and mobile platform, which was designed to be user-friendly and easy to navigate. The platform included a variety of features such as a habit tracking feature, which allowed users to track their daily habits such as drinking enough water, taking Juice Plus+ pills, eating healthy, and other habits that can lead to a healthier lifestyle. This feature was designed to help users establish good habits and stick to them, making it easier to achieve their goals.

The mobile web version of the platform was particularly important as it allowed users to access and track their progress anytime, anywhere, making it easy to stay on track and achieve their best form in just 16 weeks.

Overall, the NOW! by Juice Plus+ program was a great success and helped many users to establish healthy habits and improve their overall health and well-being. The habit tracking feature played a crucial role in helping users to achieve their goals by providing them with the tools and resources they needed to establish and maintain good habits.

WHAT OUR CLIENTS SAY

“Devolfs cared about the success of the project **as much as we did**. Throughout the process the Devolfs team showed themselves as true professionals.”

Jacob Øen
Founder & COO, Blue Rhythm

“Devolfs was a key partner for our end-of-the-year campaign and helped us design a page in record time, resulting in an honorable mention on Awwwards and incredible brand recognition of Flow Ninja.”

Uros Mikic
Founder & CEO, Flow.Ninja

“They were able to take our vision for an app for women entrepreneurs and turn it into a reality. Attention to detail **made our website not only visually stunning but also highly functional.**”

Maja Miljevic
Founder & CEO, Hexagon Startup Design

“**We wouldn’t have such great product quality and design if it weren’t for them.** Our customers and we are always satisfied at the end, and Devolfs always delivers excellent results.”

Marko Kraemer
Founder & CEO, Visia.Digital
