PRODUCT DESCRIPTION

Neutralizer For Floor & Carpet from Arrow is a concentrated advanced floor neutralizer designed to remove alkaline residue from resilient tile and other floor surfaces after stripping. Virtually odorless, Arrow's Neutralizer For Floor & Carpet easily removes ice melt/rock salt residue from floors and carpets. Apply it to quarry tile floors to help restore the slip resistance.

DIRECTIONS

See full label for complete directions.

TO NEUTRALIZE ALKALI RESIDUE, ICE MELT & ROCK SALT: Dilute 2 - 4 oz. per gallon of water as a rinse aid to neutralize alkaline residue from cleaning solutions, ice melt and rock salt residue.

TO REMOVE BROWNING, YELLOWING, COFFEE & TEA STAINS: Add 4 - 6 oz. per gallon of water. Dispense through a portable or truck mount extractor or prespray entire carpet. Extract as much of the solution out of the carpet and allow to dry. If yellowing stains are still present after first application, repeat the procedure or spray and rinse with a bonnet pad.

TO STABILIZE DYES: Add 4 oz. per gallon of water and apply through an extractor or sprayer. Rinse carpet with water. Carpet can also be sprayed with a pump sprayer and rinsed with a bonnet pad.

RESILIENT TILE & CONCRETE FLOORS: Add 2 - 4oz. per gallon of water. Apply with a mop & bucket or autoscrubber to floor surfaces. Rinse with water. Change solution frequently for optimum results.

PACKAGING

4/1 Gallon Case

SPECIFICATIONS

Physical State: Liquid

Color: Clear

Odor: Mild Acid

pH: 1.5 - 2.5

Specific Gravity: 1.1

IDEAL FOR

Resilient Tile • Concrete • Carpets

Product Code: 314
