FADE IN:

INT. KIDS BEDROOM - DAY

EWAN, 10, scrawny with bad skin, sits at his bright red desk covered in lurid comics, Lego and empty snack packets.

He taps away on his tablet, solely intent on the screen.

INSERT: Tablet screen
List of kissing practice videos on YouTube.
He clicks on one.

BACK TO SCENE

Ewan watches the video, a couple embrace, kiss passionately.

EWAN
Knew it.

He turns to his bed.

EWAN
See, I was right, tongues.

CASSIE, slightly younger, lies on the bed staring back at him dispassionately.

EWAN
Want to try again? Now you know how.

Cassie stares into space, no answer.

EWAN
Take that as a yes then.

He moves to the bed, sidles up next to Cassie.

EWAN
C'mon Sis, Mum said it's better if we learn things together.

No answer from Cassie's cold blue lips, the iPad charging cable still too tightly wrapped around her neck.

Ewan leans in, eager for another kiss.

FADE OUT.
