

Collection

Combining interior design with a beautiful wine cabinet

- ▶ **25 colour combinations** possible.
- ▶ **3 capacities** from 74 to 223 bottles.
- ▶ **4 different functions** to choose from, to suit your requirements.

EUROCAVE 

A new range of cabinets where **aesthetic appeal** ...

The Collection range is ready to furnish your living rooms with its fabulous colours: our new range has been specifically designed to fit in perfectly in your living areas and showcase your most impressive bottles

... and is at the heart of every detail.

Clean, curved lines

The body of every cabinet in the range is covered with decorative panels with a warm, stylish design.

A marriage of **modern** colours and **elegant** wood.

Three colour finishes: cotton white, textured black and satin red can be combined with two wood finishes: light wood and wenge.

Designer doors

Doors with a “Full Glass” or “Black Piano” finish for a very elegant look.

Subtle lighting

Gentle, amber UV-free lighting surrounds your bottles, beautifully showcasing your labels.

... meets **cutting-edge** **technology.**

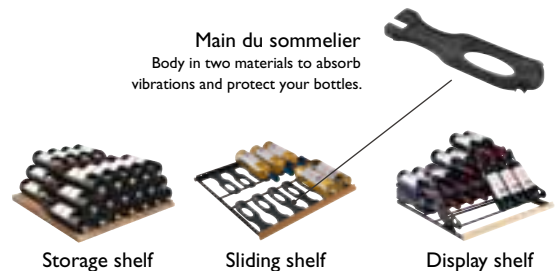

Three **capacities**

Collection wine cabinets are available in 3 body sizes. They can contain from 74 to 223 bottles depending on the interior layout of your cabinet.

Adaptable interior **layout**

Numerous types of equipment and layouts are possible.

Four temperature **control systems**

— 1-temperature cabinets for maturing wine

— 2-temperature cabinets for storing and chilling wine

— 3-temperature cabinets for storing, chilling and bringing wine to the correct serving temperature

— Multi-temperature cabinets for serving wine

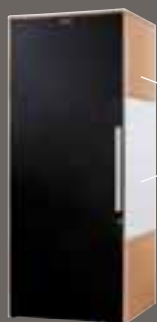

5 x 5 = 25
