

Naishare Technology is a website development company that specializes in building corporate websites for Businesses Worldwide.

## WHAT WE NEED FROM YOU

- **Content:** we will need information about your company like – Brief History about your company, Services you render, Contact Information, Images (optional), and any other information you would like to see on your website.
- **Template:** If you have a website in mind that you want your website to look like, you can recommend it or we can just wow you. Recommended website with heavy animated UI/UX Design will attract more charges.
- **Deposit:** We require a **50%** minimum deposit payment to begin the website and upon completion the other **50%** is to be paid before hosting.
